OCCASION

This publication has been made available to the public on the occasion of the 50th anniversary of the United Nations Industrial Development Organisation.

TOGETHER
for a sustainable future

DISCLAIMER

This document has been produced without formal United Nations editing. The designations employed and the presentation of the material in this document do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations Industrial Development Organization (UNIDO) concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries, or its economic system or degree of development. Designations such as "developed", "industrialized" and "developing" are intended for statistical convenience and do not necessarily express a judgment about the stage reached by a particular country or area in the development process. Mention of firm names or commercial products does not constitute an endorsement by UNIDO.

FAIR USE POLICY

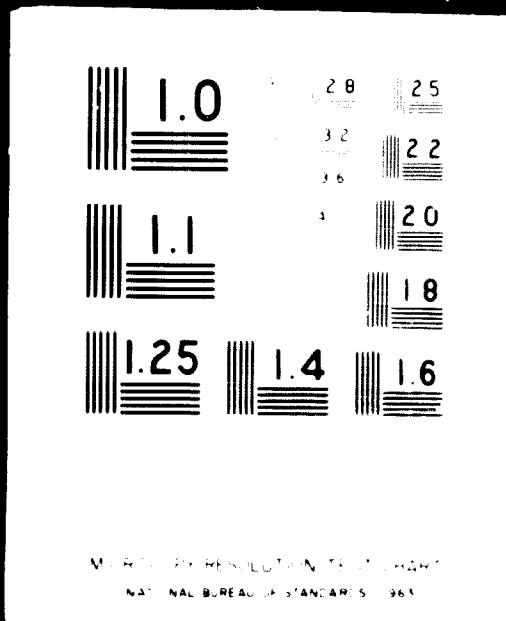

Any part of this publication may be quoted and referenced for educational and research purposes without additional permission from UNIDO. However, those who make use of quoting and referencing this publication are requested to follow the Fair Use Policy of giving due credit to UNIDO.

ORIGINAL: ENGLISH

Industrial Development Board

Second Session

Vienna, 17 April - 14 May 1968

REPORT OF THE
INTERNATIONAL SYMPOSIUM ON INDUSTRIAL DEVELOPMENT
held in Athens 29 November - 19 December 1967

ADDENDUM 1 PARTICIPANTS AND STAFF OF
THE INDUSTRIAL PROMOTION SERVICE

* Reissued for technical reasons.

We regret that some of the pages in the microfiche copy of this report may not be up to the proper legibility standards, even though the best possible copy was used for preparing the master fiche.

THE INDUSTRIAL PROMOTION SERVICE

1. Concurrently with the International Symposium, held in Athens in November and December 1967, UNIDO launched its Industrial Promotion Service (IPS), an operation bringing together potential industrial "suppliers" and "consumers" of external financial and technical assistance.
2. Through governments participating in the Symposium, UNIDO had invited as "special guests" the representatives of a wide range of public and private aid organizations and of financial, consulting and industrial production firms. The object was to bring together those who would be interested in participating in the Service as "suppliers" of technical, financial or other assistance and those who would be "consumers" of such assistance.
3. Over 500 persons registered with the Industrial Promotion Service in Athens. About 300 were representatives of some 245 supplier organizations from 19 countries; over 200 were "consumers" from some 60 countries.
4. The major types of services offered by the "supplier" organizations were feasibility studies, training, joint ventures involving financial and technical participation, financial assistance, and turn-key projects.
5. As each participant registered, he was interviewed by an IPS service officer. The service officer interviewed each "supplier" to determine the types of services he was interested in providing. In the case of "consumers" the service officers inquired what specific problems or projects they wished to discuss. Staff members then sought to match the "suppliers" with the "consumers" and to notify both of the suggested contacts.
6. It is too early to evaluate the definitive results of these contacts, for few arrangements for joint action between "supplier" and "consumer" organizations were actually finalized in Athens. UNIDO requests that participants keep the Industrial Promotion Service informed as to developments and send in to UNIDO Headquarters comments or suggestions they may have on the pilot operation in Athens and on further promotional activities.
7. The list of participants and staff of the IPS in Athens is presented on the following pages.

PARTICIPANTS AND STAFF OF
THE INDUSTRIAL PROMOTION SERVICE

Note: In general, representatives and subsidiaries of organizations and firms operating abroad have been listed under the country in which the main headquarters of the organization is located. An asterisk (*) against the name indicates a representative registered as an official participant or observer in the Symposium.
