

**TOGETHER**  
*for a sustainable future*

## OCCASION

This publication has been made available to the public on the occasion of the 50<sup>th</sup> anniversary of the United Nations Industrial Development Organisation.

**TOGETHER**  
*for a sustainable future*

## DISCLAIMER

This document has been produced without formal United Nations editing. The designations employed and the presentation of the material in this document do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations Industrial Development Organization (UNIDO) concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries, or its economic system or degree of development. Designations such as “developed”, “industrialized” and “developing” are intended for statistical convenience and do not necessarily express a judgment about the stage reached by a particular country or area in the development process. Mention of firm names or commercial products does not constitute an endorsement by UNIDO.

## FAIR USE POLICY

Any part of this publication may be quoted and referenced for educational and research purposes without additional permission from UNIDO. However, those who make use of quoting and referencing this publication are requested to follow the Fair Use Policy of giving due credit to UNIDO.

The World Directory of Industrial and Technological Information Sources has been compiled from data collected by INTIB, the Industrial and Technological Information Bank of UNIDO's Industrial Information Section.

The Directory contains a collection of profiles of suppliers of industrial and technological information from around the world. The services of these suppliers are used by INTIB to complement the provision of INTIB's own stock of industrial information which is provided to entrepreneurs in developing countries seeking tailor-made answers to their industrial needs. This may be of technologies available, manufactured products or training opportunities for one or more sectors of industry, or even a combination of any of these requirements.

The profiles of these specialized information sources are firstly classified alphabetically by country, then alphabetically by organization within each country. Instructions on how to interpret each profile are provided. The second part provides a cross-reference by sector.

Through this Directory, the staff of INTIB hope to provide a useful tool in locating sources of information in all industrial sectors and aims to disseminate this knowledge in a most impartial manner.

Material in this publication may be freely quoted or reprinted

Mention of firm names and commercial products does not imply the endorsement of UNIDO

This document has not been formally edited

In a spirit of innovation and with a view to decentralizing its operations, the Industrial and Technological Information Bank (INTIB) of UNIDO has now added a new tool to its information systems, the International Referral System, which is already showing promising results.

The International Referral System is a network of specialized information sources established for replying rapidly to industrial enquiries from entrepreneurs in developing countries, transmitted through INTIB. The network is computerized to facilitate rapid searches by field of industry, type of activities, languages, and form of replies to industrial enquiries.

The network has been built up over the last two years in response to the growing need for state-of-the-art, tailor-made answers to technical enquiries in a rapidly changing and competitive environment. In addition to its own resources, INTIB now uses the services of the International Referral System to search for the most judicious choice of technological, manufacturing and equipment alternatives for its clients, acting as an honest broker of industrial and technological information.

The World Directory of Industrial and Technological Information Sources is the printed counterpart of this initiative. It contains data from specialized information sources that have joined the International Referral System, representing 224 organizations around the world in 45 countries.

I am particularly pleased to launch the Directory on the occasion of the sixth session of UNIDO's General Conference, as it will provide entrepreneurs with a useful tool to facilitate their access to information they need. It also provides governmental and non-governmental organization concerned with industrial information with an incentive to assess the information resources of their country. INTIB stands ready to process, analyze, enter and disseminate such valuable information.

Any comments and potential contributions will be highly appreciated. We expect that the next issue of the Directory will have a more comprehensive country and -sector coverage, which will allow INTIB to respond to its clients with an increasing range of alternatives.

In a spirit of international team work, INTIB now relies on additional inputs from its users in order to serve as the first port of call for technology holders and the global industrial community.

A handwritten signature in dark ink, appearing to read 'M. de M. y C.'.

Mauricio de Maria y Campos,  
Director-General, UNIDO

## INTIB

The Industrial and Technological Information Bank (INTIB) was first set up in 1977 as a pilot project through a decision of the Industrial Development Board. As early as December 1975, the General Assembly of the United Nations had affirmed the "need to enable developing countries to have access to specific information on advanced and other technologies requested by them, as well as on the new uses of existing technologies, new developments, possibilities of adapting them to local needs and... to select technologies which meet their requirements".

INTIB has since then provided industry in the developing countries with the necessary background information for sound technological and business decisions and has assisted these countries in the formulation of information policies and in the development of national information systems, centres and services. INTIB facilitates direct or indirect access to information through its own international data bases and through a variety of services and products.

INTIB's information tools are:

### DATABASES ON:

- industrial development abstracts of reports, studies etc.
- technology transfer agreements
- industrial energy saving
- clean technology
- agro industries
- materials technology
- specialized information sources (contained in the International Referral System)

### CURRENT AWARENESS BULLETINS ON:

- Microelectronics
- Genetic Engineering and Biotechnology
- New Materials
- Marine Industrial Technology
- High Technology Spin Offs
- Environment

### NATIONAL FOCAL POINTS

To ascertain the national and regional information need, and improve information delivery, an information network of 69 and 3 regional focal points has been established. These maintain direct contact with INTIB and most are in a position to supply rapid answers to enquiries in their own country or region.

### INTERNATIONAL REFERRAL SYSTEM

As indicated in the introduction to the Directory, the International Referral System is designed to redirect queries received by INTIB, (either at Headquarters or in the National Focal Points), to a wide range of well targeted sources of industrial and technological information. For every enquiry received, a letter, including the information request is sent by the most efficient means available to some 20 or 30 specialized information sources. The sources are asked to respond directly to the requestor. The requestor receives from INTIB the names and addresses of the sources contacted.

Entrepreneurs in developing countries may contact INTIB if they have a specific industrial question. A questionnaire is sent to them for completion, which assists in the formulation of the query in a manner which will find the best matches among the members of the System.

Potential members of the System also receive a blank "Profile of Specialized Information Sources" which they are requested to complete for subsequent inclusion in the System. The computerized data is also used to generate such matrices as shown in the following pages and will appear in the same form in the updated version of the World Directory of Information Sources.

**ORGANIZATION NAME**

☎ Contact: Person who provides replies to enquiries

✉ Postal address, Country

☎ Tel: Phone  
Tlx: Telefax  
Tlx: Telex

**QUESTIONNAIRE  
INFORMATION REQUEST**

**I. BASIC DATA<sup>1</sup>**

Name and title: \_\_\_\_\_ Job function: \_\_\_\_\_  
 Mailing address: \_\_\_\_\_ Country: \_\_\_\_\_

Telephone: \_\_\_\_\_ Telefax: \_\_\_\_\_ Telex: \_\_\_\_\_ E-Mail: \_\_\_\_\_

The information requested is : for my personal use  for a third party   
 My experience in dealing with industrial projects has been :  
 For less than one year  Between 1 and 5 years  For more than 5 years

**II. INFORMATION REQUEST**

**1. CONDITIONS**

- I want to receive information which is free of charge only
- I would be willing to pay for value-added information (supply cost-estimate)
- I do not want free of charge information (supply cost-estimate)

**2. FIELD** (Please indicate the main industrial sector for your information request)

**3. DESCRIPTION**

Briefly describe your information request giving the purpose of the inquiry and the result hoped for. If necessary supply us with extra explanatory notes and documents which might be relevant. The more information you can give us, the better is our chance of giving you a useful response.

P.T.O.

Return completed questionnaire to:  
 UNIDO/INTIB, P O Box 300, A-1400 Vienna, Austria, Telefax (43 1) 230 7584

#### 4. SUBJECT

To enable UNIDO/INTIB or it's network members to give satisfactory service, inquirers should express precisely the subject<sup>2</sup> of their information request

(Check no more than two boxes next to the subject.)

- Raw Materials  Manufacturing processes  Machinery  Equipment  Manufactured products   
Technologies  Engineering, methods and services  Quality, standards & maintenance   
Seminar, training  Congresses  Trade fairs

#### 5. FORM OF REPLY

Give for each subject chosen previously the desired form of the reply :

(Choose only one form of reply by subject )

<i>Form of the reply</i>	<i>1st Subject</i>	<i>2nd Subject</i>
Lists of companies to be contacted	<input type="checkbox"/>	<input type="checkbox"/>
Lists of experts *	<input type="checkbox"/>	<input type="checkbox"/>
Lists of transferable technologies *	<input type="checkbox"/>	<input type="checkbox"/>
Publications, state of the art, books	<input type="checkbox"/>	<input type="checkbox"/>
Commercial literature *	<input type="checkbox"/>	<input type="checkbox"/>
Bibliographies	<input type="checkbox"/>	<input type="checkbox"/>
Proposal and estimate for research/study	<input type="checkbox"/>	<input type="checkbox"/>
Company matching *	<input type="checkbox"/>	<input type="checkbox"/>
Schedule (Seminars, training, congresses, trade fairs)	<input type="checkbox"/>	<input type="checkbox"/>
Detailed programme (Seminars, training, congresses, trade fairs)	<input type="checkbox"/>	<input type="checkbox"/>

\* Part III, Related project description is mandatory.

#### 6. LANGUAGE

Specify the language(s) in which you agree to receive the information:

English  Spanish  French  Arabic  Other  \_\_\_\_\_

#### 7. REGION

Do you want to obtain information from a specific country or region ? YES  NO

If yes, specify the country/region : \_\_\_\_\_

---

### III. RELATED PROJECT

---

1. If the information requested is related to a project, please describe it briefly.

2. Location of project(City and country):

3. This is a new  or the expansion:  of an existing project.

4. Please give an indicative figure of planned investment in US\$:

5. Capacity, indicate the production required in terms for example of unit/hours, quantity/month

6. Indicate if the project should be capital intensive  or labour intensive .

---

### IV. HISTORY

---

1. Indicate if you have already contacted other sources of information, whether local or foreign, before having referred yourself to UNIDO YES  NO  If yes please indicate other sources contacted
