INDUSTRIAL DEVELOPMENT ABSTRACTS

Introduction

Industrial Development Abstracts has two purposes: to provide a specialized but easy-to-use guide to documentation concerning industrialization of the developing countries, much of which is unpublished; and to attain a more complete documentation of economic development by filling a gap in the indexes published by the organizations of the UN family.

Industrial Development Abstracts indexes and abstracts the following types of UNIDO documents: (1) Printed publications of UNIDO, i.e. major studies and reports, recurrent publications and series, and selected articles from *Industrial Research and Development News (IRDN)* and *Industrialization and Productivity Bulletin*; (2) documents submitted to the Industrial Development Board; (3) documents of expert working groups, workshops and seminars; (4) internal studies and reports; (5) information series; (6) technical assistance reports, including feasibility studies, project reports etc.; and (7) questions handled by UNIDO's Industrial Inquiry Service. Eventually, *Industrial Development Abstracts* will also include unpublished material that originates outside UNIDO.

Industrial Development Abstracts consists of three parts: (1) a subject index, giving the titles of documents; (2) an author index; and (3) a bibliographical list of abstracts. The descriptors used in the abstracts and in the subject index are taken from the *Thesaurus of Industrial Development Terms* (UNIDO/LIB/SER. C/1).

Numbers listed with each entry in the subject and author indexes are not page numbers but the computer access number of the item abstracted. Abstracts are printed in sequence according to this access number, which appears at the top of each entry.

The UNIDO information processing scheme is called "INDIS" (Industrial Information System). It is patterned after the ISIS procedure developed by the International Labour Office (ILO) and is thus compatible with many of the indexing systems adopted by organizations within and without the UN family. This compatibility will permit rapid exchange of information and is in

line with the goals indicated in chapter six of the *Study of the Capacity of the United Nations Development System*, vol. II.*

Note:

Industrial Development Abstracts is available on request from:

Industrial Documentation Unit
United Nations Industrial Development Organization (UNIDO)
P.O. Box 707
A-1011 Vienna, Austria

The UNIDO publications and documents indexed in *Industrial Development Abstracts* may be obtained as follows:

United Nations sales publications are identified in the abstracts by a sales number following the document symbol (e.g. *UN-E.72.II.B.6*), and may be ordered from authorized booksellers, from the UN Sales Section, United Nations, New York, N.Y. 10017, or from the UN Sales Section, Palais des Nations, Geneva, Switzerland.

UNIDO free printed and mimeographed documents are identified by a document symbol (e.g. *UNIDO-ID/WG.99/10*), and are available on request from UNIDO Industrial Documentation Unit, P.O. Box 707, A-1011 Vienna, Austria. *Please mention the document symbol of each document required.*

Reports without a document symbol are restricted documents available only to UNIDO staff members.

RESUMES D'ETUDES SUR LE DEVELOPPEMENT INDUSTRIEL

Introduction

Les *Industrial Development Abstracts* ont un double objectif: fournir un guide spécialisé mais d'emploi facile pour la documentation relative à l'industrialisation des pays en voie de développement dont une grande partie n'est pas publiée, et compléter la documentation sur le développement économique en comblant une lacune dans les index publiés par les organismes des Nations Unies.

Les *Industrial Development Abstracts* indexent et résument les catégories suivantes de documents de l'ONUDI: 1) publications imprimées de l'ONUDI, c'est-à-dire études et rapports les plus importants, publications périodiques et séries, et articles choisis du *Bulletin de la recherche et du développement industriels (BRDI)* et du *Bulletin Industrialisation et Productivité*; 2) documents soumis au Conseil du développement industriel; 3) documents des réunions d'experts, des journées d'études et des séminaires; 4) études et rapports internes; 5) séries de documents d'information; 6) rapports d'assistance technique y compris les études de faisabilité, les rapports sur les projets, etc.; et 7) questions traitées par le Service de renseignements industriels de l'ONUDI.

Les *Industrial Development Abstracts* porteront aussi dans l'avenir sur des documents non publiés émanant d'autres sources que l'ONUDI.

Les *Industrial Development Abstracts* comprennent trois parties: 1) un index des sujets traités qui donne les titres des documents; 2) un index des auteurs; 3) une liste bibliographique des résumés. Les termes utilisés dans les résumés et dans l'index des sujets traités sont tirés du *Thesaurus of Industrial Development Terms* (UNIDO/LIB/SER.C/1).

Le numéro qui figure au-dessus de chaque rubrique dans les index des sujets traités et des auteurs n'est pas le numéro de page mais le numéro d'enregistrement du document sur fichier magnétique. Les résumés sont imprimés dans l'ordre indiqué par ces numéros d'enregistrement.

Le système de traitement de l'information de l'ONUDI est appelé "INDIS" (Système d'information industrielle). Il s'inspire de la méthode ISIS mise au point par le Bureau international du travail (BIT), ce qui le rend compatible avec la plupart des systèmes d'indexation adoptés par les organismes des Nations Unies et par les autres organisations. Cette compatibilité permettra l'échange rapide des informations et elle est

conforme aux objectifs énoncés au chapitre 6 de l'*Etude de la capacité du système des Nations Unies pour le développement*, vol. II*.

Note:

Les *Industrial Development Abstracts* peuvent être obtenus sur demande adressée au:

Groupe de documentation industrielle
Organisation des Nations Unies pour le développement industriel
(ONUDI)
Boîte postale 707
A-1011 Vienne (Autriche)

Les publications et documents de l'ONUDI indexés dans les *Industrial Development Abstracts* peuvent être obtenus de la façon suivante:

Les publications mises en vente par les Nations Unies, qui sont identifiées dans les résumés par un numéro de vente figurant après la cote du document (par exemple: *UN-E.72.II.B.6*), peuvent être commandées aux librairies dépositaires, à la Section des ventes, Nations Unies, New York, N.Y. 10017, ou à la Section des ventes, Palais des Nations, Genève (Suisse).

Les documents imprimés et photocopiés de l'ONUDI, qui sont identifiés seulement par leur cote (par exemple: *UNIDO-ID/WG.99/10*), sont gratuits et peuvent être obtenus sur demande adressée au Groupe de documentation industrielle de l'ONUDI, Boîte postale 707, A-1011, Vienne (Autriche). *Il est indispensable d'indiquer la cote de chaque document demandé.*

Les rapports qui n'ont pas de cote sont des documents à diffusion restreinte réservés aux membres du personnel de l'ONUDI.

РЕФЕРАТИВНЫЙ ЖУРНАЛ ПО ПРОМЫШЛЕННОМУ РАЗВИТИЮ

Введение

Реферативный журнал Industrial Development Abstracts преследует две цели: во-первых, служить специализированным и удобным в пользовании указателем документации, часто неопубликованной, касающейся индустриализации развивающихся стран; во-вторых, заполнить пробелы, имеющиеся в указателях, публикуемых организациями системы ООН, включая более исчерпывающую документацию по вопросам экономического развития.

В *Industrial Development Abstracts* индексируются и реферрируются следующие виды документации ЮННДО: 1) Печатные публикации ЮННДО, т. е. основные исследования и доклады, периодические публикации и серии, а также отдельные статьи из журналов «*Новости промышленных исследований и развития*» и «*Бюллетень индустриализации и производительности труда*»; 2) документы, представляемые Совету по промышленному развитию; 3) документы рабочих групп экспертов, курсов и семинаров; 4) внутрорганизационные исследования и доклады; 5) информационные серии; 6) доклады по вопросам технической помощи, включая исследования экономической целесообразности развития промышленности, доклады по проектам и т. д. и 7) ответы на вопросы, подготовленные Службой информирования ЮННДО по запросам развивающихся стран. Со временем в *Industrial Development Abstracts* будут также включаться неопубликованные материалы, разработанные вне ЮННДО.

Industrial Development Abstracts состоит из трех частей:

1) предметный указатель, дающий названия документов; 2) указатель авторов; и 3) библиографический список аннотаций. Deskriptory, используемые в аннотациях и предметном указателе, взяты из Словаря терминов по промышленному развитию (UNIDO/LIB/SER. C/1).

Цифры, перечисляемые в предметном указателе и указателе авторов, обозначают не нумерацию страниц, а являются цифровым кодом аннотированной статьи, применяемым при обработке этой информации на ЭВМ. Аннотации печатаются последовательно в соответствии с этим кодовым номером, помещенным вверху каждой аннотации.

Применяемая в ЮНИДО система обработки промышленной информации получила название «INDIS» (Система промышленной информации). Она создана по типу системы ISIS, разработанной Международным бюро труда (МБТ), и таким образом, аналогична многим другим системам индексирования, принятым различными организациями как в рамках ООН, так и вне ее. Аналогичность этих систем позволит осуществлять быстрый обмен информацией, что соответствует целям, указанным в главе шестой *Исследования способности системы развития Организации Объединенных Наций*, том III.

Примечание:

Заявки на *Industrial Development Abstracts* просьба направлять по адресу:

Группа промышленной документации
Организация Объединенных Наций по промышленному развитию (ЮНИДО)
P. O. Box 707
A-1011 Вена, Австрия

Документы и публикации ЮНИДО, имеющие соответствующий индекс в *Реферативном журнале*, можно получить следующим образом:

Издания Организации Объединенных Наций поступают в продажу под соответствующим номером, который следует за символом документа (например, UN-E. 72. II. B. 6), и их можно заказать в таких официальных пунктах по продаже книг, как секция ООН по продаже изданий, Организация Объединенных Наций, Нью-Йорк, штат Нью-Йорк, 10017 или секция ООН по продаже изданий, Дворец Наций, Женева, Швейцария.

Напечатанные и изготовленные на мимеографе бесплатные документы ЮНИДО отмечены символом документа (например, ЮНИДО-ID/WG. 99/10); их можно получить в Группе промышленной документации ЮНИДО, п. я 707, А-1011, Австрия, Вена. *Просьба указывать символ каждого требуемого документа.*

Доклады без символа документа являются документами ограниченной циркуляции, которыми могут пользоваться только сотрудники ЮНИДО.

EXTRACTOS DE DESARROLLO INDUSTRIAL

Introducción

Industrial Development Abstracts tiene dos finalidades: proporcionar una guía fácilmente manejable de documentación en su mayor parte inédita sobre la industrialización de los países en desarrollo; y colmar las lagunas que dejan los índices publicados por las organizaciones del sistema de las Naciones Unidas, ofreciendo así una documentación más completa sobre el desarrollo económico.

Industrial Development Abstracts clasifica y resume los siguientes tipos de documentos de la ONUDI: 1) publicaciones impresas de la Organización, es decir, estudios e informes principales, colecciones y publicaciones periódicas y artículos seleccionados de *Noticias sobre Investigación y Desarrollo Industriales* (NIDI) y del *Boletín de Industrialización y Productividad*; 2) documentos presentados a la Junta de Desarrollo Industrial; 3) documentos de grupos de expertos, cursos prácticos de capacitación y seminarios; 4) informes y estudios internos; 5) series informativas; 6) informes de asistencia técnica, incluidos los estudios de viabilidad, los informes sobre proyectos, etc.; y 7) consultas tramitadas por el Servicio de Consultas Industriales de la ONUDI.

Industrial Development Abstracts también incluirá eventualmente material inédito producido fuera de la ONUDI.

Industrial Development Abstracts consta de tres partes: 1) un índice de temas, en el que se dan los títulos de los documentos; 2) un índice de autores; y 3) una lista bibliográfica de extractos. Los descriptores utilizados en los extractos y en el índice de temas están tomados del *Thesaurus of Industrial Development Terms* (UNIDO/LIB/SER.C/1).

Los números que figuran junto a los temas y autores en los índices correspondientes no se refieren al número de la página, sino al número de entrada asignado en la computadora al tema extractado. Los extractos se publican siguiendo el orden de esos números de entrada que figuran en la parte superior de cada inscripción.

El sistema de elaboración de la información de la ONUDI se denomina "INDIS" (Sistema de Información Industrial). Sigue el procedimiento ISIS desarrollado por la Oficina Internacional del Trabajo (OIT), por lo cual es compatible con muchos de los sistemas de índices adoptados por organizaciones, tanto del sistema de las Naciones Unidas como ajenas a él.

Esta compatibilidad permite un rápido intercambio de información y está en armonía con los objetivos señalados en el capítulo 6 del *Estudio sobre la Capacidad del Sistema de las Naciones Unidas para el Desarrollo*, vol. II.*
