OCCASION

This publication has been made available to the public on the occasion of the 50th anniversary of the United Nations Industrial Development Organisation.

TOGETHER
for a sustainable future

DISCLAIMER

This document has been produced without formal United Nations editing. The designations employed and the presentation of the material in this document do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations Industrial Development Organization (UNIDO) concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries, or its economic system or degree of development. Designations such as “developed”, “industrialized” and “developing” are intended for statistical convenience and do not necessarily express a judgment about the stage reached by a particular country or area in the development process. Mention of firm names or commercial products does not constitute an endorsement by UNIDO.

FAIR USE POLICY

Any part of this publication may be quoted and referenced for educational and research purposes without additional permission from UNIDO. However, those who make use of quoting and referencing this publication are requested to follow the Fair Use Policy of giving due credit to UNIDO.

INDUSTRIAL DEVELOPMENT ABSTRACTS

Introduction

Industrial Development Abstracts has two purposes: to provide a specialized but easy-to-use guide to documentation concerning industrialization of the developing countries, much of which is unpublished; and to attain a more complete documentation of economic development by filling a gap in the indexes published by the organizations of the UN family.

Industrial Development Abstracts indexes and abstracts the following types of UNIDO documents: (1) Printed publications of UNIDO, i.e. major studies and reports, recurrent publications and series, and selected articles from *Industrial Research and Development News (IRDN)* and *Industrialization and Productivity Bulletin*; (2) documents submitted to the Industrial Development Board; (3) documents of expert working groups, workshops and seminars; (4) internal studies and reports; (5) information series; (6) technical assistance reports, including feasibility studies, project reports etc.; and (7) questions handled by UNIDO's Industrial Inquiry Service. Eventually, *Industrial Development Abstracts* will also include unpublished material that originates outside UNIDO.

Industrial Development Abstracts consists of three parts: (1) a subject index; (2) an author index; and (3) a bibliographical list of abstracts. The terms used in the abstracts and in the subject index are from the *UNIDO List of Descriptors*.

Numbers listed beside each entry in the subject and author indexes are not page numbers but the computer access number of the item abstracted. Abstracts are printed in sequence according to this access number, which appears at the top of each entry.

If the descriptor "/Restricted/" appears at the end of the abstract, the original document is available to UNIDO staff only.

The UNIDO information processing scheme is called "INDIS" (Industrial Information System). It is patterned after the ISIS procedure developed by the International Labour Office (ILO) and is thus compatible with many of the indexing systems adopted by organizations within and without the UN family. This compatibility will permit rapid exchange of information and is in

line with the goals indicated in Chapter Six of the *Study of the Capacity of the United Nations Development System*, Vol. II.¹

Industrial Development Abstracts is available on request from:

Industrial Documentation Unit

RESUMES D'ETUDES SUR LE DEVELOPPEMENT INDUSTRIEL

Introduction

Les *Industrial Development Abstracts* ont un double objectif: fournir un guide spécialisé mais d'emploi facile pour la documentation relative à l'industrialisation des pays en voie de développement dont une grande partie n'est pas publiée, et compléter la documentation sur le développement économique en comblant une lacune dans les index publiés par les organismes des Nations Unies.

Les *Industrial Development Abstracts* indexent et résument les catégories suivantes de documents de l'ONUDI: 1) publications imprimées de l'ONUDI, c'est-à-dire études et rapports les plus importants, publications périodiques et séries, et articles choisis du *Bulletin de la recherche et du développement industriels (BRDI)* et du *Bulletin Industrialisation et Productivité*; 2) documents soumis au Conseil du développement industriel; 3) documents des réunions d'experts, des journées d'études et des séminaires; 4) études et rapports internes; 5) séries de documents d'information; 6) rapports d'assistance technique y compris les études de faisabilité, les rapports sur les projets, etc.; et 7) questions traitées par le Service de renseignements industriels de l'ONUDI.

Les *Industrial Development Abstracts* porteront aussi dans l'avenir sur des documents non publiés émanant d'autres sources que l'ONUDI.

Les *Industrial Development Abstracts* comprennent trois parties: 1) un index des sujets traités; 2) un index des auteurs; et 3) une liste bibliographique des résumés. Les termes utilisés dans les résumés et dans l'index des sujets traités sont tirés de la *Liste des descripteurs* de l'ONUDI.

Le numéro qui figure au-dessus de chaque rubrique dans les index des sujets traités et des auteurs n'est pas le numéro de page mais le numéro d'enregistrement du document sur fichier magnétique. Les résumés sont imprimés dans l'ordre indiqué par ces numéros d'enregistrement.

Si le descripteur "/Restricted/" — (Diffusion restreinte) — figure à la fin du résumé d'un document, ledit document ne peut être communiqué qu'au personnel de l'ONUDI.

Le système de traitement de l'information de l'ONUDI est appelé "INDIS" (Système d'information industrielle). Il s'inspire de la méthode ISIS mise au point par le Bureau international du travail (BIT), ce qui le rend compatible avec la plupart des systèmes d'indexation adoptés par les organismes des Nations Unies et par les autres organisations. Cette compatibilité permettra l'échange rapide des informations et elle est

conforme aux objectifs énoncés au chapitre 6 de l'*Etude de la capacité du système des Nations Unies pour le développement*, Vol. II¹.

Les *Industrial Development Abstracts* peuvent être obtenus sur demande adressée au:

Groupe de documentation industrielle
Organisation des Nations Unies pour le développement industriel
(ONUDI)
Boîte postale 707
A-1011 Vienne, Autriche

РЕФЕРАТИВНЫЙ ЖУРНАЛ ПО ПРОМЫШЛЕННОМУ РАЗВИТИЮ

Введение

Реферативный журнал Industrial Development Abstracts преследует две цели: во-первых: служить специализированным и удобным в пользовании указателем документации, часто неопубликованной, касающейся индустриализации развивающихся стран; во-вторых, заполнить пробелы, имеющиеся в указателях, публикуемых организациями системы ООН, включая более нечернивающую документацию по вопросам экономического развития.

В *Industrial Development Abstracts* индексируются и реферируются следующие виды документации ЮНИДО: 1) Печатные публикации ЮНИДО, т. е. основные исследования и доклады, периодические публикации и серии, а также отдельные статьи из журналов «*Новости промышленных исследований и развития*» и «*Бюллетень индустриализации и производительности труда*»; 2) документы, представляемые Совету по промышленному развитию; 3) документы рабочих групп экспертов, курсов и семинаров; 4) внутриорганизационные исследования и доклады; 5) информационные серии; 6) доклады по вопросам технической помощи, включая исследования экономической целесообразности развития промышленности, доклады по проектам и т. д. и 7) ответы на вопросы, подготовленные Службой информирования ЮНИДО по запросам развивающихся стран. Со временем в *Industrial Development Abstracts* будут также включаться неопубликованные материалы, разработанные вне ЮНИДО.

Industrial Development Abstracts состоит из трех частей: 1) предметный указатель; 2) указатель авторов; и 3) библиографический список аннотаций. Ключевые выражения, используемые в аннотациях и предметном указателе, взяты из *Списка дескрипторов*, составленного в ЮНИДО.

Цифры, перечисляемые в предметном указателе и указателе авторов, обозначают не нумерацию страниц, а являются цифровым кодом аннотированной статьи, применяемым при обработке этой информации на ЭВМ. Аннотации печатаются последовательно в соответствии с этим кодовым номером, помещенным вверху каждой аннотации.

Если в конце аннотации стоит дескриптор «ограничено», то это означает, что документ выдается только сотрудникам ЮНИДО.

Применяемая в ЮНИДО система обработки промышленной информации получила название «INDIS» (Система промышленной информации). Она создана по типу системы ISIS, разработанной Международным бюро труда (МБТ), и таким образом, аналогична многим другим системам индексирования, принятым различными организациями как в рамках ООН, так и вне ее. Аналогичность этих систем позволит осуществлять быстрый обмен информацией, что соответствует целям, указанным в главе шестой *Исследования способности системы развития Организации Объединенных Наций*, том III.

Заявки на *Industrial Development Abstracts* просьба направлять по адресу:

Группа промышленной документации

EXTRACTOS DE DESARROLLO INDUSTRIAL

Introducción

Industrial Development Abstracts tiene dos finalidades: proporcionar una guía fácilmente manejable de documentación —en su mayor parte inédita— sobre la industrialización de los países en desarrollo; y colmar las lagunas que dejan los índices publicados por las organizaciones del sistema de las Naciones Unidas, ofreciendo así una documentación más completa sobre el desarrollo económico.

Industrial Development Abstracts clasifica y resume los siguientes tipos de documentos de la ONUDI: 1) Publicaciones impresas de la Organización, es decir, estudios e informes principales, colecciones y publicaciones periódicas y artículos seleccionados de *Noticias sobre Investigación y Desarrollo Industriales* (NIDI) y del *Boletín de Industrialización y Productividad*; 2) documentos presentados a la Junta de Desarrollo Industrial; 3) documentos de grupos de expertos, cursos prácticos de capacitación y seminarios; 4) informes y estudios internos; 5) series informativas; 6) informes de asistencia técnica, incluidos los estudios de viabilidad, los informes sobre proyectos, etc.; y 7) consultas tramitadas por el Servicio de Consultas Industriales de la ONUDI.

Industrial Development Abstracts también incluirá eventualmente material inédito producido fuera de la ONUDI.

Industrial Development Abstracts consta de tres partes: 1) un índice de temas; 2) un índice de autores; y 3) una lista bibliográfica de extractos. Los términos utilizados en los extractos y en el índice de temas están tomados de la *Lista de Descriptores* de la ONUDI.

Los números que figuran junto a los temas y autores en los índices correspondientes no se refieren al número de la página, sino al número de entrada asignado en la computadora al tema extractado. Los extractos se publican siguiendo el orden de esos números de entrada que figuran en la parte superior de cada inscripción.

Si el descriptor “/Restricted/” aparece al final del extracto, sólo tiene acceso al documento original el personal de la ONUDI.

El sistema de elaboración de la información de la ONUDI se denomina “INDIS” (Sistema de Información Industrial). Sigue el procedimiento ISIS desarrollado por la Oficina Internacional del Trabajo (OIT), por lo cual es compatible con muchos de los sistemas de índices adoptados por organizaciones, tanto del sistema de las Naciones Unidas como ajenas a él. Esta compatibilidad permite un rápido intercambio de información y está en

armonía con los objetivos señalados en el capítulo 6 del *Estudio sobre la Capacidad del Sistema de las Naciones Unidas para el Desarrollo*, Vol. II.¹

Industrial Development Abstracts se facilitará a quienes lo soliciten. A este respecto, las solicitudes deberán enviarse a:

UNIDO
INTERREGIONAL FERTILIZER SYMPOSIUM, 2ND, KIEV AND NEW
DELHI, 1971
EXTRACTION AND REFINING OF POTASH ORES IN THE USSR.
VIENNA, 1971. 12 P.
UNIDO-ID/WG.99/17
UNIDO-ID/WG.99/17/SUMMARY
/UNIDO PUB/ ON /MINING/ AND /REFINING/ OF /POTASH//ORE/S
FOR THE /FERTILIZER INDUSTRY/ IN THE /USSR/ - OUTLINES
(1) PRODUCTION OF /POTASSIUM//FERTILIZER/S ON THE BASIS
OF LARGE /RAW MATERIAL/ RESERVES (2) APPLICATION OF
/ADVANCED SKILLS AND TECHNOLOGY/ IN POTASSIUM EXTRACTION
(INCLUDING AN IMPROVED METHOD OF /BENEFICATION/) AND
REFINING (FLOTATION HOT SOLUTION CRYSTALLIZATION).
/BIBLIOGRAPHY/. /CONF/ KIEV 1971 SEP 21 TO OCT 1. /CONF/
NEW DELHI 1971 OCT 2 TO 13.

NEW AND IMPROVED FERTILIZER MATERIALS BASED ON UREA.
VIENNA, 1971. 30 P. TABLE, GRAPHS, DIAGRAM.
UNIDO-ID/WG.99/24
UNIDO-ID/WG.99/24/SUMMARY
/UNIDO PUB/ ON NEW AND IMPROVED /FERTILIZER/ MATERIALS
BASED ON /UREA/ - DISCUSSES (1) IMPROVEMENT OF PHYSICAL
PROPERTIES OF UREA (2) /COATING PROCESS/ES AND
CONDITIONING OF UREA (3) USE OF UREA IN COMPOUND
FERTILIZERS WITH SPECIAL REFERENCES TO COMBINATIONS WITH
AMMONIUM /SULPHATE/ AND AMMONIUM /PHOSPHATE/S.
/BIBLIOGRAPHY/, /STATISTICS/, /DIAGRAM/. /CONF/ KIEV
1971 SEP 21 TO OCT 1. /CONF/ NEW DELHI 1971 OCT 2 TO 13.

UNIDO
EXPERT GROUP MEETING ON THE USE OF PLASTICS IN THE BUILDING
INDUSTRY, VIENNA, 1971
SOME PROBLEMS ASSOCIATED WITH THE DEVELOPMENT OF THE
BUILDING INDUSTRY AND WITH THE ACCEPTANCE OF NEW
MATERIALS, COMPONENTS AND BUILDING FORMS.
VIENNA, 1971. 33 P.
UNIDO-ID/WG.96/7
/UNIDO PUB/ ON AN INDUSTRIALIZED /CONSTRUCTION
INDUSTRY/, USING /PREFABRICATED BUILDING/ UNITS -
DISCUSSES (1) NEED FOR INCREASED /PRODUCTIVITY/ IN THE
BUILDING INDUSTRY AND SHORTAGE OF /SKILLED WORKER/S (2)
NEW /BUILDING MATERIAL/S AND /COMPONENT/S,
/MECHANIZATION/ AND USE OF /PLASTICS/ IN CONSTRUCTION
(3) PERFORMANCE /SPECIFICATIONS/ AND /COST/ TARGET. (4)
IMPLICATIONS FOR /HOUSING/ DESIGN IN RELATION TO THE
SERVICES OF /WATER/, /ELECTRICITY/, /HEATING/, ETC., AND
/SEWAGE TREATMENT/. /CONF/ VIENNA 1971 SEP 20 TO 24.
