INTRODUCTION

The United Nations Industrial Development Organisation (UNIDO) promotes the use of industrial information in developing countries by giving guidance in improving local information facilities. As one of the means of promotion UNIDO compiles directories and guides to selected information sources on branches of industry of primary concern to developing countries. The present guide, dealing with the printing and graphics industry, is the fourteenth in the series of UNIDO Guides to Information Sources (UNIDO/LIB/SER.D). A list of the guides published to date appears inside the back cover of this guide; many more are planned for the series.

The directories and guides are not intended to be exhaustive, nor are they intended as research tools; rather, they present sources considered to be of practical value to users. The data have been compiled so as to facilitate rapid access to the bodies referred to and the acquisition of the publications listed.

The rapid improvement of educational facilities and the growth of communications enhance the potential of the printing and graphics industry in developing countries. UNIDO actively sponsors the development of all facets of the printing and graphics industry in the developing countries in their endeavours to tackle the problems of industrial growth on a broad basis.

INTRODUCTION

Pour faciliter la diffusion et l'utilisation de l'information industriels dans les pays en voie de développement, l'Organisation des Nations Unies pour le développement industriel (ONUDI) aide ces pays à améliorer leurs moyens d'information, notamment en établissant des répertoires et des guides des principales sources d'information sur les secteurs industriels qui présentent pour eux un intérêt majeur. Le présent guide, qui concerne l'imprimerie et les arts graphiques, est le quatorzième de la série des Guides des sources d'information (UNIDO/LIB/SER.D). On trouvera à la page 3 de la couverture la liste des guides déjà parus. De nombreux autres sont prévus.

Les ouvrages de cette série ne prétendent pas être exhaustifs; ce ne sont pas non plus des instruments de recherche, mais de simples guides des sources d'information considérées comme présentant un intérêt pratique pour les utilisateurs. Les données sont présentées de manière à permettre à ceux-ci de se mettre rapidement en rapport avec les sources d'information mentionnées et d'obtenir les publications auxquelles ils s'intéressent.

Les progrès rapides accomplis dans le domaine de l'enseignement et l'expansion des communications élargissent les possibilités offertes au secteur de l'imprimerie et des arts graphiques dans les pays en voie de développement. L'ONUDI aide activement ces pays à développer tous les éléments de ce secteur dans le cadre des efforts qu'ils déploient pour résoudre les multiples problèmes que leur pose l'industrialisation.

ВВЕДЕНИЕ

Организация Объединенных Наций по промышленному развитию (ЮНИДО) содействует использованию промышленной информации в развивающихся странах путем осуществления руководства в деле улучшения местных средств информации. Одним из средств содействия развитию является составление в ЮНИДО справочников и руководств к отдельным источникам информации по отраслям промышленности, имеющим первостепенное значение для развивающихся стран. Настоящее руководство по полиграфической промышленности является четырнадцатым в серии UNIDO Guides to Information Sources (UNIDO/LIB/ISR.D). Перечень руководств, выпущенных до настоящего времени, приводится на третьей странице обложки настоящего руководства; по этой серии планируется выпуск еще целого ряда руководств.

Такие справочники и руководства не ставят своей целью быть исчерпывающими или служить в качестве средств исследования; в них скорее представлены источники, которые предположительно имеют практическую ценность для тех, кто ими пользуется. Данные в этих справочниках подобраны таким образом, чтобы облегчить как доступ к получению информации в тех организациях, на которые имеется ссылка, так и приобретение перечисленных изданий.

Быстрое улучшение базы для обучения и рост связей повышают потенциал полиграфической промышленности в развивающихся странах. ЮНИДО активно поддерживает всестороннее развитие полиграфической промышленности в развивающихся странах в их усилиях разрешить проблемы промышленного роста на мировой основе.

INTRODUCCION

La Organización de las Naciones Unidas para el Desarrollo Industrial (ONUDI) promueve la utilización de información industrial en los países en desarrollo proporcionando orientación para el mejoramiento de los servicios locales de información. Uno de los medios de promoción que emplea la ONUDI consiste en compilar guías de fuentes básicas de información sobre ramas de la industria de especial interés para los países en desarrollo. La presente guía, que trata de la imprenta y las artes gráficas, es la decimocuarta de la serie de Guías de Fuentes de Información (UNIDO/LIB/SER.D) que publica la ONUDI. La lista de las guías publicadas hasta la fecha figura en el anverso de la contratapa de la presente guía; se prevé la publicación de muchas guías más en esta serie.

Estas guías no pretenden ser exhaustivas ni están destinadas a servir de instrumentos de investigación; presentan, más bien, una selección de fuentes que se consideran de valor práctico para los usuarios. Los datos se han recopilado de modo tal que facilitan el rápido acceso a las entidades mencionadas y la adquisición de las publicaciones que se indican.

La rápida mejora de los servicios de enseñanza y el desarrollo de las comunicaciones confieren creciente importancia al papel que pueden desempeñar las artes gráficas en los países en desarrollo. La ONUDI patrocina activamente el desarrollo de todas las facetas de esa industria en tales países, dentro del contexto de los esfuerzos que éstos despliegan para hacer frente a los problemas del crecimiento industrial sobre una base amplia.

NOTAS EXPLICATIVAS

Las denominaciones empleadas en esta guía y la forma en que aparecen presentados los datos que contiene no implican, de parte de la Secretaría de las Naciones Unidas, juicio alguno sobre la condición jurídica de ninguno de los países o territorios citados o de sus autoridades, ni respecto de la delimitación de sus fronteras.

Las publicaciones que aquí se indican se han seleccionado principalmente de entre la literatura publicada en los idiomas oficiales de las Naciones Unidas; cuando procede, también se mencionan publicaciones aparecidas en otros idiomas.

Los nombres de las organizaciones y publicaciones aparecen en su idioma original cuando así constan; cuando se dan en idiomas no reconocidos como oficiales dentro de las Naciones Unidas, se incluye la traducción del título correspondiente al inglés.

Se indican la fecha y el número de páginas de la edición más reciente, así como la dirección de la organización que la publica o de la casa editora, cuando tales datos se conocen.

Los pedidos de publicaciones de las Naciones Unidas han de hacerse por número de venta. Dichas publicaciones se pueden obtener por conducto de distribuidores autorizados, o haciendo un pedido a:
