## INTRODUCTION

The United Nations Industrial Development Organization (UNIDO) promotes the use of industrial information in developing countries by giving guidance in improving local information facilities. As one of the means of promotion UNIDO compiles directories and guides to selected information sources on branches of industry of primary concern to developing countries. The present guide, dealing with the vegetable oil processing industry, is a revised and updated version of the seventh guide in the series of *UNIDO Guides to Information Sources* (UNIDO/LIB/SER.D). A list of the guides published to date appears at the end of this guide; more are planned for the series.

The directories and guides are not intended to be exhaustive, nor are they intended to be research tools; rather, they present sources considered to be of practical value to users. The data have been compiled so as to facilitate rapid access to the bodies referred to and the acquisition of the publications listed.

The vegetable oil industry, which is one of the basic agro-industries, plays an important role in the industrialization of developing countries. A great variety of oilseeds and oil-bearing fruits are grown in tropical and subtropical areas of developing countries, providing the natural raw materials needed to establish a vegetable oil processing industry. An important component also of this industrial branch is the production of protein oil-cakes and extracted meal, which form the basis of the animal feed industry. The availability of such mixed compounded feed is, in turn, a pre-condition for the introduction and application of modern livestock and poultry raising methods.

UNIDO assists developing countries in establishing and developing the vegetable oil industry to augment the food supply of their population and to facilitate import substitution and foreign exchange earnings.

Users of the present guide are also referred to Guides No. 13 (*Animal Feed Industry*), No. 18 (*Paint and Varnish Industry*) and No. 24 (*Soap and Detergent Industry*), which contain information relevant to the vegetable oil industry not duplicated here.

## EXPLANATORY NOTES

The designations employed and the presentation of the material in this guide do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country or its authorities, or concerning the delimitation of its frontiers.

Publications listed in this guide have been selected mainly from literature in the official languages of the United Nations; when appropriate, publications in other languages have also been included.

The names of organizations and publications are given in their original languages, wherever available; for those listed in languages other than the official languages of the United Nations, a translation of the title into English is included.

Where available, the date and the number of pages of the most recent known edition are indicated as well as the address of the issuing organization or publisher.

United Nations sales publications should be ordered by sales number. They are available through authorized distributors or may be ordered from:

Sales Section		Sales Section
Publishing Service		United Nations Office
United Nations	or	Palais des Nations
New York, New York 10017		CH-1211 Geneva 10
United States of America		Switzerland

Requests for non-sales items that are issued by the United Nations and related bodies should be made direct to the issuing bodies.

Suggestions for the inclusion of additional information in a future, revised version would be appreciated and should be addressed to:

## INTRODUCTION

Pour faciliter l'utilisation de l'information industrielle dans les pays en développement, l'Organisation des Nations Unies pour le développement industriel (ONUDI) donne des conseils propres à améliorer les moyens d'information locaux. A ce titre, l'ONUDI établit des répertoires et des listes de certaines sources d'information sur les branches d'industrie présentant un intérêt primordial pour les pays en développement. Le présent ouvrage, qui porte sur l'industrie du traitement des huiles végétales, est une version révisée et mise à jour du septième guide de la série intitulée *Guides des sources d'information* (UNIDO/LIB/SER.D). On trouvera à la fin du présent ouvrage la liste des guides déjà parus; on prévoit d'en publier d'autres.

Les guides et les répertoires ne prétendent pas être exhaustifs; ce ne sont pas non plus des instruments de recherche mais de simples guides des sources d'information que l'on juge présenter un intérêt pratique pour les usagers. Les données qu'ils contiennent sont présentées de manière à permettre aux utilisateurs de se mettre facilement en rapport avec les sources mentionnées et d'obtenir rapidement les publications indiquées.

L'industrie des huiles végétales, qui est une des agro-industries de base, joue un rôle important dans l'industrialisation des pays en développement. Les régions tropicales et subtropicales des pays en développement produisent une grande variété de graines et de fruits oléagineux, matières premières naturelles nécessaires pour créer une industrie de traitement des huiles végétales. Cette branche industrielle produit aussi, et c'est important, des tourteaux riches en protéines et des farines qui constituent la base de l'industrie des aliments pour le bétail. Ces aliments composés sont, de leur côté, indispensables pour la mise en oeuvre de méthodes modernes d'élevage du bétail et de la volaille.

L'ONUDI aide les pays en développement à créer et développer des industries du traitement des huiles végétales pour augmenter les approvisionnements alimentaires de leur population, faciliter le remplacement des importations et dégager des recettes en devises.

Les utilisateurs du présent ouvrage peuvent aussi se reporter aux guides N° 13 (Animal Feed Industry), N° 18 (Paint and Varnish Industry) et N° 24 (Soap and Detergent Industry), qui contiennent au sujet de l'industrie des huiles végétales des informations qui n'ont pas été reproduites ici.

## NOTES EXPLICATIVES

Les appellations employées dans la présente publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique de tel ou tel pays ou territoire ou de ses autorités, ni quant au tracé de ses frontières.

Les publications énumérées dans le présent volume sont pour la plupart rédigées dans les langues officielles de l'Organisation des Nations Unies; toutefois, certains documents publiés dans d'autres langues ont aussi été mentionnés.

Les noms des organisations et les titres des publications sont donnés le plus souvent possible dans la langue originale; les noms des organisations et les titres des publications libellés dans des langues autres que les langues officielles de l'Organisation des Nations Unies ont été traduits en anglais.

Nous avons, aussi souvent qu'il était possible, précisé la date et le nombre de pages de l'édition la plus récente ainsi que l'adresse de l'éditeur ou de l'organisation qui a publié le document.

On peut se procurer les publications des Nations Unies auprès des distributeurs autorisés ou les commander à l'une des adresses suivantes, en mentionnant le numéro de vente :

## ВВЕДЕНИЕ

Организация Объединенных Наций по промышленному развитию (ЮНИДО) содействует использованию промышленной информации в развивающихся странах путем предоставления рекомендаций в деле улучшения работы местных служб информации. Одним из средств содействия такому виду деятельности ЮНИДО являются справочники и руководства по отдельным источникам информации применительно к отраслям промышленности, которые имеют первостепенное значение для развивающихся стран. Настоящее руководство, касающееся промышленности по производству растительных масел, является пересмотренным и уточненным вариантом седьмого руководства в серии руководств ЮНИДО по источникам информации *UNIDO Guides to Information Sources* (UNIDO/LIB/SER. D). Список руководств, опубликованных к настоящему времени, приведен в конце данного руководства; планируется выпуск других руководств.

Справочники и руководства не ставят своей целью быть исчерпывающими и не являются средствами исследования; в них скорее представлены источники, которые, как полагают, имеют практическую ценность для тех, кто ими пользуется. Данные подобраны таким образом, чтобы содействовать быстрому установлению связи с организациями, на которые имеется ссылка, и облегчить приобретение перечисленных изданий.

Промышленность по производству растительных масел, которая является одной из основных отраслей агропромышленности, играет важную роль в индустриализации развивающихся стран. Большое разнообразие масличных семян и фруктов произрастает в тропических и субтропических районах развивающихся стран, которые являются природными сырьевыми материалами, необходимыми для создания промышленности по производству растительных масел. Важным компонентом этой отрасли промышленности является также производство белкового жмыха и мучного экстракта, которые составляют базу кормовой промышленности животноводства. Наличие такого смешанного комбинированного корма является в свою очередь предпосылкой для внедрения и применения современных методов ведения животноводческого и птицеводческого хозяйства.

ЮНИДО помогает развивающимся странам в создании и развитии промышленности по производству растительных масел, с тем чтобы улучшить снабжение продовольствием их населения и способствовать производству продукции в обмен импорта и поступлению иностранной валюты.

Читателям данного руководства рекомендуется также пользоваться руководствами № 13 (Промышленность по производству животноводческих кормов), № 18 (Промышленность по производству краски и лака) и № 24 (Промышленность по производству мыла и моющих средств), в которых содержится информация, относящаяся к промышленности по производству растительных масел, не приводимая повторно в данном руководстве.

## ПОЯСНИТЕЛЬНЫЕ ЗАМЕЧАНИЯ

Используемые обозначения и распределение материалов в настоящем руководстве не означают, что Секретариат Организации Объединенных Наций выражает какое-либо мнение относительно юридического статуса той или иной страны, или ее органов власти, или относительно начертания ее границ.

Перечисленные в настоящем руководстве публикации отобраны главным образом из литературы, изданной на официальных языках Организации Объединенных Наций; в соответствующих случаях были включены также публикации, издаваемые на других языках.

Названия организаций и публикаций даны на языке оригинала в тех случаях, когда они имелись в наличии; названия, представленные на языках, не являющихся официальными языками Организации Объединенных Наций, включены в перечень в переводе на английский язык.

В зависимости от наличия указаны год издания и количество страниц самого последнего из известных изданий, а также адрес организации, выпускающей публикацию, или издателя.

Предназначенные для продажи публикации Организации Объединенных Наций следует заказывать по соответствующему номеру, под которым они продаются. Их можно приобрести через должным образом уполномоченных агентов по продаже или заказать в:

## INTRODUCCION

La Organización de las Naciones Unidas para el Desarrollo Industrial (ONUDI) promueve la utilización de información industrial en países en desarrollo proporcionando orientación para el mejoramiento de los servicios locales de información. Entre los medios de que se vale la ONUDI para este fin, figura la compilación de repertorios y guías de fuentes de información seleccionadas sobre las ramas industriales de interés primordial para los países en desarrollo. La presente guía, consagrada a la industria de la elaboración de aceites vegetales, es una versión revisada y actualizada de la séptima guía de la serie titulada *Guías de Fuentes de Información* (UNIDO/LIB/SER.D). Al final de esta publicación figura una lista de las guías publicadas hasta la fecha; se prevé la publicación de otras guías de la misma serie.

Los repertorios y las guías no pretenden ser exhaustivos ni están destinados a servir de instrumento de investigación, sino que presentan fuentes consideradas de valor práctico para los usuarios. Los datos se han recopilado de manera que proporcionen un rápido acceso a las entidades mencionadas y faciliten la adquisición de las publicaciones que se indican.

La industria de los aceites vegetales, que es una de las agroindustrias básicas, desempeña una importante función en la industrialización de los países en desarrollo. En las zonas tropicales y subtropicales de los países en desarrollo se cultivan una gran variedad de semillas y frutos oleaginosos, que suministran la materia prima natural necesaria para el establecimiento de industrias de elaboración de aceites vegetales. Otro importante componente de esta rama industrial es la producción de tortas y harinas de semillas oleaginosas ricas en proteínas, que forman la base de la industria de los alimentos para animales. La disponibilidad de esos alimentos compuestos mezclados es, a su vez, condición previa para la introducción y aplicación de métodos modernos de cría de ganado y aves de corral.

La ONUDI presta asistencia a los países en desarrollo para establecer y ampliar la industria de los aceites vegetales con el fin de aumentar la oferta de alimentos a su población y facilitar la sustitución de importaciones y la obtención de ganancias en divisas.

A los usuarios de la presente guía también pueden resultarle de interés las Guías núm. 13, sobre la industria de elaboración de alimentos para animales (Animal feed industry), núm. 18, sobre la industria de pinturas y barnices (Paint and Varnish Industry) y núm. 24, sobre la industria de los jabones y detergentes (Soap and Detergent Industry), las cuales contienen información pertinente a la industria de los aceites vegetales que no se repite en esta publicación.

## NOTAS EXPLICATIVAS

Las denominaciones empleadas en esta guía y la forma en que aparecen presentados los datos que contiene no implican, de parte de la Secretaría de las Naciones Unidas, juicio alguno sobre la condición jurídica de ninguno de los países o territorios citados o de sus autoridades, ni respecto de la delimitación de sus fronteras.

Las publicaciones que aquí se indican se han seleccionado principalmente de entre la literatura publicada en los idiomas oficiales de las Naciones Unidas; cuando procede, también se mencionan publicaciones aparecidas en otros idiomas.

Los nombres de las organizaciones y publicaciones aparecen en su idioma original, cuando así constan; cuando se dan en idiomas no reconocidos como oficiales dentro de las Naciones Unidas, se incluye la traducción al inglés del título correspondiente.

Se indican la fecha y el número de páginas de la edición más reciente, así como la dirección de la organización que la publica o de la casa editora, cuando tales datos se conocen.

Los pedidos de publicaciones de las Naciones Unidas han de hacerse por número de venta. Dichas publicaciones se pueden obtener por conducto de distribuidores autorizados, o haciendo un pedido a:
