INTRODUCTION

The United Nations Industrial Development Organisation (UNIDO) promotes the use of industrial information in developing countries by guiding the organizations involved in the improvement of local information facilities. One of the means of achieving this is the compilation of directories and guides to basic information sources.

The UNIDO work programmes for 1972-1974 include the compilation of a series of directories and guides, listing selected information sources on branches of industry of primary concern to developing countries. The present guide is the thirteenth in the series entitled UNIDO Guides to Information Sources (UNIDO/LIB/SER.D). A list of the guides published to date appears inside the back cover of this guide; many more guides are planned for this series.

The directories and guides are not intended to be exhaustive, nor are they intended as research tools; rather, they present a selection of sources that are considered to be of practical value to users. The data have been compiled so as to facilitate rapid access to the bodies referred to and the acquisition of the publications listed.

In the compilation of the present guide, emphasis has been placed on the production side of the feedstuff industry. The field of animal sciences has been approached only from the nutritional side. Supplier industries to the feedstuff industry have not been covered.

The development of the feedstuff industry is an important stimulant for further industrialization of developing countries and can be an important source of foreign exchange. The feedstuff industry provides industrialists with an opportunity to efficiently utilize a variety of industrial by-products and wastes from agro-based industries.

UNIDO actively sponsors the establishment of feedstuff factories in developing countries as well as the industrial production of feed components from domestic raw materials destined for exports.

EXPLANATORY NOTES

The designations employed and the presentation of the material in this guide do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country or territories, or concerning the delimitation of its frontiers.

Publications listed in this guide have been selected mainly from literature in the official languages of the United Nations; when appropriate, publications in other languages have also been included.

The names of organizations listed in section I are given in their original languages, wherever available; for organizations listed in languages other than the official languages of the United Nations, a translation of the title into English is included.

Where available, the date and the number of pages of the most recent known edition are indicated, as well as the address of the issuing organization or publisher.

United Nations sales publications should be ordered by sales number. They are available through authorized distributors or may be ordered from:

Sales Section Publishing Service United Nations New York, New York 10017 United States of America	or	Sales Section United Nations Office Palais des Nations CH-1211 Geneva 10, Switzerland
---------------------------------------------------------------------------------------------------------------	----	------------------------------------------------------------------------------------------------

Requests for non-sales items that are issued by the United Nations and related bodies should be made direct to the issuing bodies.

Suggestions for the inclusion of additional information in a future, revised version would be appreciated and should be addressed to:

INTRODUCTION

Pour faciliter la diffusion et l'utilisation de l'information industrielle dans les pays en voie de développement, l'Organisation des Nations Unies pour le développement industriel aide les organismes qui cherchent à améliorer les moyens d'information locaux. Elle établit notamment à cet effet des répertoires et des guides des principales sources d'information.

Les programmes de travail de l'ONUDI pour 1972-1974 prévoient l'établissement d'une série de répertoires et de guides de sources d'information sur les secteurs industriels qui présentent un intérêt majeur pour les pays en voie de développement. Le présent guide est le treizième de la série des Guides des sources d'information (UNIDO/LIB/SER.D). On trouvera à la page 3 de la couverture la liste des guides déjà parus. On prévoit d'en publier de nombreux autres.

Les ouvrages de cette série ne prétendent pas être exhaustifs; ce ne sont pas non plus des instruments de recherche, mais de simples guides pratiques des sources d'information qui visent à répondre aux besoins immédiats des utilisateurs. Toutes les précisions utiles ont été autant que possible données pour permettre à ceux-ci de se mettre directement en rapport avec les sources d'information mentionnées et d'obtenir rapidement les publications auxquelles ils s'intéressent.

Dans le présent volume, on a mis l'accent sur les techniques et l'organisation de la production dans l'industrie des aliments du bétail. Les sciences de la vie animale n'y sont abordées que du point de vue de la nutrition. Il n'y est pas question des secteurs qui approvisionnent l'industrie des aliments du bétail.

Le progrès de cette industrie contribue puissamment à pousser l'industrialisation des pays en voie de développement, et elle peut devenir une source importante de devises. L'industrie des aliments du bétail fournit aux entreprises l'occasion d'utiliser avec profit divers sous-produits industriels et déchets d'origine agricole.

L'ONUDI encourage activement la création de fabriques d'aliments du bétail dans les pays en voie de développement ainsi que la production industrielle d'éléments nutritifs à partir de matières premières locales en vue de leur exportation.

NOTES EXPLICATIVES

Les appellations employées dans la présente publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique de tel ou tel pays ou territoire, ou de ses autorités, ni quant au tracé de ses frontières.

Les publications énumérées dans le présent volume sont pour la plupart rédigées dans les langues officielles de l'Organisation des Nations Unies; toutefois, certains documents publiés en d'autres langues ont aussi été mentionnés.

Les noms des organisations énumérées à la section I sont donnés le plus souvent dans la langue originale. Les noms des organisations libellés en des langues autres que les langues officielles de l'Organisation des Nations Unies ont été traduits en anglais.

Nous avons, aussi souvent que nous l'avons pu, précisé la date et le nombre de pages de l'édition la plus récente ainsi que l'adresse de l'éditeur ou de l'organisation qui a publié le document.

On peut se procurer les publications des Nations Unies auprès de distributeurs autorisés ou les commander à l'une des adresses suivantes, en mentionnant le numéro de vente :

ВВЕДЕНИЕ

Организация Объединенных Наций по промышленному развитию (ЮНИДО) содействует использованию промышленной информации в развивающихся странах путем предоставления консультаций заинтересованным организациям в деле улучшения работы местных средств информации. Одной из важных мер такого содействия является составление справочников и руководств в отношении основных источников информации.

