Industrial Development Board

Third Session

Vienna, 24 April - 15 May 1969

RESOLUTION ADOPTED BY THE INDUSTRIAL DEVELOPMENT BOARD

Financial questions relating to the regular programme of technical assistance of the United Nations Industrial Development Organization

The Industrial Development Board.

Having considered the recommendation contained in the report of the seventh session of the Governing Council of the United Nations Development Programme to the forty-seventh session of the Economic and Social Council published in document E/4609, reference to which is made in document ID/B/49.

Noting that the above recommendation is to the effect that the Economic and Social Council proposes to the General Assembly certain changes in the programming and budgeting procedures of the regular programme of technical assistance that would modify the present procedures established under General Assembly resolution 2298 (XXII) of 12 December 1967 that set up a separate section in part V of the budget of the United Nations for the programme of technical assistance in industrial development,

Recognizing that the establishment of a separate section for this programme in the budget has considerably expedited assistance in the field of industrial development to meet the needs of the developing countries,

Also recognizing the necessity for advance planning in the field of industrial development and for having specific resources available for this purpose,

1. Considers that the present programming and budgeting procedures providing for a separate section in part V of the United Nations budget for the needs of technical assistance in industrial development as decided by General Assembly resolution 2298 (XXII) should be maintained;

2. Requests the Executive Director to convey the present resolution to the next session of the General Assembly.
