## NEPAL

**Supplier of information:**

Central Bureau of Statistics, National Planning Commission, Kathmandu.

**Basic source of data:**

Annual survey. For 1991, Census of Manufacturing Establishments.

**Major deviations from ISIC (Revision 2):**

None reported.

**Reference period (if not calendar year):**

Fiscal year beginning 15 July of the year indicated.

**Scope:**

Establishments with 10 or more persons engaged.

**Method of enumeration:**

The 1991 census data is based on a complete and revised enumeration of manufacturing establishments.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Number of employees is as of 15 January of the reference year. It includes workers paid through labor contractors.

Wages and salaries is compensation of employees.

Output includes gross revenues from goods shipped in the same condition as received.

**Related national publications:**

Census of Manufacturing Establishments; Annual Survey of Manufacturing Establishments; both published by the Central Bureau of Statistics, Kathmandu.

## NETHERLANDS

**Supplier of information:**

Netherlands Central Bureau of Statistics, Voorburg.  
Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO.

**Basic source of data:**

Annual survey of production and fixed capital formation. Employment statistics are supplemented with information from the quarterly employment questionnaire.

**Major deviations from ISIC (Revision 3):**

None reported.

**Reference period (if not calendar year):****Scope:**

All-kind-of-activity units employing 20 or more persons, except for gross fixed capital formation, where kind-of-activity units employing 10 or more persons have been surveyed.

**Method of enumeration:**

Units with 20 or more employees are completely enumerated.

**Adjusted for non-response:**

No.

**Concepts and definitions of variables:**

Number of employees refers to the total number of full-time and part-time employees on 30 September. It includes salaried employees, wage earners and homeworkers.

Wages and salaries includes employers' contributions to social security schemes and pension funds, regular and overtime cash payments, bonuses and cost-of-living allowances, vacation pay, taxes and social insurance contributions payable by employees and deducted by employers, payments in kind and allowances. Sick leave pay is not included.

Output refers to gross output and includes production of all products, net change of work in progress, work done on own account, services rendered (including non-industrial services), goods shipped in the same condition as received, electricity sold, fixed assets produced for own use, net changes in stocks of finished goods, and goods made by homeworkers and handicraft workers.

Value added, which uses the national accounts concept, is gross output less the value of consumption (including costs of, and receipts for, non-industrial services). The cost of materials, fuels and other supplies, contract and commission work done by others, repair and maintenance work done by others, goods shipped in the same condition as received and electricity purchased are all deducted. Input estimates are on a received basis, adjusted for stock changes.

Gross fixed capital formation is defined as the value of the fixed assets that have become available and are ready to use, which results in the inclusion of leased and hired fixed assets. Fixed assets are new and used assets with a productive life of at least one year, plus additions, alterations and improvements to existing assets. Valuation is at full cost incurred, including delivered price, cost of installation and indirect taxes, but excluding fees and VAT. For assets produced by the unit, the cost of work put in progress, including cost of labour, material and other supplies is taken.

- f/ 353 includes 354.
- g/ Excludes vulcanized or moulded rubber and plastic footwear.
- h/ 361 includes 362 and 369.
- i/ 371 includes 372.

## NETHERLANDS ANTILLES

**Supplier of information:**

Central Bureau of Statistics, Willemstad.

**Basic source of data:**

National Accounts Survey ; Establishment Census, March 1993; Labour Force Sample Surveys 1989-1996.

**Major deviations from ISIC (Revision 3):**

Data do not include petroleum refineries.

**Reference period (if not calendar year):**

Not reported.

**Scope:**

All establishments.

**Method of enumeration:**

For the National Accounts Survey, establishments with 10 or more employees are completely enumerated and establishments with less than 10 employees are sampled. All establishments are completely enumerated for the Business Census. The survey is carried out by mail and personal visits.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Output is gross output.

Value added is total value added.

**Related national publications:**

1993 National Accounts; Bedrijventelling 1993, Nederlandse Antillen; both published by the Central Bureau of Statistics, Willemstad.

## NEW ZEALAND

**Supplier of information:**

Department of Statistics, Wellington.

Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO. The notes appearing here are based on information in the OECD publication *Industrial Structure Statistics* (annual), OECD, Paris.

**Basic source of data:**

Annual enterprise survey, the 5-yearly economy wide census and the annual business directory update.

**Major deviations from ISIC (Revision 2):**

None reported.

**Reference period (if not calendar year):**

Fiscal year beginning 1 April of the year indicated.

**Scope:**

All establishments.

For number of employees, the reference unit is the establishment, for all other variables, it is the accounting unit.

**Method of enumeration:**

Sampling methods are used for some variables.

**Adjusted for non-response:**

No adjustments.

**Concepts and definitions of variables:**

Number of employees is the number of full-time equivalent employees at the end of February of the following year.

Wages and salaries covers all amounts paid to employees, including accident compensation payments.

Output includes a) sales of goods and services produced, including goods shipped in the same condition as received (resales), b) direct government grants and subsidies, excluding those of a capital nature and tax credits/rebates, c) interest, dividends, royalties, patent fees and insurance claims received, and d) other income, except proceeds from sales of capital assets, exchange gains and extraordinary items.

Value added is the value of output and subsidies received, less the cost of labour and materials used and capital assets used up in producing that output.

Gross fixed capital formation refers to net-paid capital formation.

**Related national publications:**

Census Bulletins (e.g. Manufacturing Series A, B, and C) and Final Report; Annual Enterprise Survey Reports; Annual New Zealand Business Pattern Reports; Economy Wide Census Reports; Monthly Abstract of Statistics, all published by the Department of Statistics, Wellington.

a/ Data are provisional.  
b/ National accounts estimates.  
c/ 311/2 includes 313 and 314.  
d/ 313 includes 314.  
e/ 322 includes 323 and 324.  
f/ 331 includes 332.  
g/ 351 includes 353 and 354.  
h/ 352 includes 355 and 356.  
i/ 353 includes 354 and 355.  
j/ 361 includes 362 and 369.  
k/ 371 includes 372.  
m/ 382 includes 383 and 385.

n/ 3824 includes 3829.  
p/ Total manufacturing includes a figure for ancillary units.

## NIGER

**Supplier of information:**

Direction de la statistique et des comptes nationaux, Ministère du plan, Niamey.

**Basic source of data:**

Annual accounts survey.

**Major deviations from ISIC (Revision 2):**

None reported.

**Reference period (if not calendar year):****Scope:**

All industrial enterprises in the modern sector.

**Method of enumeration:**

Questionnaires are distributed by mail with follow-up site visits as required.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

No deviations from the standard UN concepts and definitions are reported.

**Related national publications:**

Rapport sur les statistiques des entreprises, 1990-96, published by the Direction de la statistique et des comptes nationaux, Ministère du plan, Niamey.

## NORWAY

**Supplier of information:**

Statistisk sentralbyrå (Statistics Norway), Oslo.

Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO.

**Basic source of data:**

Annual inquiry.

**Major deviations from ISIC (Revision 3):**

Data presented in ISIC (Rev. 3), were originally classified according to the NACE (Revision 1).

**Reference period (if not calendar year):****Scope:**

In 1991 all establishments with 5 or more persons engaged are covered.

Beginning 1992, all establishments with 10 or more persons engaged are covered.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Number of employees is calculated as the average number of employees throughout the year, whether full- or part-time; homeworkers are not included.

Wages and salaries includes regular and overtime payments, bonuses, cost-of-living allowances, vacation and sick leave pay, allowances (e.g., travelling, clothing expenses), payments in kind and supplements. Supplements are social expenses levied by law.

Output refers to gross output and is valued in producers' prices, excluding all subsidies, and including all indirect taxes but VAT. Included is the value of all products, work done on own account, services rendered, fixed assets produced for own use, waste products and goods produced by homeworkers. Net changes in work in progress and stocks are allowed for.

Value added refers to census value added. The cost of materials, fuels and other supplies, contract and commission work done by others, repair and maintenance work done by others and electricity purchased are deducted from gross output. Cost of non-industrial services and receipts for non-industrial services are included. Input estimates are made on a consumed basis.

Gross fixed capital formation is the value of purchases of fixed assets plus own-account construction, less the value of sales. Fixed assets covered are those with a productive life of at least one year, and include new and used assets, those made by a unit's labour force for its own use, and additions, alterations and improvements to existing assets. Valuation is at full cost incurred, including the delivered price, the cost of installation, and the investment levy. Assets produced by the unit cover the cost of labour, materials and other supplies. The actual amount realized is taken for sales of used assets.

## PHILIPPINES

**Supplier of information:**

National Statistics Office, Manila. The indices of industrial production are compiled by the Central Bank of the Philippines, Manila.

**Basic source of data:**

Annual survey and census every five years.

**Major deviations from ISIC (Revision 2):**

None reported.

**Reference period (if not calendar year):****Scope:**

Since 1992, establishments with 10 or more persons engaged. For 1990 and 1991, all establishments.

**Method of enumeration:**

Establishments with 50 or more workers are completely enumerated, and those with less than 50 workers are sampled.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Wages and salaries includes severance pay.

**Related national publications:**

Annual Survey of Manufactures, published by the National Statistics Office, Manila.

## PORTUGAL

**Supplier of information:**

National Statistical Institute, Lisbon.

Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO. The notes appearing here are based on information in the OECD publication *Industrial Structure Statistics* (annual), OECD, Paris.

**Basic source of data:**

Annual inquiry of 65000 enterprises in the mining, manufacturing and utilities sectors.

**Major deviations from ISIC (Revision 2):**

None reported.

**Reference period (if not calendar year):****Scope:**

Wages and salaries paid to employees relate to enterprises with 100 or more persons engaged, while all other variables cover all enterprises.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Number of persons engaged covers all persons working, on vacation or sick leave, or on strike, during the last week of the year.

Output is gross output, defined as the total value of finished goods produced (intermediate goods sold as such are considered as finished products), plus the value of fixed assets produced for own use, industrial work done for others, electricity sold, waste products sold to third persons, less the value of work in progress at the beginning of the year.

Value added is gross output, plus the value of work done in the capacity of sub-contractor, less the value of materials, lubricants and energy consumed, hiring of machinery and contract work done by others, the value of industrial, repair and maintenance work done by others and non-industrial services received, and the value of duties paid for utilisation of manufacturing processes.

**Related national publications:**

Industrial Statistics (Volume I and Volume II), published by the National Statistical Institute, Lisbon.

d/ 371 includes 372.

## PUERTO RICO

**Supplier of information:**

Puerto Rico Planning Board, Puerto Rico.

**Basic source of data:**

Census of manufacturing industries.

**Major deviations from ISIC (Revision 2):**

Data are collected according to the national classification system (Standard Industrial Classification System), which is not strictly comparable to ISIC(Rev.2):.

**Reference period (if not calendar year):**

Fiscal year.

**Scope:**

All establishments with at least one paid employee and operating during a specified week in March.

**Method of enumeration:**

Individual sites are visited by enumerators.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Number of employees is as of the pay period that includes 12 March of the reference year.

Output is value of goods shipped.

Value added is total value added.

**Related national publications:**

Census of Manufacturing Industries of Puerto Rico (annual), published by the Puerto Rico Department of Labour and Human Resources, Puerto Rico.

## REPUBLIC OF KOREA

**Supplier of information:**

National Bureau of Statistics, Economic Planning Board, Seoul. The indices of industrial production are compiled by the Bank of Korea, Seoul.  
Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO.

**Basic source of data:**

Annual survey and the Census of Mining and Manufacturing.

**Major deviations from ISIC (Revision 3):**

Data are collected under the national classification system which is in line with ISIC (Rev. 3.)

**Reference period (if not calendar year):****Scope:**

Establishments with 5 or more persons engaged with the following exceptions: (a) establishments under construction as of 31 December of the reference year; (b) establishments operated directly by the Government Armed Forces and allied forces; (c) workshops operated by public occupation guidance centres; and (d) experimental stations or laboratories attached to public organizations and schools. The indices of industrial production cover establishments with 5 or more persons engaged.

**Method of enumeration:**

During census years all establishments with 5 persons or more engaged are completely enumerated.

**Adjusted for non-response:**

No.

**Concepts and definitions of variables:**

Number of employees includes homeworkers.

Wages and salaries includes payments to homeworkers.

Output does not include net revenues from goods shipped in the same condition as received.

Gross fixed capital formation relates to the cost of new and used fixed assets acquired.

**Related national publications:**

Report on Industrial Survey (Census), Vol I and II (annual); Korea Statistical Yearbook, both published by the National Bureau of Statistics, Economic Planning Board, Seoul. Economic Statistics Yearbook; Monthly Economic Statistics, both published by the Bank of Korea, Seoul.

## REPUBLIC OF MOLDOVA

**Supplier of information:**

State Department of Statistics of the Republic of Moldova, Chisinau.

**Basic source of data:**

Not reported.

**Major deviations from ISIC (Revision 2):**

None reported.

**Reference period (if not calendar year):****Scope:**

All self-sustained establishments. Data for 1993 to 1995 exclude the area of the left bank of the Dniester and the town of Bender.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

No deviations from the standard UN concepts and definitions are reported.

In 1993 the national currency was changed from roubles to lei (1 lei = 1000 roubles). All data reported in terms of national currency are in lei.

**Related national publications:**

## ROMANIA

**Supplier of information:**

National Commission for Statistics, Bucharest.

**Basic source of data:**

Statistical reports on industrial production.

**Major deviations from ISIC (Revision 3):**

The concepts, definitions and classification by branches of industry are in keeping with the standards of the new National Activities Classification.

**Reference period (if not calendar year):****Scope:**

State enterprises under the direction of the central government. These enterprises account for about 80 per cent of all industrial enterprises and about the same percentage of industrial output.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Figures for wages and salaries are computed by UNIDO from reported wages and salaries per employee.

**Related national publications:**

Anuarul Statistic al Romaniei, published by the National Commission for Statistics, Bucharest.

## SOUTH AFRICA

**Supplier of information:**

Central Statistical Service, Pretoria.

**Basic source of data:**

Monthly surveys and periodic censuses.

**Major deviations from ISIC (Revision 3):**

Manufacture mainly for consumption on premises, grain mills and sawmills operated by farmers for and at their own convenience, and custom milling by retail stores are excluded from manufacturing. The classification is based on the system described in the national publication Standard Industrial Classification of All Economic Activities, 5th Edition, 1993.

**Reference period (if not calendar year):****Scope:**

All private manufacturing establishments. For the number of establishments and wages and salaries, some government establishments are included.

**Method of enumeration:**

For the monthly surveys establishments were sampled.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Number of employees is as of 30 June of the reference year.

Wages and salaries includes some employers' contributions to pension, holiday and medical aid funds. Employers' contributions for unemployment insurance and workmen's compensation are excluded. Payments in kind are also excluded.

Output is gross output.

Value added is total value added.

Gross fixed capital formation was derived from national accounts calculations.

**Related national publications:**

South Africa

## SPAIN

**Supplier of information:**

Instituto Nacional de Estadística, Ministerio de Economía y Hacienda (Spanish National Institute of Statistics), Madrid.

Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO.

**Basic source of data:**

Annual statistical inquiry.

**Major deviations from ISIC (Revision 3):**

The original system used was the National Classification of Economic Activities (CNAE 1993). This classification is equivalent, at the 4 digit level to NACE Rev.1 and aligns with the ISIC.

**Reference period (if not calendar year):****Scope:**

All units employing 1 or more persons.

**Method of enumeration:**

Establishments with 20 or more persons engaged are completely enumerated. Smaller establishments are sampled.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Number of employees is calculated as the mean of the number on four dates during the survey (in March, June, October, December) and includes both paid and unpaid staff and office staff as well as operatives.

Wages and salaries comprises gross salary, wages and payments in kind to the paid staff, excluding employer's social security contributions.

Output follows the Spanish definition of gross output, this being the aggregate total of : a) the output of goods and services for sale, including payments received for services and work performed by others and the value of electricity sold; b) goods resold in the same condition as received; c) payments for services rendered (rental of machines, technical assistance, etc.); d) products and work in progress; e) capital formation for own account (fixed assets produced for own use and the value of major repairs and improvements to own capital assets using own resources).

Value added is calculated as the difference between the value of gross output and intermediate consumption in purchaser prices. Intermediate consumption includes the cost of a) raw materials and consumables; b) energy consumed for power and heating, steam, electricity, gas, etc.; c) purchases of industrial and non-industrial services; and d) goods purchased for resale in the same condition as received.

Gross fixed capital formation is calculated by subtracting the value of sales of own fixed assets from the value of purchases of new and used fixed assets, major repairs and improvements to fixed assets performed by others, construction of assets for own account and major repairs and improvements to fixed assets carried out using own materials and labour.

**Related national publications:**

Encuesta Industrial Anual de Empresas, published by the Instituto Nacional de Estadística, Madrid.

## SWEDEN

**Supplier of information:**

Statistiska Centralbyran (Statistics Sweden), Stockholm.  
Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO.

**Basic source of data:**

Annual manufacturing inquiry.

**Major deviations from ISIC (Revision 3):**

The data presented in ISIC Revision 3 were originally classified according to NACE Revision 1.

**Reference period (if not calendar year):****Scope:**

The survey covers those manufacturing establishments (with five or more persons) of manufacturing enterprises that employ ten or more persons and those manufacturing establishments of non-manufacturing enterprises that have ten or more employees.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Number of employees were computed using the average number of wage earners throughout the year plus the number of salaried employees at a certain date.

Wages and salaries includes regular and overtime cash payments, bonuses and cost-of-living allowances, vacation and sick leave pay, taxes and those social insurance contributions that are payable by employees and deducted by employers and payments in kind. Social security costs are not included.

Output is in factor values. Certain food subsidies are not included. The value of all products, net change of work in progress, services rendered and products and goods made by homeworkers are included. It has been calculated as output less total costs except wages and salaries (including social costs). Input estimates are on a consumed basis.

## SWITZERLAND

**Supplier of information:**

Office fédéral de la statistique (OFS), Berne.

Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO. The notes appearing here are based on information in the OECD publication *Industrial Structure Statistics* (annual), OECD, Paris.

**Basic source of data:**

Annual survey of manufacturing.

**Major deviations from ISIC (Revision 2):**

Data were converted from the national classification system to ISIC (Rev. 2). However, the following should be noted: (a) ISIC 3213 (knitting mills) is included in ISIC 322-324 (wearing apparel, leather and footwear) combined; (b) ISIC 33 (wood products and furniture) includes ISIC 39 (other manufacturing) except ISIC 3901 (jewellery); (c) ISIC 36 (non-metallic mineral products) includes ISIC 2 (mining and quarrying); (d) ISIC 37 (basic metal industries) includes ISIC 3813 (structural metal products); (e) ISIC 382 (non-electrical machinery) includes ISIC 384 (transport equipment) and ISIC 3851 (professional equipment); (f) ISIC 383 (electrical machinery) includes ISIC 3852 (photographic and optical goods); (g) ISIC 3853 (watches and clocks) includes ISIC 3901 (jewellery).

**Reference period (if not calendar year):****Scope:**

All establishments.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Number of persons engaged refers to the average number throughout the year. It includes working proprietors, active business partners, unpaid family workers, salaried employees, wage-earners, and full- and part-time employees.

Output is production measured in producers' prices. It refers to the value of all products.

Value added, also in producers' prices, uses the national accounting concept of value added.

**Related national publications:**

a/ 311/2 includes 313 and 314.

b/ 322 includes 323 and 324.

c/ Including knitting mills (ISIC 3213).

d/ 331 includes 332 and 390.

e/ Excluding jewellery (ISIC 3901).

f/ 351 includes 352, 353 and 354.

g/ 355 includes 356.

h/ 361 includes 362 and 369.

i/ Including mining and quarrying (ISIC 2).

j/ 371 includes 372 and 381.

k/ 382 includes 384.

m/ Including professional and scientific equipment (ISIC 3851).

n/ Including photographic and optical goods (ISIC 3852).

p/ 385 refers to watches and clocks (ISIC 3853) and jewellery (ISIC 3901).

a/ 311/2 includes 313 and 314.

b/ 322 includes 323 and 324.

c/ Including knitting mills (ISIC 3213).

d/ 331 includes 332 and 390.

e/ Excluding jewellery (ISIC 3901).

f/ 351 includes 352, 353 and 354.

g/ 355 includes 356.

h/ 361 includes 362 and 369.

i/ Including mining and quarrying (ISIC 2).

j/ 371 includes 372 and 381.

k/ 382 includes 384.

m/ Including professional and scientific equipment (ISIC 3851).

n/ Including photographic and optical goods (ISIC 3852).

p/ 385 refers to watches and clocks (ISIC 3853) and jewellery (ISIC 3901).

## SYRIAN ARAB REPUBLIC

**Supplier of information:**

Central Bureau of Statistics, Office of the Prime Minister, Damascus.

**Basic source of data:**

Annual industrial survey.

**Major deviations from ISIC (Revision 2):**

Manufacturing includes repair services for the general public (part of ISIC major division 9).

**Reference period (if not calendar year):****Scope:**

All establishments in the public sector and establishments with 10 or more persons engaged in the private sector. However, the directory of establishments used in the annual industrial survey has not been brought up to date and consequently does not strictly reflect the situation of existing establishments.

**Method of enumeration:**

Establishments were completely enumerated. Individual sites are visited by enumerators.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Value added is total value added net of depreciation.

**Related national publications:**

Statistical Abstract (annual), published by the Central Bureau of Statistics, Office of the Prime Minister, Damascus.

## TRINIDAD AND TOBAGO

**Supplier of information:**

Central Statistical Office, Port-of-Spain.

**Basic source of data:**

Annual survey of establishments.

**Major deviations from ISIC (Revision 2):**

Data collected under the national classification system have been reclassified by the national authorities to correspond approximately with ISIC(Rev.2):.

**Reference period (if not calendar year):**

The reference period is the calendar year, but data reported for the financial year are accepted and incorporated in the calendar year in which the major part of the financial year falls.

**Scope:**

For industries dominated by one or two establishments, the survey covers all activity; for those with several establishments, the coverage accounts for about 70 per cent of employment.

**Method of enumeration:**

Questionnaires were distributed by mail with follow-up site visits as required. Some questionnaires are hand delivered.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Number of establishments refers to both producing and distributing units.

Number of employees is as of the last week in November of the reference year.

Wages and salaries includes employers' contributions to pension funds.

**Related national publications:**

Quarterly Economic Report; Annual Statistical Digest; Business Surveys (annual), all published by the Central Statistical Office, Port-of-Spain.

## Trinidad and Tobago

## TUNISIA

**Supplier of information:**

Institut national de la statistique, Ministère du développement économique, Tunis.

**Basic source of data:**

Not reported.

**Major deviations from ISIC (Revision 2):**

Data collected under the national classification system (NAP 50) have been reclassified by the national authorities to achieve the best possible correspondence with ISIC (Rev. 2).

**Reference period (if not calendar year):****Scope:**

Number of establishments and employees relate to enterprises, with at least one employee registered under the social security scheme. Other variables relate to all enterprises.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Wages and salaries, output, value added and gross fixed capital formation were derived from national accounts data.

**Related national publications:**

b/ 351 includes 352.

c/ 371 includes 372.

## TURKEY

**Supplier of information:**

State Institute of Statistics, Ankara.

Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO. The notes appearing here are based on information in the OECD publication *Industrial Structure Statistics* (annual), OECD, Paris.

**Basic source of data:**

Annual manufacturing survey.

**Major deviations from ISIC (Revision 2):**

National classification scheme follows the ISIC (Rev. 2). However, it contains an extra code, ISIC 3854 (other professional goods). The figures for ISIC 385 are therefore not equal to the sum of the published components.

**Reference period (if not calendar year):****Scope:**

Prior to 1992, all manufacturing establishments in the public sector and manufacturing establishments with 25 or more persons engaged in the private sector. From 1992 onwards establishments employing 10 or more persons in the private sector are covered.

**Method of Enumeration:**

Complete enumeration.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

An establishment is a work-place where single ownership or controlling status is established and generally where one type of economic activity occurs and which has the register and accounting sources necessary to fill in the questionnaires.

Number of employees was calculated as the average of the number of production workers and other employees in February, May, August and November. Apprentices are included. Homeworkers are excluded.

Wages and salaries relates to gross payments made for work done, including bonuses, social security and pension fund premiums and payments in kind.

Output, calculated on a shipment basis, covers the value of goods and electricity produced, receipts for services rendered to others, fixed assets produced for own use, sales of goods purchased and resold without further processing, and of miscellaneous receipts. Valuation includes excise and production taxes and any charges for delivery performed by the establishment. Value added is output less the costs of materials and supplies in production (adjusted for the net change in the value of their stocks), products bought and resold without further processing, and payments for industrial work done by others.

Gross fixed capital formation represents the value of acquisitions of new and used fixed assets (including produced for own use). Fixed assets are those with an expected productive life of one year or more. Costs of major repairs and other expenditures on fixed assets are included. Sales are not generally deducted.

Some data are not given for reasons of confidentiality.

## UKRAINE

**Supplier of information:**

Ministry of Statistics of the Ukraine, Kiev.

**Basic source of data:**

Annual statistical reports of enterprises.

**Major deviations from ISIC (Revision 2):**

Data collected under the national classification system have been reclassified by the national authorities to correspond approximately to ISIC(Rev.2):.

