

# **World Manufacturing Production**

August 2024

# Global manufacturing

Global index of manufacturing production

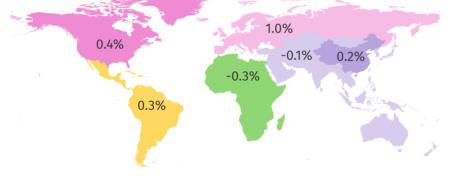

Global manufacturing picked up slightly in August 2024, reaching a monthly growth rate of

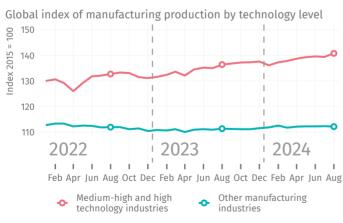

### Regional performance

Month-over-month growth rate of manufacturing production by region

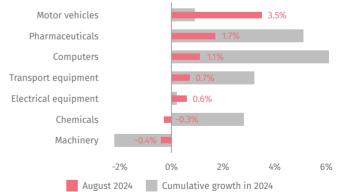

Output in **Europe** saw the largest increase in monthly comparison among all regions, mostly due to a positive result in Germany and the United Kingdom.

# Sectoral trends

#### After a short interruption in July 2024, output of higher-tech industries regained momentum in August 2024:

Medium-high and high tech: 1.0% Other manufacturing industries: -0.2% Monthly and cumulative growth rates for higher-tech industries

**Motor vehicles** led monthly growth among higher-tech industries compared to July 2024, but lagged overall in 2024 due to earlier volatility. **Pharmaceuticals** and **computers**, by contrast, saw steady gains throughout the year.

Note: This report is based on seasonally-adjusted series of official indices of industrial production (IIPs). Data used to create the infographic can be downloaded in this link while the full database of monthly IIPs can be accessed through the UNIDO Statistics Portal. Methodological information can be found in this document. For additional details, contact UNIDO Statistics.
