PREFACE

The United Nations Industrial Development Organization (UNIDO) promotes the use of industrial information in developing countries by giving guidance in improving local information facilities. As one of the means of promotion UNIDO compiles directories and guides to selected information sources on branches of industry of primary concern to developing countries. The present guide, dealing with leather and leather products industries, is a revised and updated version of the third guide in the series of UNIDO *Guides to Information Sources* (UNIDO/LIB/SER.D). A list of the guides published to date appears at the end of this guide; more are planned for the series.

The directories and guides are not intended to be exhaustive, nor are they intended to be research tools; rather, they present sources considered to be of practical value to users. The data have been compiled so as to facilitate rapid access to the bodies referred to and the acquisition of the publications listed.

In many developing countries, leather and leather products constitute major exports; in some countries, they are the second or third largest export revenue earner. The aim of developing countries to increase their export earnings, and the growing demand for various leather products in domestic markets, have led to a continuous expansion of their leather and leather products industries.

In order to develop this sector, UNIDO has had many workshops and seminars with a view to exchanging information. Consultancy services are also offered in the establishment of projects. The Industrial Information Section of UNIDO provides technological information on inquiries in this field.

EXPLANATORY NOTES

PREFACE

Pour faciliter la diffusion et l'utilisation de l'information industrielle dans les pays en développement, l'Organisation des Nations Unies pour le développement industriel (ONUDI) aide ces pays à améliorer leurs moyens d'information, notamment en établissant des répertoires et des guides des principales sources d'information sur les secteurs industriels qui présentent pour eux un intérêt majeur. Le présent guide, qui concerne l'industrie du cuir et des articles en cuir, est une version revue et mise à jour du troisième ouvrage de la série des *Guides des sources d'information* (UNIDO/LIB/SER.D). On trouvera à la fin de cette publication la liste des guides déjà parus. D'autres sont prévus.

Les ouvrages de cette série ne prétendent pas être exhaustifs; ce ne sont pas non plus des instruments de recherche, mais de simples guides des sources d'information présentant un intérêt pratique pour les utilisateurs. Les données sont présentées de manière à permettre à ceux-ci de se mettre rapidement en rapport avec les sources d'information mentionnées et d'obtenir les publications auxquelles ils s'intéressent.

Dans beaucoup de pays en développement, le cuir et les articles en cuir constituent une importation importante, venant même dans certains cas au deuxième ou au troisième rang des recettes d'exportation. Le désir de ces pays d'augmenter leurs recettes d'exportation, et la demande croissante enregistrée pour ces produits sur les marchés nationaux, débouchent sur une expansion continue des industries du cuir et des articles en cuir dans les pays en développement.

Pour favoriser l'expansion de ce secteur, l'ONUDI a organisé un grand nombre de réunions d'études et de séminaires, qui ont permis de procéder à des échanges de renseignements. Des services de consultants sont également à la disposition des pays qui souhaitent créer des usines. La Section de l'information industrielle de l'ONUDI fournit sur demande des renseignements techniques.

NOTES EXPLICATIVES

Les publications énumérées dans le présent volume sont pour la plupart rédigées dans les langues officielles de l'Organisation des Nations Unies; toutefois, certains documents publiés dans d'autres langues ont aussi été mentionnés.

Les noms des organisations et les titres des publications sont donnés le plus souvent possible dans la langue originale; les noms des organisations et les titres des publications libellés dans des langues autres que les langues officielles de l'Organisation des Nations Unies ont été traduits en anglais.

Nous avons, aussi souvent qu'il était possible, précisé la date et le nombre de pages de l'édition la plus récente ainsi que l'adresse de l'éditeur ou de l'organisation qui a publié le document.

ПРЕДИСЛОВИЕ

Организация ООН по промышленному развитию (ЮНИДО) содействует использованию промышленной информации в развивающихся странах путем обеспечения руководства в улучшении местных информационных служб. Одной из мер такого содействия является составление ЮНИДО справочников и руководств по отдельным источникам информации по отраслям промышленности, представляющим первоочередной интерес для развивающихся стран. Настоящее руководство по производству кожи и кожевенных изделий является пересмотренным и доработанным вариантом третьего руководства в серии UNIDO Guides to Information Sources (UNIDO/LIB/SER. D) (Руководства ЮНИДО по источникам информации.). Список руководств, опубликованных до настоящего времени, приведен в конце настоящего руководства; планируется дополнительное издание руководств данной серии.

Эти справочники и руководства не ставят своей целью быть исчерпывающими или служить в качестве пособий для проведения исследований, а представляют собой источники, которые могут иметь практическую ценность для потребителей. Данные подобраны таким образом, чтобы облегчить доступ к необходимым материалам и приобретение имеющихся изданий.

Во многих развивающихся странах кожа и кожевенные изделия являются основными статьями экспорта; в некоторых странах промышленность по производству кожи и кожевенных изделий занимает второе или третье место среди отраслей промышленности, производящих продукцию на экспорт. Цель развивающихся стран – увеличение своей экспортной выручки, а также увеличение спроса на различные изделия из кожи на внутренних рынках – требует постоянного расширения их промышленных мощностей по производству кожи и кожевенных изделий.

С целью развития данного сектора ЮНИДО провела большое число коллоквиумов и семинаров по обмену информацией. В ходе разработки проектов предоставляются также консультационные услуги. Секция промышленной информации ЮНИДО предоставляет техническую информацию в ответ на запросы по данному сектору.

ПОЯСНИТЕЛЬНЫЕ ЗАМЕЧАНИЯ

Обозначения и изложение материала в настоящей публикации ни в коей мере не являются выражением точки зрения Секретариата Организации Объединенных Наций относительно правового статуса какой-либо страны, территории, города или области или их властей, а также относительно прохождения их границ или пределов.

Перечисленные в настоящем руководстве публикации отобраны главным образом из литературы, изданной на официальных языках Организации Объединенных Наций; в соответствующих случаях были включены также публикации, изданные на других языках.

Названия организаций и публикаций даны на языке оригинала в тех случаях, когда они имелись в наличии; названия, представленные на языках, не являющихся официальными языками Организации Объединенных Наций, включены в перечень в переводе на английский язык.

В зависимости от наличия указаны год издания и количество страниц самого последнего из известных изданий, а также адрес организации, выпускающей публикацию, или издателя. Если публикации Организации Объединенных Наций предназначены для продажи, год издания указывается как часть номера, под которым они продаются.

Заказы на публикации, не предназначенные для продажи, издаваемые Организацией Объединенных Наций и связанными с ней учреждениями, должны направляться непосредственно в учреждения, выпускающие эти публикации. Предназначенные для продажи публикации следует заказывать по соответствующему номеру, под которым они продаются, у должным образом уполномоченных агентов по продаже или заказать в:

PREFACIO

La Organización de las Naciones Unidas para el Desarrollo Industrial (ONUDI) promueve la utilización de información industrial en los países en desarrollo proporcionando orientación para el mejoramiento de los servicios locales de información. Uno de los medios de promoción que emplea la ONUDI consiste en compilar guías de fuentes básicas de información sobre ramas de la industria de especial interés para los países en desarrollo. La presente guía, que se refiere a las industrias del cuero y productos de cuero, es una versión revisada y actualizada de la tercera de la serie *Guías de Fuentes de Información* (UNIDO/LIB/SER.D). La lista de las guías publicadas hasta la fecha aparece al final del presente volumen; se prevé la publicación de otras más adelante.

Estas guías no pretenden ser exhaustivas ni están destinadas a servir de instrumento de investigación; presentan, más bien, una selección de fuentes que se consideran de valor práctico para los usuarios. Los datos se han recopilado de un modo tal que faciliten el rápido acceso a las entidades mencionadas y la adquisición de las publicaciones que se indican.

En muchos países en desarrollo, el cuero y los productos de cuero constituyen exportaciones importantes; en algunos países, ocupan el segundo o el tercer lugar entre los productos de exportación que permiten la obtención de divisas. El propósito de los países en desarrollo de aumentar sus ingresos por concepto de exportaciones, así como la creciente demanda de diversos productos de cuero en los mercados internos, han dado lugar a una continua expansión de sus industrias del cuero y productos de cuero.

A fin de contribuir al desarrollo de este sector, la ONUDI ha efectuado muchos cursos prácticos y seminarios con miras al intercambio de información. También se ofrecen servicios de consultoría para el establecimiento de proyectos. La Sección de Información Industrial de la ONUDI proporciona información tecnológica en respuesta a consultas procedentes de este sector.

NOTAS EXPLICATIVAS

Las publicaciones que aquí se indican se han seleccionado principalmente de entre la literatura publicada en los idiomas oficiales de las Naciones Unidas; cuando procede, también se mencionan publicaciones aparecidas en otros idiomas.

Los nombres de las organizaciones y publicaciones aparecen en su idioma original, cuando así constan; cuando se dan en idiomas no reconocidos como oficiales dentro de las Naciones Unidas, se incluye la traducción al inglés del título correspondiente.

Se indican la fecha y el número de páginas de la edición más reciente, así como la dirección de la organización que la publica o de la casa editora, cuando tales datos se conocen.
