INTRODUCTION

The United Nations Industrial Development Organization (UNIDO) promotes the use of industrial information in developing countries by giving guidance in improving local information facilities. As one of the means of promotion UNIDO compiles directories and guides to selected information sources on branches of industry of primary concern to developing countries. The present guide, dealing with the pulp and paper industry, is the eleventh in the series of UNIDO Guides to Information Sources (UNIDO/LIB/SER.D). A list of the guides published to date appears inside the back cover of this guide; many more are planned for the series.

The directories and guides are not intended to be exhaustive, nor are they intended as research tools; rather, they present sources considered to be of practical value to users. The data have been compiled so as to facilitate rapid access to the bodies referred to and the acquisition of the publications listed.

World demand for pulp and paper and other pulp products is expected to increase rapidly in the coming years. The developing countries fortunately have abundant resources of fibre raw materials that could be exploited to meet this demand, but many new pulp and paper mills will have to be built. UNIDO assists developing countries in establishing pulp and paper industries and in improving existing ones.

EXPLANATORY NOTES

The designations employed and the presentation of the material in this guide do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country or its authorities, or concerning the delimitation of its frontiers.

Publications listed in this guide have been selected mainly from literature in the official languages of the United Nations; when appropriate, publications in other languages have also been included.

The names of organizations listed in section I are given in their original languages, wherever available; for organizations listed in languages other than the official languages of the United Nations, a translation of the title into English is included.

Where available, the date and the number of pages of the most recent known edition are indicated, as well as the address of the issuing organization or publisher.

United Nations sales publications (including UNIDO Guides to Information Sources) should be ordered by sales number. They are available through authorized distributors or may be ordered from:

Sales Section		Sales Section
Publishing Service		United Nations Office
United Nations	or	Palais des Nations

INTRODUCTION

Pour faciliter la diffusion et l'utilisation de l'information industrielle dans les pays en voie de développement, l'Organisation des Nations Unies pour le développement industriel (ONUDI) aide ces pays à améliorer leurs moyens d'information, notamment en établissant des répertoires et des guides des principales sources d'information sur les secteurs industriels qui présentent pour eux un intérêt majeur. Le présent guide, qui concerne l'industrie de la pâte à papier et du papier, est le onzième de la série des Guides des sources d'information (UNIDO/LIB/SER.D). On trouvera à la page 3 de la couverture la liste des guides déjà parus. De nombreux autres sont prévus.

Les ouvrages de cette série ne prétendent pas être exhaustifs; ce ne sont pas non plus des instruments de recherche, mais de simples guides des sources d'information considérées comme d'un grand intérêt pratique pour les utilisateurs. Toutes précisions utiles ont été données pour permettre à ceux-ci de se mettre rapidement en rapport avec les sources d'information mentionnées et d'obtenir les publications auxquelles ils s'intéressent.

La demande mondiale de pâte à papier, de papier et autres produits à base de pâte à papier devrait augmenter rapidement dans les années à venir. Les pays en voie de développement possèdent par bonheur d'abondantes ressources en fibres végétales et pourraient les exploiter en vue de satisfaire cette demande, à la condition que soient construites de nombreuses usines. L'ONUDI aide ces pays à se doter d'une industrie de la pâte à papier et du papier ou à améliorer leurs installations.

NOTES EXPLICATIVES

Les appellations employées dans la présente publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique de tel ou tel pays ou territoire ou de ses autorités, ni quant au tracé de ses frontières.

Les publications énumérées dans le présent volume sont pour la plupart rédigées dans les langues officielles de l'Organisation des Nations Unies; toutefois, certains documents publiés dans d'autres langues ont aussi été mentionnés.

Les noms des organisations énumérées à la section I sont donnés le plus souvent dans la langue originale; les noms des organisations libellés dans des langues autres que les langues officielles de l'Organisation des Nations Unies ont été traduits en anglais.

Nous avons, aussi souvent qu'il était possible, précisé la date et le nombre de pages de l'édition la plus récente ainsi que l'adresse de l'éditeur ou de l'organisation qui a publié le document.

On peut se procurer les publications des Nations Unies (et notamment les Guides des sources d'information de l'ONUDI) auprès des distributeurs autorisés ou les commander à l'une des adresses suivantes, en mentionnant le numéro de vente :

ВВЕДЕНИЕ

Организация Объединенных Наций по промышленному развитию (ЮНИДО) содействует использованию промышленной информации в развивающихся странах путем предоставления консультаций в деле улучшения работы местных средств информации. Одной из важных мер такого содействия является составление в ЮНИДО справочников и руководств в отношении отдельных источников информации по отраслям промышленности, имеющих первостепенное значение для развивающихся стран. Настоящее руководство по целлюлозно-бумажной промышленности является одиннадцатым в серии UNIDO Guides to Information Sources (UNIDO/LIB/SER.D). Список руководств, выпущенных до настоящего времени, приводится на третьей странице обложки данного руководства; для этой серии планируется выпуск еще целого ряда руководств.

Такие справочники и руководства не ставят своей целью быть исчерпывающими и не являются средствами исследования, а скорее представляют собой источники, которые имеют практическую ценность для тех, кто ими пользуется. В этих справочниках данные подобраны и представлены таким образом, чтобы облегчить как доступ к получению информации в тех организациях, на которые имеется ссылка, так и приобретение перечисленных изданий.

Предполагается, что спрос на мировом рынке на целлюлозу и бумагу, и также другую продукцию из целлюлозы будет быстро увеличиваться в предстоящие годы. К счастью, развивающиеся страны имеют в изобилии ресурсы сырья в виде волокон, которые можно было бы использовать для удовлетворения этого спроса, но для этой цели потребуются строительство большого числа новых целлюлозно-бумажных заводов. ЮНИДО оказывает помощь развивающимся странам в создании предприятий целлюлозно-бумажной промышленности и в усовершенствовании существующих предприятий.

ПОСЛОНИТЕЛЬНЫЕ ЗАМЕЧАНИЯ

Используемые обозначения, представление и распределение материала в настоящем руководстве не означают, что Секретариат Организации Объединенных Наций выражает какое-либо мнение относительно юридического статуса той или иной страны, или ее органов власти, или относительно определения ее границ.

Публикации, перечисленные в данном справочнике, отобраны в основном из литературы, изданной на официальных языках Организации Объединенных Наций; там, где это необходимо, включены публикации на других языках.

Названия организаций, перечисленных в разделе I, приводятся на языке оригинала в тех случаях, когда они известны; названия организаций, перечисленных на языках, не являющихся официальными языками Организации Объединенных Наций, переведены на английский язык.

В зависимости от наличия указываются дата и количество страниц самого последнего известного издания, а также адрес организации, выпускающей публикацию, или издателя.

Предназначенные для продажи публикации Организации Объединенных Наций (включая UNIDO Guides to Information Sources) следует заказывать по соответствующему номеру для продажи. Их можно приобрести через официальные издательства или заказать в:

INTRODUCCION

La Organización de las Naciones Unidas para el Desarrollo Industrial (ONUDI) promueve la utilización de información industrial en los países en desarrollo proporcionando orientación para el mejoramiento de los servicios locales de información. Uno de los medios de promoción que emplea la ONUDI consiste en compilar guías de fuentes básicas de información sobre ramas de la industria de especial interés para los países en desarrollo. La presente guía, que trata de la industria de la celulosa y el papel, es la undécima de la serie Guías de Fuentes de Información (UNIDO/LIB/SER.D) que publica la ONUDI. La lista de las guías publicadas hasta la fecha figura en el anverso de la contratapa de la presente guía; se prevé la publicación de muchas guías más en esta serie.

Estas guías no pretenden ser exhaustivas ni están destinadas a servir de instrumentos de investigación; presentan, más bien, una selección de fuentes que se consideran de valor práctico para los usuarios. Los datos se han recopilado de modo tal que faciliten el rápido acceso a las entidades mencionadas y la adquisición de las publicaciones que se indican.

En los próximos años, se prevé un rápido aumento de la demanda mundial de celulosa y papel, así como de otros productos de celulosa. Afortunadamente, los países en desarrollo cuentan con abundantes recursos de materias primas fibrosas que podrían explotarse para satisfacer esta demanda, pero habrá que establecer muchas fábricas nuevas de celulosa y papel. La ONUDI presta asistencia a los países en desarrollo para establecer nuevas industrias de celulosa y papel y para mejorar las existentes.

NOTAS EXPLICATIVAS

Las denominaciones empleadas en esta guía y la forma en que aparecen presentados los datos que contiene no implican, de parte de la Secretaría de las Naciones Unidas, juicio alguno sobre la condición jurídica de ninguno de los países o territorios citados o de sus autoridades, ni respecto de la delimitación de sus fronteras.

Las publicaciones que aquí se indican se han seleccionado principalmente de entre la literatura publicada en los idiomas oficiales de las Naciones Unidas; cuando procede, también se mencionan publicaciones aparecidas en otros idiomas.

Los nombres de las organizaciones mencionadas en la sección I aparecen en su idioma original cuando así constan; en los casos de organizaciones cuyos nombres están en idiomas no reconocidos como oficiales dentro de las Naciones Unidas, se ha dado el título correspondiente en inglés.

Se indican la fecha y el número de páginas de la edición más reciente, así como la dirección de la organización que la publica o de la casa editora, cuando tales datos se conocen.

Los pedidos de publicaciones de las Naciones Unidas (incluidas las Guías de Fuentes de Información de la ONUDI) han de hacerse por número de venta. Dichas publicaciones se pueden obtener por conducto de distribuidores autorizados, o haciendo un pedido a:
