## APPENDIX M

### SELECTED PERFORMANCE INDICATORS

**Figure 1. Service programming  
Integrated programmes 2000**

**Figure 1** provides information on the progress of integrated programmes. In 2000, the total budget for the approved programmes was \$218.9 million, of which \$54.1 million was funded. Africa's share is dominant: 39 per cent in terms of programming and 56 per cent in terms of funding.

**Figure 2. TC approvals and delivery**

**Figure 2** shows the decrease in both technical cooperation approvals and delivery in 2000 compared to 1999, mainly due to a funding shortage and a reduction in the staffing level.

**Figure 3. Number of staff in administration and management, 1998-2000**

**Figure 3** shows continuing downsizing of administration and management, including the Offices of the Director-General and the Managing Directors.

**Figure 4. TC delivery by region**

**Figure 4** shows changes in technical cooperation delivery by region. A sharp decline in Asia and the Pacific was due to a drop in the delivery of Montreal Protocol projects.

**Figure 5. TC vs. RB + OB  
Leverage ratio**

**Figure 5** indicates that “leverage ratios” remain around 1.2. This means that for one dollar of regular and operational budgets, UNIDO delivers 1.2 dollars of TC.

**Figure 6. Project cycle time, 1997-2000  
Projects that exceeded planned duration**

**Figure 6** indicates a mixed result for 2001. Both “Below 1.5 times” and “Over 3.0 times” decreased, but increased “Unknown” makes it difficult to assess the overall change in speed in the project cycle.

**Figure 7. Effectiveness of projects  
Evaluation results**

**Figure 7** indicates a slight decline in the project effectiveness (achievement or likelihood of achievement of the purpose) in 2000.

**Figure 8. Client satisfaction  
1998-2000 (36 replies)**

**Figure 8** shows the result of 36 client feedbacks collected during 1998-2000. While the small size of the responses should be taken into account in interpreting the results, over 85 per cent of responding clients stated that project results were "more than expected" or "as expected".

**Figure 9. Objective indicators**

	1999	2000
Competitive Economy	\$ 299 million investment generated	\$ 221 million investment generated
Sound Environment	3,577 tons of ODS eliminated	Nearly 4,000 tons of ozone depleting substances eliminated
Productive Employment	656 SMEs started 370 SMEs expanded business activities 3,069 woman entrepreneurs assisted some 4,200 jobs generated	563 SMEs started 1,160 SMEs expanded business activities 1,191 woman entrepreneurs assisted some 5,000 jobs created

**Figure 9** provides data on measurable results in terms of contributions to a competitive economy, sound environment and productive employment.

**Figure 10. Collection rate of assessed contributions As at 31 December**

**Figure 10** shows a steady improvement in collection rates.

**Figure 11. Self-financed trust funds  
Net approvals**

**Figure 11** shows a decline in 2000 along with a general decrease in project approvals. However, there is an indication that this will be reversed in 2001.

## APPENDIX N

### BUILDINGS MANAGEMENT

In 2000, significant economies were achieved in the operation, maintenance and repair of the VIC complex. Restructuring, streamlining processes, and improved management and coordination resulted in savings of approximately \$2.4 million from budgeted allocations, despite rising repair and maintenance costs.
