INDUSTRIAL DEVELOPMENT ABSTRACTS

Cumulative Index

Introduction

Industrial Development Abstracts is a specialized guide to documentation on industrialization in developing countries, much of which is unpublished, and is intended to fill a gap in the indexes available from the various United Nations bodies and specialized agencies.

The *Cumulative Index* incorporates the subject and author indexes of Abstracts Nos. 00001-05000, published in the series UNIDO/LIB/SER.B/1-UNIDO/LIB/SER.B/16, with the exception of abstracts Nos. 03951-04395 (UNIDO/LIB/SER.B/13), which relate to documents of the Industrial Development Board (first to sixth sessions) and which were issued with a separate index.

The subject index contains the descriptors of the main topics in a document, and is listed alphabetically. Under each descriptor are the control numbers of the abstracts and the corresponding document titles.

Most of the abstracts are referred to under several descriptors, each of which designates an essential element of the contents of the document. For example, abstract No. 04792, pertaining to a document entitled "The National Metallurgical Laboratory of India; a case study of the development of a research and development institute", may be traced by searching under any of the four descriptor entries, namely, India-Iron and Steel Industry-Metallurgy-Research Institute. Such multiple entries facilitate manual information retrieval.

For a complete listing of descriptors, the *Thesaurus of Industrial Development Terms*, issued by UNIDO under the symbol UNIDO/LIB/SER.C/2), should be consulted.

RESUMES D'ETUDES SUR LE DEVELOPPEMENT INDUSTRIEL

Index récapitulatif

Introduction

Les *Industrial Development Abstracts* sont un guide spécialisé de documentation sur l'industrialisation des pays en voie de développement dont une grande partie n'est pas publiée, qui vise à combler une lacune dans les index publiés par les organismes et institutions spécialisées des Nations Unies.

L'index récapitulatif comprend deux parties: un index des sujets traités et un index des auteurs des résumés d'études n^{OS} 00001-05000, publiés dans la série UNIDO/LIB/SER.B/1-UNIDO/LIB/SER.B/16, à l'exception des résumés d'études n^{OS} 03951-04395 (UNIDO/LIB/SER.B/13) qui se rapportent aux documents du Conseil du développement industriel (de la première à la sixième session) et qui ont été publiés dans un index séparé.

L'index des sujets, qui contient les descripteurs des principaux sujets traités dans un document, est classé par ordre alphabétique. Sous chaque descripteur, figurent les numéros de contrôle des résumés d'études et les titres des documents correspondants.

La plupart des documents sont référencés sous plusieurs descripteurs qui désignent chacun un élément essentiel du contenu du document.

Par exemple, le résumé n^O 04792 d'un document intitulé "Le laboratoire national de l'industrie métallurgique indienne, étude d'un centre de recherche et de développement" peut être retrouvé en cherchant sous l'un quelconque des quatre descripteurs suivants: Inde - industrie sidérurgique - métallurgie - instituts de recherches. Ce système de classement à entrées multiples facilite la recherche manuelle des renseignements.

La liste complète des descripteurs se trouve dans le document intitulé: *Thesaurus of Industrial Development Terms*, publié par l'ONUDI sous la cote UNIDO/LIB/SER.C/2.

РЕФЕРАТИВНЫЙ ЖУРНАЛ ПО ПРОМЫШЛЕННОМУ РАЗВИТИЮ

Сводный индекс

Введение

Реферативный журнал по промышленному развитию "Industrial Development Abstracts" является специализированным указателем документации по вопросам индустриализации в развивающихся странах, большинство из которой не опубликовано и предназначено заполнить пробелы, имеющиеся в указателях, публикуемых различными органами Организации Объединенных Наций и специализированными учреждениями.

В *Сводном индексе* включены указатели аннотаций № 00001—05000 по темам и авторам, опубликованных в серии UNIDO/LIB/SER.B/1—UNIDO/LIB/SER.B/16, за исключением аннотаций № 03951—04395 (UNIDO/LIB/SER.B/13), которые относятся к документам Совета по промышленному развитию (первая — шестая сессии) и которые изданы под отдельным индексом.

Указатель тем содержит дескрипторы по основным вопросам, затронутым в документе, и темы перечислены в алфавитном порядке. Под каждым дескриптором указаны контрольные номера аннотаций и соответствующие названия документов.

Ссылки на большинство аннотаций даются под несколькими дескрипторами, каждый из которых указывает на важный элемент содержания документа. Так, например, аннотация № 04792, касающаяся документа под названием «Национальная металлургическая лаборатория Индии; выборочное исследование развития института исследований и разработок», может быть найдена путем поиска под любой из четырех описательных статей, а именно, Индия — Черная металлургия — Металлургия — Научно-исследовательский институт. Такое большое число статей облегчает ручной поиск информации.

Полное перечисление дескрипторов указано в *Тезаурусе терминов промышленного развития*, изданном ЮНИДО под номером UNIDO/LIB/SER.C/2.

EXTRACTOS DE DESARROLLO INDUSTRIAL

Índice acumulativo

Introducción

La publicación *Industrial Development Abstracts* es una guía especializada de la documentación relativa a la industrialización de los países en desarrollo, gran parte de la cual está inédita, y tiene por objeto colmar las lagunas de los índices que pueden proporcionar los diversos órganos y organismos especializados de las Naciones Unidas.

El *Índice acumulativo* incorpora en uno solo los índices de materias y de autores de los extractos 00001-05000, publicados en la serie UNIDO/EIB/SER.B/1-UNIDO/EIB/SER.B/16, a excepción de los extractos 03951-04395 (UNIDO/EIB/SER.B/13), referentes a documentos de la Junta de Desarrollo Industrial (períodos de sesiones primero a sexto), que fueron publicados con un índice separado.

El índice de materias recoge los descriptores de los temas principales de cada documento y está clasificado por orden alfabético. Bajo cada descriptor aparece el número de control de los extractos y los títulos de los documentos correspondientes.

La mayor parte de los extractos figuran bajo diversos descriptores, cada uno de los cuales designa un elemento esencial del contenido del documento. Por ejemplo el extracto 04792, referente a un documento titulado "The National Metallurgical Laboratory of India; a case study of the development of a research and development institute", puede ser buscado bajo cuatro descriptores, a saber: India; Industria siderúrgica; Metalurgia; Instituto de investigación. Esta multiplicidad de entradas facilita la recuperación manual de información.

La lista completa de descriptores puede consultarse en el *Thesaurus of Industrial Development Terms*, publicado por la ONUDI con la signatura UNIDO/EIB/SER.C/2.