Программы деятельности ЮНИДО на 1972-1974 годы предусматривают составление ряда справочников и руководств, в которых содержится перечень отдельных источников информации по отраслям промышленности, имеющим первостепенное значение для развивающихся стран. Настоящее руководство является тринадцатым в серии UNIDO Guides to Information Sources (UNIDO/LIB/SKR.D). Список руководств, опубликованных до настоящего времени, приводится на третьей странице обложки данного руководства; для этой серии планируется публикация еще целого ряда руководств.

Такие справочники и руководства не ставят своей целью быть исчерпывающими и не предназначены для исследовательских целей, а скорее представляют собой источники, которые имеют практическую ценность для тех, кто ими пользуется. В этих справочниках данные подобраны и представлены таким образом, чтобы облегчить как доступ к получению информации в тех организациях, на которые имеется ссылка, так и приобретение перечисленных изданий.

При составлении настоящего руководства основное внимание было уделено производственным аспектам промышленной деятельности в области производства кормов. Область науки о животных была затронута лишь с точки зрения производства кормов. Отрасли промышленности, снабжающие промышленность по производству кормов, не рассматриваются.

Развитие промышленности по производству кормов является важным стимулом к дальнейшему осуществлению индустриализации развивающихся стран и может стать важным источником получения иностранной валюты. Промышленность по производству кормов открывает для промышленников возможность эффективного использования целого ряда промышленных побочных продуктов и отходов от промышленной переработки сельскохозяйственного сырья.

ЮНИДО активно приступила к созданию фабрик по производству кормов в развивающихся странах, а также к промышленному производству пищевых компонентов из имеющихся местных сырьевых материалов, предназначенных на экспорт.

ПОЯСНИТЕЛЬНЫЕ ЗАМЕЧАНИЯ

Используемые обозначения, представление и распределение материалов в настоящем руководстве не означают, что Секретариат Организации Объединенных Наций выражает какое-либо мнение относительно юридического статуса той или иной страны, или ее органов власти, или относительно определения ее границ.

Публикации, перечисленные в данной справочнике, отобраны в основном из литературы, изданной на официальных языках Организации Объединенных Наций; там где это необходимо, включены публикации на других языках.

Названия организаций, перечисленных в разделе I, приводятся на языке оригинала в тех случаях, когда они известны; названия организаций, представленных на языках, не являющихся официальными языками Организации Объединенных Наций, переведены на английский язык.

В зависимости от наличия указываются дата и количество страниц самого последнего известного издания, а также адрес организации, выпускающей публикацию, или издателя.

Предназначенные для продажи публикации Организации Объединенных Наций следует заказывать по соответствующему номеру для продажи. Их можно приобрести через официальные издательства или заказать в:

INTRODUCCION

La Organización de las Naciones Unidas para el Desarrollo Industrial (ONUDI) promueve la utilización de información industrial en los países en desarrollo, proporcionando orientación a las organizaciones que se ocupan de mejorar los servicios locales de información. Uno de los medios de lograrlo es la compilación de guías y repertorios de fuentes básicas de información.

Los programas de trabajo de la ONUDI para 1972-1974 comprenden la compilación de una serie de guías y repertorios, en los que se registran determinadas fuentes de información sobre ramas industriales de interés primordial para los países en desarrollo. La presente guía es la decimotercera de la serie Guides to Information Sources (UNIDO/LIB/SER.D) que publica la ONUDI. La lista de las guías publicadas hasta la fecha figura en el anverso de la contratapa de la presente guía; se prevé la publicación de muchas guías más en esta serie.

Las guías no pretenden ser exhaustivas ni están destinadas a servir de instrumentos de investigación; presentan, más bien, una selección de fuentes que se consideran de valor práctico para los usuarios. Los datos se han recopilado de modo tal que faciliten el rápido acceso a las entidades mencionadas y la adquisición de las publicaciones que se indican.

En la compilación de la presente guía, se ha hecho hincapié en los aspectos de producción de la industria elaboradora de materias destinadas a la alimentación de animales. Se ha enfocado el terreno de la zootecnia únicamente desde el punto de vista de la nutrición. No están comprendidas las industrias que abastecen de insumos a la industria de elaboración de piensos.

El desarrollo de esta última representa un valioso estímulo para la industrialización ulterior de los países en desarrollo y puede constituir una fuente importante de divisas. La industria de elaboración de piensos brinda a los industriales la oportunidad de aprovechar económicamente una diversidad de productos secundarios y desperdicios industriales de las agroindustrias.

La ONUDI patrocina activamente el establecimiento de fábricas de piensos en los países en desarrollo, así como la producción industrial de ingredientes de piensos a partir de materias primas locales destinadas a la exportación.

NOTAS EXPLICATIVAS

Las denominaciones empleadas en esta guía y la forma en que aparecen presentados los datos que contiene no implican, de parte de la Secretaría de las Naciones Unidas, juicio alguno sobre la condición jurídica de ninguno de los países citados o de sus autoridades, ni respecto de la delimitación de sus fronteras.

Las publicaciones que aquí se indican se han seleccionado principalmente de entre la literatura publicada en los idiomas oficiales de las Naciones Unidas; cuando procede, también se mencionan publicaciones aparecidas en otros idiomas.

Los nombres de las organizaciones mencionadas en la sección I aparecen en su idioma original cuando así constan; en los casos de organizaciones cuyos nombres están en idiomas no reconocidos como oficiales por las Naciones Unidas, se ha dado el título correspondiente en inglés.

Se indican la fecha y el número de páginas de la edición más reciente, así como la dirección de la organización que la publica o de la casa editora, cuando tales datos se conocen.

Los pedidos de publicaciones de las Naciones Unidas han de hacerse por número de venta. Dichas publicaciones se pueden obtener por conducto de distribuidores autorizados, o haciendo un pedido a:
