

**INDONESIA
STATEMENTS AT PLENARY MEETINGS
13 – 14 JULY 2021**

Date: Tuesday, 13 July 2021 (9-11 a.m.)

Agenda item 5: Programme and budgets, 2022-2023

Indonesia encourages UNIDO to add new program work with the new focus on digital transformation and innovation and still hold to the main area of climate change, pollution reduction, gender equality etc. We applaud UNIDO's commitment to speed up the industrial growth by taking into account the current situation and the need of the world's industry.

The linkage and intersection between environment and industry is very important for Indonesia. Indonesia call for UNIDO to increase engagement to optimize the existing partnership and cooperation at the multilateral, regional, and bilateral settings in the programme of work. In order to help developing countries and LDCs to have better policy and strategy in this area.
