Industrial Projects

Kuala Lumpur, Malaysia, 14-21 November 1973

Project Information Sheet

POLYPROPYLENE BAGS

COUNTRY

Indonesia

PROJECT

Manufacture of plastic bags

Annual Capacity: To be determined

Total Investment: To be determined

FOREIGN CONTRIBUTION REQUIRED

Joint Venture, details to be  
determined

Sponsored by: The Economic Commission for Asia and the Far East (ECAFE) and  
the United Nations Industrial Development Organisation (UNIDO).

id.73-6628

IMPORTANT NOTICE

The basic purpose of this meeting is to provide an Exchange or Market Place for the initiation of contacts on specific industrial projects between their proponents from the Asian countries and potential suppliers of capital, finance, equipment or know-how, as the case may be, from the industrialized countries.

This Project Information Sheet has been prepared as a basis for such contacts. Its purpose is not to present detailed information about the project but to provide the recipient with an outline sufficient to determine tentative interest in principle. Any further available information on the project will be furnished on request to interested parties at the Meeting.

Experience has shown that industrialists frequently prefer to carry out their own further investigations in detail into projects in which they are interested, but assistance from UNIDO in these matters can be rendered to the Asian country concerned on request.

This Information Sheet contains only the information supplied to UNIDO by the proponent of the Project. UNIDO can therefore take no responsibility for its accuracy.

POLYPROPYLENE BAGS

The project proponent, P.T. United Rope and Line Industry Co.Ltd., Jl.K.L. Jos Sudarso, Km.19 Medan, produces various ropes and plastic cords for chairs from polyethylene, nylon, kuralon and triveron. The factory is working at a capacity of about 80% in two shifts.

The products are sold domestically, mainly in Java, to shipping companies, fisheries and others.

The annual production of raw material is about 360 tons.

The project proponent is interested in a joint venture operation with a foreign company to produce plastic bags for industrial and consumption use. They are prepared to enter into a 50-50 joint venture arrangement.

The premises now cover about 1½ hectares of land; possibilities for acquiring adjacent space are available.

The project proponent is prepared to discuss details of his proposal at the Kuala Lumpur Meeting.
