**Subject: Final Report covering the period from 1<sup>st</sup> July, 2006 to 30<sup>th</sup> June, 2008.**

Dear Madam,

We are happy to inform you that we have just completed 24 month of the project "*Improving Human Security by Mitigating Arsenic Poisoning by Providing Services for Local Awareness and Capacity Building and Assurance of Safe Drinking Water Supply and Installation of Community Based and Distribution of Household Based Arsenic Removal Unit (ARUs) in Bangladesh*" number TF/BGD/03/001, UNIDO Contract no. 16001095/ML Draft Final Report covering the period from 1<sup>st</sup> July, 2006 to 30<sup>th</sup> June, 2008.

Please find enclosed herewith the Final Report covering the period from 1<sup>st</sup> July, 2006 to 30<sup>th</sup> June, 2008. On the progress of the project activities based on Terms of References. Which is schedule to submit to your office in time to ensure it is received no later then 24 calendar months from the date of Commencement of work. The report includes the following:

1. Statement of Work Carried out at the Contractor's Home Office by the personnel
2. Statement of Consumption of the scheduled Consumable
3. Detailed Financial Statement

It may be mentioned here that the transportation cost of Home Office amounting to **US\$ 2,166.00** (US Dollar Two Thousand One Hundred & Sixty Six Only) has not been included in the financial statement.

The **Language** of all the reports, statements, lists, etc. is in **English** as per your instructions.

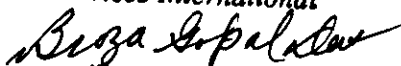

We hope and believe that the Final Report will be able to meet your requirements and acceptable at your kind end and we shall get the payment for the final quarter at an early date.

We are trying to keep up our activities as per schedule.

Thanking you,

Sincerely yours,

**Brota Services International**

  
(Broza Gopal Das)  
Proprietor

Enclosure: As stated above.

## Abbreviation/Bibliography

Ward(s)	What does it mean
<b>BARIDHARA</b>	Name of Quarterly Newsletter of UNIDO Arsenic Project. BARIDHARA means Flow of Water
<b>CS</b>	Civil Surgeon, Head of Health Department at district level
<b>DC</b>	Deputy Commissionaire, Head of the district civil administration
<b>IEC</b>	Information, Education & Communication
<b>MP</b>	Member of Parliament
<b>Pourashava</b>	Municipality, Urban local government unit, Pourashava Chairman is the elected public representative of the municipal area
<b>SACMO</b>	Sub Assistant Community Medical Officer, SACMO is an employee of Health and Family Planning department normally posted at the rural level to serve the community.
<b>SP</b>	Superintendent of Police, Head of the Home department at district level
<b>UAMC</b>	Union Arsenic Management Committee,
<b>Union.</b>	A unit of local government at the rural area, its Chairman is elected public representative
<b>Union Parishad (UP)</b>	Union Council, The Union Parishad (council) Consists of 9 male members and 3 female members headed by a Chairman.
<b>UNO</b>	Upazilla Nirbahi Officer, Head of the upazilla civil administration
<b>Upazilla</b>	Sub-district, Part of district consist of few unions
<b>UZAMC</b>	Upazilla Arsenic Management Committee of which local member of parliament is the advisor, Upazilla Nirbahi Officer is the Chairperson and Area Coordinator of the project is the Member Secretary of the committee. Other members include all UP chairman of upazilla and all heads of govt. officials at the upazilla level and heads of all educational institutions.
<b>VAMW</b>	Village Arsenic Mitigation Worker, one VAMW is for each village of the project area
<b>Village</b>	Village is the lowest rural unit of local government, part of union & assemblage of houses

### *Final Report*

### **A. Introduction:**

During the late 1970s and continuing in the 1980s, the Bangladeshi Government and International Agencies combined their efforts in order to provide clean drinking water by digging shallow tube wells to meet the daily water requirements of the local people. Initially, the Government of Bangladesh had installed approximately 4 million tube wells, but the private citizens began soon to install their own wells, too. It is estimated that another 7 million tube wells were privately drilled, bringing the estimated number of tube wells in Bangladesh to 11 million. The successful campaign to wean people away from drinking surface water led to the assumption that 97 percent of the population could have drinking water from tube wells. As a result, causes of water born diseases began to decline.

However, what seemed to be a solution to one specific health problem became slowly a cause of another calamity for the mass people with the appearance of arsenic poisoning. Naturally occurring deposits of sediments containing many elements including arsenic were hidden beneath the surface soil of the numerous river deltas. As a result, when the tube wells were installed enormously, many of the wells tapped water from the arsenic containing layers, which contaminated the well water with the toxic substance of arsenic.

Now, mass people in Bangladesh are suffering from serious health problems occurring from the ground water, the mass drinking source of the country contaminated with arsenic. Nearly 63 out of total 64 districts of the country are recently reported of the presence of dangerous levels of inorganic arsenic in most of the tube wells, which are currently serving as water points mainly for drinking and cooking purposes.

After decades of exposure, cases of arsenic toxicity or arsenicosis are now on the verge of rise. Arsenicosis causes skin lesions called keratosis and alternating layers of dark and light pigmentation- hyper pigmentation and hypo pigmentation, respectively- on the hands and feet. The alteration of skin pigmentation occurs only after several years of low-level exposure to arsenic. After a longtime exposure, skin cancer may occur. Following 20 to 30 years of exposure, cancers of the lungs, bladder, kidneys and liver are likely.

Considering the above mentioned situation, the Govt. of Bangladesh urged the international communities to come forward to help Bangladesh in screening and mitigating arsenic poisoning in the ground water.

The United Nations Industrial Development Organization (UNIDO), a UN body, in response to the request from the Government of Bangladesh agreed to assist the govt. in

mitigating arsenic poisoning by using and transferring appropriate proven technology READ-F to community people, thus to secure people's lives and livelihoods and initiated a pilot project titled *“Improving Human Security by Mitigating Arsenic Poisoning by Providing Services for Local Awareness and Capacity Building and Assurance of Safe Drinking Water Supply and Installation of Community Based and Distribution of Household Based Arsenic Removal Units (ARUs) in Bangladesh ”* by involving one “Contractor”, namely, **M/S. Brota Services International** and two “Designated NGOs”, namely, **RUDISOF** for Shahrasti project area and **VDDC** for Hajigonj project area. An agreement has been signed between **UNIDO** and **M/S. Brota Services International** on May 19, 2006. In that agreement both the parties have agreed to assigned two designated NGOs, namely, **Village Disability and Development Center (VDDC)** and **Rural & Urban Development and Improvement of Socio-economic Facilities (RUDISOF)** for carrying out the project activities.

### **B. Aim of the project**

The overall objective of the project is to ensure human security by reducing mortality and morbidity in rural population caused by exposure to arsenic in drinking (ground) water through ensuring safe drinking water supply by using and transferring appropriate proven technologies to the community people.

This pilot project is the first phase of a long-term effort to mitigate the impact of naturally occurring arsenic contamination of ground water, by making use of proven technologies to mitigate the contamination. The project will also aim at assurance of sustainability, both in terms of economic as well as local production of equipment. The specific objectives are as follows:

- Raising awareness in the community on arsenic-related health hazards, environmental sanitation and arsenicosis through sensitization workshops, Focus Group Discussion (FGDs) and other social mobilization and Behavior Change Communication (BCC) activities.
- Capacity building of community people through organizing training for the committee members, Government & non-Government officials and project personnel.
- Provide emergency health and medical support to the vulnerable and poor arsenicosis patients to minimize and reduce health risks and mortality in collaboration with relevant agencies i.e. the World Health Organization (WHO) and UNICEF.

- Enhance economic capacity of rural poor people by providing technical support to the Income Generation Activities (IGAs), one of the practices which have been promoted by international/national NGOs for the purpose of poverty alleviation, for ensuring strengthening financial capacity.
- Installation of Community Based Arsenic Removal Units (ARUs) for ensuring safe drinking water to the community people.
- Distribution of household based Arsenic Removal Units (ARUs) as an alternative safe drinking water option for the house hold members.
- Development or introducing community based, cost effective, and demand responsive technologies for safe drinking water supply and ensure access of community people to the technologies. The equipment will be assembled locally by using locally produced vessel and sand filter.
- Set-up of modern water testing Laboratory for continuous monitoring and quality control of installed ARUs and screening of other sources of under ground water.
- Set up of Regeneration Plant and conduction of research to find out the best, low cost, easily accessible and sustainable technologies for safe drinking water and waste management and help the scientists, professionals and policy makers through the dissemination of findings.

For achieving the above-mentioned Goal and Objectives of the project the Contractor in collaboration with two designated NGOs has performed the following activities during the reporting period of the project.

### **C. Performed Activities:**

#### **01. Set-up of Project Home Office:**

To coordinate the total project activities and to provide the office facilities to the designated project staff members and also maintain liaison with the UNIDO head quarter and the **Ministry of Industries, DPHE, UNICEF, UNDP** and other concerned both at home and aboard, a home office was set up in a house on rental basis with effect from 1<sup>st</sup> of July, 2006 at the prime location of the capital city of Dhaka. The total size of the home office is 2500 sq. ft. which has enough space to arrange sitting arrangement for the home office staff members, reception corner, small conference room, laboratory and dinning space along with kitchen.

The street address of the home office is:  
**UNIDO Arsenic Project-Bangladesh**  
House # 190, Lane # 02, New DOHS,  
Mohakhali, Dhaka-1206, *Bangladesh.*  
Tel: 88-02-9891695  
Fax: 88-02-8711180  
E-mail: [brota@brota-si.org](mailto:brota@brota-si.org)

The home office is located at a posh area and well connected with roads. The home office is well furnished & equipped with furniture, fixture, equipment etc., such as phone, fax, e-mail, computer, air conditioners and all other necessary items.

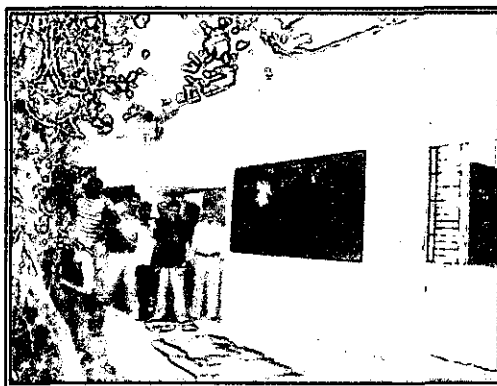

*A front view of home office in Dhaka*

## **02. Set-Up of two Field offices:**

To coordinate and implement the field level project activities and to provide the office facilities to the designated field level staff members and also maintain liaison with the home office, the Local Government & Non-Government Offices, Upazilla administration, project beneficiaries and other stakeholders, two field offices were set up in two houses on rental basis with effect from 1<sup>st</sup> of July, 2006 at two Upazilla Head Quarters. The size of the field office, Shahrasti is 2000 sq. ft. and Hajiganj is 2200 sq. ft. Both the offices have open space, lawn, and garden with fruit trees, flowers, ponds that give a scenic beauty. The office space is enough for sitting arrangements of the field office staff members, reception corners, and small conference rooms for conducting training, meetings, small group discussions and dining spaces with kitchens.

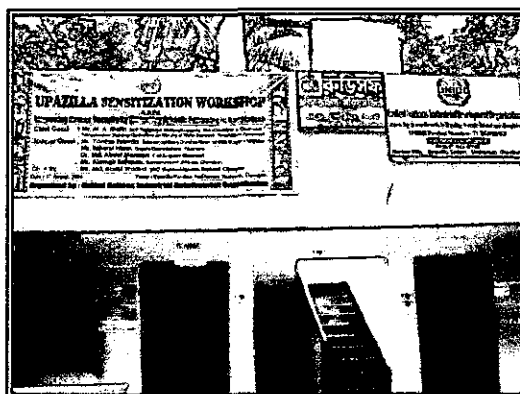

The street address of the field offices are as follows:

**Hajiganj Field Office:**  
*UNIDO Arsenic Project, Bangladesh*  
Munshi Bari,  
Randhunimura,  
Upazilla-Hajiganj,  
Dist. Chandpur,  
Bangladesh  
Tel: 88-01713084327  
E-mail: [Vddc@bdcom.com](mailto:Vddc@bdcom.com)

*A front view of Hajiganj Field office*

**Shahrasti Field Office:**  
**UNIDO Arsenic Project, Bangladesh**  
**Morium Villa**  
Ring Road  
Upazilla-Head Quarter  
Upazilla-Shahrasti  
Dist: Chandpur  
Bangladesh  
Tel: 88-01713482603  
E-mail: [info@rudisof.org](mailto:info@rudisof.org)

*A front view of Shahrasti Field office*

Both the field offices have enough open space around the office building which can be utilized for conduction of Focus Group Discussions (FGDs), Community meetings, Workshops, Technology Exhibition, Health Camps and Demonstration plot for Vegetable gardening and Fish Cultivation for IGAs, and for practical demonstration to the arsenicosis patients. The field offices are well equipped with furniture, fixture, equipment etc., such as phone, e-mail, computer, vehicles like delivery van, motorbikes and bi-cycles and all other necessary items.

Both the field offices are on monthly rental basis. Field offices have hired necessary vehicles, motorbikes, bi-cycles, furniture and equipment for the period of two years from the local suppliers.

The field offices are well communicated with the project areas. A person can reach the field offices by bus, train & boat because there are highway, railway and river ways.

### **03. Recruitment of Assigned designated Staff:**

As per project document and the agreement signed between UNIDO and Brota Services International, a total of 24 project personnel (8 for home office and 16 for two field offices) for 552 man months have been deployed for the project. All the project personnel are qualified and experienced as detailed in the project documents.

*A group photograph of Project Personnel*

*A group photograph of Project Personnel*

Moreover, 4 for Hajiganj and 4 for Shahrasti, total 8 personnel have also been employed against Income Generation Activities (IGAs) of the project. The employment has been made by the two designated NGOs, e.g., RUDISOF and VDDC. The salary and benefit of the IGA staff are met up from the service charges of the IGAs and will not be charged against project budget.

List of the project Personnel is enclosed at Annex- A

#### **04. Conduction of Orientation for the Project Staff:**

02 (two) Staff Orientation sessions were organized for the staff of the project from 03 July to 6 July ,2006 where they were oriented regarding the project, its aims & objectives, duration, activities, strategies and duties & responsibilities of the individual staff members, the chain of command etc.

The Project Coordinator and Area Coordinators facilitated the orientation sessions. The sessions were conducted in a participatory way, where every staff got the opportunity to share his/her ideas, views & experiences. Questions and Answer sessions were held to make them clear about the implementation strategies of the project.

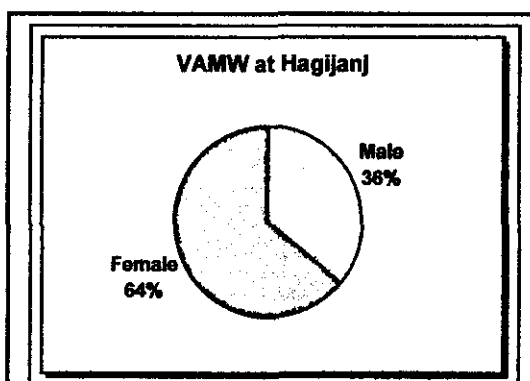

*A view of the staff orientation. The Project Coordinator and Two Area Coordinators are seen among others.*

## **05. Selection of Village Arsenic Mitigation Workers (VAMWs)**

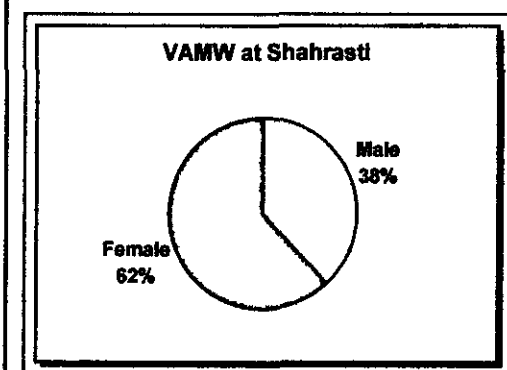

A total of 100 (one hundred) Village Arsenic Mitigation Workers (VAMWs) were selected during 1<sup>st</sup> week of July, 2006 to work at the village level of the project area of Hajigonj and Shahrasti. The VAMWs are the nucleus for each operation of the project at the respective village. He/she acts as information tank of Arsenic Issues, Motivator, Counselor, IEC disseminator, service provider to the community. 50 VAMWs were selected from each Upazilla, considering their age, education, residential status, occupation and willingness to voluntary works. The Union Parishad Chairmen, Members or community leaders nominated primarily 3 VAMWs from each village. Thus, 300 VAMWs were primarily nominated, among them 100 VAMWs were finally selected through interview process.

Among the selected 100 VAMWs the ratio of male and female is 36 % male: 64 % female at Hajigonj and 38% male: 62% female at Shahrasti. Emphasis was given to recruit more number of women volunteers for smooth functioning of the project activities. It was observed that women volunteers are very active and sincere towards their duties and responsibilities rather than the male ones. The male volunteers have every chance to leave the assignment as and when he gets a better opportunity.

The minimum education qualifications of the selected volunteers are S.S.C and some of them are H.S.C. They are very much committed to serve the community for the project period. Most of the volunteers are also involved in different community development activities run by the Government and Non-government Organizations (NGOs). Their involvement in this project has created a new avenue for them to serve the community in a comprehensive way.

*The graph shows the male and female ratio in selection of VAMWs at Hajigonj*

*The graph shows the male and female ratio in selection of VAMWs at Shahrasti*

It may be mentioned here that to spur the volunteers for performing their assigned duties and responsibilities, a token honorarium @ Tk. 500.00 per month is entitled to each of them.

*A list of the selected volunteers is given at Annex- B.*

#### **06. Organize Training for the VAMWs:**

A training course on Primary Health Care (PHC) and arsenicosis patients screening was organized during the 1<sup>st</sup> quarter of the project for the selected VAMWs. The training was conducted in two batches, one at Hajigonj and another at Shahrasti. Each training batch was attended by 50 Village Arsenic Management Workers (VAMWs).

The duration of each course was 5 days. These training courses were carried out on sites. The union parishad auditorium and Girls high school auditoriums and training halls of the both field offices were used as training venues.

Participatory training methods were applied at the training sessions. The main objectives of the training courses were to orient the field workers about their role and responsibilities in the project implementation process and how they would provide the PHC, arsenic and arsenicosis services to the targeted beneficiaries.

*VAMWs training at Hajigonj*

The training courses covered the following topics among others:

- Personal Health and Hygiene
- Water and Sanitation
- Adolescent Health
- Common Diseases and its' prevention
- Family Planning
- Arsenic
- Process of arsenic contamination
- Identification & management of arsenicosis patients

Project Coordinator, Area Coordinators, Community Development Specialist, Documentation & Monitoring Officer, Community Mobilizers and external

Resource Persons from the concerned Govt. Departments like Department of Health and Family Planning, DPHE, Youth Development were engaged to facilitate the different training sessions.

*VAMWs training at Shahrasti*

## **07. Development of Service Delivery Guide Book:**

A service delivery guide book (hand-book) was developed for field workers (VAMW) of the villages by making use of existing materials together with technical input by UNIDO on technologies. The purpose of the guide book development was to provide user-friendly services.

300 (Three hundred) copies of the guidebook were printed and distributed to the volunteers/ workers including other stakeholders

The contents of the guide book have included the following topics chapter-wise. The topics have been described in 12 chapters. The language of the guide book is Bengali to make it easily understandable by the workers and the community people. In the development of guidebook, a wider range of consultation process were followed which included taking opinion from sectoral expert, field test and consultation with its end users.

*Cover page of the Service Delivery Guide Book*

After introductory chapter, the guide book dealt with the following:

### ***Chapter – 1:***

- 1.1. What is Human Security
- 1.2. What are the services to be provided for improving human security under the UNIDO Arsenic Project
- 1.3. The Beneficiaries of UNIDO Arsenic project and their identity

### ***Chapter – 2:***

- 2.1 What is Village Arsenic Mitigation Workers (VAMWs)?
- 2.2 Relation of VAMW with the UNIDO Arsenic Project.
- 2.3 Pre-requisites for selection of VAMW
- 2.4 The qualifications, duties and responsibilities of the VAMWs

### ***Chapter - 3:***

- 3.1 What is Arsenic?
- 3.2 Different types of Arsenic, its nature, causes of contamination and Bangladesh situation.
- 3.3 Acceptable limit of Arsenic.
- 3.4 Causes of suffering from arsenic poisoning
- 3.5 Where arsenic is available in the natural environment
- 3.6 Arsenic contamination in the ground water in Bangladesh
- 3.7 Actions & reactions of arsenic contamination in the human body

**Chapter – 4:**

- 4.1 What is Arsenicosis?
- 4.2 What are the primary symptoms of Arsenicosis?
- 4.3 What are the treatment and management of Arsenicosis patient?
- 4.4 Analysis of Socio-economic condition of Arsenicosis patient.
- 4.5 How to prevent Arsenicosis?

**Chapter – 5:**

Sources of Arsenic Safe Water and how to identify it?

**Chapter – 6:**

- 6.1 What is READ-F?
- 6.2 How READ-F acts?
- 6.3 Where to set-up House hold READ-F units?
- 6.4 Quantity of water available from House Hold READ-F units.
- 6.5 Why House Hold READ-F units will be used?
- 6.6 How long a House Hold READ-F unit can be used?
- 6.7 How to use a House Hold READ-F unit?
- 6.8 Management of House Hold READ-F unit?

**Chapter – 7:**

- 7.1 Quantity of water available from a Community Based Arsenic Removal unit (CBARU)
- 7.2 How long a CBARU can be used?
- 7.3 How to use a CBARU?
- 7.4 Management of a CBARU

**Chapter – 8:**

What does it mean by arsenic contamination in water?

**Chapter – 9:**

- 9.1 What are the ways and means to create public awareness regarding Arsenic?
- 9.2 What are the duties & responsibilities of VAMWs to create public awareness?

**Chapter – 10:**

- 10.1 What is a Union Arsenic Management Committee (UAMC)?
- 10.2 Aims and objectives of UAMC?
- 10.3 Constituents (Structure) of UAMC
- 10.4 Involvement of UAMC with the UNIDO Arsenic Project.
- 10.5 Duties & responsibilities of UAMC

**Chapter – 11:**

- 11.1 What is Focus Group Discussion (FGD) & why?
- 11.2 How a FGD can successfully be conducted?

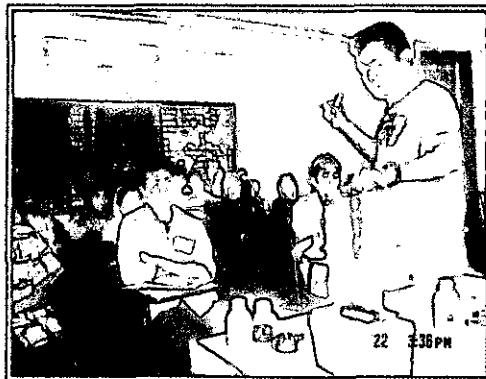

**Chapter – 12:**

- 12.1 Aims & objectives of UNIDO Arsenic Project.
- 12.2 Guideline for arsenic screening by HACH Test Kit.

## 08. Organize Training for the VAMW on Service Delivery Guide Book:

A training course on Service Delivery Guide Book was organized during the 2<sup>nd</sup> quarter of the project for the recruited VAMWs. The training was conducted in four batches, two at Hajigonj and another two at Shahrasti. Each training batch was attended by 25 No. of Village Arsenic Mitigation Workers (VAMWs).

The total duration of each course was 3 days. Both field offices were used as training venues. The training courses were organized simultaneously both at Hajigonj and Shahrasti. Two Trainers' team were formed comprises one sectoral expert, one community development specialist, one master trainer and one training assistant in each team. Course curriculum was developed in consultation with the training team members for covering the contents of service delivery guide book

*A trainer showing the use of Test Kit & House Hold ARU to the participating VAMWs*

*Participants at the training for VAMWs on Services Delivery Guide Book*

Participatory training methods were applied at the training sessions. The main objective of the training courses is to orient the field workers how they will provide effective and appropriate arsenic related services to the community people by using the Service Delivery Guide Book.

The training courses covered the following topics among others:

- Using techniques of Service Delivery Guide Book
- Arsenicosis Patient Identification Techniques.

- Various options of Arsenic Safe Drinking Water
- How to raise awareness for changing behavior in the community.
- How to prepare an action plan at the community level.
- Detailed description of HHARUs including operational and maintenance techniques
- Detailed description of CBARUs and its' operational and maintenance techniques
- Water quality test and reporting by using arsenic field test kit.

Group discussion, question and answer session, practical demonstration, problem find out and solving session, role model, sample water test etc. were followed to make the VAMWs' capable in providing appropriate services to the community and make them aware about the new technology of arsenic safe drinking water.

*List of Training Participants is enclosed at Annex -C.*

**09. Conduction of Baseline Survey:**

A comprehensive baseline survey was conducted for getting an in depth information on socio-economic condition of the project area. Although this activity was not included in the proposed project activities but it was done with a view to collect updated information to set-up the impact indicators and to sensitize the govt. high officials, policy makers, program planners and development actors to come forward to support the project activities. The survey has created an opportunity to compare the past record with the present and to discuss the matter during the sensitization campaign and to determine the implementation strategies of the project activities. 10,000 sets of questionnaires were printed to collect the household information. The questionnaire was finalized after conduction of field test and review with the experts.

*A set of questionnaire is enclosed at Annex-D*

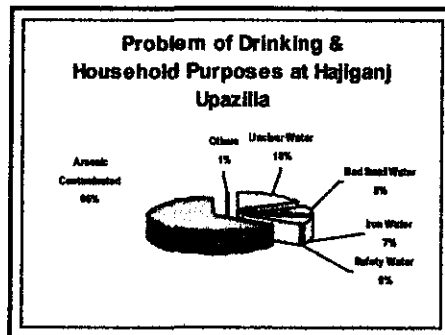

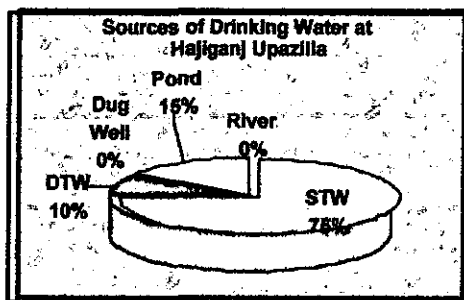

100 data collectors and 10 supervisors were engaged for conduction of the survey. An orientation session was organized for the data collectors including their supervisors at the field offices. The sessions include methods of data collection, understanding of questionnaire, techniques of collecting information, filling up of the questionnaire through role model demonstration.

Data were collected from 9,937 households on random basis from both the project area and it was verified and corrected where necessary by the supervisors at the field level.

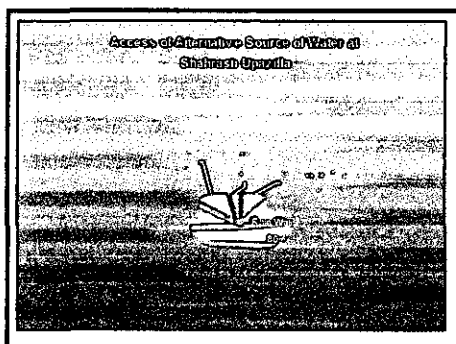

Collected data were analyzed and tabulated. A report was prepared based on the survey findings.

*A summary survey report is enclosed at Annex-E.*

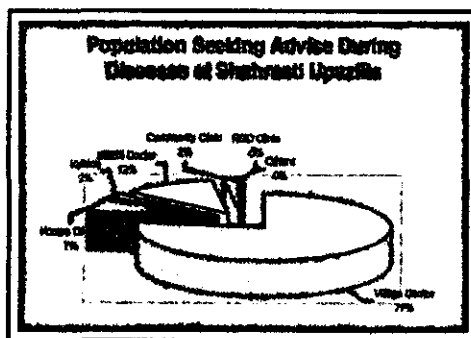

The interesting findings were as follows:  
The great majority of people (99.29%) complaint that the water they have been using at present for cooking and drinking purposes has got arsenic and other problems. Out of whom 65.98% informed that there was arsenic in their tube-well water beyond limit, 17.41% told that the water was muddy, 8.06% informed that the water was with bad smell and 7.29% told that the water is full of iron.

61% households of project areas have got their own tube-wells of which more than 75% were screened and amongst them found 95% of the tube-well were arsenic contaminated. 96.99% screening were done 3 to 4 years ago. The people of the project area consider that they have enough knowledge about arsenic but it revealed from the survey that only 30% people have primary knowledge about arsenic. The rest 70% people have much wrong conception about arsenic.

It appeared from the survey that there were 4 nos. of severe arsenicosis patients in each of the 100 families. It was remarkable that no primary and secondary level arsenicosis patients exposed themselves as patients during the survey due to their ignorance. 75.65 % patients consulted physicians of whom 52.57% consulted village quack. It proves that most of the arsenicosis patients of the project area were not getting proper medical treatments, which lead their sufferings to the worse.

### 10. Upazilla Sensitization Workshop:

The Upazilla Sensitization Workshop at Hajigonj was scheduled to be held on 27 July 2006 as per UNIDO Arsenic Project action plan. Invitation of the chief guest, special guests, guests of Honour, Chairperson were completed including finalization of booking of venue, printing of invitation cards for participants, printing of banner, folders etc. But the workshop could not be held due to political unrest.

*Guests of Hajigonj Upazilla Sensitization Workshop are seen in the picture*

However, we had to start a fresh and did all the activities again and finally the Upazilla Sensitization Workshop at Hajigonj was organized & held on 10<sup>th</sup> August, 2006 at the Hajigonj Upazilla Parishad Auditorium and Shahrasti Upazilla Sensitization Workshop was held on 17<sup>th</sup> August, 2006 at Shahrasti Upazilla Parishad Auditorium. Total 203 participants, 100 at Hajigonj and 103 at Shahrasti were participated.

They were from all walks of life of the Society/Community, e.g., the Upazilla level all relevant officers and members, the Union Parishad Chairmen, Members, Female Members, Religious Leaders, College & School Teachers, Journalists, Govt. & Non government officers, Trade Union and Labour Leaders, NGO Workers, Political Workers, arsenicosis patients and so on.

The main objective of the Workshop was to sensitize the participants regarding the frightening aspect of arsenic & arsenicosis diseases.

*Chief Guest is addressing in the Inaugural Session of the workshop*

The Arsenic contamination scenario of the project area and to share the proposed Arsenic Related Activities of the UNIDO Arsenic Project and the role of community and way of their participation in the project etc. were discussed in the workshops.

Mr. M.A. Matin, Member of Parliament (M.P.) Hajigonj & Shahrasti constituency of Parliamentary seat of Chandpur district and the Chairman, Parliamentary Standing Committee on Ministry of Water Resource, Bangladesh Parliament was the Chief Guest in both workshops at Hajigonj and Shahrasti.

*Chief Guest, Special Guest and workshop participants are seen at Shahrasti Upazilla Sensitization Workshop*

Mr. Yonezo Fukuda, Charge D'Affairs, Embassy of Japan in Bangladesh, Mr. Md. Taherul-Islam, Deputy Commissioner, Chandpur, Mr. Harun-ar-Rashid, Additional Superintendent of Police, Chandpur and Dr. Shah Jamal, Deputy Civil Surgeon, Chandpur were present as

the Special guests in the both workshops.

Beside these, Mr. M.A. Mannan Khan, Chairman, Hajigonj Poursava, Hajigonj attended the workshop as the guest of honour while Mr. Khurshid Iqbal Rezvi, Upazilla Nirbahi Officer (UNO), Hajigonj Upazilla, Chandpur Presided over the Upazilla workshop at Hajigonj.

Mr. Md. Mosharref Hossain Patwary, Chairman, Shahrasti Poursava, Shahrasti attended the workshop as the guest of honour while Mr. Abdul Wadud, Upazilla Nirbahi Officer (UNO), Shahrasti, Shahrasti Upazilla, Chandpur presided over the Upazilla workshop at Shahrasti.

Both the Upazilla Sensitization Workshops had 2 (two) sessions (i) the Inaugural and (ii) the working & concluding sessions.

In the Inaugural Sessions **Mr. B.G.Das**, Project Coordinator, UNIDO Arsenic Project-Bangladesh delivered the address of Welcome. He welcomed the Chief Guest, special guests, guest of honour. He expressed his gratitude to all of them, especially, the chief guest and Mr. Yonezo Fukuda, Charge D'Affairs, Embassy of Japan in Bangladesh.

Their presence made the occasion differently important and this was also a gesture of good wishes. He expressed his gratefulness to all other distinguished guests, ladies and gentlemen for their presence in the Workshop. He gave a hint to the project titled "Improving Human Security by Mitigating Arsenic Poisoning".

Mr. H. Inadome, Regional Project Coordinator of UNIDO Arsenic Project delivered his speech in the inaugural sessions. He informed the gathering that the United Nations has been funding this project from its human security fund. The main objective of this project, among others, is to ensure human security.

He explained in details the objectives of the project and its activities. He mentioned that the United Nations Industrial Development Organization (UNIDO) is a technical group organization in the UN system and UNIDO is implementing this Arsenic Mitigation Project.

*A partial view of Workshop Participants*

UNIDO evaluated the READ-F technology of its high effectiveness and performance which removes arsenic from contaminated ground water and the technology has been validated by GOB too. By reducing mortality and morbidity in rural population caused by exposure to arsenic in drinking water through ensuring safe drinking water supply by using and transferring appropriate proven READ-F technology to the community people and thus to ensure peoples lives and livelihood.

Mr. Yonezo Fukuda, Counselor and Deputy Chief of the Mission, Embassy of Japan in Bangladesh delivered his valuable speech as special guest in both the workshops. At the beginning of his speech he thanked the organizers of the workshops for organizing the same. He told that when there is scarcity of safe water then "Poverty of water" comes. It appeared from a recent survey that there were 40,000 arsenicosis patients in 270 villages in Bangladesh. It may be said that the presence of arsenic in under ground water of 37 districts is much more beyond the acceptable limit, where 30 millions of people live. 90% population of Bangladesh lives in rural area.

In the above context, the govt. of Bangladesh has taken up a program to ensure supply of 100% pure water and provide sanitation facilities to its population. This is a remarkable aspect of the Poverty Reduction Strategy Paper (PRSP) which has been accepted by the govt. of Bangladesh during last October.

The Govt. of Japan has given importance to ensure safe drinking water since the presence of arsenic in the under ground water and the same has been mentioned in the PRSP. As a result, the govt. of Japan has been providing assistance through JICA, UNICEF and NGOs to the govt. of Bangladesh on different options for safe water, strengthening water quality laboratory and to prepare guidelines in this regard.

The Japan govt. is funding this project from its fund under Human Security through UN Trust Fund. The United Nations Industrial Development Organization (UNIDO) will implement this project to ensure supply of safe water. The Project will help to develop skill as well as behavioral change of the people.

In conclusion, he urged the field workers of the project, govt. & non-govt. officials and others to extend all possible cooperation for successful implementation of the project. He also told that over all development efforts will bring success to this project. He once again thanked all.

Mr. M. A Matin, the chief guest of Hajigonj and Shahrasti workshops thanked the organizers for organizing the workshops on such an important issue at the Upazilla level. He expressed his happiness that the UNIDO Arsenic project is the only and the 1<sup>st</sup> project of its kind in Bangladesh and that project are going to be implementing at Hajigonj & Shahrasti, his constituency. How lucky the People of this area? He urged all to work united to solve arsenic problem. To that end in view, all to jump upon the problem irrespective of party affiliation and opinion to implement the project with an attitude of cooperation and fellow feeling.

Then he expressed his gratitude to the govt. of Japan for funding the project. Japan is the biggest development partner and a trusted friend of Bangladesh. The Japan govt. assisted communications, health and other sectoral infrastructure development in Bangladesh. He thanked Mr. Yonezo Fukuda, the Deputy Chief and Counselor of the Mission, Embassy of Japan in Bangladesh for his kind presence in the workshop over here. The people of Hajigonj and Shahrasti are proud of having him among them and heard from him. They felt inspired. Mr. Matin asked the Chairmen and Members of Union Parishads & others present to work selflessly for humanity. Every conscious citizen is morally bound to fight against this menacing issue of arsenic for mitigating the same.

After the inaugural session Mr. Golam Rasul Arman, the Area Coordinator of Hajigonj presented the Base Line Survey findings to the audience. A threadbare discussion was held on the presented facts and figures. In some cases, the Government Officials showed their disagreements and wanted to know the proof of the findings. Facilitators of the workshops presented relevant information and documents to make them understand and to bring the audience in a common platform to act on arsenic issues which was very much needed to reach the ultimate goal of the project.

In the working sessions, detailed project activities, its' goal, objectives and implementation strategies were discussed. The learned participants put forward some of their suggestions to make the program successful.

They mentioned that 20 CBARUs are very much insufficient to serve the arsenic safe drinking water to the whole community. Minimum 1 CBARU should be installed in a village for the same. Unit based management committee should be formed for operation, maintenance and sustainability of CBARUs. The operational technology should be accessible to all and to promote these technologies, technically informed and volunteer groups should be developed through practical training. More focus should be given to the women for raising awareness, motivation and information dissemination on arsenic issues and changing water using behavior. They also mentioned that there are no effective management and Medicare systems for arsenicosis patients at Hajigonj and Shahrasti Upazilla level Hospitals. Core group of health service professionals comprising Govt. doctors, paramedics, rural practitioners, health workers, EPI workers, TBAs should be formed. Long-term training courses for all groups of workers should be organized.

For ensuring effective services specialized health service centers should be established at the project area. Water quality should be examined on a regular basis and result should be disseminated through coordination meetings and FGDs. A comprehensive mass campaign is very much needed to raise awareness and to motivate the people who are living on arsenicosis threat which includes; organizing community film shows, street drama, folk songs, mothers' meetings, formation of patients' club distribution of leaflets, posters, stickers etc.

At the end of the workshops, one Upazilla Arsenic Management Committee was formed unanimously for each of the Upazilla. The UNO (Executive head of the Govt. at the Upazilla level) is the Chairperson of the committee and all Chairmen of the Union Parishads are the members of the committee. UNIDO project Area Coordinator of respective Upazilla will act as the Member-Secretary of the committee. The committee will sit once in a month in a coordination meeting to review the progress of the project activities and to find out problems (if any) and possible solution for smooth and timely implementation of the project. Usually, UNO's conference room will be used for this coordination meeting.

The news of the Upazilla level Sensitization workshops were broadcasted on Bangladesh Television, Private Channels and in the print media.

***List of Workshops participants & Upazilla Arsenic Management Committees are attached at annex- F.***

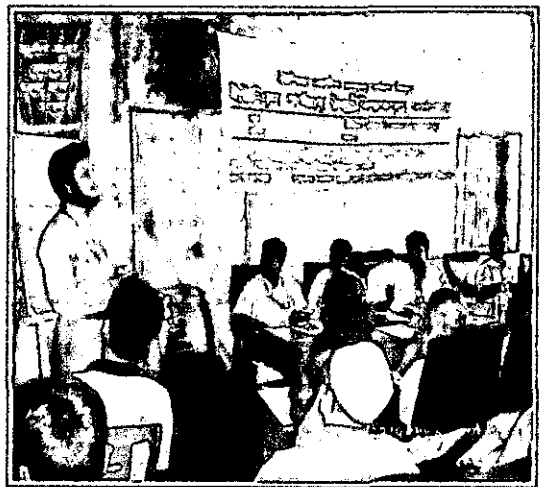

## **11. Conduction of 20 Union Level Sensitization Workshops:**

As per TOR, it was planned that 10 Union level Sensitization Workshops will be conducted at the project area to sensitize the community people about the project activities, but considering the demand raised by the people of the project area and by the Member of Parliament (MP), UNOs (Govt. Head at Upazilla level) and local UP chairmen, strategically, it was decided to conduct some of the activities at the rest 10 unions of Hajigonj and Shahrasti.

Without covering all unions of Hajigonj and Shahrasti Upazillas it was difficult to carryout the project activities against the local authorities because all the Unions were severely affected.

As such, 20 daylong Union Level Sensitization Workshops were organized during the month of September, 2006. The workshops were held simultaneously at Hajigonj and Shahrasti Upazilla. Two professional teams were formed for facilitating the workshop sessions. 50-55 participants were present in each of the workshops. The UNO of the respective Upazilla attended most of the workshops as chief guest. Assistant Commissioner (AC), Youth Development Officer, Social Welfare Officer, Sub Assistant Engineer of DPHE attended the workshops as Special Guests and Guest of honor

*Participants are seen in the Union Sensitization workshop at Shahrasti*

*Participants are seen in the Union Level Sensitization Work Shop*

The Chairmen of the respective union presided over the workshop sessions. All members including women members of the Union Parishads, community leaders, school teachers, social workers, youth leaders were actively participated in the workshops. Total 1,123 participants participated in 20 workshops. Union level workshops were also conducted in two sessions i.e., inaugural and working sessions. Workshop folders, survey fact sheets, project summary sheets were distributed among the participants with other materials.

The Project goal, objectives, activities, implementation strategies, monitoring and supervision strategies, community participation strategies, role of Union Arsenic Management Committee (UAMC) and survey findings were presented and discussed in the workshops. The workshop participants came up with some important suggestions, which would be useful for achieving ultimate goal of the project. These were as follows:

- a. For raising awareness on arsenic issues, school based awareness program would be helpful.
- b. Easy operation of Community Based ARU and House Hold ARU will be more acceptable by its end users; they preferred electrically operated CBARU for getting better performances.
- c. Arsenic Safe drinking water could be distributed through water user groups and introducing water supply scheme. A rickshaw van may be used to supply the arsenic safe drinking water to each and every household on payment. These users fee will be used to meet up the expenses of trolley drivers' remuneration and other expenses related to it.
- d. Safe water can supply from the CBARU to the cluster households of villages through pipe water supply system.
- e. Repairing and maintenance services of household ARUs should be ensured and quick for increasing number of users.

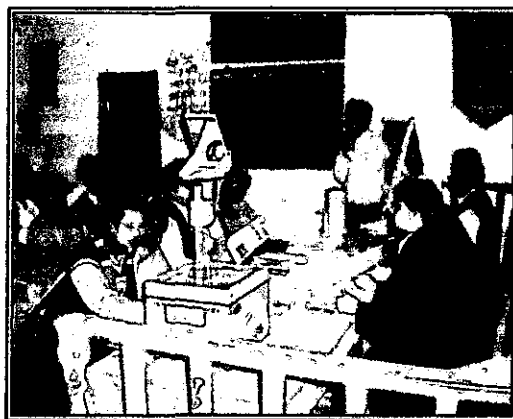

Question and answer sessions were held to clarify different topics and issues to the audiences. At the end of each union level workshop a Union Arsenic Management Committee (UAMC) was formed and thus 20 committees were constituted. Duties and responsibilities of the committees are to monitor, supervise and to ensure quality of work of the project at their respective union.

*List of Workshops Participants and & 20 UAMCs are enclosed at Annex- G*

## **12. Conduction of Training for UAMCs:**

Twenty (20) training orientation sessions were organized for the Union Arsenic Management Committees (UAMCs). The main objective of the orientation sessions was to enable the committee members to perform their duties and responsibilities according to the requirements of the project. After the training sessions, the committee members were able to describe the negative effect of using arsenic-contaminated tube well water for drinking and cooking purposes. They were able to facilitate different discussion sessions and warn the community people about the consequences of arsenic poisoning.

In the training sessions, it was also highlighted that how the committee members will promote different Income Generation Activities (IGAs). In the training orientation sessions it was discussed how the IGA beneficiaries could contribute to the arsenic mitigation by paying either part or whole of the costs. In this sense the IGAs should play an important role for local residents as the beneficiaries of the project to generate cash for maintaining CBARUs and its sustainability including transfer of technology to the community people.

*Participants are seen in the UAMC training at Hajigonj*

The training sessions were facilitated about the techniques as to how technically maintain the Community Based Arsenic Removal Units (CBARU). Because of the simple operational mechanism, the maintenance of CBARU was not complicated. The issue of regeneration of used adsorbents was also explained in detail as well as the disposal of toxic waste in the training session. The training sessions were arranged at the respective union parishad premises.

*Participants are seen in the UAMC training at Shahrasti*

Average 30-35 participants took part in each training course. Total 650 committee members participated from both the upazillas in 20 training sessions. The training sessions were organized simultaneously both at Hajigonj and Shahrasti.

***List of Training Participants is enclosed at Annex – H.***

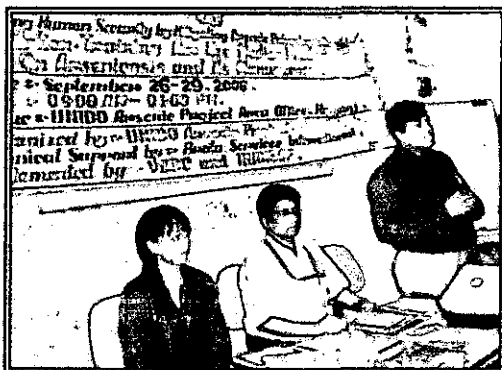

### **13. Arrange Training for the Medical Professionals:**

As per guidelines of the WHO and Department of Health and Family Planning, Govt. of Bangladesh and in consultation with them, a training course for the health professionals including rural health practitioners of both Hajigonj and Shahrasti Upazillas were organized on 26-29 September, 2006 at Hajigonj field office, Hajigonj, Chandpur. The main objective of the course is to make the participants capable in identifying arsenicosis and management of arsenicosis patients according to the WHO and Government health department protocol and guideline.

Total 20 health professionals from Hajigonj 10 and Shahrasti 10 participated in the training course. Among the participants 06 were Medical Officers, 02 Medical Assistants and 12 were Sub-Assistant Community Medical Officers (SACMO) from the health and family planning department, Govt. of Bangladesh. Out of 20 participants 5 were female.

The training course was participatory which includes lectures, question and answer session, experience sharing, field visit for practical knowledge, ice braking, pre-test and post test for evaluating the knowledge level of participants etc.

The Area coordinator of Hajigonj coordinated the whole training sessions. Two expert doctors facilitated the different training sessions.

*Area Coordinator Mr. Golam Rasul Arman is addressing in the Inaugural Session of the Training Course.*

**The training sessions covered the following topics:**

- What is arsenic and affect of arsenic poisoning on human body and its consequences in terms physical, mental and social perspective?
- What is arsenicosis and its causes?
- Identification of arsenicosis patients, diagnosis features (Pathological and External)
- Different Protocols (WHO & Govt.) of Arsenicosis patient's treatment and management.
- Differentiation of arsenicosis and other similar diseases
- Role of medical professionals in raising awareness on arsenic issues in the community.

*Medical Professionals are seen at the Training Session at Hajigonj.*

At the end of the training course post evaluation was done through MCQ methods. A certificate distribution ceremony was arranged where 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> scorer awarded with token prizes. Certificates regarding the completion of the training course were distributed among the participants

*A view of training session where a medical professional asking question*

**List of Training Participants is enclosed at Annex-I.**

**14. Arrange Focus Group Discussion:**

The Village Arsenic Management Workers (VAMWs) conducted 2,400 numbers (Two Thousand and Four Hundred) of Focus Group Discussions (FGDs) covering the period from July'06-June'08 as per plan. One VAMW usually is responsible for organizing one FGD at

his/her village per month. In the FGDs, the Community Mobilizer, Community Organizer and VAMW discussed about health, water and sanitation, arsenic and arsenicosis diseases. Necessary Information Education and Communication (IEC) materials were collected from UNICEF, WHO, DPHE for facilitating the FGD sessions.

The FGDs took place in Para/Mahalla (small unit of village) and attended by 30-35 participants approximately in each one

*Participants are seen in the Focus Group Discussion organized at courtyard of a villager.*

*Participants are seen in the Focus Group Discussion organized at court yard of a villager.*

Thus, a total of 66,748 numbers of participants were participated in FGDs, among them 73.56% were women. Visual materials, such as photographs and posters on arsenicosis were displayed for the successful conduction of the FGDs. The VAMWs informed the participants, about the available health services of the project, such as schedule of the satellite clinic of respective village, during the FGD sessions. They also discussed about the access to safe drinking water and status of the arsenicosis patients. Attendance sheets were filled-up.

Light refreshment was served to the participants after successful conduction of each FGD. The Area Coordinator, CDS & DMO used to supervise the implementation of this component.

*A view of FGD under a banyan tree*

*Women are seen in the FGD session in front of a outer house of a villager.*

### **Special FGD:**

In addition to above, there were 167 special FGDs organized by the project staff at the field level, where about 6944 participants were present. The special FGDs were mainly held at different educational institutions, roadside tea stalls, mosques and other places with the teachers, students, imams and those who attended the prayer at the mosque, floating people, passer-by and others. The special FGDs were found more participatory, lively and effective.

*A partial view of special FGD at Balakhal High School*

The participants of the special FGDs also used to convey the messages of the FGDs to their family members, friends, relatives, neighbors and others. They work as mouth piece of the project. The teachers and students were found enthusiastic to discuss about the messages with others effectively.

*List of venues and number of participants of FGDs is enclosed at Annex-J.*

*A partial view of special FGD at Balakhal High School*

### **15. Arrange Health Camps**

As per ToR, it was supposed to organize 100 satellite health camps during each of the quarter. Guidelines and protocols of the WHO and Health and Family Planning Department of Government of Bangladesh, were followed. All the 800 health camps were organized during the period from July'06- June'08 to provide the required health services to the arsenicosis patients of the project area.

Usually, at the primary level, the VAMW of the respective village identify or do screening of the patients and send them to the health camps as per schedule for final diagnosis, treatment and management of arsenicosis diseases.

A medical team consisting of one medical doctor, one paramedic and 2 VAMWs are responsible to organize the health camps. The UAMC and respective VAMWs will encourage and motivate the people to visit and attend the camps from time to time. Necessary medicines are provided to the poor patients under the project.

**Total 12,829 numbers** of patients have received health services from these camps; among them most of them are women. It was observed that women are most vulnerable than men to arsenicosis diseases, because, they suffer from malnutrition due to their ill beliefs, superstitions, and negative health behaviors. Usually, the rural women take their meal with the left over, if any, after having meals of their husband, children and other members of the family. This practice in the long run destroyed their immune capacity.

*Health and Medical supports are being provided to the arsenicosis patients by a qualified medical doctor*

*Patients are waiting at the health camp*

Moreover, their ailments are ignoring by the head of the family. Sometimes, women felt shy to disclose their illness to others due to unknown fears. Most of the patients attended the camps were from tertiary level and with developed arsenicosis complexity.

The physician said that the patients were suffering not only from arsenicosis diseases, rather, they were suffering from various

other diseases like Kidney problem, Liver diseases, Skin and Sexual diseases, weakness, Gastroenteritis, etc.

These diseases need long term and regular medication and also ensuring totally safe drinking water including in taking of nutritious food. Otherwise, they will not be cured and may take turn to cancer.

#### **16. Provide Medical Support:**

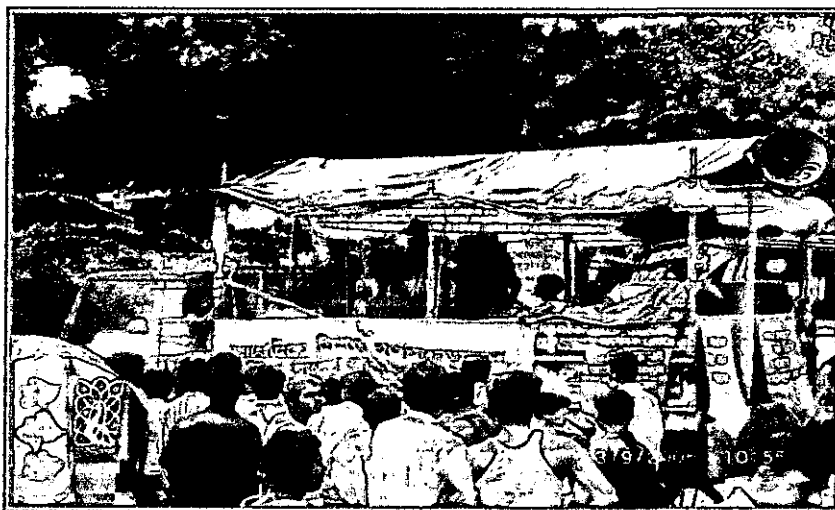

**52 numbers (Fifty Two) of local residents** who had previously no access to clean drinking water were selected by satellite health camps and UAMC. They were selected for clinical diagnosis and treatment including supply of medicine free of cost. The health professionals monitor their health data, report and progress regularly. The selected beneficiaries were very poor and had no access to safe drinking water and treatment facilities. The scientific evaluation of the health data will be used for awareness raising campaigns, especially on improvement of public health through provision of arsenic-safe drinking water. The initial and regular check-ups are conducted at a specialized hospital.

*List of the patients are enclosed at Annex-K.*

#### **17. Perform Folk Song:**

To raise awareness among the community people regarding arsenic and arsenicosis issues, a total of **102 numbers (One Hundred Two) folk songs' shows** at Hajiganj and at Shahrasti were performed during the period from July'06- June'08 of the project. A renowned group of folk singers namely, *Tokai Natya Dal* was assigned for performing the shows. This group of artists was also responsible for selecting and writing songs on arsenic related issues and arsenicosis diseases.

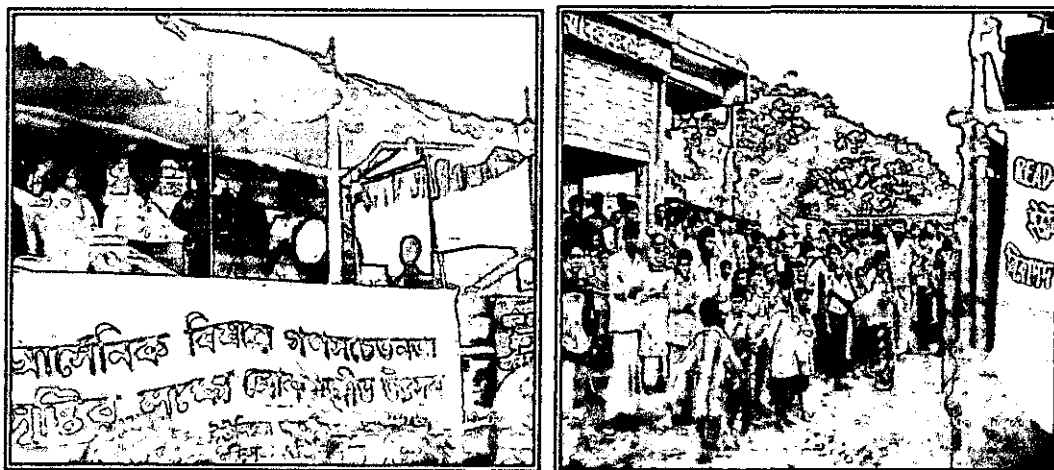

*Folk songs are sung on a colorfully decorated open Truck*

Different relevant messages on arsenic issues have been included in the lyric. Songs were written in a very simple word so that mass community people can understand the song's theme. Popular tunes were selected and newly written songs synchronized with these tunes.

Mainly the village markets, road junctions, stations and educational institutions etc. were selected as spots for the shows. Shows were performed during the prime time of the locations when maximum people come to the spots for shopping and other purposes.

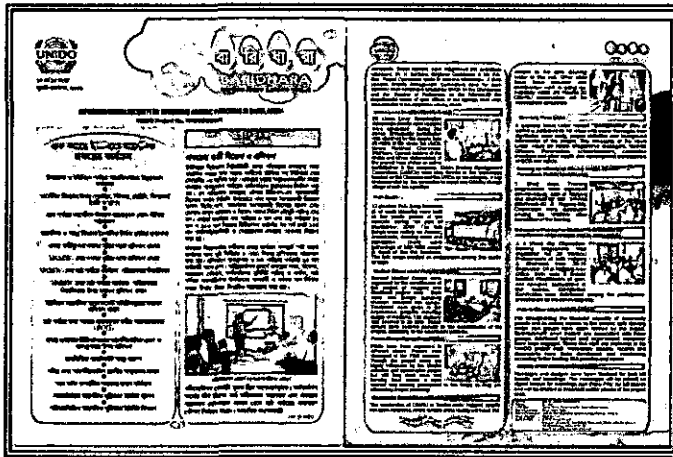

*Partial view of viewer of Folk Songs*

A truck was decorated with banners, festoons, stickers and colorful cloths. The decorated truck was used as stage for shows. Sound system was fixed on the truck to cover the large audiences.

Popular singers sang at least 10-15 folk songs at each of the spots. Simple messages were also given to the audiences in between the songs. Duration of each show was 2 hours. About **500-700 people** were gathered to watch & enjoy the shows at each of the spots. The people were very much interested to hear more songs and put up their demand. Respective Community Mobilizer (CM) and Community Organizer (CO) were responsible to control and facilitate the shows. People enjoyed these shows as festival and it created a

All the 08 (eight) issues of the Quarterly News Letter on Arsenic and Health related topics, namely, "BARIDHARA" were published, one issue in each of the 7 Quarters. 1,000 copies were printed in each quarter in an eight-page format, two pages of which were in English (summary). The News letter focused on the ongoing activities of the project, success stories, information about future programs and other achievements of the project. Recipients of the Newsletter were Health Program Mangers, Medical Officers, Paramedics, Teachers, Committee Members and other health and development professionals of GOB and NGOs.

*First page and Last Page of a copy of Quarterly News Letter BARIDHARA*

Before selection of name of the news letter and contents, consultative meetings were organized with the experts of print and electronic media. It may be mentioned here that, after distributing the newsletter, we have received comments and suggestions from the readers for further improvements. We incorporated their comments and suggestions in the next issues of the quarterly news letters.

**19. Installation of Bill Boards:**

As per ToR, 50 numbers (Fifty numbers) of billboards on water, sanitation and environmental issues were developed for displaying at the village bazaars, traffic points, road junctions etc. and most importantly, in front of 20 Union Parishad complexes/offices of the project area. The billboards are made on Pena flex digital print, which is very durable and sustainable. The size of the billboard is 8' x 5' and the contents are presented in multi color.

*A view of installed bill board in front of Union Parishad Complex.*

*Another type of Billboard with different message*

In developing the messages for the billboards, communication message development method was followed. After drafting the messages, field tests were done at project sites and shared with the communication experts. Initiative was taken to prepare the messages simple, understandable and communicable to everybody. It may be mentioned here that two types of messages were displayed through the billboards to focus more information for mass awareness.

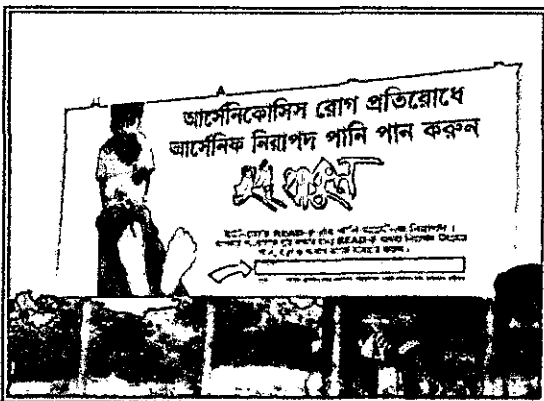

*List of Bill Boards are enclosed at Annex-L.*

## **20. Installation of Hoardings (Panels):**

As per ToR 10 Hoardings (Panels) at Hajiganj and Shahrasti on arsenic issues were developed for displaying in the key points of the project area. The Panels were displayed at the Upazilla Parishad premises and at the key points of the project area where lot of people visit everyday on various purposes. Upazilla Parishads are considered as hot spots for disseminating any information. The panels were also made on pana flex digital print which is very durable and sustainable. The size of the billboard is 30' x 9' and the contents are presented in multi color.

*A view of installed hoarding beside the main road*

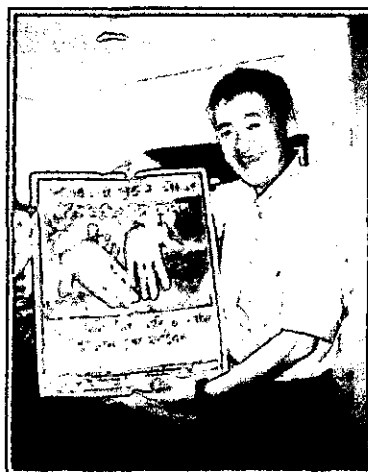

*A view of installed hoarding at Warukh Bazaar with different messages*

In developing the messages for the billboards, communication message development method was followed. After drafting the messages, field tests were done at project sites and shared with the communication experts. Initiative has been taken to make the messages simple, understandable, communicable and easy.

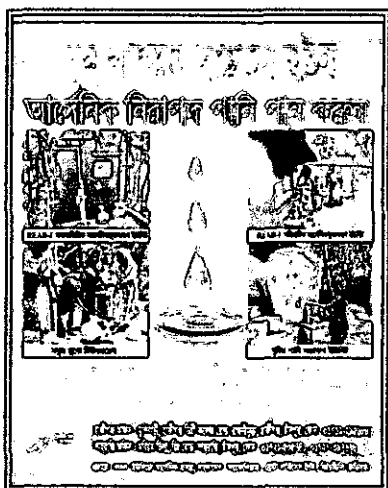

*List of the selected places is at Annex-M*

**21. Development of Poster on Arsenic issue:**

02 (two) issues of colored poster highlighting separately the issue of arsenic and arsenicosis were developed and printed in 10,000 (5,000+5,000) copies under the Project. The posters were efficiently distributed and displayed under close supervision of the Community Development Specialist and other project personnel, in order to guarantee a long-lasting communication effect through VAMWs. Display of the posters were followed an approved schedule by the contractor. The posters were used and displayed within the project area and be used in workshops,

*A poster at the hand of Jun Nishida*

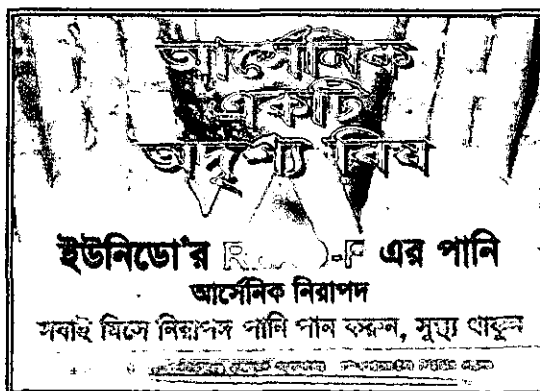

**Poster- 2<sup>nd</sup> issue**

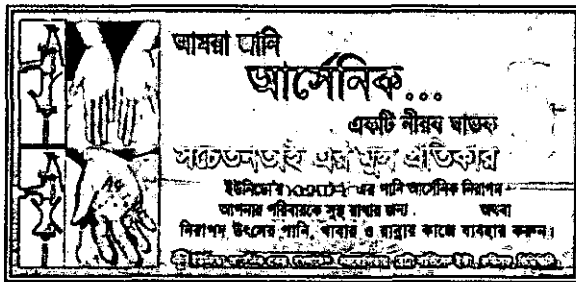

Seminars, Exhibitions, Training courses implemented by health and educational institutions, community centers and clinics. The poster was designed in consultation with the communication experts by following the effective communication material development process. Draft poster was field tested at the project sites before final printing. Series of consultation meetings were held with the expert groups like message developer, designer, photographers, editor, communication expert and printer.

**22. Development of Stickers on Arsenic Issues:**

40,000 (20,000 in each year) copies of multi colored sticker on Sanitation and Personal Hygiene issues were printed and distributed for public showing in offices, busses, trucks, trains, stores, banks, and schools in order to sensitize a large number of people. The stickers were efficiently distributed and displayed under close supervision of the Community Development Specialist and other project personnel, in order to guarantee a long-lasting communication effect through VAMWs.

*Sticker printed and published during 1<sup>st</sup> Year*

*Sticker printed and published during 2<sup>nd</sup> Year*

Distribution and display of the sticker were followed an approved schedule by the project management in Bangladesh. The stickers were used and displayed within the project area and in workshops, seminars, exhibitions, training courses, FGDs implemented at health and educational institutions, community centers and clinics and as well as by the project.

The sticker was designed in consultation with the communication experts by following the effective communication material development process. Draft sticker was field tested at the project sites before final printing. Series of consultation meetings were held with the expert groups like message developer, designer, photographers, editor, communication expert and printer.

**23. Installation of Community Based Arsenic Removal Unit (CBARU):**

Out of 20 (Twenty) CBARUs, 11 (eleven) were installed at Hajiganj and 09 (nine) at Shahrasti Upazillas for providing and ensuring access to arsenic safe water for drinking and cooking purposes for the community people. It is estimated that initially 250 families will get opportunity to use arsenic safe water for drinking and cooking purposes from each of the CBARU.

The required land and other possible logistics were provided by the community people, which ensure their participation and ownership in this process.

It was observed that people are taking water from the installed CBARUs from far away which prove that the people have no other options for getting arsenic safe water except CBARUs in their community.

As per project plan, the number of CBARUs are very limited which is far below the actual need and demand.

*Mr. Pablo Huidibro & Mr. Md. Anisur Rahman Miah, UNO, Hajiganj jointly inaugurating a CBARU at Deshgoan, Dakshin Gondarbapur Union, Hajiganj*

*Mr. Shamsul Haque Bhuyan, XEN, DPHE, Chandpur & Mr. Md. Anower Hossain, Chairman, Chitoishi(West) Union, Shahrasti jointly inaugurating a CBARU at Babupur*

Mr. Md. Salauddin, Upazilla Nirbahi Officer (UNO), Shahrasti, Mr. Md. Anisur Rahman Miah, UNO, Hajiganj, Mr. B.G. Das, Project Coordinator, UNIDO Arsenic Project and others.

*List of installed 20 CBARUs is enclosed at Annex-N*

The community people, Union Arsenic Management Committee and other stakeholders are constantly demanding for more CBARUs at the project area, at least one for each village.

The CBARUs were formally inaugurated by the UNIDO personnel, Govt. officials and others such as Mr. Jun Nishida, Mr. Pablo Huidobro, Mr. H. Inadome, Mr. Mohammad Shamsul Haque Bhuiyan, Executive Engineer, DPHE, Chandpur,

*Mr. Md. Salauddin, UNO, Shahrasti, Mr. Aminul Kabir Patowary Chairman, Raysree (South) Union, Shahrasti & Mr. B. G. Das, Project Coordinator, UNIDO Arsenic Project jointly inaugurating a CBARU at Bejoypur.*

## **24. Maintenance of the Community Based Arsenic Removal Units (CBARUs)**

The responsibilities have been distributed among the project personnel for the maintenance of CBARUs such as full washing, backwashing, foam washing & minor repairing of the pump and pipe lines including essential spare parts fittings as well as transferring the technology to the users of CBARUs of both the Upazillas. It is an ongoing activity.

Some of the installed CBARUs needed minor repairing including replacement of some small items and backwashing and these were done.

*Maintenance & backwash of CBARU by the Users and UNIDO Arsenic Project personnel*

Moreover, the surroundings of CBARUs were maintained properly to keep clean and in hygienic environment. In addition, some minor repairing works were also done including fencing, painting, etc. to some of the CBARUs.

It is remarkable that the people of the locality demanded for installation of more number of CBARUs at the project area since there is no other available source of arsenic safe water except these CBARU installed by the project. Most of the alternative sources of arsenic safe water like – deep tube-wells, rain water harvesters and Pond Sand Filters are not functioning smoothly.

*Backwash and Maintenance of CBARU*

It may be mentioned here that some existing local workshops have been trained and established a linkage with the users' forum so that the maintenance work of the CBARUs may be done by them even after completion of the project. The VAMWs, living around each CBARU are also member of the UAMC for the direct involvement in case of regular maintenance.

#### **25. Formation of Water Users' Forum of CBARUs:**

Formations of 20 No. of CBARUs Water Users' Forum have been completed both at Hajiganj and Shahrasti Upazillas for proper maintenance of CBARUs. The heads of the house hold of the water users' families are the general member of the users' forum. At the meetings the general members elected 09-11 members Executive Committee for each of the CBARUs for smooth functioning, better maintenance and liaison with the UNIDO project personnel as and when necessary.

*List of the Executive Committee of the CBARUs Water Users' Forum is enclosed at Annex-O.*

#### **26. Training for Water Users' Forum:**

20 (Twenty) nos. daylong training courses were held for the executive members of CBARUs water users' forum on proper maintenance on smooth functioning of the CBARUs. The training courses were conducted at Shahrasti and Hajigonj Upazillas. The chief chemist, laboratory technician and other technical project staff conducted the training successfully. All types of process for full washing, back washing, foam washing, change of ingredients, spare parts, minor repairing and other related matters were demonstrated during the training.

*A partial view of water users' forum training*

## **27. Upazilla Arsenic Management Committee (UzAMC) Coordination meeting:**

45 No. of monthly Coordination meetings were held with the Upazilla Arsenic Management Committee at each of the Upazilla (Hajiganj-22 and Shahrasti-23). The meetings were chaired by the Upazilla Nirbahi Officers (UNO) & Chairmen of the UzAMC of respective Upazilla. In these meetings, detailed field level on going project activities and next operational plans were shared with the committee members.

The UNOs ensured that all possible supports to be provided to the project for its successful implementation & completion. They urged the committee members for their active participation in such type of humanitarian activities. The committees have agreed that this project is a unique project to address the problems of their society regarding arsenic safe water. They emphasized on installation of more CBARUs, because the allocation of CBARUs in the project is much less than the actual requirements and distribution of Household ARUs should also be increased for ensuring arsenic safe water to all the families of the community.

*A partial view of UzAMC Meeting at Shahrasti*

They also put forward their recommendations for wider dissemination of arsenic related information through meetings with different stakeholders like religious leader, teachers, students, mothers, community leaders, youth leaders, business community, trade union activists, etc. and to include arsenic related grass root level information in the quarterly news letter.

*A partial view of UzAMC Meeting at Hajiganj*

The IEC materials like hoardings, bill boards, poster, sticker, leaflet, are to be increased including holding of folk song program, street drama, community film show etc.

It may be mentioned here that, both of the UzAMC meetings held on December '07, expressed their deep satisfaction for arranging the Project Experience Sharing Workshop held on 27 November, '07 at Hajiganj Upazilla and 12 December '07 at Shahrasti Upazilla and for its successful completion.

The UNOs and Chairmen of both UzAMCs requested the UNIDO authority to consider the suggestion and recommendations for further improvement and extension of the project.

***List of Participants at the Meeting of UzAMC is enclosed in Annex - O.***

**28. Union Arsenic Management Committee (UAMC) Coordination Meeting:**

20 regular meetings with the Union Arsenic Management Committees of both the Upazillas were held during each quarter and thus a total of 160 UAMC meetings were held till June'08 since inception of the project. Members of the committees actively participated in the meetings. The members discussed and reviewed the on going field level activities of their respective unions. They also reviewed their role and responsibilities in maintaining the CBARUs, selection of families for distribution of HHARUs and advice the arsenicosis patients to attend the health camps.

*UAMC Meeting at Shahrasti*

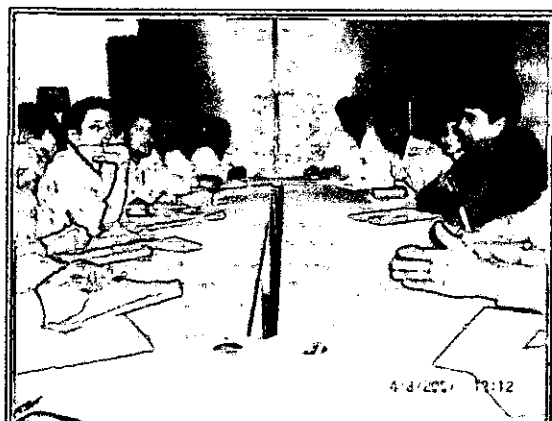

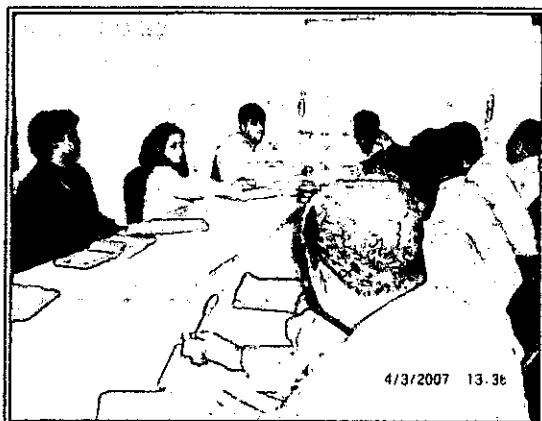

*UAMC Meeting at Hajiganj*

***List of Participants of Union Arsenic Management Committees Meeting is enclosed in as Annex – R.***

**29. Monthly Coordination Meetings:**

**A. Home Office:** Usually, monthly coordination meetings were organized at home office in Dhaka where all senior staffs were present. In these meetings field level operational plan, progress and strategies were discussed. The Project Coordinator used to facilitate the meetings and gives necessary instructions to the assigned personnel for ensuring quality of the project activities

*Partial views of meeting at Home Office*

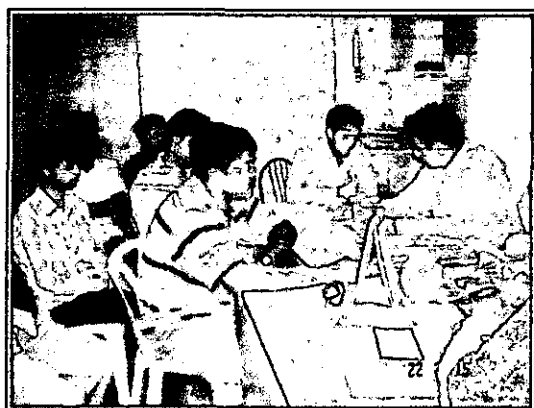

**B. Area Offices:** Monthly staff coordination meetings were also held at the field offices of Hajiganj and Shahrasti where every staff remain present and it is a practice to submit his/her individual reports on the activities performed with the problems encountered, if any and how those problems were solved. Submits work plan for the next month. Threadbare discussions were held during these monthly meetings, which help to review the project status and to undertake appropriate strategies (if required) for successful and timely implementation of the project activities. Moreover, meeting at the Area offices also organized for any kind of necessity.

*Monthly Coordination Meeting at Hajiganj*

*Monthly Coordination Meeting at Shahrasti*

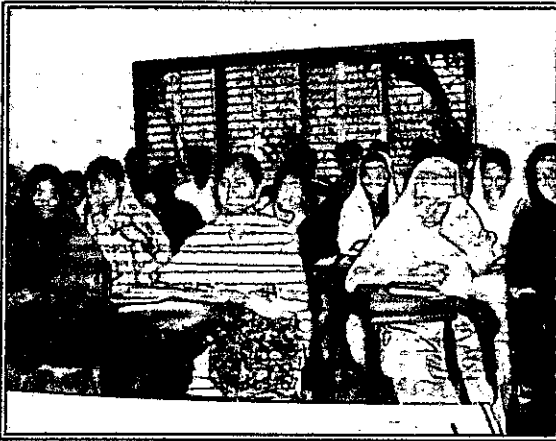

*Monthly Coordination Meeting at Hajiganj*

*Monthly Coordination Meeting at Shahrasti*

**C. Meeting with VAMWs :** 02 monthly meetings were held with VAMWs, one for each Upazilla and thus a total of 48 Nos. of meeting were held till June'08. Usually, the activity reports of VAMWs are collected in these meetings. They also submit work plans for the next month. The work plans were discussed in the meeting and approved with necessary changes. The project staff used to share with the VAMWs regarding the activities and work plan. The project staff also informed the VAMWs regarding the supervision and monitoring plan and advised them accordingly.

*Hajiganj Office Meeting ← Partial Views of Monthly Coordination Meetings with VAMWs → Shahrasti Office Meeting*

### **30. Income Generating Activities (IGAs)**

To ensure access to the arsenic safe drinking water of the poor community, the project has been providing technical and financial support for strengthening the financial capacity of disadvantaged group of people so that they can procure and maintain the technology of safe drinking water options. Till date 52 IGA groups have been formed by the project. Total 681 businessmen / small traders and women members are associated with these groups.

For strengthening their existing Income Generating Activities (IGAs) such as poultry farming, kitchen gardening, cow fattening, goat rearing, stitching, cane & bamboo works, fishing, rickshaw puling & small business etc. both financial and technical supports are being provided to the group members. Necessary papers, records and documents have been developed and maintained according to the IGA practice and norms.

For carrying out the IGAs, 8 additional trained and experienced manpower (4 for Hajiganj and 4 for Shahrasti) have been engaged by the designated NGOs since inception of IGA programs. The salary and other benefits are not charged from the project fund.

*IGA worker discussing with the female group members*

### **31. Orientation for IGA Group Members:**

For strengthening the capacity of the IGA group members, orientation sessions were organized at both the Upazillas. It is remarkable that IGA program has taken in ordered to make them capable to purchase and proper maintenance of Arsenic Removal Units by their

own income from UNIDO supported Income Generating Activities. IGA concept, objectives, Group formation, conduction of IGA group meeting, collection of materials for IGA product, marketing, loan disbursements system, IGA payment and repayment procedures, duties and responsibilities of group leaders and members, papers, documents and records keeping systems etc. were discussed in the orientation sessions in a very open and cordial environment.

**32. Household Based Arsenic Removal Units (HHARUs) Distribution:**

All the 1,500 HHARUs have been distributed among the cluster families of both the Upazillas and severe Arsenicosis poor patients referred by physician from the health camps of two Upazillas. The distribution has been made at the rate of 50 to 75 units for each union depending on population and severity of Arsenicosis patients. It may be mentioned here that the caretaker of the units were selected by the VAMWs and UAMCs from the families who are poor and having no access to safe water. Both the VAMWs and UAMCs have been given the responsibility for selecting caretakers through filling-up a format and they forward those formats to the project office with their recommendations considering the vulnerability of the candidates for final selection.

*Mr. Pablo attended a UAMC coordination meeting at Uttar Meher Union Parishad Complex, Shahrasti and distributing HHARU.*

*Mr. Md. Anisur Rahman Miah, UNO is seen distributing HHARUs in the UAMC coordination meeting at Poschim Barkul Union Office, Hajiganj where Mr. Pablo & Mr. H. Inadome were present.*

*Distribution of HHARU at Barkul Union Parishad Under Hajiganj Upazilla.*

The distributions were made both ceremonially and normally at the Union Parishad (UP) Office during UAMC meeting in presence of UAMC members, Local elites, Community leaders and UNIDO project personnel and at the project area offices of both the Upazillas. During distribution, the operation and maintenance procedures of the units were shown to the recipients (caretakers). The techniques of backwash were also shown to them. An operational manual was also supplied to each of the recipients. The operational manual contains the contact address and telephone numbers for communicating the project office, when necessary. The operation and maintenance of the units are supervised by the concerned project personnel regularly.

In some of the distribution ceremonies Mr. Pablo Huidobro, Chief, Water Management Unit, Program Development and Technical Cooperation Division, Vienna, Austria, Mr. Jun Nishida, UNIDO Tokyo, Japan, Mr. H. Inadome, Tokyo, Japan, Mr. Toshio Yotsumoto, General Manager, Technical Sales, Nihon Kaisui Co. Ltd., Tokyo, Japan along with Upazilla Nirbahi Officers (UNOs) of Hajiganj and Shahrasti, Mr. B.G.Das, Project Coordinator, UNIDO Arsenic Project-Bangladesh, two Area Coordinators and other officers of govt. and non-govt. offices were present and they spoke in the occasions.

*Mr. Aminul Kabir Patwary, Chairman along with Mr. B.G.Das, Mr. Md. Golam Rasul Arman, Mrs. Salma Shirin Chowdhury were present in a distribution ceremony of HHARU at Raysree (South) Union.*

***List of recipients of HHARUs is enclosed as Annex-S.***

### **33. Arsenic Free Villages:**

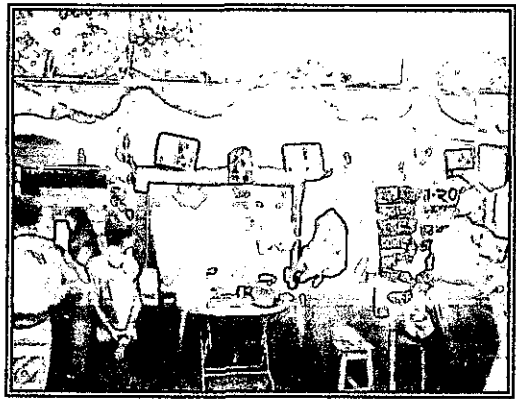

According to the decision of the monthly coordination meeting held at home office one village from each Upazilla declared as an Arsenic free village. 'Kakoirtola' at Hajiganj and 'Khanashwar' at Shahrasti Upazilla have been selected for the same. A set of questionnaire had been developed in consultation with sectoral specialist and a day long demonstration was organized by the project personnel for the data collectors regarding collection of data from the selected villages. The survey of both the villages has already been completed. Now, implementation is under process.

### **34. Participation at the Upazilla Fair:**

During the reporting period both the Upazilla Arsenic Management Committees (UzAMCs) requested the UNIDO Arsenic Project authorities to participate at the Tree Plantation Fair on 3<sup>rd</sup> to 5<sup>th</sup> August at Shahrasti Upazilla Parishad & 8<sup>th</sup> to 10<sup>th</sup> August at Hajiganj Upazilla Parishad organized by the Agriculture Extension Department of GOB. Both the Area Offices participated at the Fair and distributed arsenic related IEC materials like Poster,

Sticker, Leaflet, Booklet, etc. among the visitors and also displayed READ-F technology for arsenic safe drinking water.

On the spot arsenic test of tube-well water brought by the visitors was done and showed to the people to aware about water quality of drinking water. It is remarkable that both of the UNIDO stalls were awarded with prizes.

*A scene of the stall of UNIDO Arsenic Project at the Tree Plantation Fair*

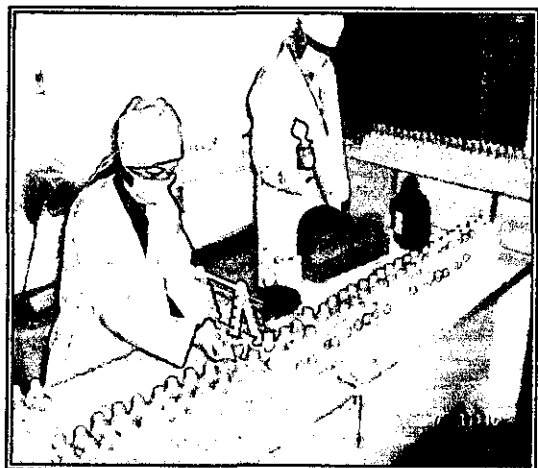

### **35. Participation in the Water and Sanitation Fair:**

To disseminate information about the UNIDO arsenic project activities and to aware the community people about arsenic and arsenicosis issues the project participated in the water and sanitation fair on December 20-21, 2006 organized by DPHE and NGO Forum at Hajigonj, Chandpur. It was a great opportunity to show the visitors of the fair about the new technology of Arsenic Removal Unit namely READ-F for having arsenic safe water. In the stall, it was demonstrated the technique of using arsenic field test kit, Household ARU, Community Based ARU. Lot of IEC materials like poster, sticker, newsletter, booklets and leaflets were distributed among the visitors. It was found that lot of visitors gathered in the stall and showed their interest about the READ-F technology.

It may be mentioned here that the UNIDO Arsenic project stall was adjudged 2<sup>nd</sup> by the fair organizing authority and won the 2<sup>nd</sup> prize for decoration and attracting lot of visitors.

### **36. Sample Water Testing:**

It was found from the Government and UNICEF survey that 98.28% tube-well water of Hajiganj and 99% of Shahrasti Upazilla is contaminated with arsenic. The contaminated tube wells were marked with Red sign and warned the people not to drink water from those sources. But having no alternative source of safe water, people have been using the contaminated water. The screening was done 4-5 years ago and the Red marks washed away. A significant number of tube-wells were installed after previous screening. So, now it is difficult to identify which tube wells were safe and which were not.

*Sample water testing at the Laboratory of UNIDO Arsenic Project Home Office, Dhaka*

This is mandatory for the project to identify the arsenic safe tube wells. The project has also been providing information to the community people about the source of arsenic safe water through FGDs, other awareness programs and UAMCs' meetings. So, the project needs to confirm the source of water whether it is safe or not. Considering the above situation, the project has taken initiative to screen and examine all the tube wells water by using field test kits and laboratory test at UNIDO Home Office Laboratory.

During the project period, a total of 3,300 (3,000 HHARUs Water & 300 CBARUs water) numbers of sample water have been tested and examined. Out of 3,000 HHARUs water, 1,500 were Raw and 1,500 were treated. This is a regular and continuous activity of the project. The most of the tube wells' water were found with arsenic contamination beyond acceptable limit. Till date, 11,400 nos. of tube wells water of Hajiganj and Shahrasti Upazillas were contaminated as per our test and examination. The result is a bit lower than the previous one. This is due to installation of deep tube wells and stopping use of water from red marked tube-wells for drinking and cooking purposes by some conscious people.

P<sup>H</sup>, Iron and Phosphate of 3,000 nos. of HHARU water & 300 of CBARU water have been tested in the laboratory.

### **37. Arsenic Field Test Kits:**

All the 550 Arsenic Field Test Kits have been used in the field for determining arsenic contamination prior to installation of house hold based units and to check the efficiency of the ARUs. These kits have also been used in different awareness and training programs of the project including monitoring of crude water quality for estimation of ARU purpose.

### **38. Project Experience Sharing Workshops:**

Two Project Experience Sharing Workshops were held, one at Hajiganj on 27, November '07 and another at Shahrasti on 12 December, '07.

**A. Hajiganj:** The Project Experience Sharing Workshop held on 27 November, '07 at the Primary Teacher's Training Institute (P.T.I.) Hall Room, Hajiganj Upazilla under Chandpur district on the project activities performed during 1<sup>st</sup> year of the project covering the period from 1<sup>st</sup> July '2006 to 30<sup>th</sup> June, 2007 of the two year pilot project, to share and discuss on the activities are performed, what are the achievements, what were the problems faced, how those problems were solved and what are the future plans. Mr. Md. Tajul Islam, Additional Deputy Commissioner (General), Deputy Commissioner (In-charge), Chandpur was the chief guest. Dr. Md. Golam Faruk, Medial Officer, Chandpur General Hospital, Chandpur, Dr. M. A. Mannan, Upazilla Health and Family Planning Officer, Hajiganj, Mr. Mohammad Hossain, Assistant Commissioner (Land), Hajiganj and Mr. Mohammad Rakib Uddin, Superintendent, P.T.I., Hajiganj were present as the special guests, while Mr. Md. Anisur Rahman Miah, Upazilla Nirbahi Officer, Hajiganj presided over the workshop. This was a half day workshop from 10 A.M. to 01.30 P.M.

*The guests and participants in their seats*

Mr. B. G. Das, Project Coordinator, UNIDO Arsenic Project-Bangladesh welcomed the Chief Guest, Special Guests and other honorable guests for attending the workshop in spite of their busy schedule. He expressed his gratefulness for this act of participation to make the project successful during last 01 year and hoped to be so in the coming rest of the period of the project. He concluded with thanks to all.

*Welcome address by Project Coordinator, UNIDO Arsenic Project*

Then a documentary video film was shown after an introductory speech made by Mr. Md. Golam Rasul Arman, Area Coordinator, UNIDO Arsenic Project-Hajiganj.

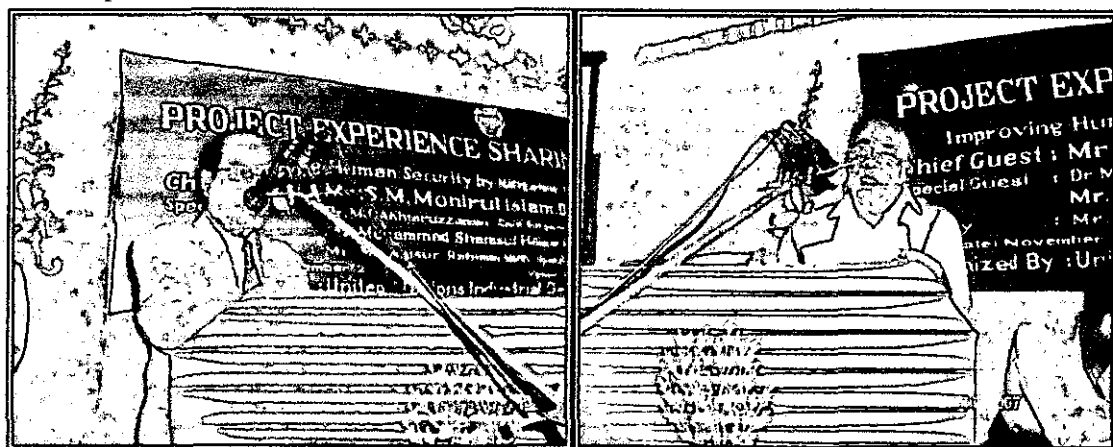

**The Video highlighted on the following;**

- The comments of the elites on arsenic poisoning and its affects by UNO Hajiganj Upazilla, Project Coordinator, UNIDO Arsenic Project-Bangladesh and Upazilla Health and Family Planning Officer.
- The use of arsenic safe water for drinking and cooking purposes,
- What is arsenic?
- Interview of physician, UNIDO Arsenic Project on services providing to the arsenicosis patients at the health camps.
- Symptoms of arsenicosis and its danger, treatment and advices to get rid of the danger of arsenic poisoning
- Focus Group Discussion meetings to aware the local people and the duties and responsibilities of Village Arsenic Mitigation Workers (VAMWs)
- Community Based Arsenic Removal Units (CBARUs) and their use
- Household Arsenic Removal Units (HHARUs) and their use
- Income Generating Activities for income generation, capacity building, leadership development, management, identification of income generating activities and implementation, financial assistance.
- IGA group meetings
- Meetings of Upazilla Arsenic Management Committee (UzAMC), Union Arsenic Management Committees (UAMCs) and meeting with GO and NGO officials.
- Awareness activities such as folk song, poster, sticker, billboard, hoardings and other awareness activities.
- A short drama on the bad affect of drinking arsenic contaminated water.
- An interview of Mr. Md. Shamsul Haque Bhuiyan, Executive Engineer, DPHE, Chandpur was also shown, where he urged the community people to collect the arsenic safe water for drinking and cooking purposes and advised arsenicosis patients to attend health camps organized by the UNIDO Arsenic project for treatment.

The video film has been prepared with the direction of Mr. Md. Golam Rasul Arman, Area Coordinator, UNIDO Arsenic Project-Hajiganj in cooperation with Mrs. Salma Shirin Choudhury, Area Coordinator, UNIDO Arsenic Project-Shahrasti under the supervision of Mr. B. G. Das, Project Coordinator, UNIDO Arsenic Project-Bangladesh.

Mr. Md. Tajul Islam, Additional Deputy Commissioner (General), Deputy Commissioner (In-charge) Chandpur, had delivered the speech as the chief guest. He thanked and greeted everybody for attending the workshop. He made a brief resume of arsenic problem in Bangladesh specially, in Chandpur district and nothing significant measures could be taken to fight against the arsenic poisoning. He urged the audience to keep up the devices of arsenic safe water and to cooperate the UNIDO arsenic project to implement their activities to fight against the danger of arsenic poisoning. He specially urged the GO and NGO officials, Union Parishad Chairmen, Journalists, Teachers, Social Workers, Religious Leaders, Local Elites and other Community Leaders to work hand in hand with the UNIDO arsenic project personnel to make the project a successful one, so that further extension of this project could be under taken. He thanked the workshop management on his and on

behalf of the district administration for inviting him at such a gathering and then he left for Chandpur.

*The chief guest is seen speaking*

*The special guest is seen speaking*

### **Open Discussion and Question and Answer Session**

During the session the participants were requested to participate in the open discussion about the success and failure of the project and also to raise questions regarding any matter related to UNIDO Arsenic Project Activities and suggestions, if any.

Many of the participants took part in the session ;

- Mr. Md. Ashraf Uddin Bhuiyan, Upazilla Statistical Officer-Hajiganj commented that both CBARU and HHARU are very much helpful for the beneficiaries.
- Mr. Md. Mohiuddin-al-Azad, Correspondent, Amar Desh pointed that HHARUs are distributed to those where there are deep tube-wells near by.
- Ms. Sabiha Sultana, Assistant Teacher mentioned that the project has been implementing its activities for last 01 year. There are so many arsenicosis patients in Hajiganj Upazilla. The Union Parishad Members have been extending cooperation regarding these patients but these are very negligible in comparison with the total number of patients suffering. Separate hospital is required for the arsenicosis patients to meet the demand.
- Mr. Sona Miah, an arsenicosis patient mentioned here that the arsenicosis patients are getting benefit from the project. He demanded more arsenic removal units.
- Mr. Mohammad Ali Azam, an arsenicosis patient of village-Enayetpur described that the medical services he received from the project health camps as an arsenicosis patient and he thanked god and prayed for more health services.
- Dr. M.A.Kashem, Sub Assistant Community Medical Officer (SACMO) expressed that if medicine were supplied to them they could provide health services to the arsenicosis patients.
- Mr. Md. Delawar Hossain, Head Master, Shuhilpur High School mentioned here that most of the women are engaged to collect water. It is a problem for them to collect water from far away. If more arsenic removal units could be provided it would be helpful for them.
- Mawlana Rafiqul Islam, Member Union Arsenic Management Committee (UAMC) 6 no. Borkul Purbo Union commented that not the treatment, prevention is

necessary. To aware the people, discussion should be made during religious assembly.

- Dr. Jahangir Kabir Choudhury, Sub Assistant Community Medical Officer (SACMO) said that he is a member of the Rajargaon Union Arsenic Management Committee (UAMC). He observed that the motivation work at the union level from the Thana headquarter is not sufficient. It would be helpful if there would be union sub-offices, the community people of the union level would get more services.
- Ms. Noorjahan Begum, an arsenicosis patient disclosed that she was recovering slowly. She thanked the project and wanted a HHARU.
- Mr. Md. Sharifullah Patwary, Union Parishad Chairman, Uttar Kalchow mentioned that 01 CBARU has been installed at his union and 75 nos. of HHARUs have been distributed. He also mentioned that 90 out of 140 tube-wells went out of order and the deep tube-wells should be repaired. There is none to look after it. There should be coordination among the service providers. CBARU should be installed in each of the nine wards of a union.
- Mr. Md. Anisul Haque, Instructor, Primary Teachers'-Training Institute (P.T.I.) Hajiganj thanked the UNIDO Arsenic Project Management for organizing such a discussion meeting. The P.T.I. institute has two hundred trainees with residential accommodation in the premises. But there is no arrangement of arsenic safe water for them. He demanded an arsenic removal unit for the institute.
- Mr. Shyamol Chandra Saha, Secretary, Rajargaon union recommended to establish satellite camps at all the important points of the Upazilla to provide health services to the arsenicosis patients.

To respond to the questions, comments, remarks and recommendations as stated above, the UNO Hajiganj, Project Coordinator-UNIDO Arsenic Project and Area Coordinator-Hajiganj spoke.

*The participants are seen taking part in the Open discussion session*

The UNO Hajiganj mentioned that 99% tube wells are arsenic contaminated in this Upazilla. He thanked the participants, who participated in the open discussion session. He mentioned that a list has been prepared of the arsenic contaminated tube-wells; in this regard cooperation from UNIDO Arsenic management was sought. There are many deep tube-wells from which water is not available due to minor problems; if possible, UNIDO field offices can provide assistance to improve the situation. He mentioned that awareness, motivation, sensitization activities regarding arsenic poisoning should be increased, so that the community people can realize the danger of arsenic poisoning and collect arsenic safe water from deep tube-wells and other sources of safe water.

He also mentioned that UNIDO has an activity of micro credit under IGA program. The monitoring system should be effective so that the credit money is spent by the group members for the purposes of the credit are provided to them.

Mr. B. G. Das , Project Coordinator, UNIDO Arsenic Project thanked all the participants as well as those who raised questions and made remarks, comments and recommendations. He informed that he will place their demand to the appropriate authority of UNIDO.

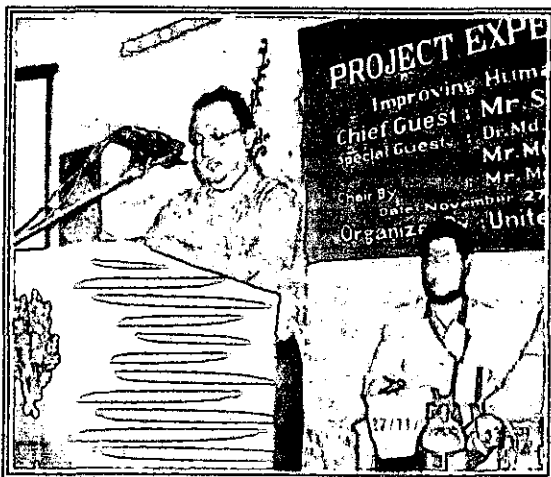

He also mentioned that he will try to establish sub zonal center at the union level.

He also said that he will take initiative to approach DPHE authority to repair the deep tube-wells of the project area so that the community people can collect arsenic safe water.

He assured that the IGA profit will be spent for repairing and maintenance of the CBARUs and HHARUs.

After question and answer session the special guests delivered their speeches. Mr. Md. Rakib Uddin, Superintendent, P.T.I., Hajiganj thanked the UNIDO Arsenic Project Management for organizing the workshop at his premises and inviting him to the program. He suggested and requested the arsenic project management to take motivational classes with the trainee teachers at least once in a year.

Dr. M.A. Mannan, Upazilla Health and Family Planning Officer thanked the participants and stated that arsenic poisoning is a killer and it also prevails other parts of the world beyond its acceptable limit. Many of the community people have been suffering from different types of arsenicosis diseases, it may cause cancer. He emphasized to aware the people regarding arsenic poisoning. Most of the deep tube-wells installed by the government earlier are now out of order. These should be repaired to have arsenic safe water and there should be a mechanism to keep the deep tube-wells fit for service.

*Dr. M.A. Farook, Representative of Civil Surgeon, is seen speaking*

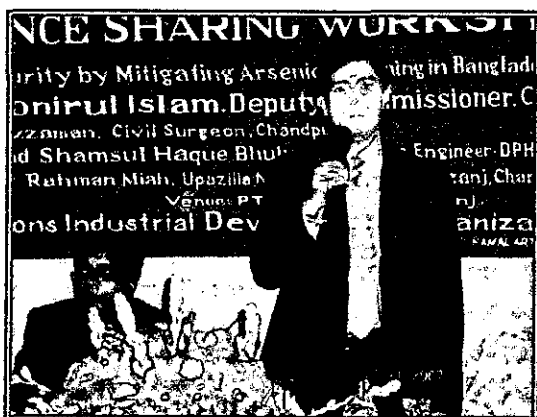

There is arsenic every where even in the air. Vitamin - A, E, C can help to recover from arsenicosis. It is the duty and responsibility of the individuals to collect arsenic safe water

for drinking and cooking purposes to keep them free from arsenicosis and he concluded.

Dr. Md. Golam Faruk from Civil Surgeon Office, Chandpur started his speech with thanks to the participants. He stated that Bangladesh is one of the poorest countries in the world. He stressed on change of habit of the community people. They should not wait for donation / aid / help from other nations for arsenic problem. They should take own course of actions to procure arsenic safe water. The development partners like UNIDO, UNICEF, etc. will not continue to help Bangladesh for ever in this regard.

Arsenic safe water is a must to keep oneself free from arsenic poisoning and arsenicosis. He advised to make a habit of eating vegetable plenty. This is a problem of ours. We should fight against the problem. He also suggested for collecting rain water and preserves it to use for drinking and cooking purposes since the rain water is arsenic safe and he concluded.

Mr. Md. Anisur Rahman Miah, Upazilla Nirbahi Officer, Hajiganj, who presided over the workshop made his concluding speech. He thanked the participants for cooperation to conduct the workshop peacefully. He expressed that the objective of the workshop has been fulfilled. He hoped that everybody could understand the danger of arsenic poisoning and all are aware about the bad affect of arsenic contaminated water. He suggested that the awareness program like-folk song, video show should be organized at all the remotest parts of the project area informing the local Chairmen earlier so that

*Md. Anisur Rahman Miah, Upazilla Nirbahi Officer is seen speaking*

community people may gather largely. He asked the participants to help and cooperate with UNIDO for implementing the project activities. He also suggested that motivational work for awareness purposes should also be done through taking classes at Madrasha, Schools, Colleges and other educational institutions, Mosques, Temples and Churches. He declared conclusion of the workshop with thanks to UNIDO arsenic project management for organizing the same.

***B. Shahrasti*** : The Project Experience Sharing Workshop held on 12 December, 07 at the Upazilla Auditorium, Shahrasti Upazilla under Chandpur district on the project activities performed during 1<sup>st</sup> year of the project covering the period from 1<sup>st</sup> July '2006 to 30<sup>th</sup> June, 2007 of the two year pilot project to share and discuss on the activities performed, what are the achievements, what were the problems faced, how those problems were solved and what are the future plans. Mr. S.M. Monirul Islam, Deputy Commissioner, Chandpur was the chief guest. Dr. Dipak Kumar Shaha, Upazilla Health and Family Planning Officer, Shahrasti and Mr. Shanjit Kumar Roy, Assistant Superintendent of Police, Hajiganj circle were present as the special guests, while Mr. Mohammad Salaudhin, Upazilla Nirbahi Officer, Shahrasti presided over the workshop. This was a half day workshop from 10 A.M. to 01.30 P.M.

After registration of the participants all the guests including Union Parishads Chairmen of Shahrasti Upazilla, all the Upazilla level GO and NGO officials, head of the Educational

Institutions, Journalists, Health Professionals, Local Elites and others took their seat. The workshop was conducted by DMO, UNIDO Arsenic Project. Each of the participants was supplied with a folder containing program schedule of the workshop, writing pad-1, ball pen-1, 5<sup>th</sup> Quarterly News Letter BARIDHARA-1 copy, Poster two issues, Sticker two issues, UNIDO Project activity summery in Bengali and summery report of the activities performed during 1<sup>st</sup> year.

The workshop started with the permission of the chair and recitation of the verses from the Holy Quran by Mr. Md. Ali Ahsan Bhuiyan, Upazilla Coordinator, Islamic Foundation, Shahrasti and Member of the Upazilla Arsenic Management Committee (UzAMC), Shahrasti Upazilla.

Mr. B. G. Das, Project Coordinator, UNIDO Arsenic Project-Bangladesh welcomed the Chief Guest, Special Guests and other honorable guests for attending the workshop in spite of their busy schedule. He expressed his gratefulness for their act of participation to make the project successful during last 01 year and hoped to be so in the coming rest of the period of the project. He concluded with thanks to all participants.

*Welcome address by Project Coordinator, UNIDO Arsenic Project*

*The guests and participants in their seats*

**Multi-Media Presentation:**

After an introductory speech, a multimedia presentation was made by Ms. Salma Shirin Choudhury, Area Coordinator, UNIDO Arsenic Project-Shahrasti.

**A documentary film was shown which highlighted the following;**

- The comments of the elites on arsenic poisoning and its affects by UNO Hajiganj Upazilla, Project Coordinator, UNIDO Arsenic Project-Bangladesh and Upazilla Health and Family Planning Officer.
- The use of arsenic safe water for drinking and cooking purposes,

- What is arsenic?
- Interview of physician, UNIDO Arsenic Project providing services to the arsenicosis patients at the health camps.
- Symptoms of arsenicosis and its danger, treatment and advices to get rid of the danger of arsenic poisoning
- Focus Group Discussion meetings to aware the local people and the duties and responsibilities of Village Arsenic Mitigation Workers (VAMWs)
- Community Based Arsenic Removal Units (CBARUs) and their use
- Household Arsenic Removal Units (HHARUs) and their use
- Income Generating Activities for income generation, capacity building, leadership development, management, identification of income generating activities and implementation, financial assistance.
- IGA group meetings
- Meetings of Upazilla Arsenic Management Committee (UzAMC), Union Arsenic Management Committees (UAMCs) and meeting with GO and NGO officials.
- Awareness activities such as folk song, poster, sticker, billboard, hoardings and other awareness activities.
- A short drama on the bad affect of drinking arsenic contaminated water.
- An interview of Mr. Md. Shamsul Haque Bhuiyan, Executive Engineer, DPHE, Chandpur was also shown, where he urged the community people to collect the arsenic safe water for drinking and cooking purposes and advised arsenicosis patients to attend health camps organized by the UNIDO Arsenic project for treatment.

The Documentary Video film has been prepared with the direction of Mr. Md Golam Rasul Arman, Area Coordinator, Hajiganj, UNIDO Arsenic Project, in cooperation with Ms. Salma Shirin Choudhury, Area Coordinator, Shahrasti, UNIDO Arsenic Project, under the super vision of Mr. B.G. Das, Project Coordinator, UNIDO Arsenic Project, Bangladesh.

Mr. S. M. Monirul Islam, Deputy Commissioner, Chandpur delivered his speech as the Chief Guest. He thanked and greeted everybody for attending the workshop. He made a brief resume on arsenic problem in Bangladesh especially in Chandpur district and he also contemplated that the 3<sup>rd</sup> World War may be for safe water. There are tube-wells at most of the houses of our country but it appeared that most of the tube-wells' water is arsenic contaminated.

*S. M. Monirul Islam, Deputy Commissioner, is seen speaking as the Chief Guest*

During taking arsenic contaminated water none can understand its bad affect but in the long run the arsenic poisoning reacts on the human body and creates major health hazard. All steps should be taken to have arsenic safe water for all. To ensure safe water for everybody all should cooperate with UNIDO Arsenic Project, especially, he urged the GO and NGO officials, Union Parishad Chairmen, Journalists, Teachers, Social Workers, Religious Leaders, Local Elites and other Community Leaders to work hand in hand with the UNIDO

arsenic project. He thanked the workshop management on his and on behalf of the district administration for inviting him at such a gathering and then he left for Chandpur.

### **Open Discussion and Question and Answer Session**

During the session the participants were requested to participate in the open discussion about the success and failure of the project and also to raise questions regarding any matter related to UNIDO Arsenic Project Activities and suggestions if any.

--- Many of the participants took part in the session ;

- Mr. Md. Abdul Kalam, Lecturer, Suchipara Degree College, Shahrasti told that sources of water at most of the educational institutions, hotels, tea stalls and other public eating places are arsenic contaminated. He stressed for taken measures to motivate and aware community people regarding the danger of arsenic poisoning.
- Mr. Md. Delwar Hossain, Chairman, Suchipara Dakshin, Shahrasti he informed that most of the deep tube-wells in Shahrasti Upazilla are not functioning. These should be repaired as soon as possible to have arsenic safe water.
- Mr. Md. Jahangir Alam, Correspondent of the Daily "Amar Desh" spoke that there are 96 villages in Shahrasti Upazilla of which awareness program should vigorously organized at the remotest villages of Shahrasti Upazilla.
  
- Mr. Md. Yasin Patwary, Teacher, Bharua Govt. Primary School expressed that we should convey the messages to the community people of our respective area what we came to know from this workshop.
- Mr. Md. Habibur Rahman, Chairman, Suchipara Uttar Union suggested that more ARUs to be arranged since the number of ARUs installed and distributed are very meagre in comparison with the actual demand and need of the area.
- Mr. Md. Humayun Kabir, Chairman, Tamta Union said that Arsenic Removal Units may be purchased by the community people for safe drinking water since we pay for other utility services.

*The participants are seen taking part in the Open discussion session*

Moreover, M/S. Abu Hanif, Chairman, Roysree Uttar Union, Ahmed Hossain , Head Mater, Ragoi High School, Md. Habibullah, Ex. Member, Meher Uttar Union , Md. Nurul Islam, Principal, Meher Degree College, Abu Yousuf Patwary, Chairman, Chitoshi Purbo Union, Mohammadullah, Project Implementation Officer, Abdul Mannan Miah, Chairman, Raysree Uttar Uion, Nazma Begum, Upazilla Education Officer, Kazi Feroz Anower, Sub Assistant Community Medical Officer also spoke for the extension of the project along with

installation of more CBARUs and distribution of more HHARUs including probation of health services to the arsenicosis patients more effectively.

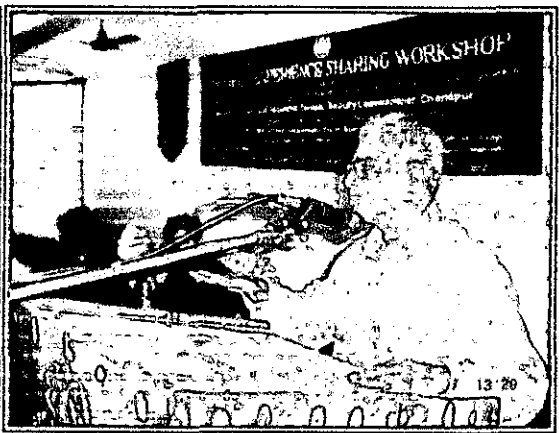

**Speech by the special guests:**

Mr. Sanjit Kumar Roy, A.S.P, Hajiganj Circle, Chandpurs explained to the audience about formation of arsenic and its nature and adverse affects of arsenic poisoning on human beings. He also spoke about various type of arsenic removal options for arsenic safe water. He stressed on awareness and motivational activities among the rural community people regarding danger of arsenic poisoning. He wished grand success of the program.

Dr. Dipak Kumar Shaha, Upazilla Health and Family Planning Officer, Shahrasti told that the condition of the arsenic contamination is dangerously devastating in this area. There are treatments for general diseases but there is no simple and direct treatment for arsenicosis caused by arsenic poisoning and it takes long time and expensive treatment for recovery. He suggested that existing disordered deep tube-wells, if possible, may be repaired from the fund of UNIDO.

*Sanjit Kumar Roy, A.S.P. is seen speaking as the Special Guest*

*Dr. Dipak Kumar Shaha, Upazilla Health and Family Planning Officer is seen speaking as the Special Guest*

Mr. B. G. Das, Project Coordinator, UNIDO Arsenic Project thanked all the participants as well as those who raised questions and made remarks, comments and recommendations. He informed that he will place their demand to the appropriate authority of UNIDO.

He also mentioned that he will try to establish sub zonal centers at the union level.

He also said that he will take initiative to approach DPHE authority to repair the deep tube-wells of the project area so that the community people can collect arsenic safe water from those.

He assured that the IGA profit will be spent for repairing and maintenance of the CBARUs and HHARUs.

Mr. Mohammad Salauddin, Upazilla Nirbahi Officer, Shahrasti, who presided over the workshop, made his concluding speech. He thanked the participants for cooperation to conduct the workshop peacefully. He expressed that the objective of the workshop has been fulfilled. He hoped that everybody could understand the danger of arsenic poisoning and all are aware about the bad affect of arsenic contaminated water. He suggested that the awareness program like-folk song, video show should be organized at all the remotest parts of the project area informing the local Chairmen earlier so that community people may gather largely.

*Mr. Mohammad Salauddin, Upazilla Nirbahi Officer, Shahrasti is seen speaking as the Chair*

He urged the participants to help and cooperate with UNIDO for implementing the project activities smoothly. He suggested that such type of workshops may be organized at every six month interval. He declared conclusion of the workshop with thanks to UNIDO arsenic project management for organizing the same.

*List of Participants of the Project Experience Sharing Workshop-Shahrasti at Annex-T*

### **39. Monitoring and Supervision:**

The Project Coordinator, Area Coordinators, Community Development Specialist , Documentation and Monitoring Officer, Admin and Finance Officer, Chief Chemist of the project, monitored and supervised the field level activities regularly. The Project Coordinator visited the project sites frequently to observe the on going progress of the planned activities at the field level. During his visit he talked with the project beneficiaries, stakeholders, committee members, project personnel as well as Government Officials for determining the actual situation and impression of community people about the project. Progress review meetings were also held at project sites to solve the implementation problems (if any) and to set up appropriate strategies for better and timely implementation of the project activities. Field level activities have been implementing under the close supervision of two area coordinators. Area coordinators distribute the specific tasks to the assigned personnel and follow it up at the field level by visiting the spots on regular basis.

### **40. Best Field Workers (VAMWs):**

This was a practice of the project to select 02 nos. of VAMWs (one from each Upazilla) during a quarter adjudging their performance in all respect as the best workers with a view to encourage and gear up their activities and to boost them up with incentive. Certificates were distributed ceremonially to the best workers rewarded with incentives.

**Their names with photographs are appended below:**

**Best Volunteers of this quarter (Oct.-Dec,06)**

Mr. Md. Monir Hossain, Vill: Rara of Shahrasti Upazilla and Ms. Sharmima Akther, Vill: Islampur of Hajiganj Upazilla were declared best volunteers of the quarter by the UNIDO project Management for their performance and will be rewarded with incentives.

Md. Monir Hossain

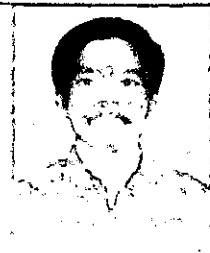

Sharmima Akther

**Best Volunteers (VAMWs) of this quarter (Jan.-Mar.07)**

Ms. Kulsum Akhter, Vill: Baniacho of Shahrasti Upazilla and Sree Jibon Chandra Debnath, Vill: Kashimpur of Hajiganj Upazilla were adjudged and declared the best volunteers (VAMWs) of the quarter by the UNIDO project management for their performance. They will be rewarded.

Kulsum Akhter

Jibon Chandra Debnath

**Best Volunteers (VAMWs) of this quarter (April-June 2007)**

Md. Nasir Uddin Vill: Wolipur of Shahrasti Upazilla and Mst. Anjuman Akther Tule, Vill: Subidpur of Hajiganj Upazilla were adjudged and declared the best volunteers (VAMWs) of this quarter by the UNIDO project management for their performance. They will be rewarded.

Md. Nasir Uddin

Anjuman Akther Tule

**Best Volunteers Award**

Mr. Md. Shamsul Haque Gazi, Village: Suhilpur, Union- 5 no. Hajiganj Sadar of Hajiganj Upazilla and Ms. Hazera Begum, Village: Chandipur, Union- Roysree Uttar of Shahrasti Upazilla were adjudged and declared the best volunteers (VAMWs) of this quarter by the UNIDO project management for their performance. They will be rewarded.

Md. Shamsul Haque Gazi

Hazera Begum

**Best Volunteers Award**

Mr. Md. Nazrul Islam Murad, VAMW of village- Deshkhagoria, 10 No. Gondhorbopur Dakshin Union of Hajiganj Upazilla and Mr. Abu Yousuf, VAMW of village- Jadobpur, Raysree Uttar Union of Shahrasti Upazilla were adjudged and declared the best volunteers (VAMWs) of this quarter by the UNIDO project management for their performance. They will be rewarded.

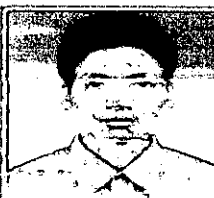

Md. Nazrul Islam Murad

Abu Yousuf

**Best Volunteers Award**

Mr. Md. Shafiqul Islam, VAMW of village- Swanna, 2 No. Bakila Union of Hajiganj Upazilla and Mr. Md. Shahadat Hossain, VAMW of village- Varua, Suchipara Uttar Union of Shahrasti Upazilla were adjudged and declared the best volunteers (VAMWs) of this quarter by the UNIDO project management for their performance. They will be rewarded.

Md. Shafiqul Islam

Md. Shahadat Hossain

**Best Volunteers Award**

Mr. Md. Nazrul Islam Murad, VAMW of village- Deshkhagoria, 10 No. Gondhorbopur Dakshin Union of Hajiganj Upazilla and Mr. Abu Yousuf, VAMW of village- Jadobpur, Raysree Uttar Union of Shahrasti Upazilla were adjudged and declared the best volunteers (VAMWs) of this quarter by the UNIDO project management for their performance. They will be rewarded.

Md. Nazrul Islam Murad

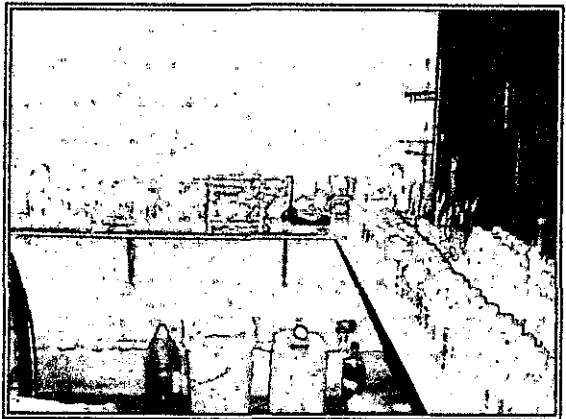

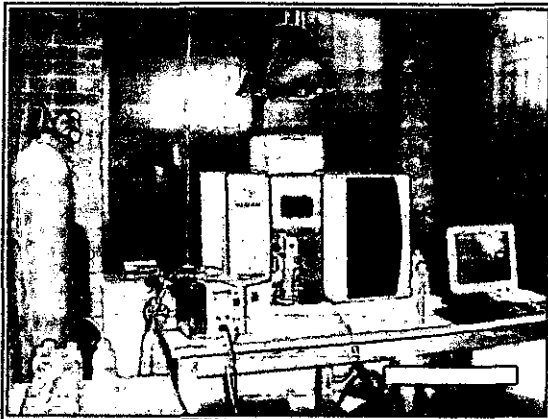

Abu Yousuf

**41. Reports:**

24 monthly brief narrative reports, 06 quarterly reports, 01 annual report (July'2006- June, 2007) and 01 draft final report were prepared and sent to the concerned authority with necessary and relevant supporting documents and statements.

**41. Installation of Laboratory:**

After installing and commissioning the laboratory at UNIDO Home office, Dhaka it became easier and helpful for the project to test the water quality of all the installations of the water sources of the project area. The laboratory staff confidently conducting the testing.

*Laboratory at UNIDO Arsenic Project Home Office, Dhaka*

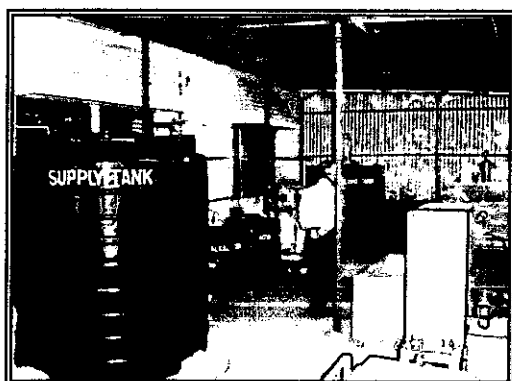

**43. Installation of Sanitation and Re-Generation Plants:**

As per project design the Nihon Kaisui Co. Ltd., Tokyo, Japan installed Sanitation and a Regeneration plant at Hajiganj attached to project area office during October – November 2006. An expert team comprises of 3 members namely Mr. Hisamune Kurihara, Mr. Ito and Mr. Seya visited Bangladesh for construction and installation of sanitation and re-generation plants.

A short briefing session was organized for technical staff of the project on operation and maintenance of both the units.

*Front view of Sanitation Plant*

*Partial View of Re-generation Plant*

*Participants are seen in the orientation session on operational and maintenance system of Sanitation Plant*

#### **44. Visit by the visitors from home and abroad:**

##### **A) Visit of UNIDO ITPO officials:**

There was a schedule to visit Bangladesh and UNIDO project activities at Shahrasti and Hajiganj Upazillas of Chandpur district by the UNIDO officials of Tokyo, Japan and Vienna, Austria during the period from 17-22 November 06 and also to meet the concerned officers of the Ministry of Industries, Govt. of Bangladesh, DPHE, LGED, Board of Investment, UNDP in Bangladesh and some others. The visiting team members were (i) Mr. Pablo Huidobro, Chief, Water Management Unit Programme Development and Technical Cooperation Division, Vienna, Austria, (ii) Mr. Jun Nishida, ITPO, Tokyo office, Japan and (iii) Mr. H. Inadome, Regional Coordinator, Asia Region, UNIDO, Tokyo, Japan. All the members of the visiting team arrived on schedule except Mr. Pablo Huidobro who could not come due to some unavoidable circumstances.

On 19.11.06 both Mr. Nishida and Mr. Inadome went to see for themselves the activities of the Project at the field level at Shahrasti and Hajiganj Upazillas of Chandpur District accompanied by Mr. B. G. Das, Project Coordinator, UNIDO Arsenic Project, Bangladesh, Mrs. Salma Shirin Choudhury, Area Coordinator, Shahrasti and Mr. Md. Golam Rasul Arman, Area Coordinator, Hajiganj. Mr. Mohammad Shamsul Haque Bhuiyan, Executive Engineer, DPHE, Chandpur joined the visiting team from Chandpur. The district administration of Chandpur was kind enough to extend all possible cooperation and arranged accommodations at the Circuit House for night halt of the visiting team.

Mr. Jun Nishida and Mr. Md. Shamsul Haque Bhuyan, Executive Engineer, DPHE, jointly & formally, inaugurated the Community Based Arsenic Removal Units (CBARUs) at Village Isapur of Tamta Union under Shahrasti Upazilla and at village Sobidpur of Hajiganj Sadar union under Hajiganj Upazilla. The Executive Engineer, DPHE made motivational speeches at both the places addressing the people present during inauguration for using arsenic safe water for drinking & cooking purposes.

*Mr. Jun Nishida is seen testing water collected from newly constructed CBARU*

Jun Nishida has visited a newly constructed CBARU at Shubidpur village under Hajiganj Sadar Union. At that inauguration of the CBARU, he also tested the water quality of the CBARU.

During that visit there were number of local elites including UP Chairman of that Union as well as visitors from abroad present in the occasion.

The visiting team attended a Union Arsenic Management Committee (UAMC) meeting at Bakila Union Parishad under Hajiganj upazilla. The Executive Engineer, DPHE addressed the meeting and talked about the duties and responsibilities of the UAMC.

*The visiting team at a UAMC meeting*

*The visiting team at a FGDs session*

They also visited the Regeneration and Sanitation plant at Hajigonj, Health Camp and Focus Group Discussion (FGD) sessions at the Project area. They witnessed and enjoyed Folk Song program on arsenic and arsenicosis organized on the open truck and make-shift podium using microphone and musical instruments.

The team went to observe ongoing training program for the Village Arsenic Mitigation Workers (VAMWs) on Service Delivery Guide Book at Hajigonj project area office and Shahrasti.

*With the VAMWs in the training session*

They also saw for themselves the hoardings and bill boards displayed at different important public places. They also saw the colorful, eye catching posters and adhesive sticker with the messages on arsenic, arsenicosis, water & sanitation.

It was learnt at the late hours of the day (19.11.06) that the Political program of Blockade would again be started from 20.11.06 throughout the country. As a result, all visit programs had to cancel and they started for Dhaka in spite of all arrangements to stay night at the Chandpur Circuit House.

The team could not also maintain program of the meetings at the Ministry of Industries, Govt. of Bangladesh, Board of Investment, UNDP, DPHE, LGED and others in Dhaka. They had to remain stranded at the Hotel due to Blockade. On 22.11.06 Mr. Jun Nishida, before departure, met the Home office staff members at the Home office in Dhaka and expressed his satisfaction over the progress of the project activities and praised the project personnel for their untiring zeal. He wished to keep up the spirit in future also for performing the project activities as per schedule.

#### **B. Visit of JICA and OCETA Team:**

A team consisting of the following members of the Japan International Cooperation Agency (JICA) and the Ontario Centre for Environmental Technology Advancement (OCETA)

#### **JICA**

Mr. T. Sugawara, Deputy Resident Representative

Mr. R. Ogata, Advisor

Mr. Z. Ali, Deputy Director

#### **OCETA**

Mr. Jien Hamilto, Project Field Manger

Mr. Elma Morsheda, Program Coordinator

Mr. Anish Sarker, Technology Specialist

Mr. Shahriar Bin Rasel, Quality Assurance Specialist

Mr. Siddiq-ur-Rahman, Environment Engineer

On 14.12.06 visited the UNIDO Arsenic Project at the field of Shahrasti and Hajiganj Upazilla, Chandpur. During the visit the Project Coordinator, UNIDO Arsenic Project, Bangladesh, Area Coordinator, Shahrasti and other senior officers of the project were present.

At the very on set, the visiting team attended the inaugural ceremony of the Community Based Arsenic Removal Unit (CBARU) at Khaneshwar under Uttar Meher union of Shahrasti Upazilla.

**Mr. Mohammad Salauddin, UNO, Shahrasti (left) is inaugurating the CBARU at Khaneswar Uttar Meher Union, Shahrasti along with Mr. B.G.Das, P.C., UNIDO, Arsenic Project & visiting team members.**

Mr. Mohammad Salahuddin, Upazilla Nirbahi Officer (UNO), Shahrasti inaugurated formally the CBARU at 11.00 A.M. in presence of members of Union Arsenic Management Committee (UAMC), local elites, Village Arsenic Mitigation Workers (VAMWs) and others. After the opening, the UNO delivered a motivational speech to the gatherings those were present there. The Local Imam of a mosque led a prayer for this good work. The visiting team saw the result of both raw and treated water of the CBARU. They also check the taste of the water by drinking. They enquired about different aspects of the CBARU to the project personnel.

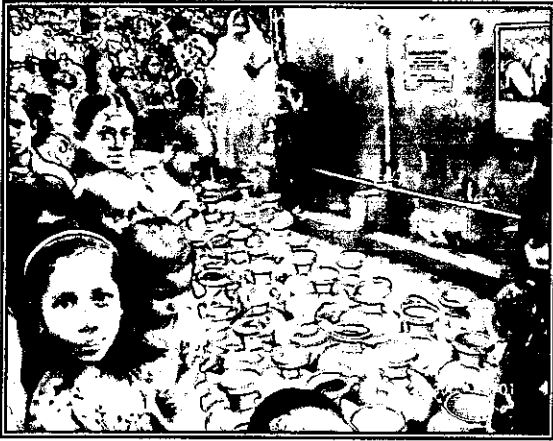

The team, then, went to Subidpur under Hajiganj Sadar Union to see an existing CBARU there. On reaching, they found that people both male & female were in queue with jars and other utensils for collecting arsenic safe water. The team members talked with the elites present and female member of the Union Parishad and care-taker of the CBARU. They saw the test result of both raw and treated water.

**Training Program for the members of UAMC, Bakila Union at the Bakila Union Complex**

Then the team proceeded to Bakila Union Complex, Hajiganj where a two day training program for the members of UAMC, Bakila Union is going on. Mr. Nafer Shah, Chairman, Bakila Union (who is also the chairperson of UAMC Bakila) received the team at his office. The team observed the training program and discussed different points with the chairman.

The team, then, went to Subidpur under Hajiganj Sadar Union to see an existing CBARU there. On reaching, they found that people both male & female were in queue with jars and other utensils for collecting arsenic safe water. The team members talked with the elites present and female member of the Union Parishad and care-taker of the CBARU. They saw the test result of both raw and treated water.

*People are in queue with jars & other utensils for collecting arsenic safe water from an exiting CBARU at Shubidpur*

Then the team went to visit the Regeneration Plant attached to Hajiganj project Area office. The plant was yet to start its functioning. They enquired about different equipments and operation etc. The team had their lunch at the Shahrasti project area office.

*Regeneration plant attached to Hajiganj project area office*

Arsenic related Posters, Festoons, Stickers etc. were displayed. It was organized at the homestead of a dweller. The participants were around 25. Most of them were female. One VAMW was discussing about Arsenic and arsenicosis. The discussion was very much participatory. It was observed that the participants were participating and eager to know more and more about water & sanitation, Arsenic & Arsenicosis, water borne diseases, health & hygiene etc.

***FGD at Kakoirtole under Shahrasti Upazilla***

The visiting team expressed their satisfaction on the activities of the project and they expressed their willingness to visit the project in future also.

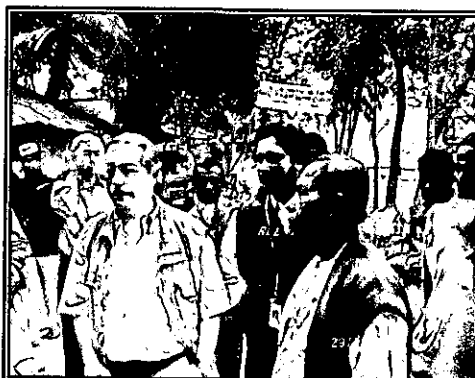

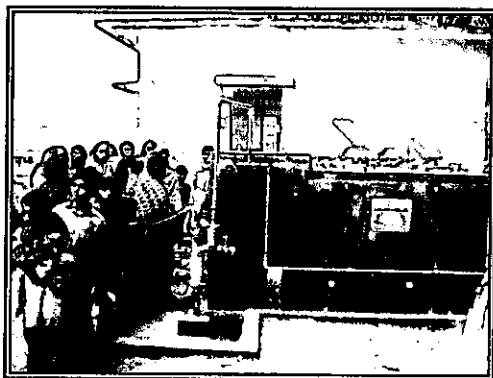

**C) Visit of UNIDO Representatives from Vienna, Austria :**

Mr. Pablo Huidobro, Chief, Water Management Unit, Program Development and Technical Cooperation Division, UNIDO, Vienna International Centre, Austria along with Mr. H. Inadome and Mr. Toshio Yotsumoto, General Manager, Technical Sales, Nihon Kaisui Co. Ltd. Tokyo, Japan on 29-30 January, 2007.

The above visiting team visited the project area at Hajiganj and Shahrasti along with Project Coordinator, UNIDO Arsenic Project-Bangladesh, two Area Coordinators and officers of Home Office. They visited the project activities and observed for themselves the following activities:

**On 29<sup>th</sup> January, 07 at Shahrasti Project Area**

a) Visited a running CBARU at Khowneshwar under Dakshin Meher Union, Shahrasti Upazilla. They talked and discussed with the local elites and beneficiaries and learned from them the need of more CBARU at the area. The community people using the water from the CBARU for drinking and cooking purposes expressed their gratitude to the UNIDO authorities for the same and thanked them;

Mr. Pablo along with team members visiting a running CBARU at Khowneshwar, Shahrasti

b) Attended a Focus Group Discussion (FGD) nearby the CBARU at Khowneshwar, the FGD was attended by the participants of whom women were more in number. Mr. Pablo Huidobro participated in the discussion. The participants articulated their need for more CBARU and HHARU, Mr. Pablo responded very positively;

FGD at Khowneshwar, Shahrasti

c) Visited a Health Camp at Baniacho under Uttar Meher union, Shahrasti. Mr. Pablo talked with the Arsenicosis patient and saw their signs and symptoms and talked with the attending physician;

*Mr. Pablo is seen visiting a health camp at Shahrasti.*

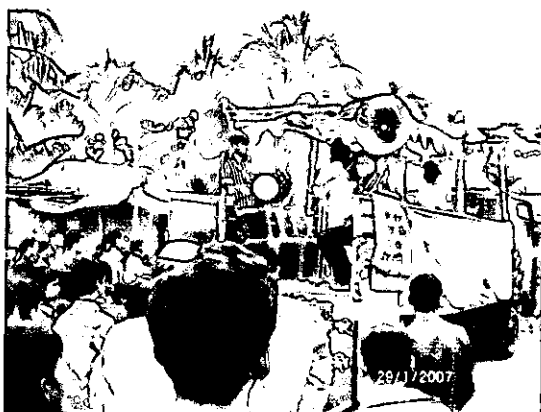

*Mr. Pablo & Mr. Yotsumoto jointly inaugurating a CBARU at Bholdighi, Shahrasti*

d) Inaugurated a CBARU plant at Bholdighi under Dakshin Meher Union, Shahrasti. There was a huge gathering at the plant site. The community people present during the inauguration expressed their gratitude and welcomed the visiting team. Mr. Pablo also spoke on the occasion;

e) Mr. Pablo Huidobro, Mr. H. Inadome & Mr. Toshio Yotsumoto met the project staff during their visit on 29-30 January'2007. They met the staff on 29 January at Shahrasti Area Office.

*A partial view of meeting at Area Office at Shahrasti*

*Mr. Pablo witness a Folk Song Program at Kaliapar at Shahrasti*

f) Witnessed and enjoyed a folk song program at Kaliapara under Uttar Meher union. The folk song program was organized on an open truck which was colorfully decorated with banner, festoons, posters etc. Microphone with loud speakers was used for the folk song. There was a mammoth gathering to enjoy the program. Theme of all the songs was on

Arsenic, Arsenicosis and health related. The artists used musical instrument of various type to make an orchestra and they danced during their performance to attract the audiences. The visiting team enjoyed the folk song program very much and they moved around to observe the program in different angle.

*Mr. Pablo speaking at the UAMC Coordination Meeting*

*Participants of the UAMC Coordination Meeting*

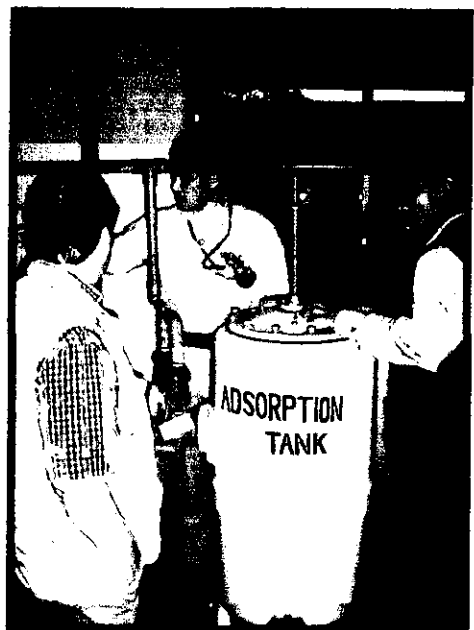

g) Attended a coordination meeting of UAMC at Uttar Meher Union Parishad complex and took part in distributing household ARUs among the selected families of the union jointly with the Administrator of the Union Parishad and spoke.

### **On 30<sup>th</sup> January, 07 at Hajiganj Project Area**

The visitors stayed the night following 29 January at the Govt. Circuit House, Chandpur. On the next morning, they started their visit at Hajiganj Project Area along with all the team members.

h) Visited Regeneration and Sanitation Plant at Hajiganj. Both the plants were installed attached to the Hajiganj Area Office. They heard from the project personnel all the details of the plants and their usefulness and also learned that the plants would be used to facilitate the introduction of storage facility of the separated arsenic residue from the regeneration process. The regeneration plant will be used to regenerate the READ-F Resin after saturation.

Mr. Toshio Yotsumoto, General Manager, Technical Sales, Nihon Kaisui Co. Ltd. Tokyo, Japan also narrated its activity in details since he is an expert on the technology. He is examining adsorption tank a component of regeneration plant and explaining to Mr. Pablo regarding the technology.

*Mr. Pablo beside the Adsorption Tank a component of Regeneration Plant*

i) Mr. Pablo jointly inaugurated the CBARU at Deshgaon under Dakshin Gandhorbopur union, Hajiganj with Mr. Md. Anisur Rahman Miah, Upazilla Nirbahi Officer (UNO), Hajiganj and addressed a huge gathering of the community people. The local elites in their deliberations stressed on the sanction of more CBARUs in their community. The UNO also spoke on the occasion and expressed to extend his all out cooperation for implementation the project activity and also thanked Mr. Pablo for taking the pain of coming over there. Mr. Pablo positively responded to the appeal of the speakers.

*Mr. Pablo & UNO, Hajiganj unlock the outlet of CBARU after joint inauguration*

*A partial view of UAMC Meeting*

j) The Team attended a UAMC coordination meeting at Paschim Barkul Union Parishad office where the UNO and the Chairman of the Union were present and jointly distributed Household ARUs among the selected families of the union and all of them spoke on the occasion. Here also appeal was made to Mr. Pablo to install more CBARUs & distribute more HHARUs for the community people.

k) Visited a running CBARU and attended a FGD at Debipur of Paschim Barkul union. The UNO was also with the visiting team. Mr. Pablo and UNO talked and discussed with the participants of the FGD.

*A Satellite Health Camp*

*A FGD at Debipur, Hajiganj*

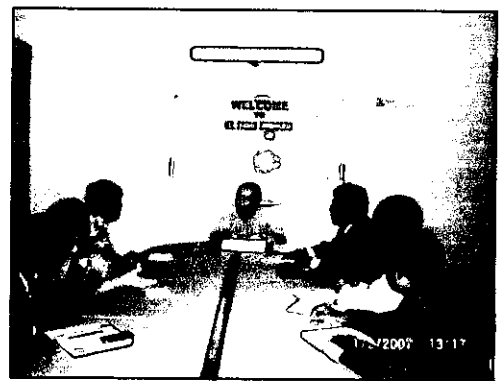

l) Visited a health camp at Hotni Govt. primary school, Dakshin Gondhorbopur Union, Hajiganj. Mr. Pablo talked with the Arsenicosis patient and saw their signs and symptoms and talked with the attending physician;

*Photo Session after staff meeting at Hajiganj*

n) Mr. Pablo met the Home Office staff on 1<sup>st</sup> February'07 and discussed about the project. He expressed his satisfaction on the progress of activities. He disclosed that he will try his best to extend the project period. He was very much positive regarding the project.

m) Met the staff of the Hajiganj project office and exchanged views with the staff members regarding the project. Mr. Pablo expressed his satisfaction on the activities of the project and praised the project personnel for the endeavor and requested all to keep up the spirit for successful implementation of the project.

*A partial view of the meeting of Mr. Pablo with Home Office Staff*

#### **D) Visit of Dignitaries:**

a) Mr. H. Inadome, Tokyo, Japan visited the project area on 05.04.07 along with the Project Coordinator, UNIDO Arsenic Project. During the visit among many other activities jointly inaugurated ceremonially two CBARUs installed earlier with the respective Union Parishad Chairmen, the CBARU at village- Poschim Hatila of 8 no. Hatila Purbo Union, Hajiganj with Mr. M. A. Rahim Patwary, Chairman 8 no. Hatila Purba Union & CBARU at Dehala of Uttar Raysree Union, Shahrasti with Mr. M. A. Manan, Chairman, Uttar Raysree union.

*Mr. M. A. Rahim Patwary, Chairman 8 no. Hatila Purba Union, Hajiganj & Mr. H. Inadome jointly inaugurating a CBARU.*

During the inauguration in both the places numbers of UAMC members, local elites, water users & others were present. Mr. H. Inadome, urged the community people to maintain the units with proper nursing. The local people, specially the Union Parishad Chairmen, expressed their gratitude for installing the CBARUs and appealed for more CBARUs in the project area.

*Mr. M. A. Mannan, Chairman Uttar Raysree Union, Shahrasti & Mr. H. Inadome jointly inaugurating a CBARU.*

b) **Mr. S.M. Ihtishamul Huq**, Superintending Engineer, Ground Water Circle, DPHE, DPHE Bhaban, 14 Capt. Monsur Ali Sarak, Kakrial, Ramna, Dhaka on **26.04.2007** visited the project area at Shahrasti and Hajiganj accompanied by Mr. Sudhir Kumer Ghose, Executive Engineer, Research & Development, DPHE, Dhaka, Mr. Md. Shamsul Haque Bhuiyan, Executive Engineer, DPHE, Chandpur, Mr. Richard Johnston, Project Officer, Water and Environmental Sanitation Section, UNICEF, Bangladesh, Mr. Md. Abdus Sattar Miah, Sub-Assistant Engineer, DPHE, Shahrasti and Mr. Md. Motahar Hossain, Sub-Assistant Engineer, DPHE, Hajiganj.

The main objective of the visit was to determine whether the project activities have been implemented as per project plan and approved schedule.

***The team visited the following project activities:***

**i) Health Camp:** Visited health camp at J.B. High School, Baniacho of Shahrasti Upazilla. The team talked with the attending physician of the camp and patients and enquired about the process of treatment and follow-up services. About 100-150 patients were gathered to receive treatment from the camp. They also talked with the patients and learnt from them how they become affected by arsenicosis, what treatment they got earlier, why they come to this camp and how they know about the schedule of camp. From the above discussions the following information came out:

Mr. S.M. Ihtishamul Huq, Superintending Engineer, DPHE along with the visiting team is seen to talk with the physician.

Mr. Richard Johnston of UNICEF is talking with the waiting patients at the health camp

- a) Health camps are organized on every Friday and Saturday at Hajiganj & Shahrasti respectively.
- b) To serve the patients at the remotest part of the project area Satellite camps also are organized on special day.
- c) Each of the camp is attended by 50-60 arsenicosis patients.
- d) The Medical professionals both govt. and non-govt. who were trained by the project earlier also have been providing health services to the Arsenicosis patients.
- e) The patients got information of such camps through VAMWs, UAMCs and miking.
- f) Health camps are organizing to identify the arsenicosis patient and provide medical support to selective patients.

ii) **CBARUs** : Out of 20 CBARUs installed in the project area ,2 CBARUs were visited by the team, one at Khaneshwar and another at Bholdighi of Shahrasti. Observed the following things:

- a) Location of the unit and communication there of
- b) Physical construction
- c) Performance of the unit
- d) Usages by the community people
- e) Care taking & maintenance

The team found the units were installed as per design at densely populated and well communicated areas where people from all walks of life have access to collect water from the units. Considering the maintenance aspect, locally available materials were used except media. The services of the units were found quite satisfactory and the quality of water was also up to the standard. No bad smell or taste was felt.

The visiting team observing a CBARU at Shahrasti

A good number of people were collecting water from the unit in a disciplined manner and some of them were far away from the unit. The users expressed their satisfaction on the services and performance of the units. For maintaining the units, a caretaker was nominated for each of the unit by the UAMC. Necessary training and orientation were provided to the caretakers as well as members of UAMCs by project regarding operation and maintenance of the CBARUs. The UAMC reported that the number of unit installed in the project area is quite insufficient in comparison with the actual need.

iii) **HHARUs** : The team visited the house of Mr. Delwar of Master Bari, Meher Dakshin Union under Shahrasti Upazilla to see the performance of a HHARU. They talked with the beneficiaries and caretaker of the unit and found that the unit was used by the cluster family those who have no access to safe drinking water. The members of cluster families use to collect water from the unit by rotation during whole day. It was reported that the performance of the unit was good and the water was free from arsenic, iron and bad smell & taste. The team tested the water by drinking and expressed satisfaction. Necessary training was offered to the caretaker of the unit for operation and maintenance.

The team visiting a HHARU used by Cluster Families

Mr. Richard Johnston drinking water purified by HHARU to have the taste

iv) **UAMC meeting**: The team attended a coordination meeting of the UAMC of Kalcho union, Hajiganj. They found 28 members of the UAMC were present along with the chairman of the union parishad who is also the chairman of the committee. They informed the visiting team regarding existing arsenic problem of their area. They also put forward some suggestions to the team in this regard. They also discussed as to how they have been working with the UNIDO Arsenic Project.

Mr. S.M. Ihtishamul Haq, Superintending Engineer, DPHE along with the visiting team is speaking at Kalcho UAMC Meeting, Hajiganj.

They requested the visiting team to arrange installation of more CBARUs & distribution of more HHARUs to meet the problems of arsenic safe water for drinking and cooking purposes at the area. They also requested the team to repair the deep tube-wells and make those operative.

*A partial view of visiting team at the Sanitation and Regeneration Plant, Hajiganj.*

v) **Sanitation & Regeneration Plant:** The team visited the Sanitation and Regeneration plants attached to Hajiganj Area office. These were ready for operation.

The team observed during their visit that a significant number of posters, stickers, bill boards, hoardings and other IEC materials have been displayed for raising awareness among the people of the project area regarding arsenic and arsenicosis diseases.

c) Dr. Aktheruzzaman, Senior Assistant Chief, Ministry of Health and Family Welfare and Dr. Salamat Khandker, Medical Officer, World Health Organization (WHO) along with Mr. Inadome and the Project Coordinator, UNIDO Arsenic Project visited the project area at Hajiganj & Shahrasti on 05.06.07.

They attended and conducted the Refresher-Training Courses for the Health Professionals for identification and management of arsenicosis patients at Health Complexes Conference Hall of Hajiganj and Shahrasti. The Health Professionals were earlier trained by the UNIDO Arsenic Project on this topic. The Upazilla Health and Family Planning Officers ( UHFPOs) of both the Upazillas presided over the Refresher-Training Courses at their respective Upazilla Health Complexes. Dr. Salamat Khandker distributed “A Field Guide for Detection, Management and Surveillance of Arsenicosis Cases” of WHO including other arsenicosis related materials among the participants- health professionals.

Some arsenicosis patients were present there. They were examined by Dr. Aktheruzzaman, Senior Assistant Chief, Ministry of Health and Family Welfare and Dr. Salamat Khandker, Medical Officer, World Health Organization (WHO). They agreed that the treatment provided to the patients by the UNIDO project was according to WHO protocol and guidelines.

*Dr. Aktheruzzaman, Senior Assistant Chief, Ministry of Health and Family Welfare conducting a session of the Refresher-Training Course for Medical Professionals at Shahrasti.*

*Dr. Salamat Khandker, Medical Officer, World Health Organization (WHO) conducting a session of the Refresher-Training Course for Medical Professionals at Hajiganj.*

They also advised the Health Professionals regarding treatment of arsenicosis patients. Their discussion with the Health Professionals and the project personnel was very open and cordial.

They distributed the Certificates and awards among 04 best workers (VAMWs), 02 at Hajiganj & 02 at Shahrasti during concluding session of both the Refresher-Training Course.

**E) Visit of Dignitaries:** Mr. H. Inadome & Ms. Aya Ando, Volunteer, UNIDO ITPO, Japan went to the project area on 24.08.07 along with the Project Coordinator, UNIDO Arsenic Project to see the project activities. The Project Coordinator and Mr. H. Inadome came back after 02 days and Ms. Aya Ando stayed at the project area Hajiganj and Shahrasti till 06.09.07.

Mr. H. Inadome & Ms. Aya Ando shared experiences with the project field personnel at Hajiganj and attended a staff coordination meeting on 25.08.07 at Shahrasti as observer.

Ms. Aya Ando during her visit to the project area was present at the FGD programs at village – Islampur of Hajiganj and Kakoirtoala of Shahrasti Upazilla and spoke during the programs. She was also present at

*Ms. Aya Ando visiting a running CBARU*

the special FGD at Bolakhal Mokbul Ahmed Degree College, Hajiganj Upazilla which was more effective to disseminate the messages to the younger generation.

She remained present at one of the distribution ceremony of HHARUs on 28<sup>th</sup> August '07 at 2 no. Bakila Union Parishad under Hajiganj Upazilla. She visited a HHARU at Subidpur under Hajiganj Upazilla which was using by the neighbouring families of the recipients and also visited the Rampur Govt. Primary School under Hajiganj Upazilla and Iqra Kinder Garten under Shahrasti Upazilla where HHARUs have been using by the students and teachers of the institutions.

*A partial view of Special FGD*

*Ms. Aya Ando is distributing a HHARU*

*Ms. Aya Ando at a Health Camp*

She also visited Health camps at Shahrasti & Hajiganj, IGA activities at Ahmedpur, CBARUs at Raichow, Sanna & Khaneshwar.

*Mr. S. Oshima (red circled) is seen visiting a CBARU at village Varua of North Suchipara union under Shahrasti Upazilla.*

*Mr. S. Oshima is seen addressing a gathering at CBARU-Varua.*

*Mr. S. Oshima is seen beside a Rickshaw Van carrying pitchers rushing towards CBARU at Varua for collecting water.*

*Mr. S. Oshima in a photo session in front of UNIDO Arsenic Project Area Office-Shahrasti.*

*Mr. S. Oshima in a meeting with UNIDO Arsenic Project Home Office staff.*

**Meeting of Mr. Seiji Oshima with the Stakeholders in Dhaka:**

Among other activities Mr. Seiji Oshima had a meeting on 30.10.07 at Casa Greek, Gulshan Dhaka at 7:00 P.M. with Mr. Parimal Chandra Bose, Senior Assistant Chief, Ministry of Industries, Govt. of Bangladesh, Dr. Akhteruzzaman, Senior Assistant Chief, Ministry of Health and Family Welfare, Govt. of Bangladesh, Dr. M. Feroze Ahmed, Professor, Department of Civil/Environmental Engineering, Bangladesh University of Engineering and Technology (BUET), Mr. B.G.Das, Project Coordinator, UNIDO Arsenic Project-Bangladesh, Mr. Md. Golam Rasul Arman, Area Coordinator, UNIDO Arsenic Project, Hajiganj, Ms. Salma Shirin Choudhury, Area Coordinator, UNIDO Arsenic Project, Shahrasti and other dignitaries. Discussions were made in the meeting on over all arsenic problems in Bangladesh viability and acceptability of the project with its achievements, problems, further extension of the project and other related issues including impact of the project.

### **G) Visit of Dignitaries:**

#### **Name of the visitors with dates of visit:**

- 1. Mr. Pablo Huidobro, Chief, Water Management Unit, Programme Development and Technical Cooperation Division, UNIDO, Vienna, Austria from 09 February '08 to 15 February, '08.**
- 2. Ms. Ikue Toshinaga, Industrial Development Officer, UNIDO ITPO, Tokyo, Japan from 09 February '08 to 11 February, '08.**

**Places of visit :** Different Govt. and donor agencies offices in Dhaka and project area Hajiganj and Shahrasti Upazillas under Chandpur District of Bangladesh.

**Arrival:** Both Mr. Pablo Huidobro and Ms. Ikue Toshinaga arrived in Dhaka on 09 February, '08 at 08.00 hrs and 12.00 hrs at the Zia International Airport (ZIA) respectively and were received by Mr. B.G. Das, Project Coordinator, UNIDO Arsenic Project-Bangladesh at the ZIA. They stayed at Hotel Civic Inn, Gulshan, Dhaka.

#### **Day-1 (09.02.08, Saturday):**

After their arrival they met Mr. Hai, Board of Investment (BOI) and Mr. Tomohiro Kinomoto, Representative of Japan External Trade Organization (JETRO) in Bangladesh at 13.30 hrs. at Hotel Civic Inn, along with Mr. B.G. Das and discussed about the possibilities of industrial investment in Bangladesh.

A Photograph after meeting

Mr. Pablo and Ms. Toshinaga also met at a formal meeting with the UNIDO Arsenic Project Executives at the same place at 16.00 hrs; where a fruitful discussion on the project activities and its related matters was held. A multimedia presentation was made on the total activities of the project performed at the field level. The visitors were provided with the relevant documents on the presentation and the Quarterly Newsletter (6<sup>th</sup> issue) etc. regarding the present status of the ongoing Arsenic Mitigation Project in Bangladesh at Shahrasti and Hajiganj upazillas under Chandpur district.

**Day-2(10.02.08, Sunday):**

There were some meetings attended by Mr. Pablo, Ms. Toshinaga and Mr.B.G. Das as follows:

1. Meeting with the Ambassador of Japan in Bangladesh held at 10.30 hrs.
2. Meeting with Dr. Andrew Trevett, Environment Health Advisor and Dr. Salamat Khandaker of World Health Organization (WHO) held at 14.00 hrs at the office premises of the Department of Public Health Engineering (DPHE). Discussed about new project on arsenic in joint collaboration with WHO.
3. They also made a courtesy visit to the Chairman, BOI at 16.30 hrs at his office and talked about investment on installation of industry in Bangladesh.

**Day -3 ( 11- 02 -08, Monday ) :**

Mr. Pablo and Ms. Toshinaga along with Mr. B.G.Das met Mr. Md. Nurul Amin, Secretary, Ministry of Industries (MOI) at 9:30 hrs at his office and discussed about the project activities and its further extension.

Ms. Toshinaga left Dhaka at 11.00 hrs. and Ms. Salma Shirin Choudhury, Area Coordinator-Shahrasti accompanied her to ZIA for seeing her off.

Mr. Pablo along with Mr. B.G.Das met Mr. Ihtishamul Huq, Superintending Engineer (ground water) of DPHE at 11.30 hrs at his office and talked about the project activities and thanked him for providing cooperation by himself and by his departmental officers for implementing the project activities. Also discussed about the possibilities of a full-phase project for next 3 years on the result of pilot project activities, which will be completed by June 2008.

After completion of the meeting, Mr. Pablo started at 12:30 for visiting the field activities along with Mr. B.G. Das, two Area Coordinators and other officers of the UNIDO Home Office, Dhaka.

Reached Shahrasti at 17.30 hrs. and the team straight way visited a community awareness program of folk song and drama showed through multimedia on the Arsenic and Arsenicosis related issues for the beneficiaries at the village, namely, Nayagaon of the Upazilla. A large number of audiences (250-300) gathered. Most of them were women; children and some men were also present. This program was mostly arranged for the women beneficiaries as they can't go out to open area due to religious, social

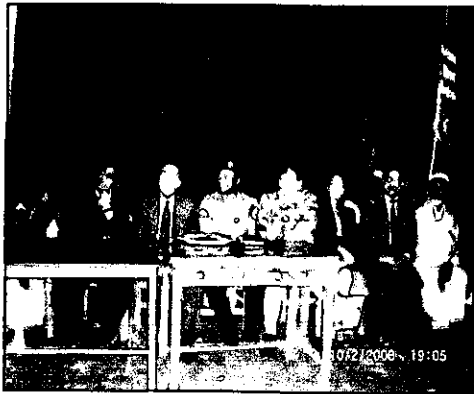

norms and practices. The local Union Parishad Member and some local elites were present. Mr. Pablo along with the Officer in Charge of Shahrasti Upazilla Police and the project officials unveiled the cover of the CD of a video drama on arsenic issues.

Mr. Pablo is seen unveiling the cover of the video drama CD.

Mr. Pablo is seen showing the video drama CD.

The visiting team is witnessing the video drama

The audience is enjoying the video drama

The video drama was also shown at the program. The audiences enjoyed the folk song and drama showed in the program and after end of the show, it was explained to the audiences about arsenic poisoning and its adverse affect on health and their remedies by taking arsenic safe water and nutritious food from the existing resources.

Then the visitors went to Chandpur Circuit House and stayed the night.

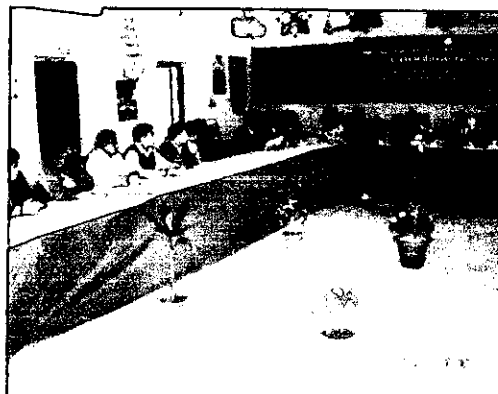

#### **Day -4 ( 12- 02 -08, Tuesday ):**

a) The first program of the day started with the coordination meeting of the Upazilla Arsenic Management Committee (UzAMC) at Hajiganj Upazilla Auditorium. The meeting was presided over by the Upazilla Nirbahi Officer (UNO), who is also the chairman of the UzAMC. Other members of the UzAMC such as chairmen of all Union Parishads under Hajiganj Upazilla including local govt. and non govt. officers, Upazilla Health and Family

Planning Officer (UHFPO), Journalists etc. were present in the meeting. The Project Coordinator, two Area Coordinators and other officials of the UNIDO Arsenic Project were also present.

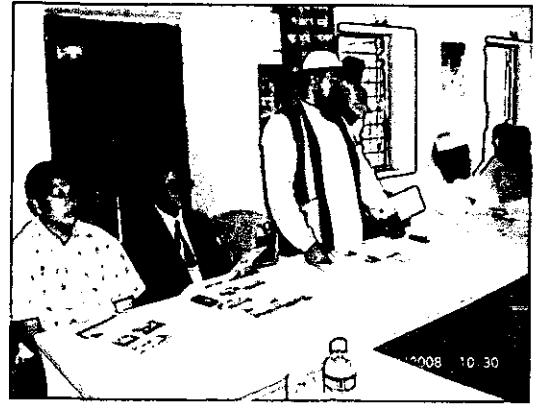

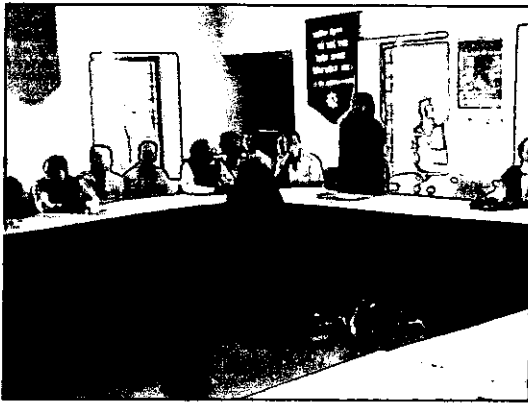

The visiting team is at the UzAMC meeting

A partial view of participants at UzAMC meeting

The meeting started with the address of welcome by Mr. Md. Golam Rasul Arman, Area Coordinator-Hajiganj. Then the floor was open for discussion by the participants. Most of the Union Parishad Chairmen, one teacher, one journalist, one union parishad member, Sub Assistant Engineer-DPHE, Hajiganj, Upazilla Agriculture Officer – Hajiganj, Upazilla Health and Family Planning Officer took part in the discussion among others. They spoke about the services provided by the UNIDO Arsenic Project in the area and expressed that 90%-95% people have been aware about the danger of arsenic poisoning but only 10% people have been getting arsenic safe water from the existing sources. The awareness program has created a demand for arsenic safe water; as such more arsenic removal units are needed to met the demand and at least 300 CBARUs are the present need to cover each of the union of the upazilla. UNIDO has been proving health services to the arsenicosis patients effectively but this is not as per requirement and requested to set up a specialized hospital in this upazilla for treating the arsenicosis patients. The participants expressed their deep concern knowing that the life of the project will be ended by June '08, where they were expecting that the project will be continued for a further period of at least 3-4 years, since this is a people oriented and demand driven project and urged Mr. Pablo to kindly take necessary steps for the same.

The participants are seen to discuss in the UzAMC meeting

Mr. Pablo in his speech responded very positively and assured to take all possible steps to extend the project. The participants were glad and enthusiastic on the positive attitude of Mr. Pablo.

The meeting was concluded after the speech of Mr. Md. Anisur Rahman Miah, Upazilla Nirbahi Officer (UNO) - Hajiganj, who presided over the meeting. In his speech he echoed with the deliberation and demand of the participants in the meeting. He mentioned that Mr. Pablo also visited the project activities one year back and had the opportunity to meet the people of all levels and could know the sufferings of the people personally. He also mentioned that he was along with Mr. Pablo during that visit. Mr. Pablo assured his willingness to extend the project at different gatherings at that time also. He expressed his happiness to know that Mr. Pablo was working for extension of the project. He thanked Mr. Pablo and others for attending the meeting.

Mr. Pablo is speaking at the UzAMC meeting

The UNO-Hajiganj is seen speaking at the meeting

b) The team visited a Special Focus Group Discussion (FGD) at Balakhal Chandraban Girls' High School-Hajiganj, where members of school managing committee, teaching staff, students welcomed Mr. Pablo and others at their school. At the school, large number of students were present at the FGD. It was a special FGD arranged to motivate the new generation towards achieving the goal of the project.

Mr. Pablo is seen welcoming with flower bouquet by a girl students at the special FGD

View of participants at the special FGD

Mr. Pablo is addressing the participants at the special FGD

The principal of the neighbouring college speaking at the special FGD

The students were very much enthusiastic to see the UNIDO team and wanted to know about the danger of arsenic poisoning and its related aspects. They also assured that they will aware their family members, neighbours and other associates regarding arsenic and its adverse affect.

c) After lunch at Hajiganj area office, the UNIDO team went to a Health Camp organized at the UNIDO field office, Shahrasti. The patients present there were regular patients of UNIDO arsenic health camp and some of them were patients yet to

The physician is examining a patient at the health camp

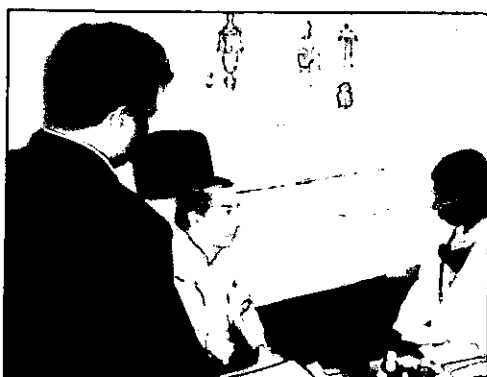

Patients waiting at the health camp

A patient discussing with Mr. Pablo at the health camp

Mr. Pablo is talking with the physician at the health camp

be cured by the treatment received from UNIDO Health Camps. Some slides were shown on the patients' previous condition of their disease with later improvement which showed significant changes towards recovery from the disease. Some of the patients also showed their improvement physically and expressed satisfaction about the services they were getting from the UNIDO Health Camps.

Limbs of the arsenic affected patients

d) The visiting team went to an Income Generating Activity related program at Baniacho village under Shahrasti Upazilla at 15:20 hrs. This was an IGA group (group#201) comprises of 20 women members, where one of them was selected as group leader. There was a group meeting held at that time and the UNIDO team visited the meeting and got clear impression about the IGA program. The team also visited the houses of the members where they showed their activities and products they produced. They explained the cost of production, market demand and expressed their willingness to work in this project for achieving the goal of the project. All the members of the IGA group have been using arsenic safe water for drinking and cooking purposes. They also expressed that from the income of the IGA, they will be able to procure arsenic removal unit for them, if the support from the UNIDO is continued in future.

Mr. Pablo is at an IGA group meeting

Duck rearing of IGA program

Cane and bamboo work of IGA program

Embroidery work of IGA program

It may be mentioned here that Mr. Pablo saw for himself the IGA activities such as IGA members group meeting, cattle rearing, cane and bamboo work, goat and duck rearing, tailoring and embroidery works, grocery shop, rickshaw pulling, fish catching instruments etc. and expressed satisfaction.

The team start for Dhaka at 17:00 hrs and reached at 21:30 hrs.

**Day- 5 (13/02/08, Wednesday):**

There was a meeting held with WHO at 09:30 hrs at DPHE premises in Dhaka.

**Day- 6(14/02/08, Thursday):**

There were two meetings held with Mr. Pablo & Mr. B.G Das as follows in Dhaka:

- i) Meeting held with Mr. Koen Duchateam of European Union (EU) at 10:30 hrs.
- ii) Meeting held with Mr. Simon de Haan, Senior Project Adviser and Mr. Poul – Erik Frederiksen, Senior Sector Advisor of DANIDA at 11:00 hrs.

**Day-7 (15/02/08, Friday):**

There was a formal meeting held at the UNIDO home office with the field and home office staff at 10:30 hrs and it continued to 14:00 hrs. In this meeting, Mr. Pablo was shown a documentary video through multimedia and the activities of the ongoing Arsenic Mitigation Project in Bangladesh and during the meeting, Mr. Pablo thanked every body for completing the activities already performed and giving all out efforts towards achieving the project goal and assured his continuous support for the extension of this Project in Bangladesh.

The project personnel formally thanked him for his cooperation and assistance in implementing the project in Bangladesh.

After the meeting Mr. Pablo started for his departing journey for Vienna, Austria. Mr. B.G.Das accompanied him to Zia International Airport (ZIA).

A partial view of the meeting held at Home Office

**H) Visit of:**

- (i) Mr. Parimal Chandra Bose, Senior Assistant Chief, Ministry of Industries (MOI), Govt. of Bangladesh.
- ii) Mr. H. Inadome, Tokyo, Japan

**Date of Visit : March 22, 2008 (Saturday)**

The above mentioned visitors visited the project area of Hajiganj and Shahrasti along with the Project Coordinator, UNIDO Arsenic Project Bangladesh and 2 Area Coordinators to see for themselves the progress of the Project activities as mentioned below:

*Union Arsenic Management Committee (UNMC) meeting at 6 no. Purba Barkal Union, Hajiganj and met the members and discussed on the progress of the activities of the Project*

*Visited the Regeneration Plant at Hajiganj Area office and the operator system of the same was explained by the P.C.*

*Visited the performance of CBARU at Swanna under Bakila Union under Hajiganj. The performance of the HHARU at Satbaria Mizi Bari under Hajiganj Sadar union was seen and talked with users*

*Some arsenicosis patients were observed at Shahrasti Area office and talked about the treatment they received and how much they were recovered.*

*Attended an IGA group meeting at Gazi Bari, Madya Olipur under Tamta Union of Shahrasti.*

*They also attended a FGD and a Folk Song program at Baniacho High School under Dakshin Meher union of Shahrasti. The Folk Song program was presented through multimedia.*

**I) Visit of Mr. Yuichi Inagaki, Second Secretary, Economic & Development Cooperation, Embassy of Japan in Bangladesh accompanied by Mr. B.G. Das, Project Coordinator, UNIDO Arsenic Project-Bangladesh, Chief Chemist and two Area coordinators visited the project area at Hajiganj & Shahrasti.**

**Date of Visit: 30.04.08- 01.05.08**

**Visited the following activities:**

• After arrival at Shahrasti at 11:30 AM on 30-04-08 from Dhaka, the team visited a HHARU users spot at Mijibari, Village-Kakoirtola under Uttar Meher Union where they found that some users were collecting water from the HHARU. They talked with the users and came to know their impression on getting arsenic safe water. The team also visited an existing Deep Tube Well and a Rain Water Harvesting Plant (both were out of order) within walking distance from Mijibari.

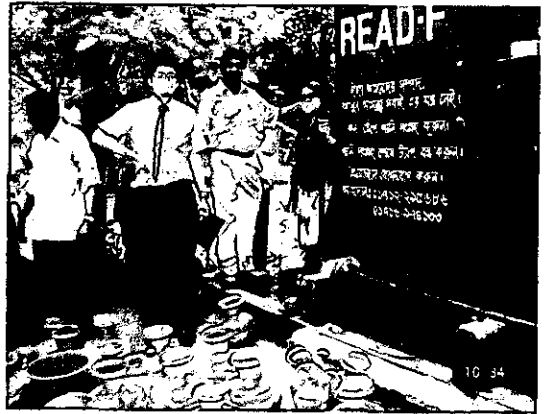

*Mr. Yuichi Inagaki tasting water of a functioning HHARU at Kakoirtola*

*Mr. Inagaki at a special FGD at Karfulanessa Women College*

- Visited a Community Based Arsenic Removal Unit (CBARU) at Bharua under Suchipara Uttar Union of Shahrasti. The local U.P. Chairman and members were present there including local elites, donor of the land, Professor & head of the dept. of Chemistry of Suchipara Degree College and users among others. They expressed their gratitude for having the option of arsenic safe water at there place.

- The team attended a Special Focus Group Discussion (FGD) Program at Karfulanessa Women College under Uttar Meher Union. The Special FGD was very much lively and participatory.

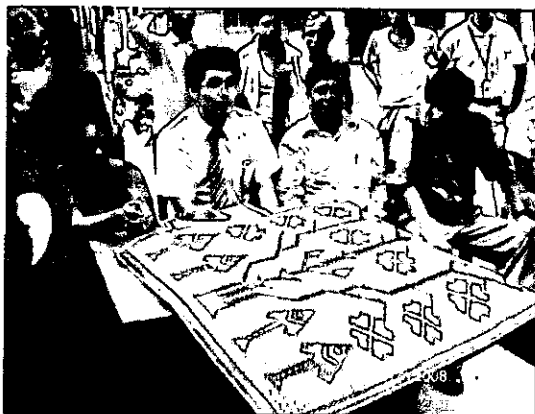

*Mr. Inagaki at the side of a CBARU at Bharua*

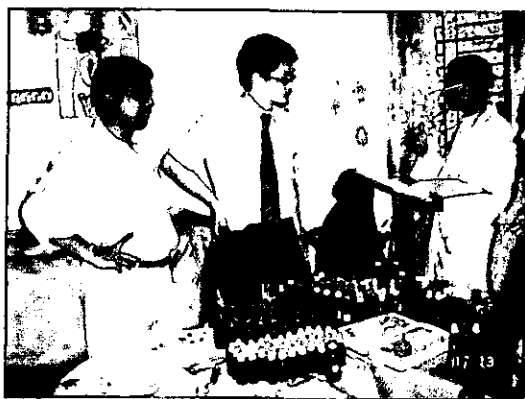

*Mr. Inagaki was receipt at the Shahrasti field office with flower bouquet*

- Visited the Shahrasti field office which was followed by lunch. The team discussed about the project activities with the staff members.

- After lunch, attended a meeting of IGA members at Alipur village under Tamta Union of Shahrasti. The team was happy to see different hand-made items produced by the members of IGA and talked about the availability of raw materials and marketing of the produced items.

*Mr. Inagaki looking at the hand-made product of IGA members*

*Mr. Inagaki discussing with the physician at the office premises at the Hajiganj field office*

- Reached Hajiganj Field Office after 4.00 pm and visited the health camp at the office premises. Discussed with the patients and physician and talked with the arsenicosis patients about the progress of their recovery. They were satisfied with the treatment provided by the project through these camps.

- Mr. Inagaki visited the Regeneration and Sanitation plants attached to the Hajiganj Field office. The P.C. & the Chief Chemist explained the operation systems etc. of both the plants.

*Mr. Inagaki is seen listening to the operation system & functions of Sanitation & Regeneration Plants at Hajiganj*

- After light refreshment in the after noon at Hajiganj office, the team attended a Community Awareness Program on Folk Song and drama on arsenic issue shown through multimedia at Bakila High School field near 2 no. Bakila Union Parishad, Hajiganj. The program started after Magrib prayer and continued for some hours. A huge number of audiences witnessed the program; the number may exceed 9,000 (Nine thousand). The

program was very much educative, entertaining and effective. All enjoyed. After 8.00 pm, the team started for Chandpur Circuit House. Had dinner and halted the night there.

*Partial views of a awareness Program of Folk Song and drama on arsenic issue witness by Mr. Inagaki at a school field under Hajiganj Upazilla*

• On 01.05.08, after breakfast at the Circuit House, Chandpur started for Bakila Union Parishad Office, Hajiganj where Mr. Nafer Shah, Chairman of the Union Parishad was waiting with some of the members & other elites to have a courtesy meeting with the visitor. The chairman thanked the visitor for visiting the area and for hearing by himself the sufferings of the local people for want of arsenic safe water and the services provided by the UNIDO Arsenic Project in spite of their limitations. If CBARU, HHARU and others services could be increased and the present project could be extended for a further period, the sufferings of the community people would be minimized

*Mr. Inagaki is seen discussing with the Chairman, Bakila Union Parishad at latter's office*

*Mr. Inagaki visiting a HHARU at Moishaid*

• Visited a HHARU at Moishaid and a CBARU at Subidpur under Hajiganj Sadar Union and met the Chairman, U.P members, local elites and the beneficiaries and learnt about the services they received from the options. Left Hajiganj after 11.00 am. and reached Dhaka at 3.30 pm after having lunch at Hotel Miami, Comilla on the way back.

**45. Representation by Professor Dr. M. Feroze Ahmed in the Expert Group Meeting on “Arsenic Issues” from Bangladesh in Italy:**

Professor Dr. M. Feroze Ahmed, Department of Civil/Environmental Engineering, Bangladesh University of Engineering and Technology (BUET), Dhaka, attended an Expert Group Meeting on “Emerging Technologies for Water Treatment & Soil Remediation and their Assessment” held on 19-20 March, 2007 at Area Science Park, Building L2, Patriciano 99, Trieste, Italy. He was introduced by the UNIDO Arsenic Project-Bangladesh and was invited and nominated by the International Science & High Technology, United Nations Industrial Development Organization (UNIDO) to deliver a lecture with the title “Technologies for Treatment of Arsenic Contaminated water in Bangladesh, India and Nepal”.

**Professor Dr. Feroze Ahmed**  
B.Sc. Engg. (Civil), M.Sc. Engg. (Env), Ph.D., FIE., MASCE

**46. Additional Activities Performed for Better Impact:**

The additional activities as listed below have been performed during the project period to meet up the demand from both the Government and the community of the project area and also to achieve better impact of the UNIDO Arsenic Project. As a result, degree of participation of the stakeholders was significantly enhanced which has improved the coordination and cooperation for better implementation of the project.

1. Conduction of Baseline Survey.
2. Inclusion of all project activities at 10 more Unions under 02 Upazillas including conduction of 10 Union level Sensitization Workshop, formation of 10 UAMCs, conduction of 10 UAMCs’ training program, FGDs and other related activities.
3. Declaration of two Arsenic Free Villages, one in each Upazilla and Intensified activities to ensure the objectives.
4. Formation of water Users’ Forum for regular maintenance and smooth functioning of the CBARUs and impart training to the members on proper maintenance.
5. Installation of 01 Wellhead ARU at Kathali village under Hajiganj Upazilla.

6. Participation at various Fairs at both the Upazilla Head Quarters to demonstrate READ-F technology distribution of IEC materials for creating awareness regarding danger of Arsenic, Arsenicosis and importance Arsenic safe water for drinking and cooking purposes.
7. Conduction of special FGDs at Educational Institutions, Tea stalls, Religious Institutions etc. for mass awareness and convey the messages to other people through participants.
8. Making of a Documentary Film on the activities of the project and showing the same to the stakeholders at different remote corners of the project area.
9. Making a TV Drama regarding bad effect of Arsenic and Arsenicosis and its social effects.
10. Selection of 02 best workers (VAMW) , one from each Upazilla during each quarter adjudging their performance in all respects and awarding them certificates with rewards ceremonially as a regular basis.
11. Organized Refreshers Course for Medical Professionals of the project area on identification of Arsenic patients and their managements.

It may be mention here that elaborate descriptions about the above additional activities have been made in the forging contexts of this Report.

#### **D. Major Achievements:**

##### **1<sup>st</sup> Quarter:**

- About 203 government officials, Municipal and UP Chairmen, Journalists, Community leaders, leaders of the professional groups, religious, political, trade union and youth leaders and others dignified elites of Hajiganj and Shahrasti upazillas are well oriented about the project activities These group of people now own the project which accelerated the implementation process of the project.

1. There are at least 20 trained Medical Practitioners in the project area are now capable and ready to provide services to the arsenicosis patients through diagnosis & required management services.
2. 100 trained volunteers as Village Arsenic Mitigation Workers (VAMWs) are now capable to identify arsenicosis patients and motivate people to use arsenic safe water for drinking and cooking purposes.
3. Around 1500 number of people including govt. & non-govt. officers, chairmen, members of union parishads and people from all walks of life have

been involved & sensitized through sensitization workshops at upazilla and union level and formation of upazilla and union level UZAMCs and UAMCs.

4. Several thousands of people became aware about arsenic, its affect etc. through FGDs, Folk Songs and other awareness raising and information dissemination activities.
5. Around 1000 families have the access to arsenic safe drinking water due to installation of a Community Based Arsenic Removal Unit (CBARU) at Raico from where people have been getting arsenic safe water for drinking and cooking purposes.
6. Around 500 community people have been provided with medical treatment of arsenicosis and other complicated diseases though health camps organized at the village level.
7. The activities so far performed in the project area could create awareness among stakeholders.
8. Could create positive repercussion among the general mass regarding danger of Arsenic.
9. People are getting interested to involve themselves with the activities of the project.
10. Could create a demand for arsenic safe water.

#### **2<sup>nd</sup> Quarter:**

01. Successfully reached 8059 community people with arsenic related messages through 300 FGDs.
02. Provided health services to 791 patients through health camps.
03. 100 VAMWs were trained up on how to provide arsenic and arsenicosis services to the community.
04. 362 members of UAMCs were trained up on awareness raising and motivation of community people, maintenance of CBARUs and operation of IGAs.
05. 10 CBARUs have been installed which created access to arsenic safe drinking water for at least 2000 families.

- 06. Increased awareness on arsenic issues in the community through development and display of bill boards, hoardings, and conduction of FGDs, Folk Songs, publication of News letter, development and distribution of poster, stickers.
- 07. A strong linkage and coordination have been established with the Local Government Department, DPHE, Health and Family Planning Department, Local Public representative, NGOs, CBOs, and other stakeholder.

**3<sup>rd</sup> Quarter:**

- 01. Successfully reached 5049 community people with arsenic related messages through 300 FGDs.
- 02. Provided health services to 991 patients through health camps.
- 03. 149 members of UAMCs were trained up on awareness raising and motivation of community people, maintenance of CBARUs and operation of IGAs.
- 04. 10 CBARUs have been installed which created access to arsenic safe drinking water for at least 2000 families.
- 05. Trained medical professionals able to differentiate Arsenicosis diseases from skin diseases easily and have been providing treatments to the arsenicosis patients.
- 06. Increased awareness on arsenic issues in the community through display of bill boards, hoardings, and conduction of FGDs, Folk Songs, Publication of News letter, and distribution of poster, stickers.
- 07. A strong linkage and coordination have been established with the Local Government Department, DPHE, Health and Family Planning Department, Local Public representatives, NGOs, CBOs, and other stakeholder.

**4<sup>th</sup> Quarter:**

- 01. Distributed 490 no. HHARUs among the poor, vulnerable & arsenicosis patients.
- 02. Distributed Certificates and awards to 04 best workers (VAMWs) and as a result VAMWs were encouraged to work for better implementation the project activities
- 03. More than 75% total distributions of HHARUs are used by the cluster families.
- 04. 100 members of UAMCs & users are now able to maintain the CBARUs & HHARUs.
- 05. 6 Hoardings and 30 Billboards were installed at selected places.

06. Interaction between the concerned high level govt. officials & gross roots level people have been established regarding problems on arsenic safe water at the project area.

#### **5th Quarter:**

01. Formation of Water Users' Forum for each CBARUs created responsively and a sense of ownership of the plants.
02. Provided medical support to the poor & vulnerable arsenicosis patients.
03. Participated at the Tree plantation fair of both the Upazillas which created mass awareness to test water.
04. Some behavioral changes have been brought, such as shyness to disclose arsenicosis etc., of the arsenicosis patients by awareness raising programs.
05. Survey of two selected villages has been completed, to be declared as Model Arsenic Safe Village.

#### **6th Quarter:**

01. Transferring the technology of running maintenance & operation of CBRAUs by providing technical training to the Executive Committee Members of Users Forum.
02. The danger of arsenic poisoning has been realized by the Local Govt. and Local NGOs including beneficiaries and people of all walks of life up to the grassroots level through sensitization, awareness and other activities.

#### **7<sup>th</sup> Quarter:**

01. Transferring the technology of running maintenance & operation of CBRAUs by providing technical training to the Executive Committee Members of Users Forum.
02. The danger of arsenic poisoning has been realized by the Local Govt. and Local NGOs including beneficiaries and people of all walks of life up to the grassroots level through sensitization, awareness and other activities.

#### **8<sup>th</sup> Quarter:**

01. The danger of Arsenic Poisoning has been realized by the Govt. and Non Govt. agencies and people of all works of life upto the grass root level through sensitization awareness and other activities. Now peoples are going to Health Service Providers.

### **E. Problems encountered during the reporting period:**

#### **1<sup>st</sup> Quarter:**

1. It has been designed in the project that medical services will be provided only to the arsenicosis patients in a limited way but demand was to provide the services to the same arsenicosis patients with other diseases and other patients with diseases similar to arsenicosis but not the same according to WHO guideline.
2. No medicine was supposed to supply to the patients in the health camps as per project document.
3. Only 10 unions of Shahrasti and Hajiganj have been included as project area but the Member of Parliament, Local Public Representatives, Govt. & Non-govt. officials and the elites were demanding and were pressing hard to include all the unions (20) in the project.
4. Starting of monsoon with heavy shower created problem for erecting Hoardings, Bill Board, Signboard etc. as per project deadline.
5. Massive demand of locality and requirement of the project for water quality testing of tube-wells presently using at the project area.

#### **2<sup>nd</sup> Quarter:**

1. Huge Number of patients including arsenicosis attended in the health camps which difficult to cope with.
2. Free medicine & treatment to all patients could not be provided as per demand.
3. Political turmoil delayed the performance of the project activities in some cases.
4. *Time schedule of the capacity building training for the members of UAMC* could not be maintained due to involvement of the Union Council members' in the political activities prevailing in the country at present.
5. Getting permission from the municipal authorities to install hoardings and bill board.

#### **3<sup>rd</sup> Quarter:**

1. The other action research oriented projects conducted at the same locations, are confusing the targeted beneficiaries of UNIDO project about the uses of arsenic contaminated water.
2. Huge Number of patients including arsenicosis attended in the health camps which difficult to cope with.

3. Free medicine & treatment to all patients could not be provided as per demand.
4. Selection of families partially hampered due to heavy demand of the HHARUs surpassing the allotment fixed by the project considering its capacity.
5. The enlighten beneficiaries gathered in mass to collect arsenic safe water at the sources like HHARUs, but the capacity of HHARUs is very limited and can not meet the requirement.
6. Due to overuse (frequent) of CBARUs by the beneficiaries, the sedimentation of Iron blocked the normal flow of treated water.

#### 4<sup>th</sup> Quarter:

1. The users of CBARU are used to collect water from CBARUs without pumping the tube well. As a result the flow of water stopped at times.
2. Distributions of HHARUs are taking time due to large number of patients in comparison with the number of HHARUs. Hence the selection process taking time by UAMCs in collaboration with project personnel to identify the severe arsenicosis patients as well as poor person.
3. Due to heavy and constant shower during this monsoon some scheduled programs could not be organized.

#### 5<sup>th</sup> Quarter:

1. Communication system was disrupted due to flood.
2. Due to monsoon, devastating flood, Holy Ramadan and other unavoidable circumstances prevailing in the country, certain programmes could not be organized as per schedule.

#### 6<sup>th</sup> Quarter:

1. The devastating natural calamity, "SIDR" (cyclone) damaged the billboards and hoardings.

#### 7<sup>th</sup> Quarter:

1. The devastating natural calamity, "SIDR" (cyclone) damaged the billboards and hoardings.

## **F. Measures Implemented for solving the problems encountered:**

### **1<sup>st</sup> Quarter:**

1. Other patients than arsenicosis patients were also included to provide medical services in a limited manner.
2. Medicines were supplied free of cost to all patients treated at the health camps.
3. To involve M.P. and others in the project activities, started performing activities such as sensitization, awareness building and information dissemination in all the unions of two upazillas, Mitigation demand was carefully escaped with an explanation to approach the authority in future for inclusion.
4. Development of messages, drafting & designing of the Hoardings & Bill board, field test, finalizing of messages on the basis findings were done. The erection of hoardings and billboards will be done immediately after the monsoon.
5. The water testing activities have been carried out collecting the water from the sites and tested those in exiting laboratories.

### **2<sup>nd</sup> Quarter:**

1. Referral system of patients by the VAMWs has been introduced to avoid heavy rush.
2. Extra efforts were given beyond office hours and during holidays by the project personnel to keep the activities on schedule.
3. The Capacity Building Training Programme were started one – two hours late and completed lately to cover the lapse time.
4. Permission was taken from the authorities by persuasion at high level and payment of nominal taxes for installation of hoardings and bill boards.

### **3<sup>rd</sup> Quarter:**

01. Motivational and awareness programs have been enhanced.
02. Referral system of patients by the VAMWs has been introduced to avoid heavy rush
03. Decided to distribute free medicine only to the poor and vulnerable limited patients.
04. Distribution strategy of HHARUs was changed by making cluster families and more HHARUs will be distributed if the number would increase in future.
05. Knowledge about the operation and maintenance of CBARU has been transferred to the UAMCs, VAMWs, Caretakers, and interested beneficiaries through practical training and demonstration on the spot. Rapid follow-up and frequent backwash services have been provided to the community.

**4<sup>th</sup> Quarter:**

01. The problem has been overcome by frequent discussion with the users CBARUs through spot FGDs and informal discussion.
02. Expediting the UAMC to give more time in selecting the severe patients for the HHARUs and identifying arsenicosis patients through Health Camps.
03. The schedules were rearranged and performed at convenient date and time.

**5<sup>th</sup> Quarter:**

01. The schedules were rearranged some programs have been completed and some are yet to be completed.
10. Country boats and other alternatives transport were used to overcome disrupted communication.

**6<sup>th</sup> Quarter:**

11. Necessary arrangements for reinstalling and re-fixing of the billboards and hoardings are going on.

**7<sup>th</sup> Quarter:**

12. Necessary arrangements for reinstalling and re-fixing of the billboards and hoardings are going on.

**8<sup>th</sup> Quarter:**

13. Reinstalling and re-fixing of the billboards and hoardings have been completed.

## **SECTION -2**

---

*The Statement of Work Carried  
Out By the Project Personnel*

# UNIDO Arsenic Project - Bangladesh

UNIDO Project No.: TF/BGD/03/001

P.O. NO.: 16001095

Statement of the Work carried out at the project by the project personnel during the period from the 1<sup>st</sup> July, 2006 to 30<sup>th</sup> June, 2008.

SL. No.	Name of Personnel with project function	Duration of Assignment (Work-month)		List of works carried out by the project personnel
		Project Area	Home Office	
1	2	3	4	5
1.	Project Coordinator		24	<ul style="list-style-type: none"> <li>Organized and took part in distribution of HHARUs among the vulnerable families of all the union of both the upazillas.</li> <li>Organized the visit of overseas visitors like- Mr. Seiji Oshima, along with others.</li> <li>Routine visit of the project activities.</li> <li>Meeting with the project personnel and different committees at the project area.</li> <li>FGDs: visited some of the FGDs spots during conduction of those.</li> <li>Video Film : Participated in making video film on arsenic issues, took part in selecting scripts, dialogues, actor-actress, shooting spots, etc.</li> <li>Inputs in the 6<sup>th</sup> Quarterly News Letter which will be published during First Half of January '08</li> <li>Correspondences at home and abroad.</li> <li>Meeting with Ministry of Industries, WHO, UNICEF, UNDP, DPHE, Embassy of Japan-Bangladesh, District Administration-Chandpur.</li> <li>Organized and participated Project Experience Sharing Workshop at Hajiganj and Shahrasti Upazilla.</li> <li>Routine monitoring and supervision</li> <li>Day to Day administrative and financial activities.</li> </ul>
2.	Chief Chemist		24	<ul style="list-style-type: none"> <li>Supervised the work Lab Technicians both at field and laboratory;</li> <li>Developed different formats to collect information from the field.</li> <li>Conducted training to Area office staffs at Hajiganj and Shahrasti on test, operation &amp; Maintenance, Backwash procedure and use of HACH Arsenic Field Test Kit and READ-F, CBARUs &amp; HHARUs.</li> </ul>

SL. No.	Name of Personnel with project function	Duration of Assignment (Work-month)		List of works carried out by the project personnel

Inadome visited the project. Pre-visits were made to organize accommodation etc. for the visitors for their night halts and other arrangements.</p> <p>Attended the meeting at the office of the Civil Surgeon, Chandpur on Identification of Arsenicosis patients. The meeting was attended by the</p>

Director General of Health Services. Similar type of meeting was also organized by WHO.

Moreover, the project area was visited to see the problems faced due to SIDR (Super cyclone) hit Bangladesh on November 15, 2007 and to assess the damages caused to the Hoardings and Billboards and to find out the ways and means to overcome those problems. The billboards and hoardings were partially damaged and in some cases it was fully.

Besides the regular field visits, for implementing the project activities during the period, a number of field visits were undertaken.

Mr. Pablo Huidobro and Ms. Ikue Toshinaga and also Mr. Parimal Chandra Bose from MOI and Mr. H. Inadome visited the project area and met *different categories of stakeholders and beneficiaries* and discussed about the achievements and further extension of the project. Pre-visits were made to organize accommodation etc. for the visitors for their night halts and other arrangements.

**7<sup>th</sup> Quarter  
Jan 2008 to  
Mar 2008**

Meetings with MOI, DPHE, OCETA and others were held. Meeting was also held with WHO for discussing regarding holding of Project Result Dissemination of Workshop.

Visited the project area for re-installing and re-fixing the damaged Billboards and Hoardings at different places.

Visited the project area to check and monitor the repairing/reinstallation works of the damaged billboards/hoardings due to severe heat of SIDR.

Visited remotest parts of the project area to organize and show the Folk Song Program, Documentary video film and Drama through Multi-media for creating awareness on arsenic issue.

**8<sup>th</sup> Quarter  
Apr 2008 to  
Jun 2008**

This is the closing quarter of the two (02) years pilot project and as a result frequency of visits have been increased to different stakeholders both at field & national levels. Formal and informal discussions were held with different organizations and personalities for participation in the Project Result Dissemination of Workshops. At the upazilla level as well as national level.

Several visits were made at the project area to check the water logging at the CBARU points due to early start of monsoon.

Mr. Yuichi Inagaki, Second Secretary, Economic & Development Cooperation, Embassy of Japan visited the project area on 30-04-2008 and 01-05-2008 and pre-visits were made to organize accommodation etc. for the visitor for his night halt and other arrangements.

Discussions with MOI, DPHE, Embassy of Japan and others were held.

## List of Annexure

Annexure	Contents
A	List of Designated Staff
B	List of Village Arsenic Mitigation Workers (VAMWs)
C	Participants List of VAMWs on Training of Service Delivery Guide Book
D	Questionnaire for Baseline Survey
E	Summary Report of Baseline Survey
F	Participants List of Upazilla Sensitization Workshops
G	Participants List of Union Level Sensitization Workshops
H	Participants List of Training for UAMC
I	List of Participants of Training for Medical Professionals
J	List of Focus Group Discussions (FGDs)
K	List of Patients Provided Medical Support
L	List of Selected Spot for Bill Board
M	List of Selected Spot for Hoarding
N	List of CBARUs
O	List of Water Users' Forum
P	List of Participants of Training for Users' Forum
Q	Participants List of UzAMC Coordination Meeting
R	Participants List of UAMC Coordination Meeting
S	Distribution List of HHARUs
T	List of Patients in the Experience Sharing Workshop

A decorative border resembling a scroll, with rounded corners and a small loop at the top-left and bottom-left corners.

*Questionnaire of Base Line Survey*

**IMPROVING HUMAN SECURITY BY MITIGATING ARSENIC POISONING**  
 Implemented by: United Nations Industrial Development Organization  
 Contractor: Brota Services International  
 Designated NGOs: VDCC & RUDISOF

**Household Survey Form**

Survey Form No.

Para		Village		Ward	
Union		Upazilla	Hajiganj/Shahrasti	District	Chandpur

**1. General Information**

- 1.1 Name of respondent.....
- 1.2 Father's/Husband's Name.....
- 1.3 Gender  Male  Female
- 1.4 Age
- 1.5 Education: Illiterate  Can sign  Class V pass   
 Class VI to X pass  S.S.C/H.S.C. pass  Graduate/Post Graduate
- 1.6 Name of Head of the family .....  
 (Ask next question if the respondent is the head of the family)
- 1.7 Main Profession : Domestic  Agriculture  Day labourer  Transport  Business   
 Service  Expatriate  Others  (pl. specify) .....
- 1.8 Type of Family  Single  Joint
- 1.9 No. of Family Members:  
 Child ( below 5 yrs.)  Male  Female  Total  nos.
- 1.10 Educational qualification of the family members ( below 5 yrs.)  
 Illiterate  nos. Can sign  nos. Class V pass  nos. Class VI to X pass  nos.  
 S.S.C/H.S.C. pass  nos. Graduate/Post Graduate  nos.

**2. Socio-economic condition:**

- 2.1 Main source of income of the family?  
 Service  Business  Agriculture  Expatriate  Others  (pl. specify).....
- 2.2 How Much Agricultural Land:  
 No land  Below 1 acre  Above 1 acre but below 3 acres  Above 3 acre
- 2.3 Type of House:  
 a) Wall : Bricks  C.I. sheet  Earthen  Bamboo  Others  .....  
 b) Roof : Concrete  C.I. sheet  Bamboo & Polythine  Fencing  Others  .....  
 c) Floor : Earthen  Brick-built  Others  (pl. specify).....

2.4 Sanitation Facilities: Safety Tank  Ring Slab  Pit  Hanging  Open field

2.5 Is there anybody fell sick in your family during last one month? Yes  No

If yes, what type of disease?

Diarrhoea  Dysentary  Gastroenteritis  Normal cold, Cough & fever

Headache  Jaundice  Weakness  Others  (Pl. Specify) .....

Who was consulted during sickness?

Village doctor  Homeo doctor  Kabiraj  M.B.B.S. doctor

Community Clinic  NGO  Others  (pl. specify) .....

### 3. Information Regarding Water:

3.1 Source of water: Tube-well  Deep Tube-well  Well  Pond  River  None

3.2 Is there any other source of water? Yes  No  Don't Know

If yes, what source? Govt. supply  Rain water  Pond side sand filter

Don't know  Others  (pl. specify) .....

3.3 At present, is there any problem in water using for drinking and cooking purposes?

Yes  No  Don't know

If yes, what is the problem?

Muddy water  Water with Bad smell  Iron in water  Salinity

Arsenic contaminated  others

3.4 Have you taken any step to get safe water? Yes  No

If yes, what step?

Deep tube-well  Rain water plant  Arsenic purification filter

Boiled water  Pond side sand filter  others

If no, why don't you take any step?

Absence of good intention  Financial insolvency

Absence of source of safe water  Ignorance  No problem after drinking  
arsenic contaminated water  Insufficient sustainable technology

Others  (pl. specify).....

### 4. Information Relating to Arsenic:

4.1. Have you a tube-well of your own? Yes  No  Don't Know

4.2. If yes, has it been screened arsenic contamination?

Yes  No  Don't Know

Result of Screening of your tube-well water?

Arsenic contaminated (Red)  Arsenic Safe (Green)  Don't know

How many days earlier the screening was done?

Within 6 months  Within 1 yr.  More than that  Don't know

- 4.3 Have you any idea about arsenic contamination? Yes  No   
 If yes, then please tell what is the cause of arsenicosis diseases?  
 Drinking of arsenic contaminated water regularly  Use of arsenic contaminated water for cooking purposes  Hereditary  Use of arsenic contaminated water for drinking & cooking purposes  Contagious  Others  (pl. specify) .....
- 4.4 Do you think that the water can be made free from arsenic by boiling?  
 Yes  No  Don't know
- 4.5 Is there any arsenicosis patient in your family? Yes  No   
 If yes, how many? Male  nos. Female  nos. Total  nos.  
 Have you provided any medical service to them? Yes  No  Don't Know   
 If provided, then from where?  
 Village doctor  Homeo doctor  Kabiraj  M.B.B.S. doctor   
 Community Clinic  NGO  Others  (pl. specify) .....
- 4.6 Have you been informed by any body regarding arsenic? Yes  No   
 How have you been informed about arsenic?  
 News Paper  Radio-T.V.  Discussion meeting  NGO worker   
 Govt. officials  Friends  Others  (pl. specify) .....

### 5. Property and Income Related Information :

- 5.1 Have you any property or of your husband?  
 If yes, how much cultivable land  decimal  
 Land for homestead except agricultural land  decimal
- 5.2 Earning member of your family Male  Female  Total  nos.
- 5.3 Average monthly income of your family?  Taka
- 5.4 Average monthly expenditure of your family?  Taka
- 5.5 Average monthly savings of your family?  Taka
- 5.6 Is there any scope of undertaking and conducting income generating activities in your locality? Yes  No   
 If yes, what is the type?  
 Rearing of poultry  Fattening of cattle  Milk farm  Cultivation of vegetables at the homestead  Hand & Cottage Industry  Sewing  Small Business   
 Rickshaw/Van/Boat  Others  (pl. specify) .....
- 5.7 Are you interested to undertake any of the above type of income generating activities?  
 Yes  No   
 Do you need any assistance to undertake this type of project? Yes  No   
 If yes, what type of assistance?  
 Information & communication  Financial  Technical Training   
 Transport  Marketing  Coordination  Infrastructural facilities   
 Others  (pl. specify) .....

*Summery Report on Base Line Survey*

# **Improving Human Security by Mitigating Arsenic Poisoning**

Project No: TF/BGD/03/001, Contact No: 16001095/ML

Implemented by: United Nations Industrial Development Organization (UNIDO)

Contractor: M/S. Brota Services International

Designated NGOs: VDDC for Hajiganj & RUDISOF for Shahrasti

---

**The Survey has been conducted by the UNIDO Arsenic Project's Field Office,  
Hajiganj Upazilla, Chandpur District.**

## **Socio-Economic Information**

### **Background:**

In the year 2001 and 2002 the Ministry of LGRD, govt. of Bangladesh within the scope of the Bangladesh Arsenic Mitigation Water Supply Project a separate project was taken up for screening to determine the Arsenic contamination in water of Tube wells of 8 (eight) upazillas of the country. All the Tube well water of Hajiganj Upazilla were screened in the 1st phase of this project. It was found from the screening result of Hajiganj Upazilla that 98% Tube Wells are contaminated with Arsenic Poisoning above the acceptable limit. The govt. marked those Tube-wells with RED colour. At the primary stage the govt. wanted to start a programme to arrange alternative safe water for the arsenic affected areas, but it was not possible due to various adverse situations. In some areas for supplying safe water plants like deep tube-wells, PSF, Rain Water Harvesting etc. were established at the govt. & non-govt. initiatives but these were not taken up by the public as sustainable technology. As a result, the people of the affected areas continue to use arsenic contaminated water from the red marked tube-wells for drinking and cooking purposes, finding no other alternative. The specialists opined that the Symptoms of Arsenicosis disease may appear within 6 months to 20 years, if anybody use to take arsenic contaminated water regularly. Some of such patents were identified during the survey conducted by the govt. in 2001. It was not possible to identify many of such patients due to ignorance, unawareness of people and absence of adequate and proper treatment facilities. The UNIDO, a UN body has taken up a pilot project in the meantime to provide safe water to the arsenic affected people of Hajiganj and Shahrasti after 5 (five) years of the Survey conducted by the Govt. It was decided to conduct a random survey in the project area to know the Socio-economic condition of the people, their knowledge about arsenic, health and different aspect of their behavior.

### **Aims & Objectives of the Survey:**

- To know about the socio-economic condition of the population of Hajiganj Upazilla;
- To know about the source of safe water
- To know about the concept of the inhabitants regarding arsenic.
- To ascertain the health related problems and their behaviour.

### **Methodology of Survey:**

A questionnaire was prepared for conduction of a random survey. The questionnaire was finalized after field test. 100 persons were selected for collecting the information. An orientation-training was organized on the questionnaire for the information collectors. The information collectors collected information from the chief of household/ head of family by going door to door. The activities of the information collectors were supervised by 4 (four) Supervisors and 2 (two) Community Mobilizers. The collected information was corrected at the field level, again. The result of the corrected data at the field level was sorted out and analyzed & processed by computer. *contd.to P-2*

**The Result of Survey (Summery):**

01. The information were collected from a total of 4937 families / households. the respondents were 48.5% female and 51.5% male. Most of the respondents were (43.83%) within the age of 18 - 35 years. Almost of the respondents 36.05% are able to sign their name only and 10.45% read up to SSC – HSC; 2% are graduates.
02. A great majority of the families (76.95%) are dependent on agriculture, business 17.92%, income from expatriate 12.59% and 12.01% live on the earning as day labourers.
03. Most of the families (78.65%) are single family and the rest (21.35%) are joint family in Hajiganj Upazilla. 46.21% male, 44.21% female and the rest 9.36% are children under 5 years of age of the total population of Hajiganj.
04. The rate of literacy in Hajiganj is 88.87% of whom 11.13% can sign out of literate people, 28.51% read up to class-v, 21.53% SSC, 9.00% HSC and 1.77% are graduates
05. The main source of income of the inhabitants of Hajiganj is agriculture, 31.55% population are engaged with this profession, business 28.84%, service 18.04%, ,income from expatriate 12.59% and the rest 11.34 live on income as day labourer and rickshaw puller.
06. 42.77% population of Hajiganj are landless and the rest 39.74% have less than 01 (one) acre of land, 4.73% above 3 (three) acre of cultivable land.
07. Most of the houses (85.74) in Hajiganj are built by C.I. Sheet. But the floor of these houses (90.84%) are kachcha and only 9% are pucca. A very small number of houses (0.12%) are made of clay.
08. 84.65 Population of Hajiganj have hygienic latrine, of which 72.18% have slab latrine, 3.64% use pit latrine and 8.81% use latrine with safety tank. But still now 15.35% population use open space or jungle for this purpose.

**09. The disease profile of Hajiganj:**

- 40% suffer from cold & fever
- 5.24% headache
- 3.42% dysentery
- 3.01% general weakness associated with Gastric , Jaundice, Diarrhoea.

**The patients with diseases consult:**

- 43.42% Village Doctor.
  - 0.08% NGO Clinic
  - 8.12% MBBS Doctor.
- The rest consult no physician.

10. Most of the inhabitants of Hajiganj (74.59%) use arsenic contaminated water from the red marked Tube-Wells for drinking & cooking purposes in spite of their knowledge of such contamination. Out of this population 90.70% have the opportunity to use deep tube-well water. 86.47% informed that they have got no alternative source of safe water, only 13.53% people use Rain Water Harvesting plant, Tara Pump, PSF as alternative source. No effort was made by 82.37% people for procuring safe water. The reasons are financial insolvency, non-availability of information regarding the source of safe water, absence of knowledge on sustainable source, they claimed. *contd.to P-3*

11. The great majority of people (99.29%) of Hajiganj complaint that the water they have been using at present for cooking and drinking purposes has got problem in it. Out of whom (65.98%) informed that there is arsenic in their Tube-well water beyond limit, 17.41% told that the water was muddy, 8.06% informed that the water with bad smell and 7.29% told that the water was full of iron.
12. 61% families of Hajiganj Upazilla have got their own Tube-wells of which more than 75% are Arsenic screened. The result of the Screening appeared that 95% tube-wells water are arsenic contaminated, but 96.99% screening were carried out 3/4 years ago.
13. The people (69.65%) of Hajiganj Upazilla consider that they have got enough knowledge about arsenic. But it was revealed from an enquiry that only 30% people have a primary knowledge about arsenic. The rest 70% people have enough wrong conception about arsenic.
14. It appeared from an investigation that there are 04 (four) arsenicosis patients in each of the 100 families in Hajiganj. Among the arsenicosis patients 60.52% are female. Out of them 75.65% patients consulted physicians, they informed. But most of them (52.57%) consulted village doctor.
15. 72.67% people of the upazilla informed that they received information about arsenic in this or that way, most of them (61.99%) received that information through Radio-Television, 21.51% from NGO workers and only 4.61% from News papers.
16. The monthly income of 61.94% people of Hajiganj is below Tk. 5,000/-, only 0.97% earn above Tk. 30,000/- per month, only 10% earn above Tk. 10,000/-. On an average only 1.5% people are earning members of each family of the upazilla. Most of the earning members (95.65%) are male. 75% people want to enhance their income through income generating activities. Out of them, 56.77% consider that it is possible to increase income by rearing poultry, 13.76% consider it by cattle fattening, 8.42% by sewing, and they informed. 79.20% respondents are interested to involve them in income generating activities, but among them, 96.85% require financial help, 15.79% technical assistance and 5.2% marketing facilities, they informed.

*List of Participants at the Training  
for Medical Professionals*

## Improving Human Security by Mitigating Arsenic Poisoning

Project Number: TF/BGD/03/001, P.O. Number: 16001095/ML

Implemented by: United Nations Industrial Development Organization (UNIDO)

Brotra Services International

Designated NGOs: VDDC & RUDISOF

# TRAINING ON ARSENICOSIS DISEASES AND ITS MANAGEMENT FOR THE MEDICAL PROFESSIONALS

Venue: UNIDO Arsenic Area Office, Hajiganj

Date: 26-29 September, 2006

## Name of Participants

Sl.	Name of Participants	Designation	Address
01	Dr. A.K.M. Moynul Islam	Medical Officer	Upazilla Health Complex, Hajiganj
02	Dr. Rajesh Saha	Medical Officer	Do
03	Dr. Khadeza Begum	Medical Officer	Do
04	Dr. Fatima Rafat	Medical Officer	Sripur Health Sub-center, Shahrasti
05	Dr. Anwar Hossain	Medical Officer	Tamta Health Sub-center, Shahrasti
06	Dr. Farida Yeasmin	Medical Officer	Nowra Health Sub-center, Shahrasti
07	Dr. Nurul Amin	Medical Assistant	Tamta Health Sub-center, Shahrasti
08	Dr. Sajia Umme Khaoula	S.A.C.M.O.	Pourashava, FWC, Hajiganj
09	Dr. Md. Jahangir Kabir Choudhary	S.A.C.M.O.	1 no. Rajargaon, FWC, Hajiganj
10	Dr. Pran Tosh Chandra Das	S.A.C.M.O.	2 no. Bakila, FWC, Hajiganj
11	Dr. Abul Kashem Munshi	S.A.C.M.O.	4 no. Dakshin Kalcho, FWC, Hajiganj
12	Dr. Nargis Akhter	S.A.C.M.O.	5 no. Hajiganj Sadar, FWC, Hajiganj
13	Dr. Mosarraf Hossain	S.A.C.M.O.	9 no. Uttar Gandhorbopur, FWC Hajiganj
14	Dr. Abul Bashar	S.A.C.M.O.	Uttar Meher, FWC, Shahrasti

Sl.	Name of Participants	Designation	Address
15	Dr. Humayun Kabir Molla	S.A.C.M.O.	Dakshin Meher , FWC, Shahrasti
16	Dr. Ruhul Amin	S.A.C.M.O.	Dakshin Raisree, FWC, Shahrasti
17	Dr. Kazi Foroz	S.A.C.M.O.	South Suchipara, FWC, Shahrasti
18	Dr. Priojit Chandra Das	S.A.C.M.O.	Paschim Chitaishi, FWC, Shahrasti
19	Dr. Shahidul Islam	S.A.C.M.O.	Purba Chitaishi, FWC, Shahrasti
20	Dr. Ismail Hossain	Medical Assistant	Nawra Health Sub-center, FWC, Shahrasti

### **Name of the Resource Persons for Training on Arsenicosis Diseases and Its Management for the Medical Professionals**

- 1. Md. Golam Rasul Arman, Area Coordinator, UNIDO Arsenic Project**
- 2. Dr. Md. Mintu, Specialist on Arsenicosis**
- 3. Dr. Md. Mostafizur Rahman Mizan, Dermatologist**
- 4. Md. Zakir Hossain, Chemist**
- 5. Md. Maksumul Hakim, Planner**
