## INTRODUCTION

UNIDO promotes the use of industrial information in developing countries by giving guidance for the improvement of local information facilities to organizations involved in industrial development. One important measure for such promotion is the compilation of directories of and guides to basic information sources.

The UNIDO 1972-1973 Work Programme calls for the compilation of a series of such directories and guides, listing selected information sources on branches of industry of primary concern to developing countries. This directory of "Information Sources on the Leather and Leather Goods Industry" is the third in a new series entitled Guides to Information Sources (UNIDO/LIB/SER.D.). Previous issues dealt with the meat processing industry (UNIDO/LIB/SER.D/1) and the cement and concrete industry (UNIDO/LIB/SER.D/2). Succeeding directories will deal with information sources for other branches of industry, such as the furniture and joinery industry, etc.

These directories and guides will not aim to be exhaustive; they are not intended as research tools, but represent a selection of sources considered to be of practical value to the immediate needs of the users. To assist these users, the data has been compiled to give as much information as possible for rapid access to the bodies referred to, and to facilitate acquisition of the publications listed.

The material is presented by geographical location (organizations); in alphabetical order of authors (books, monographs); or by title (periodicals, directories, reports). Whenever possible, book and subscription prices are given, as well as addresses of organizations and of publishers. Individual entries have been selected mainly from literature in the official languages of the United Nations; when appropriate, other languages have also been included.

The present issue of Guides to Information Sources deals with the leather and leather-processing industry as one of the main agro-based industries of interest to developing countries.

Since some information sources may not have been included in this directory, suggestions for the inclusion of additional information in a future, revised version will be welcome.

## EXPLANATORY NOTES

INTRODUCTION

L'ONUDI encourage l'utilisation de l'information industrielle dans les pays en voie de développement en aidant les organismes qui s'occupent de l'industrialisation à améliorer les moyens d'information locaux. Une des activités les plus efficaces, à cet égard, consiste à établir des répertoires et des guides des principales sources d'information.

Le programme de travail de l'ONUDI pour 1972-73 prévoit l'établissement d'une série de répertoires et de guides de ce genre pour les branches d'industries qui présentent un intérêt capital pour les pays en voie de développement. Le présent répertoire des "Sources d'information sur l'industrie du cuir et des articles en cuir" est le troisième d'une nouvelle série intitulée : Guide des sources d'information (UNIDO/LIB/SER.D.). Les répertoires précédemment parus portaient sur l'industrie de la viande (UNIDO/LIB/SER.D/1) et l'industrie du ciment et du béton (UNIDO/LIB/SER.D/2). Les guides suivants seront consacrés aux sources d'information intéressant d'autres industries, notamment l'industrie du meuble et de la menuiserie, etc.

Ces répertoires et ces guides ne prétendent pas être exhaustifs; ce ne sont pas des instruments de recherche, mais de simples listes des sources d'information qui semblent offrir un intérêt immédiat pour l'utilisateur. On s'est efforcé de donner le plus de renseignements possible pour permettre à celui-ci de prendre contact rapidement avec les institutions mentionnées et pour lui faciliter l'acquisition des publications indiquées.

La documentation est classée par pays (pour les organisations), par auteur et par ordre alphabétique (pour les livres et les études de cas) ou par titre (pour les périodiques, les répertoires et les rapports). Chaque fois que possible, on a indiqué le prix de l'ouvrage ou de l'abonnement, ainsi que les adresses des organisations et des éditeurs. Il s'agit le plus souvent de documents rédigés dans les langues officielles des Nations Unies, mais parfois aussi de documents publiés dans d'autres langues.

Le présent Guide des sources d'information est consacré à l'une des agro-industries qui présentent le plus d'intérêt pour les pays en voie de développement, à savoir l'industrie du cuir et des articles en cuir.

Certaines sources d'information ayant pu être omises dans le présent répertoire, nous accueillerons volontiers toute suggestion d'insertion de renseignements complémentaires et il en sera tenu compte dans une nouvelle édition révisée.

NOTES EXPLICATIVES

Les explications suivantes sont destinées à faciliter l'utilisation du répertoire :

- a) Les noms des organisations énumérées à la Section I sont donnés le plus souvent en anglais ou dans une autre langue officielle de l'Organisation des Nations Unies. Les noms des organisations libellés dans des langues autres que les langues officielles de l'Organisation des Nations Unies ont été traduits en anglais;

## ВВЕДЕНИЕ

ЮНИДО содействует использованию промышленной информации в развивающихся странах путем обеспечения руководства работой организаций, занимающихся вопросами промышленного развития, в деле улучшения местной службы информации. Одной из важных мер такого содействия является составление справочников и руководств по основным источникам информации.

Программа деятельности ЮНИДО на 1972-1973 годы предусматривает составление целого ряда таких справочников и руководств с перечислением источников информации по отраслям промышленности, представляющим первостепенное значение для развивающихся стран. Настоящий справочник "Источники информации по производству кожи и кожаных изделий" является третьим справочником в новой серии под названием Guides to Information Sources (Руководство по источникам информации) (UNIDO/LIB/SER.D.). Предыдущие издания были выпущены по вопросу мясоперерабатывающей промышленности (UNIDO/LIB/SER.D/1) и цементной и бетонной промышленности (UNIDO/LIB/SER.D/2). Последующие справочники будут включать источники информации по другим отраслям промышленности, таким, как мебельное и столярное производство, и т.д.

