

TOGETHER
for a sustainable future

OCCASION

This publication has been made available to the public on the occasion of the 50th anniversary of the United Nations Industrial Development Organisation.

TOGETHER
for a sustainable future

DISCLAIMER

This document has been produced without formal United Nations editing. The designations employed and the presentation of the material in this document do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations Industrial Development Organization (UNIDO) concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries, or its economic system or degree of development. Designations such as “developed”, “industrialized” and “developing” are intended for statistical convenience and do not necessarily express a judgment about the stage reached by a particular country or area in the development process. Mention of firm names or commercial products does not constitute an endorsement by UNIDO.

FAIR USE POLICY

Any part of this publication may be quoted and referenced for educational and research purposes without additional permission from UNIDO. However, those who make use of quoting and referencing this publication are requested to follow the Fair Use Policy of giving due credit to UNIDO.

United Nations Industrial Development Organization

Fifth Training Programme in Plastics Technology, 5th,
Vienna, Austria, 23 September - 22 November 1974

LIST OF PARTICIPANTS

<u>Country</u>	<u>Name</u>	<u>Position, address and main field of interest</u>
Algeria	SOUIDI, Mohamed	Chief Refining and Petrochemical Department Institut Algerien du Petrole P. O. Box 10 Dar-El-Beida All aspects of processing of thermo- plastics, processing machine construction and mould design.
Burma	KYI SOE	Chemist Central Research Organization Yankin P.O. Rangoon Chemistry and technology of plastics
Costa Rica	FERNANDEZ, Ricardo	Industrial Coordination Manager Polymer de Costa Rica, S.A. P. O. Box 5123 San José Chemical and mechanical technology of plastics; study of several processes for production of plastic articles: extrusion, injection, thermoforming; design of moulds and machines for above processes; control techniques for this equipment; methods for testing production and raw materials; general knowledge about new machines and techniques in the production of plastics.

We regret that some of the pages in the microfiche copy of this report may not be up to the proper legibility standards, even though the best possible copy was used for preparing the master fiche.

<u>Country</u>	<u>Name</u>	<u>Position, address and main field of interest</u>
Cyprus,	HADJIMANOLIS, Stelios	Engineer Neoplast Ltd. P. O. Box 201 Famagusta Plastics processing and application
Egypt, Arab Republic of	ARAFI, Ibrahim	Chief Plastics Department National Plastic Company 15 Emad El Din St. Cairo Processing, testing and quality control of plastics
Honduras	YACAMAN FLORES, Jose Abraham	Industrial Coordinator Polymer S.A. P. O. Box 610 San Pedro Sula Extrusion techniques of blown film of polyethylene, low density and high density; polypropylene; printing and conversion; packing systems; storage systems for raw materials; manufacture of polypropylene fibres; extrusion of PVC piping; extrusion of polyethylene.
India	MARAYANAN, Kalpathy Chidambaram	Director Small Industries Service Institute (S.I.S.I.) Government of India Barkatpura Hyderabad-27 Chemical and mechanical technology of plastics; machine and mould design; electrical engineering and control techniques; mixing; kneading, rolling, crushing, etc.; extrusion and calendering; injection moulding; compression and transfer moulding; testing; reinforced plastics; semi- manufactured goods; foams; intensive training in a selected plant to cover techno-economic aspects of plastics, production, fabrication and utilization
Iraq	AL-HASHIMI, Jalil Jawad	Engineer State Organization of Industrial Design and Construction Planning Department, Plastics Group Ministry of Industry Baghdad

<u>Country</u>	<u>Name</u>	<u>Position, address and main field of interest</u>
Israel	DEGAN, Anca Irina	Engineer Centre for Industrial Research P. O. Box 311 Haifa Chemical and mechanical technology of plastics; machine and mould design; electrical engineering and control techniques; compounding; extrusion and calendaring; injection moulding; compression and transfer moulding; testing; reinforced plastics; semi-manufactured goods; foams.
Malaysia	LOW, Say Pun	Lecturer Department of Chemical Engineering University of Malaya Kuala Lumpur Chemistry and technology of plastics; technical services to plastics industry.
Nigeria Federal Republic of	ABONKHAI, Samuel Ifije	Research Officer Federal Institute of Industrial Research P.M.B. 1023 Ikeja, Lagos Chemical and mechanical technology of plastics; machine and moulding design; electrical engineering and control techniques; utilization of natural gas and petroleum products in the production of plastics materials; effect of the variation in the structure of the monomers in the properties of the plastics materials; the industrial techniques of processing raw plastic materials, moulding, controlling and checking the properties of plastics.
Pakistan	ZAIDI, Syed Sami-Ul Hassan	Senior Technologist Pakistan PVC Ltd. Al-Haroon Garden Road Karachi Chemical and mechanical technology of plastics; machine and mould design; extrusion and calendaring; injection moulding; testing.

<u>Country</u>	<u>Name</u>	<u>Position, address and main field of interest</u>
Philippines	JIMENEZ, Teodoro Baltazar	Head Tuboplast Plant San Miguel Corporation Makati Rizal Different types of plastic compounds and other new developments in materials, their chemical composition and properties; different modern processing techniques used to convert different types of plastic compounds to finished products in relation to the properties of plastics; selection of modern processing equipment for the different methods of processes; design of moulds and dies for the injection moulding process for different shapes and sizes of the items to be produced, and design of dies for the extrusion process; materials used in the fabrication of moulds and dies; quality control and testing for both raw materials and finished products; plant layout for setting a modern processing plant.
Poland	PIKON, Tadeusz Jan	Manager Ośrodek Badawczo-Rozwojowy Przetwórstwa Tworzyw Sztucznych ul. Maryńskiego 63 Mikolów Chemical and mechanical technology of plastics; modern plastics technology - PVC, PE, PP; modern processing equipment; application and utilization of plastics
Syrian Arab Republic	AL-SHEIKH, Harwan Jamil	Chemical Engineer Aleppo - Plastic Products Corporation Damascus Quality control, plastics processing.
Tanzania	MCHOMBU, Andrew	Technician Tinganyika Wapya (Plastics) Ltd. P. O. Box 2219 Dar Es Salaam Plastics processing (PVC pipes) and application.

<u>Country</u>	<u>Name</u>	<u>Position, address and main field of interest</u>
Thailand	DIJAPHALA, Thaveechai	Scientific Officer Biological Science Division Dept. of Science Ministry of Industry Rama VI Road Bangkok Plastics fabrication technology including use and selection of modern processing equipment; quality control and testing as well as various applications of plastics; modern techniques and methods of analysis of plastics with particular reference to plasticizers and toxicity; study the possibility of obtaining licences and know-how on process as well as equipment.
Uruguay	JAURE, Pedro Alberto	Technical Assessor Vinitron SRL Durazno 921 Montevideo Extruders (1 and 2 screws) - design of heads, screws and cylinders, temperature, pressure and velocity controls; injection, pressure and vacuum moulding - design and controls; calendaring process - design and controls; electronic equipment for soldering; compounds of PVC and polyolefins - mixers and mills.
Yugoslavia	EDVICHVIC, Milemarka	Leading engineer on research and development Chemical Industry "Milan Blagojevic" 32240 Lučan Testing and quality control; plastics processing
