# INDUSTRIAL DEVELOPMENT ABSTRACTS

## Introduction

This publication is intended to provide a specialized guide to documentation on industrialization in developing countries, much of which is unpublished, and to supplement the indexes available from the various United Nations bodies and specialized agencies.

The following material, issued by UNIDO, is indexed in the abstracts: printed publications, such as major studies and reports, publications in series, and selected articles from the *Industrial Research and Development News (IRDN)* and the *Industrialization and Productivity Bulletin*; documents for the Industrial Development Board; reports and proceedings of expert working groups, workshops and seminars; internal studies; public information series; and reports related to technical assistance, including feasibility studies and project reports.

*Industrial Development Abstracts* consists of three parts: an author index, a subject index, by title; and bibliographical abstracts. The number given with each entry in the author and subject indexes is the computer access number of the item. The abstracts are printed in sequence according to the access number, which appears at the top left of each entry. The descriptors used are taken from the *Thesaurus of Industrial Development Terms* (UNIDO/LIB/SER.C/2).

The UNIDO Industrial Information System (INDIS) is patterned after the Integrated Scientific Information System (ISIS) developed by the International Labour Office and is compatible with indexing systems used by other United Nations bodies and specialized agencies, thus facilitating the exchange of information.

Orders for *Industrial Development Abstracts* or for United Nations sales publications indexed in the *Abstracts* should refer to the sales number (for example, UN.F.72.II.B.6) and should be addressed to:

Distribution and Sales Section  
Palais des Nations  
CH-1211 Geneva 10  
Switzerland

or

Sales Section  
United Nations Headquarters  
New York, N.Y. 10017  
United States of America

Inquiries regarding documents other than sales publications should refer to the document symbol (for example, ID/WG.99/10). They should be addressed to:

UNIDO Industrial Documentation Unit  
P.O. Box 707  
A-1011 Vienna, Austria

### Special note

The information published in this issue of *Industrial Development Abstracts* is based entirely on material collected and disseminated by the UNIDO Industrial Inquiry Service.

The UNIDO Industrial Inquiry Service provides practical assistance to developing countries by answering, without charge, their inquiries regarding industrial matters, supplying details about processes, techniques and equipment and information on the economic aspects of industrialization. The Service may be used by officials and technical personnel of public and semi-public bodies concerned with industrial development, and by industrial enterprises of all kinds throughout the developing world.

Much of the technical and industrial knowledge required by the developing countries is already available. Through the Industrial Inquiry Service, UNIDO assembles this information and directs it to where it is needed. To obtain the information requested, the Service draws on the advice and expertise of UNIDO staff and an international network of correspondents. It should be noted, however, that the Service does not deal with purely scientific problems, with those that involve detailed engineering or with those requiring complete feasibility studies or extensive planning and research.

For this special issue of *Industrial Development Abstracts* inquiries were selected covering a wide range of industrial subjects of special interest to developing countries.

# RESUMES D'ETUDES SUR LE DEVELOPPEMENT INDUSTRIEL

## Introduction

Le but de la présente publication est de servir de guide pour une documentation, en grande partie inédite, concernant l'industrialisation des pays en voie de développement, et de fournir un complément aux index publiés par les divers organismes des Nations Unies.

On y trouvera des résumés de diverses catégories de documents de l'ONUDI: publications imprimées (études et rapports importants, publications périodiques, etc.); articles du *Bulletin de la recherche et du développement industriel (BRDI)* et du *Bulletin Industrialisation et Productivité*, documents soumis au Conseil du développement industriel. Y figurent aussi des rapports et comptes rendus de réunions d'experts, de journées d'études et de séminaires, des études internes, des documents d'information et des rapports sur des activités d'assistance technique, y compris des études de faisabilité et des rapports sur les projets.

Les *Résumés d'études sur le développement industriel* sont divisés en trois parties: un index par auteurs, un index par sujets, classés par titres, et des analyses bibliographiques. Le numéro de chaque rubrique dans les listes par auteurs et par sujets correspond au numéro d'enregistrement du document sur fichier magnétique. Les résumés sont classés par ordre numérique d'après leur numéro d'enregistrement qui est reproduit en haut et à gauche de chaque rubrique. Les abréviations utilisées sont tirées du *Thesaurus of Industrial Development Terms* (UNIDO/LIB/SER.C/2).

Le Système d'informations industrielles (INDIS), adopté par l'ONUDI et qui s'inspire du Système intégré d'information scientifique (ISIS) mis au point par le Bureau international du Travail, est conçu de la même manière que les systèmes d'indexation adoptés par d'autres organismes des Nations Unies et institutions spécialisées, ce qui facilite l'échange rapide d'informations.

Les commandes de *Résumés d'études sur le développement industriel*, ou de publications mises en vente par les Nations Unies et faisant l'objet de ces Résumés, doivent rappeler le numéro de vente (par exemple UN-E.72.II.B.6) et être envoyées à l'adresse suivante:

Section des ventes  
Palais des Nations  
CH-1211 Genève 10 (Suisse)

ou

Section des ventes  
Nations Unies  
New York, N.Y. 10017  
(Etats-Unis d'Amérique)

Pour les documents autres que les publications mises en vente, envoyer les demandes, en mentionnant la cote du document choisi (ID/WG.99/10, par exemple), à l'adresse suivante :

Bureau de documentation industrielle  
Organisation des Nations Unies pour le développement industriel  
(ONUDI)  
Boîte postale 707  
A-1011 Vienne (Autriche)

### Note spéciale

Les renseignements publiés dans le présent volume de la série intitulée *Industrial Development Abstracts* (Résumés d'études sur le développement industriel) proviennent tous de la documentation établie et diffusée par le Service de renseignements industriels de l'ONUDI.

Le Service de renseignements industriels de l'ONUDI fournit une assistance pratique aux pays en voie de développement en répondant gratuitement à leurs demandes de renseignements d'ordre industriel, leur donnant des indications détaillées sur les procédés, les techniques et le matériel industriels et des données d'information sur les aspects économiques de l'industrialisation. Ces demandes peuvent émaner des fonctionnaires ou du personnel technique des organismes publics et semi-publics s'occupant du développement industriel, ainsi que de toute entreprise industrielle des pays en voie de développement.

Une grande partie des renseignements techniques et industriels nécessaires aux pays en voie de développement peuvent déjà être fournis. L'ONUDI recueille ces renseignements et les donne à ceux qui en ont besoin par l'intermédiaire du Service de renseignements industriels. Pour obtenir les renseignements demandés, le Service fait appel aux conseils et aux connaissances spécialisées du personnel de l'ONUDI ainsi qu'à son réseau international de correspondants. Toutefois, il y a lieu de noter que le Service ne s'occupe pas des problèmes de caractère purement scientifique, ni de ceux qui nécessitent des études techniques exhaustives, des études complètes de faisabilité ou une planification ou une recherche approfondies.

Pour le présent numéro spécial de la série des *Résumés d'études sur le développement industriel*, les renseignements ont été choisis de manière à porter sur une gamme étendue de sujets industriels présentant un intérêt particulier pour les pays en voie de développement.

# РЕФЕРАТИВНЫЙ ЖУРНАЛ ПО ПРОМЫШЛЕННОМУ РАЗВИТИЮ

## Введение

Эта публикация предназначена служить специализированным указателем документации, часто не опубликованной, по вопросам индустриализации развивающихся стран, а также заполнить пробелы, имеющиеся в указателях, публикуемых различными органами и специализированными учреждениями Организации Объединенных Наций.

В реферативном журнале индексируется следующий материал, публикуемый ЮНИДО: печатные публикации, такие, как основные исследования и доклады, а также серийные выпуски; отдельные статьи из журналов «Новости промышленных исследований и развития» (IRDN) и «Бюллетень индустриализации и производительности труда»; документы, представляемые Совету по промышленному развитию, доклады и труды рабочих групп экспертов, совещаний и семинаров; внутриорганизационные исследования, общественно-информационные серии; а также доклады по вопросам технической помощи, включая предпроектные исследования и доклады по проектам.

*Реферативный журнал по промышленному развитию* состоит из трех частей: указателя авторов, предметного указателя по заголовкам и библиографии. Цифра, проставляемая с каждой статьей в указателе авторов и предметном указателе, является кодовым номером для электронно-вычислительного устройства по данной статье. Аннотации печатаются последовательно в соответствии с кодовым номером, который ставится слева вверху от каждой статьи. Используемые символы взяты из словаря терминов по промышленному развитию (*Thesaurus of Industrial Development Terms*) (UNIDO/LIB/SER. C/2).

Система промышленной информации ЮНИДО (INDIS) аналогична интегрированной системе научной информации (ISIS), разработанной Международным бюро труда, и совместима с системами индексирования, используемыми другими органами и специализированными учреждениями Организации Объединенных Наций, облегчая тем самым обмен информацией.

Заявки на *Industrial Development Abstracts* или на поступающие в продажу издания Организации Объединенных Наций, указанные с индексом в реферативном журнале, должны сопровождаться ссылкой на номер, под которым они поступают в продажу (например, UN-F 72 II В 6), и направляться по адресу:

Секция по распространению и продаже изданий,  
Штаб-квартира Организации Объединенных Наций,  
Нью-Йорк, NY 10017, Соединенные Штаты Америки.

Секция ООН по продаже изданий,  
Дворец Наций,  
Женева, Швейцария

Заявки, касающиеся другой документации помимо изданий, поступающих в продажу, просьба направлять, указывая символ документа (например, ID WG 99 10), по адресу:

ЮНИДО. Группа промышленной документации,  
P.O. Box (почтовый ящик) 707,  
A-1011, Вена, Австрия.

#### Дополнительное замечание

Информация, публикуемая в данном выпуске Реферативного журнала по вопросам промышленного развития (*Industrial Development Abstracts*), полностью основывается на материале, который собирает и распространяет Служба промышленной информации ЮНИДО по запросам развивающихся стран.

Служба промышленной информации ЮНИДО по запросам развивающихся стран оказывает практическую помощь развивающимся странам, отвечая бесплатно на запросы этих стран по проблемам промышленного развития, предоставляя конкретные данные по процессам производства, по технологии и оборудованию, а также информацию по экономическим аспектам индустриализации. Услугами Службы могут пользоваться должностные лица и инженерно-технический персонал государственных и полугосударственных учреждений, занимающихся вопросами промышленного развития, а также промышленные предприятия любого профиля во всех развивающихся странах.

Уже имеется значительный объем технических знаний, необходимых для развивающихся стран. С помощью Службы промышленной информации по запросам развивающихся стран ЮНИДО накапливает эту информацию и направляет ее в те страны, которым она необходима. Для получения требуемой информации Служба пользуется консультациями и экспертным обслуживанием со стороны сотрудников ЮНИДО, а также международной сети корреспондентов. Однако следует отметить, что Служба не занимается чисто научными проблемами, связанными с конкретным конструированием или требующими проведения полных предпроектных исследований или обширного планирования и исследований.

Для данного специального выпуска Реферативного журнала по вопросам промышленного развития (**Industrial Development Abstracts**) были отобраны запросы, охватывающие широкий ряд аспектов промышленного развития, представляющих особый интерес для развивающихся стран.

# EXTRACTOS DE DESARROLLO INDUSTRIAL

## Introducción

Esta publicación tiene por objeto servir de guía especializada de la documentación relativa a la industrialización de los países en desarrollo, documentación en gran parte inédita, y de suplemento de los índices que pueden proporcionar los diversos órganos y organismos especializados de las Naciones Unidas.

En los extractos se clasifica el siguiente material, publicado por la ONUDI: publicaciones impresas, como informes y estudios principales, publicaciones que forman parte de series y artículos seleccionados de *Noticias sobre Investigación y Desarrollo Industriales* (NIDI) y del *Boletín de Industrialización y Productividad*, documentos preparados para la Junta de Desarrollo Industrial; informes y actas de grupos de expertos, cursos prácticos de capacitación y seminarios; estudios internos; series de información pública; e informes sobre cuestiones de asistencia técnica, incluidos estudios de viabilidad e informes sobre proyectos.

Los *Industrial Development Abstracts* constan de tres partes: un índice de autores, un índice de materias, por títulos, y extractos bibliográficos. El número que acompaña a cada autor o materia en los índices correspondientes es el número de entrada que les está asignado en la computadora. Los extractos se publican siguiendo el orden de esos números de entrada, que figuran en la esquina superior izquierda de cada inscripción. Los descriptores empleados se han tomado del *Thesaurus of Industrial Development Terms* (UNIDO/LIB/SER.C/2).

El Sistema de Información Industrial de la ONUDI (INDIS) sigue las líneas generales del Sistema Integrado de Información Científica (ISIS), desarrollado por la Oficina Internacional del Trabajo, y es compatible con los sistemas de índices empleados por otros órganos y organismos especializados de las Naciones Unidas, lo cual facilita el intercambio de información.

En todo pedido de *Industrial Development Abstracts*, o de publicaciones de las Naciones Unidas destinadas a la venta que figuran en los *Abstracts*, se debe hacer mención del número de venta (por ejemplo, UN-E.72.II.B.6). Los pedidos deben enviarse a

Sección de Distribución y Ventas	o bien a	Sección de Ventas
Palacio de las Naciones		Naciones Unidas

Las consultas relativas a documentos que no sean publicaciones destinadas a la venta pueden hacerse, mencionando la signatura respectiva (por ejemplo, ID/WG.99/10), a la siguiente dirección:

Grupo de Documentación Industrial  
ONUDI, P.O. Box 707  
A-1011 Viena, Austria

### **Nota especial**

La información publicada en este número de los *Industrial Development Abstracts* está basada enteramente en material recopilado y divulgado por el Servicio de Consultas Industriales de la ONUDI.

El Servicio de Consultas Industriales de la ONUDI proporciona asistencia práctica a los países en desarrollo, contestando gratuitamente las consultas que éstos formulan en relación con cuestiones industriales y facilitando datos sobre procesos, técnicas y equipo, así como información sobre los aspectos económicos de la industrialización. El Servicio puede ser utilizado por funcionarios y personal técnico de organismos públicos y paraestatales que se ocupan del desarrollo industrial y por toda clase de empresas industriales del mundo en desarrollo.

Gran parte de los conocimientos técnicos e industriales que necesitan los países en desarrollo ya están disponibles. La ONUDI reúne esta información a través del Servicio de Consultas Industriales, y la envía a quienes la necesitan. Para obtener la información solicitada, el Servicio recurre al asesoramiento y la experiencia de funcionarios de la ONUDI, así como a una red internacional de corresponsales. Debe señalarse, sin embargo, que este Servicio no se ocupa ni de problemas puramente científicos ni de los que comprenden cuestiones complejas de ingeniería, como tampoco de aquéllos que requieren estudios completos de viabilidad o una extensa planificación e investigación.

Para este número especial de los *Industrial Development Abstracts* se seleccionaron consultas que abarcan una amplia gama de temas industriales de especial interés para los países en desarrollo.
