Third Asian Meeting to Promote
Industrial Projects

Kuala Lumpur, Malaysia, 14-21 November 1973

Project Information Sheet

PROCESSING OF PALM OIL

COUNTRY	Malaysia
PROJECT	Processing of Palm Oil
FOREIGN CONTRIBUTION REQUIRED	Know-how Marketing Equity

IMPORTANT NOTICE

The basic purpose of this meeting is to provide an Exchange or Market Place for the initiation of contacts on specific industrial projects between their proponents from the Asian countries and potential suppliers of capital, finance, equipment or know-how, as the case may be, from the industrialized countries.

This Project Information Sheet has been prepared as a basis for such contacts. Its purpose is not to present detailed information about the project but to provide the recipient with an outline sufficient to determine tentative interest in principle. Any further available information on the project will be furnished on request to interested parties at the Meeting.

Experience has shown that industrialists frequently prefer to carry out their own further investigations in detail into projects in which they are interested, but assistance from UNIDO in these matters can be rendered to the Asian country concerned on request.

This Information Sheet contains only the information supplied to UNIDO by the proponent of the Project. UNIDO can therefore take no responsibility for its accuracy.

The Malaysian Government has an established policy of diversification in agricultural production, steering away from a single-crop economy, now mainly rubber. Accordingly, it has encouraged the establishment of vast oil palm plantations and places high priority on the processing of oil palm into various bi-products such as ghee, margarine, refined edible oils, etc.

Recently, an agreement has been reached with a foreign investor for the establishment of an integrated palm oil processing plant in the area of Port Klang (Selangor).

Similar plants could be established in other Malaysian states, where palm oil plantations are in rapid increase.

The Federal Industrial Development Authority (FIDA) wishes to get in contact with potential investors who could assist them in the planning and implementation of such projects.