Эти справочники и руководства не ставят своей целью быть исчерпывающими или являться инструментами исследования, а представляют собой подбор источников, которые представляют практическую ценность для удовлетворения непосредственных нужд потребителей информации. Для облегчения пользования этими справочниками данные подобраны таким образом, чтобы дать как можно больше информации, пытаясь обеспечить быстрый доступ к ней для заинтересованных организаций и способствовать приобретению перечисленных публикаций.

Материал расположен по географическому местонахождению (организаций); в алфавитном порядке авторов (книг, монографий); или по заглавиям (периодических изданий, справочников, докладов). Во всех возможных случаях указаны цены на книги и на подписные издания, а также адреса организаций и издательств. Отдельные статьи представляют собой подборку из литературы на официальных языках Организации Объединенных Наций; в нужных случаях включен материал, вышедший и на других языках.

Настоящее издание Guides to Information Sources (Руководство по источникам информации) касается вопросов производства кожи и ее обработки как одной из главных отраслей промышленности, базирующихся на сельском хозяйстве и представляющих интерес для развивающихся стран.

Поскольку некоторые источники информации, возможно, не включены в настоящий справочник, то будут приветствоваться предложения о включении дополнительной информации в будущее пересмотренное издание этого справочника.

## ПОЯСНИТЕЛЬНЫЕ ЗАМЕЧАНИЯ

Следующие пояснения облегчат пользование справочником:

## INTRODUCCION

La ONUDI promueve la utilización de información industrial en los países en desarrollo proporcionando orientación para el mejoramiento de los servicios locales de información a las organizaciones que se ocupan del desarrollo industrial. Una medida importante para realizar esa labor de promoción es la compilación de anuarios y guías de fuentes básicas de información.

El Programa de Trabajo de la ONUDI para 1972-1973 exige la compilación de una serie de anuarios y guías de ese tipo en que se registren determinadas fuentes de información sobre las ramas industriales de interés primordial para los países en desarrollo. El presente anuario de "Fuentes de Información sobre la Industria del Cuero y Productos del Cuero" es el tercero de una nueva serie intitulada Guías de Fuentes de Información (UNIDO/LIB/SER.D). Los números anteriores trataron de la industria de elaboración de la carne (UNIDO/LIB/SER.D/1) y de la industria del cemento y del hormigón (UNIDO/LIB/SER.D/2). Los anuarios que se preparen posteriormente recogerán fuentes de información sobre otras ramas de la industria, tales como la industria del mueble y de la ebanistería, etc.

No se pretende que esos anuarios y guías sean exhaustivos, pues no están destinados a servir de instrumentos de investigación; representan, más bien, una selección de las fuentes consideradas de valor práctico para satisfacer las necesidades inmediatas de los usuarios. Con el objeto de facilitar la labor de éstos, se han recopilado los datos de manera que proporcionen toda la información posible para permitir un rápido acceso a las entidades mencionadas, y para facilitar la adquisición de las publicaciones enumeradas.

El material está presentado por ubicación geográfica (organizaciones); por orden alfabético de autores (libros, monografías); o por títulos (publicaciones periódicas, anuarios, informes). En lo posible, se indican los precios de libros y suscripciones así como las direcciones de organizaciones y de casas editoriales. Las partidas proceden principalmente de literatura publicada en los idiomas oficiales de las Naciones Unidas; cuando ha sido necesario, también se han empleado otras lenguas.

El presente número de Guías de Fuentes de Información cubre la industria del cuero y productos del cuero por ser una de las principales industrias de base agropecuaria que interesan a los países en desarrollo.

Como se habrán omitido algunas fuentes de información en el presente anuario, se agradecerá el envío de sugerencias para la inclusión de información adicional en una futura versión revisada.

NOTAS EXPLICATIVAS

Las siguientes explicaciones facilitarán la consulta del anuario:

- a) Los nombres de las organizaciones enumeradas en la Sección I aparecen principalmente en inglés o en otras de las lenguas oficiales de las Naciones Unidas. Los nombres de organizaciones en idiomas distintos a los reconocidos como oficiales dentro de las Naciones Unidas han sido traducidos al inglés.
- b) En las descripciones de los anuarios generales enumerados en la Sección II, después de cada título se ha añadido la información correspondiente a las páginas que habrán de consultarse. Se indica la fecha, número de páginas y precio de la edición más reciente, cuando se dispone de esos datos.
- c) En cada sección se citan precios en la medida de lo posible. Sin embargo, esos precios se considerarán únicamente como indicaciones de carácter general.
- d) Para solicitar a las Naciones Unidas las publicaciones y/o documentos enumerados en las Secciones III, IV y VII, se empleará el procedimiento siguiente:
