## INTRODUCTION

The United Nations Industrial Development Organization (UNIDO) promotes the use of industrial information in developing countries by giving guidance in improving local information facilities. As one of the means of promotion UNIDO compiles directories and guides to selected information sources on branches of industry of primary concern to developing countries. The present guide, dealing with the dairy product manufacturing industry, is the twenty-third in the series of UNIDO *Guides to Information Sources* (UNIDO/LIB/SER.D). A list of the guides published to date appears inside the back cover of this guide; more are planned for the series.

The directories and guides are not intended to be exhaustive, nor are they intended to be research tools; rather, they present sources considered to be of practical value to users. The data have been compiled so as to facilitate rapid access to the bodies referred to and the acquisition of the publications listed.

The dairy industry in many developing countries has not been fully developed. Climatic conditions, dispersion of population over large areas, lack of real urban centres, limited livestock development and other factors contribute to this situation. Since milk and milk products represent important food items, particularly for children, attempts have been made to develop this sector, and various small dairies have already been established in many developing countries. There is a continuous interest in the establishment of new plants, modernization of production, introduction of new dairy products and better packaging methods, particularly in those areas where livestock development has given some results.

UNIDO assists developing countries in establishing and operating dairy industries.

## EXPLANATORY NOTES

The designations employed and the presentation of the material in this guide do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country or its authorities, or concerning the delimitation of its frontiers.

Publications listed in this guide have been selected mainly from literature in the official languages of the United Nations; when appropriate, publications in other languages have also been included.

The names of organizations and publications are given in their original languages, wherever available; for those listed in languages other than the official languages of the United Nations, a translation of the title into English is included.

Where available, the date and the number of pages of the most recent known edition are indicated as well as the address of the issuing organization or publisher.

United Nations sales publications should be ordered by sales number. They are available through authorized distributors or may be ordered from:

Sales Section		Sales Section
Publishing Service		United Nations Office

## INTRODUCTION

Pour faciliter la diffusion et l'utilisation de l'information industrielle dans les pays en développement, l'Organisation des Nations Unies pour le développement industriel (ONUDI) aide ces pays à améliorer leurs moyens d'information, notamment en établissant des répertoires et des guides des principales sources d'information sur les secteurs industriels qui présentent pour eux un intérêt majeur. Le présent guide, qui concerne l'industrie laitière, est le vingt-troisième de la série des *Guides des sources d'information* (UNIDO/LIB/SER.D). On trouvera à la page 3 de la couverture la liste des guides déjà parus. D'autres sont prévus.

Les ouvrages de cette série ne prétendent pas être exhaustifs; ce ne sont pas non plus des instruments de recherche, mais de simples guides de sources d'information considérées comme présentant un intérêt pratique pour les utilisateurs. Les données sont présentées de manière à permettre à ceux-ci de se mettre rapidement en rapport avec les sources d'information mentionnées et d'obtenir les publications auxquelles ils s'intéressent.

Nombre de pays en développement n'ont pas encore réussi à se doter d'une industrie laitière moderne. Cette situation tient à de nombreux facteurs tels que le climat, la dispersion de la population, l'absence de vrais centres urbains, le retard de l'élevage, etc. Le lait et les produits laitiers étant des aliments importants, surtout pour les enfants, on s'est attaché à développer ce secteur et diverses petites laiteries ont déjà été installées dans de nombreux pays en développement. On s'efforce partout de créer de nouvelles usines, de moderniser la production, d'introduire de nouveaux produits laitiers et de meilleures méthodes de conditionnement, notamment dans les régions où l'élevage a progressé de façon satisfaisante.

L'ONUDI aide les pays en développement à implanter et à faire fonctionner des industries laitières.

## NOTES EXPLICATIVES

Les appellations employées dans la présente publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique de tel ou tel pays ou territoire ou de ses autorités, ni quant au tracé de ses frontières.

Les publications énumérées dans le présent volume sont pour la plupart rédigées dans les langues officielles de l'Organisation des Nations Unies; toutefois, certains documents publiés dans d'autres langues ont aussi été mentionnés.

Les noms des organisations et les titres des publications sont donnés le plus souvent possible dans la langue originale; les noms des organisations et les titres des publications libellés dans des langues autres que les langues officielles de l'Organisation des Nations Unies ont été traduits en anglais.

Nous avons, aussi souvent qu'il était possible, précisé la date et le nombre de pages de l'édition la plus récente ainsi que l'adresse de l'éditeur ou de l'organisation qui a publié le document.

On peut se procurer les publications des Nations Unies auprès des distributeurs autorisés ou les commander à l'une des adresses suivantes, en mentionnant le numéro de vente :

## ВВЕДЕНИЕ

Организация Объединенных Наций по промышленному развитию (ЮНИДО) содействует использованию промышленной информации в развивающихся странах посредством обеспечения руководства в совершенствовании местных средств информации. Одним из средств такого содействия является составление в ЮНИДО справочников и руководств по отдельным источникам информации, касающимся тех отраслей промышленности, которые имеют первостепенное значение для развивающихся стран. Настоящее руководство по вопросам промышленности по производству молочных продуктов является двадцать третьим в серии ЮНИДО *Guides to Information Sources (UNIDO/LIB/SER.D)*. Перечень опубликованных до настоящего времени справочников приводится на внутренней стороне задней обложки настоящего выпуска; в этой серии планируется также выпуск еще целого ряда справочников.

Такие руководства и справочники не ставят своей целью быть исчерпывающими или служить в качестве средства исследования; в них скорее представлены источники, которые, как полагают, имеют практическую ценность для тех, кто ими пользуется. Данные в этих справочниках подобраны таким образом, чтобы облегчить быстрый доступ к организациям, на которые имеется ссылка, и приобретение перечисленных изданий.

Молочная промышленность во многих развивающихся странах не получила достаточного развития. Это положение объясняется климатическими условиями, распыленностью населения на большой территории, нехваткой подлинных городских центров, ограниченным уровнем развития скотоводства и другими факторами. Поскольку молоко и молочные продукты являются важными продуктами питания, особенно для детей, были предприняты попытки развить эту отрасль, и во многих развивающихся странах уже созданы различные небольшие предприятия по производству молочных продуктов. Наблюдается постоянный интерес к созданию новых предприятий, модернизации производства, внедрению новых видов молочных продуктов и улучшению их упаковки, в особенности в тех районах, где в развитии скотоводства добились некоторых результатов.

ЮНИДО оказывает содействие развивающимся странам в создании и эксплуатации предприятий по производству молочных продуктов.

## ПОЯСНИТЕЛЬНЫЕ ЗАМЕЧАНИЯ

Используемые обозначения и распределение материалов в настоящем руководстве не означают, что Секретариат Организации Объединенных Наций выражает какое-либо мнение относительно юридического статуса той или иной страны, или ее органов власти, или относительно начертания ее границ.

Перечисленные в настоящем руководстве публикации отобраны главным образом из литературы, изданной на официальных языках Организации Объединенных Наций, в соответствующих случаях были включены также публикации, изданные на других языках.

Названия организаций и публикаций дапы на языке оригинала в тех случаях, когда они имелись в наличии; названия, представленные на языках, не являющихся официальными языками Организации Объединенных Наций, включены в перечень в переводе на английский язык.

В зависимости от наличия указаны год издания и количество страниц самого последнего из известных изданий, а также адрес организации, выпускающей публикацию, или издателя.

Предназначенные для продажи публикации Организации Объединенных Наций следует заказывать по соответствующему номеру, под которым они продаются. Их можно приобрести через должным образом уполномоченных агентов по продаже или заказать в:

## INTRODUCCION

La Organización de las Naciones Unidas para el Desarrollo Industrial (ONUDI) promueve la utilización de información industrial en países en desarrollo proporcionando orientación para el mejoramiento de los servicios locales de información. Entre los medios de que se vale la ONUDI para realizar esa labor figura la compilación de repertorios y guías de fuentes de información seleccionadas sobre ramas industriales de interés primordial para los países en desarrollo. La presente guía, consagrada a la industria de elaboración de leche y productos lácteos, es la vigésima tercera de la serie titulada *Guía de Fuentes de Información* (UNIDO/LIB/SER.D). En el interior de la contracubierta de esta guía puede verse una lista de las publicadas hasta la fecha; se prevé la publicación de otras de la misma serie.

Los repertorios y las guías no pretenden ser exhaustivos ni están destinados a servir de instrumento de investigación, sino que presentan fuentes consideradas de valor práctico para los usuarios. Los datos se han recopilado de manera que proporcionen un rápido acceso a las entidades mencionadas y faciliten la adquisición de las publicaciones que se indican.

En muchos países en desarrollo la industria de la leche y los productos lácteos no se ha desarrollado plenamente. Contribuyen a esta situación las condiciones climáticas, la dispersión de la población en extensas regiones, la falta de verdaderos centros urbanos, el limitado desarrollo de la ganadería y otros factores. En vista de que la leche y los productos lácteos constituyen importantes alimentos, en particular para los niños, se han realizado esfuerzos por desarrollar este sector y ya se han establecido diversas industrias pequeñas del ramo en muchos países en desarrollo. Hay un interés permanente por establecer plantas nuevas, modernizar la producción, e introducir nuevos productos lácteos y mejores métodos de envasado, en particular en las zonas en que el desarrollo de la ganadería ha dado algunos resultados.

La ONUDI ayuda a los países en desarrollo en el establecimiento y funcionamiento de industrias de elaboración de leche y productos lácteos.

## NOTAS EXPLICATIVAS

Las denominaciones empleadas en esta guía y la forma en que aparecen presentados los datos que contiene no implican, de parte de la Secretaría de las Naciones Unidas, juicio alguno sobre la condición jurídica de ninguno de los países o territorios citados o de sus autoridades, ni respecto de la delimitación de sus fronteras.

Las publicaciones que aquí se indican se han seleccionado principalmente de entre la literatura publicada en los idiomas oficiales de las Naciones Unidas; cuando procede, también se mencionan publicaciones aparecidas en otros idiomas.

Los nombres de las organizaciones y publicaciones aparecen en su idioma original, cuando así constan; cuando se dan en idiomas no reconocidos como oficiales dentro de las Naciones Unidas, se incluye la traducción al inglés del título correspondiente.

Se indican la fecha y el número de páginas de la edición más reciente, así como la dirección de la organización que la publica o de la casa editora, cuando tales datos se conocen.

Los pedidos de publicaciones de las Naciones Unidas han de hacerse por número de venta. Dichas publicaciones se pueden obtener por conducto de distribuidores autorizados, o haciendo un pedido a:
