Global Manufacturing Production
December 2022

Global Manufacturing

Global index of manufacturing production

Year-over-year growth rate of global production, a stagnation after 27 months of inter-annual growth.

Regional Performance

Year-over-year growth rate by region

China achieved the best regional performance with a 1.4% expansion, while manufacturing production fell in two regions.

Sectoral Trends

Global index of manufacturing production, industries by technology level

Higher-technology industries are the only sectoral group still expanding.

Medium-high and high tech: 2.4%
Low tech: -2.1%

Manufacturing of electrical equipment experienced a robust growth of 8.5%, stimulated by the rapid pace of innovations in digital technologies and consistent demand for newer and faster electronics.

Note: This report is based on seasonally-adjusted series of official indices of industrial production (IIPs). Data used to create the infographic can be downloaded in this link while the full database of monthly IIPs can be accessed through the UNIDO Data Portal. Methodological details can be found in this document. For additional information, contact UNIDO Statistics.
