We regret that some of the pages in the microfiche copy of this report may not be up to the proper legibility standards, even though the best possible copy was used for preparing the master fiche.

I. UNIDO which took the initiative of convening the Meeting on co-operation between Industrial Development Banks of both the industrialized and developing countries and the participants at this Meeting wished that it should be as informal as possible in order to insure an efficient co-operation between development banks on a concrete and specific basis to be directly discussed by them.

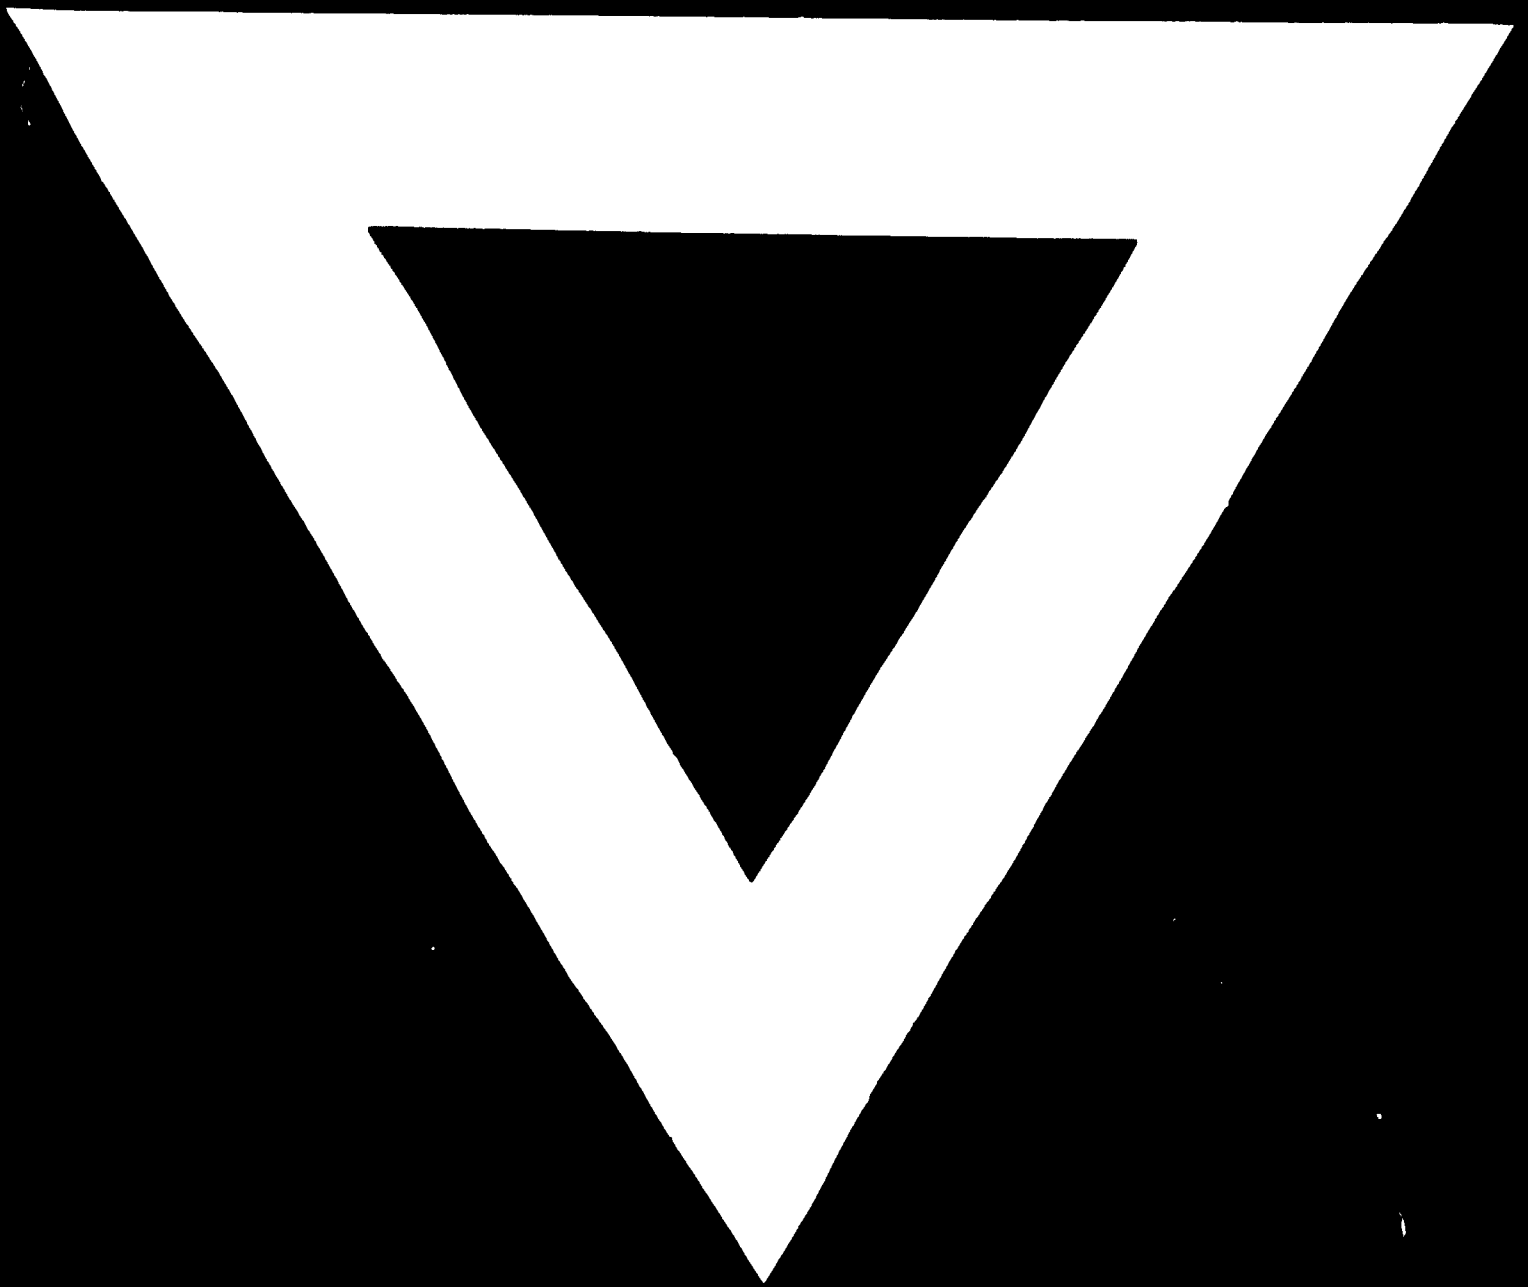

II. The deliberations showed the need to insure that this co-operation be continued on a more regular basis. There was an exchange of ideas on the subject and a number of suggestions were made. Among these, the convening of a second Meeting next year received general agreement. Participants appreciated particularly the individual contacts and they expressed the wish that for the next Meeting, more time be devoted to these contacts. They also called for wider participation at the next Meeting. To meet these requirements it was suggested that UNIDO, in collaboration with the World Bank be assisted in the preparation for the next Meeting by a number of participants designated in their personal capacity by the Meeting.

III. Further suggestions were made regarding the establishment of certain settings up or procedures in order to develop inter-bank co-operation in the exchange of information and experience. There was unanimous agreement as to the need to develop such co-operation but time did not permit the examination in detail of the suggestions made. The wish was therefore expressed that the same group as mentioned in paragraph II should study the matter more thoroughly and propose possible solutions for consideration during the next Meeting.

**IV.** The Meeting designated the following participants to help UNIDO to prepare the next Meeting:
