INTRODUCTION

The United Nations Industrial Development Organization (UNIDO) promotes the use of industrial information in developing countries by giving guidance in improving local information facilities. As one of the means of promotion UNIDO compiles directories and guides to selected information sources on branches of industry of primary concern to developing countries. The present guide, dealing with the meat-processing industry, is a revised edition of the first guide in the series of UNIDO *Guides to Information Sources* (UNIDO/LIB/SER.D). A list of the guides published to date appears inside the back cover of this guide; more are planned for the series.

The directories and guides are not intended to be exhaustive, nor are they intended to be research tools; rather, they present sources considered to be of practical value to users. The data have been compiled so as to facilitate rapid access to the bodies referred to and the acquisition of the publications listed.

The meat industry plays an important role in the economy of a country. Meat products contribute to the over-all supply of the population with protein food and are also an interesting export commodity. Although most developing countries have a great potential in this field, the development of the industry has been impeded for various reasons, such as inadequate technology for meat processing, shortages or seasonable availability of feedstuff and animal diseases. UNIDO assists developing countries in improving meat industries, particularly in industrial processing of meat and its by-products.

EXPLANATORY NOTES

The designations employed and the presentation of the material in this guide do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country or its authorities, or concerning the delimitation of its frontiers.

Publications listed in this guide have been selected mainly from literature in the official languages of the United Nations; when appropriate, publications in other languages have also been included.

The names of organizations and publications are given in their original languages, wherever available; for those listed in languages other than the official languages of the United Nations, a translation of the title into English is included.

Where available, the date and the number of pages of the most recent known edition are indicated as well as the address of the issuing organization or publisher.

United Nations sales publications should be ordered by sales number. They are available through authorized distributors or may be ordered from:

Sales Section Publishing Service United Nations New York, New York 10017 United States of America	or	Sales Section United Nations Office Palais des Nations CH-1211 Geneva 10 Switzerland
---	----	--

Requests for non-sales items that are issued by the United Nations and related bodies should be made direct to the issuing bodies.

Suggestions for the inclusion of additional information in a future, revised version would be appreciated and should be addressed to:

INTRODUCTION

Pour faciliter la diffusion et l'utilisation de l'information industrielle dans les pays en développement, l'Organisation des Nations Unies pour le développement industriel (ONUDI) aide ces pays à améliorer leurs moyens d'information, notamment en établissant des répertoires et des guides des principales sources d'information sur les secteurs industriels qui présentent pour eux un intérêt majeur. Le présent guide, qui concerne l'industrie de la viande, est une édition révisée du premier numéro de la série des *Guides des sources d'information* (UNIDO/LIB/SER.D). On trouvera à la page 3 de la couverture la liste des guides déjà parus. D'autres sont prévus.

Les ouvrages de cette série ne prétendent pas être exhaustifs; ce ne sont pas non plus des instruments de recherche, mais de simples guides des sources d'information considérées comme présentant un intérêt pratique pour les utilisateurs. Les données sont présentées de manière à permettre à ceux-ci de se mettre rapidement en rapport avec les sources d'information mentionnées et d'obtenir les publications auxquelles ils s'intéressent.

L'industrie de la viande joue un rôle important dans l'économie d'un pays. Les produits à base de viande contribuent à couvrir les besoins de la population en protéines et constituent aussi d'intéressants produits d'exportation. Bien que la plupart des pays en développement aient de grandes possibilités dans ce secteur, le développement de cette industrie a été gêné par divers facteurs: manque de connaissances techniques concernant le traitement de la viande, pénurie chronique ou saisonnière d'aliments pour le bétail, épizooties, etc. L'ONUDI aide les pays en développement à améliorer leurs industries de la viande, notamment le traitement industriel de la viande et de ses sous-produits.

NOTES EXPLICATIVES

Les appellations employées dans la présente publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique de tel ou tel pays ou territoire ou de ses autorités, ni quant au tracé de ses frontières.

Les publications énumérées dans le présent volume sont pour la plupart rédigées dans les langues officielles de l'Organisation des Nations Unies; toutefois, certains documents publiés dans d'autres langues ont aussi été mentionnés.

Les noms des organisations et les titres des publications sont donnés le plus souvent possible dans la langue originale; les noms des organisations et les titres des publications libellés dans des langues autres que les langues officielles de l'Organisation des Nations Unies ont été traduits en anglais.

Nous avons, aussi souvent qu'il était possible, précisé la date et le nombre de pages de l'édition la plus récente ainsi que l'adresse de l'éditeur ou de l'organisation qui a publié le document.

On peut se procurer les publications des Nations Unies auprès des distributeurs autorisés ou les commander à l'une des adresses suivantes, en mentionnant le numéro de vente :

ВВЕДЕНИЕ

Организация Объединенных Наций по промышленному развитию (ЮНИДО) содействует использованию промышленной информации в развивающихся странах посредством обеспечения руководства в совершенствовании местных средств информации. Одним из средств такого содействия является составление в ЮНИДО справочников и руководств по отдельным источникам информации, касающимся тех отраслей промышленности, которые имеют первостепенное значение для развивающихся стран. Настоящее руководство по вопросам мясообработывающей промышленности является пересмотренным и исправленным изданием первого справочника в серии ЮНИДО *Guides to Information Sources (UNIDO/LIB/SER.D.)*. Список руководств, опубликованных до настоящего времени, приводится на внутренней стороне задней обложки настоящего выпуска; в этой серии планируется выпуск других руководств.

При составлении таких справочников и руководств не ставится цель сделать их исчерпывающими, они не служат также средством исследования; точнее, в них приводятся источники, которые, как полагают, представляют собой практическую ценность для тех, кто ими пользуется. Данные в этих справочниках подобраны таким образом, чтобы можно было легко найти упоминаемые организации и приобрести перечисленные издания.

Мясная промышленность играет важную роль в экономике страны. Мясные продукты вносят существенный вклад в общее снабжение населения продуктами, содержащими протеин (белок), и являются также важным предметом экспорта. Хотя большинство развивающихся стран имеет большие потенциальные возможности в этой области, развитию этой отрасли промышленности мешают различные причины, такие, как не отвечающая требованиям технология по обработке мяса, недостаток кормов и непостоянная возможность получить их, а также болезнь скота. ЮНИДО содействует развивающимся странам в улучшении различных отраслей мясной промышленности, особенно в промышленной обработке мяса и его побочных продуктов.

ПОЯСНИТЕЛЬНЫЕ ЗАМЕЧАНИЯ

Используемые обозначения и распределение материалов в настоящем руководстве не означают, что Секретариат Организации Объединенных Наций выражает какое-либо мнение относительно юридического статуса той или иной страны, или ее органов власти, или относительно очертания ее границ.

Перечисленные в настоящем руководстве публикации отобраны главным образом из литературы, изданной на официальных языках Организации Объединенных Наций; в соответствующих случаях были включены также публикации, изданные на других языках.

Названия организаций и публикаций даны на языке оригинала в тех случаях, когда они имелись в наличии; названия, представленные на языках, не являющихся официальными языками Организации Объединенных Наций, включены в перечень в переводе на английский язык.

В зависимости от наличия указаны год издания и количество страниц самого последнего из известных изданий, а также адрес организации, выпускающей публикацию, или издателя.

Предназначенные для продажи публикации Организации Объединенных Наций следует заказывать по соответствующему номеру, под которым они продаются. Их можно приобрести через должным образом уполномоченных агентов по продаже или заказать в:

INTRODUCCION

La Organización de las Naciones Unidas para el Desarrollo Industrial (ONUDI) promueve la utilización de información industrial en los países en desarrollo, proporcionando orientación para el mejoramiento de los servicios locales de información. Uno de los medios de promoción que emplea la ONUDI consiste en compilar guías y repertorios de fuentes seleccionadas de información sobre ramas de la industria de especial interés para los países en desarrollo. La presente guía, que trata de la industria de elaboración de la carne, es una edición revisada de la primera guía de la serie de *Guías de Fuentes de Información* (UNIDO/LIB/SER.D) que publica la ONUDI. La lista de las publicaciones aparecidas hasta la fecha figura en el anverso de la contraportada de la presente guía; se prevé la publicación de otras en esta misma serie.

Estas guías y repertorios no pretenden ser exhaustivos ni están destinados a servir de instrumento de investigación. En ellos se mencionan, más bien, fuentes que se consideran de valor práctico para los usuarios. Los datos se han recopilado de modo tal que faciliten el rápido acceso a las entidades mencionadas y la adquisición de las publicaciones que se indican.

La industria de la carne desempeña un importante papel en la economía de los países. Los productos cárnicos contribuyen al abastecimiento global de alimentos proteínicos a la población y constituyen también un interesante producto de exportación. Aunque la mayor parte de los países en desarrollo tienen grandes posibilidades en esta esfera, el desarrollo de la industria correspondiente se ha visto obstaculizado por diversas razones, tales como una tecnología inadecuada para la elaboración de la carne, la escasez de piensos o forrajes, o el carácter estacional de su abastecimiento, y las epizootias. La ONUDI presta asistencia a los países en desarrollo para mejorar estas industrias, en particular por lo que respecta a la elaboración industrial de la carne y sus subproductos.

NOTAS EXPLICATIVAS

Las denominaciones empleadas en esta guía y la forma en que aparecen presentados los datos que contiene no implican, de parte de la Secretaría de las Naciones Unidas, juicio alguno sobre la condición jurídica de ninguno de los países o territorios citados o de sus autoridades, ni respecto de la delimitación de sus fronteras.

Las publicaciones que aquí se indican se han seleccionado principalmente de entre la literatura publicada en los idiomas oficiales de las Naciones Unidas; cuando procede, también se mencionan publicaciones aparecidas en otros idiomas.

Los nombres de las organizaciones y publicaciones aparecen en su idioma original, cuando así constan; cuando se dan en idiomas no reconocidos como oficiales dentro de las Naciones Unidas, se incluye la traducción al inglés del título correspondiente.

Se indican la fecha y el número de páginas de la edición más reciente, así como la dirección de la organización que la publica o de la casa editora, cuando tales datos se conocen.

Los pedidos de publicaciones de las Naciones Unidas han de hacerse por número de venta. Dichas publicaciones se pueden obtener por conducto de distribuidores autorizados, o haciendo un pedido a:
