

# World Manufacturing Production

## July 2024

### Global manufacturing

Global index of manufacturing production

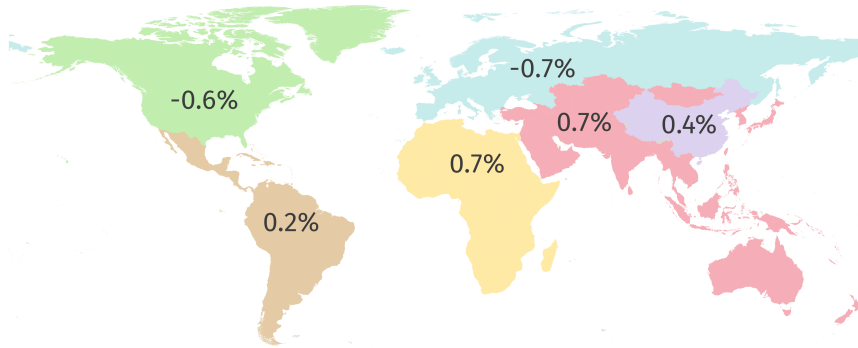

In July 2024, global manufacturing only grew by a marginal **0.1%** compared to June 2024.

### Regional performance

Month-over-month growth rate of manufacturing production by region

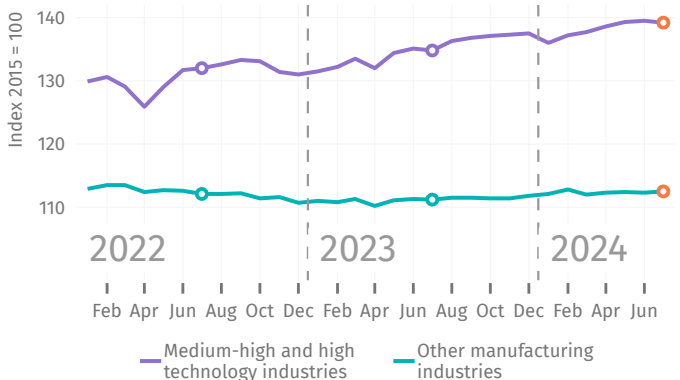

Output in **Europe** and **Northern America** decreased in monthly comparison. Production levels of major economies in these regions, such as France, Germany, Italy and the United States of America, decreased.

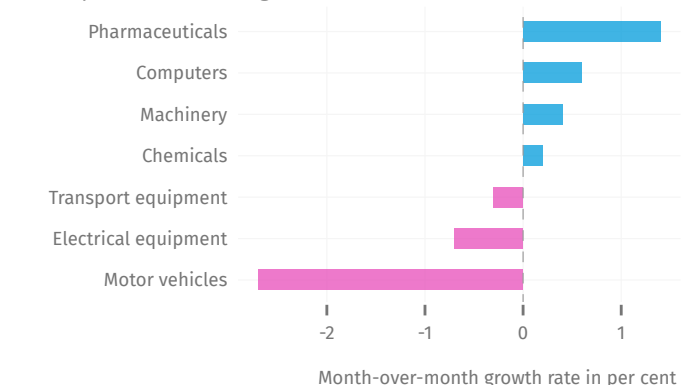

### Sectoral trends

Global index of manufacturing production by technology level

Global performance of higher-tech industries

July 2024 recorded a contraction of higher-tech industries, after several months of uninterrupted growth:  
**Medium-high and high tech: -0.2%**  
**Other manufacturing industries: 0.2%**

There was not a common trend among higher-tech industries. Among these sectors, **pharmaceuticals** led the ranking, while **motor vehicles** suffered the biggest loss.

Note: This report is based on seasonally-adjusted series of official indices of industrial production (IIPs). Data used to create the infographic can be downloaded in [this link](#) while the full [database of monthly IIPs](#) can be accessed through the [UNIDO Statistics Portal](#).