**Reference period (if not calendar year):**

**Scope:**

All establishments.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Figures for wages and salaries are computed by UNIDO from reported wages and salaries per employee.

## UNITED KINGDOM

**Supplier of information:**

Department of Trade and Industry, London.  
Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO.

**Basic source of data:**

Annual census of production.

**Major deviations from ISIC (Revision 3):**

None reported.

**Reference period (if not calendar year):****Scope:**

Establishments employing 20 or more persons.

**Method of enumeration:**

A sampling scheme established in the 1980 census was repeated from 1981 to 1983, and from 1985 to 1987. In these years forms were despatched to all establishments employing 100 persons or more and, in general, to samples of 1 in 2 of those employing 50 to 99, as well as 1 in 4 of those employing 20 to 49. 1984 was a benchmark census and forms were despatched to all establishments with 20 or more employed except for those in the 20 to 49 employment size band located in England, where, in general, a sample of 1 in 2 was taken. The statistical unit is the establishment.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Wages and salaries includes all overtime payments, bonuses, commissions, holiday pay and redundancy payments less any amounts reimbursed from government sources. No deduction is made for income tax, insurance, contributory pensions, etc. Payments in kind, travelling expenses, lodging allowances, etc. are excluded.

Output relates to gross output and is calculated by adjusting the value of total sales, work done and services rendered, by the net changes during the year of work in progress and stocks of finished goods. Total sales represents deliveries on sale of goods produced by establishments and includes sales of goods made from materials given out by them to other organizations or to outworkers. The value of sales is the amount charged to customers. Where products attract excise duty, the value is inclusive of duty if goods are sold "duty-paid", and exclusive of duty if goods are sold in bond or exported. Sales of fixed assets are excluded.

Value added represents gross value added in factor values and is defined as the value of gross output less the cost of purchases of materials for use in production and packaging, fuels, goods for merchanting or factoring and the cost of industrial and non-industrial services received. The value of purchases is adjusted for changes in stocks of materials, stores and fuel.

Gross fixed capital formation is the value of purchases of fixed assets less the value of sales of such assets. Valuation is at full cost incurred, including the cost of installation and certain fees and taxes (namely legal fees, stamp duty, agents' commissions, etc.), and is inclusive of any amounts received or expected to be received in grants and/or allowances from government sources, statutory bodies or local authorities. The value of capital goods produced for own use are included. The value of any assets acquired in taking over an existing business are excluded. The figures include non-deductible VAT but exclude deductible VAT.

## UNITED STATES OF AMERICA

**Supplier of information:**

The Bureau of the Census, Department of Commerce, Washington, D.C.  
Industrial statistics for the OECD countries are compiled by the OECD secretariat, which supplies them to UNIDO. The notes appearing here are based on information in the OECD publication *Industrial Structure Statistics* (annual), OECD, Paris.

**Basic source of data:**

Census of Manufactures (every five years) and Annual Survey of Manufactures.

**Major deviations from ISIC (Revision 2):**

The following are excluded from the national concept of manufacturing: (a) small-scale processing activities carried out as a secondary activity in agriculture; (b) custom work to the individual order of household consumers; (c) some repair activities and repair shops of railroads; (d) production of coke for own use by public utility companies; (e) manufacturing by retail establishments selling most of their products on their premises to household consumers; (f) manufacturing by construction contractors at the site.

**Reference period (if not calendar year):****Scope:**

All manufacturing establishments with at least one employee.

**Method of enumeration:**

The Census of Manufactures is carried out for years ending in 2 and 7. The annual survey takes a sample of around 55 000 establishments, representing a coverage of about two-thirds of total manufacturing employment.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Number of employees refers to all full- and part-time employees on the payrolls of operating establishments. An average of four quarterly observations (taken on 12 March, May, August and November) is taken for production workers (operatives) and combined with the figure for all other employees that is taken on 12 March.

Wages and salaries covers gross earnings, including wages, salaries and employers' contributions to pension funds and social security schemes. Regular and overtime cash payments, bonuses and cost of living allowances are included, as are vacation and sick leave pay, taxes and social insurance contributions payable by employees and deducted by employers, payments in kind and allowances. Also included are payments for health insurance, life insurance, pension plans and stock purchase plans. Wages and salaries are based upon the remuneration minus supplemental labour costs.

Output is measured as deliveries in terms of shipments, fob, adjusted for change in inventory for work-in-process and finished goods. Goods shipped include goods produced in the establishments, those shipped in the same condition as received, and receipts for industrial work done on materials owned by others or industrial services rendered to others. The value of goods shipped is in producer prices. In industries where the product is typically delivered, the value of shipments is in delivered prices.

Value added is based on the census concept and is calculated as output less the cost of materials, fuels and other supplies, goods shipped in the same condition as received, contract and commission work done by others, and electricity purchased. Input estimates are on a consumed basis. Valuation is the same as for output.

Gross fixed capital formation relates to the value of new plant and equipment purchased and constructed by the unit's own labour force for its own use. Used plant and equipment purchases are excluded. Fixed assets are defined as those with a productive life of more than one year. The valuation of new fixed capital formation is at full cost and includes the value of additions, alterations, improvements and repairs to existing assets (if capitalized). Purchased new assets are at delivered prices and include the cost of installation but exclude fees and taxes.

**Related national publications:**

Census of Manufactures; Annual Survey of Manufactures, both published by the Bureau of the Census, Department of Commerce, Washington, D.C.

a/ 323 includes leather gloves.

b/ 390 includes dressing and dyeing of furs, mortician's goods, matches and candles.

c/ 382 includes electrical measuring instruments.

## YUGOSLAVIA

**Supplier of information:**

Federal Statistical Office, Federal Republic of Yugoslavia, Belgrade.

**Basic source of data:**

Not reported.

**Major deviations from ISIC (Revision 2):**

None reported.

**Reference period (if not calendar year):****Scope:**

Not reported.

**Method of enumeration:**

Not reported.

**Adjusted for non-response:**

Not reported.

**Concepts and definitions of variables:**

Figures for wages and salaries are computed by UNIDO from reported monthly wages and salaries per employee.

**Related national publications:**

## ZIMBABWE

**Supplier of information:**

Central Statistical Office, Harare.

**Basic source of data:**

Annual census of production.

**Major deviations from ISIC (Revision 2):**

Data collected under the national classification system have been reclassified by the national authorities to correspond approximately with ISIC (Rev. 2). Footwear made of vulcanized or moulded rubber, (part of ISIC 355) and footwear made of plastic (part of ISIC 356) are included in ISIC 324.

**Reference period (if not calendar year):**

Fiscal year beginning 1 April of the year indicated.

**Scope:**

All public and private establishments engaged in manufacturing. Establishments with an annual output of less than 2,000 dollars are excluded. Also excluded are establishments that are mainly in the nature of self-employed, such as dressmakers, tailors, and cabinet makers.

**Method of enumeration:**

Questionnaires were distributed by mail with follow-up site visits as required.

**Adjusted for non-response:**

Yes.

**Concepts and definitions of variables:**

Number of employees includes working proprietors and family members if they are paid a definite wage or salary.

Wages and salaries is compensation of employees.

Output includes gross revenues from goods shipped in the same condition as received.

Gross fixed capital formation includes progress payments for fixed assets on order.

**Related national publications:**

The Census of Production (annual); Monthly Digest of Statistics, both published by the Central Statistical Office, Harare.

g/ 371 includes 372, 381, 382 and 383.

# International Yearbook of Industrial Statistics 1998

## Acclaim for the 1995 edition:

---

*'This is a unique and massive effort by UNIDO providing comparative statistics on current performance and trends in the manufacturing sector worldwide . . . There is no doubt that the volume is a most important source book for economists, planners and policy makers.'*

– Pradosh Nath, *Journal of Science and Industrial Research*

*'UNIDO has done well to bridge gaps in information noticed so far in industrial statistics worldwide and its companionship and usefulness will be realised by all users of this documentation in governmental, industrial and academic circles, as a must on every working desk. Its reliability is fully backed up by authoritative analysis. The Yearbook has been beautifully published and moderately priced.'*

– Rajinder Kunmar, *Marketing and Management News*

A unique and comprehensive source of information, the *International Yearbook of Industrial Statistics* is the only international publication providing economists, planners, policy makers and business people with worldwide statistics on current performance and trends in the manufacturing sector.

The *Yearbook* is designed to facilitate international comparisons relating to manufacturing activity and industrial development and performance. It provides data which can be used to analyse patterns of growth and related long term trends, structural change, and industrial performance in individual industries. Statistics on employment patterns, wages, consumption and gross output and other key indicators are also presented.
