Summary

1.0 Introduction

2.0 Scope of work

3.0 Work performed by CMTI

Summary

The aim of the sub-contract is to enable the installation of a web page for ICAMT with advanced technical features which will be projecting the organisational details and activities through the world wide web. It will also be disseminating information about the ICAMT, its mission, its objectives and activities to the international audience via the internet.

The output expected out of the contract is the successful installation of a web page by providing administrative, technical and other value added inputs by CMTI. The tasks included laying down the basic Specifications for the web-site hosting, selection of the service provider, registration of website on internic registry and logistic support for designing and hosting the web pages.

Accordingly,

- ◆ the ICAMT web-site has been registered as www.icamt-unido.org.
- ◆ the web site has been installed.
- ◆ the technical contents of the web-pages will be continuously updated via FTP access (pass word protected) by ICAMT to disseminate the latest information.

Installation of WEB Page
of
International Centre for Advancement of Manufacturing Technology (ICAMT)
Bangalore, India.

1.0 Introduction

The International Centre for Advancement of Manufacturing Technology (ICAMT) has been envisaged to play a vital role in fostering technology advancement in this part of Asia. The necessity of reaching out to the market place and facilitate linkages between industries and technology developers/providers on a global basis has been considered as a vital step for making industries in the developing countries competitive in the globalised environment.

Internet provides the much needed means for reaching out to prospects and partners in this regard. It will help network the R&D institutes, technology centres, universities, industrial enterprises, government and funding institutions and agencies.

The web page will be an information distribution tool and a meeting point for partners within the framework of the ICAMT programme. It will also provide prospects with on-line access to the database of technologies available. It is expected that in the foreseeable future the owning of a web-site and the attendant transactions through web pages would help the centre to objectively move towards the laid down objectives.

2.0 Scope of work

CMTI has to provide the following services:-

- ◆ Draw up the specifications of the web site in co-operation with ICAMT and the UNIDO programme manager
- ◆ Register the web-page address www.icamt-unido.org
- ◆ Design and make the web page operational.
- ◆ Provide follow-up maintenance and facilitate transactions on the internet.

3.0 Work performed by CMTI

✓ CMTI has laid down the generating hosting plan for the web site as follows:-

- ◆ 40 Mb disk space for html documents and graphics
- ◆ Web page designing and development and maintenance
- ◆ Registration in various search engines including Altavista, Lycos, Infoseek etc.
- ◆ Unlimited data transfer per month
- ◆ 5 POP3 mail accounts
- ◆ Email address forwarding
- ◆ Detailed web usage statistics with web trends -- on going exercise
- ◆ Unlimited updates via ICAMT's own FTP account
- ◆ Support for Microsoft Frontpage 98 including publishing support
- ◆ Support for Microsoft Publisher, Interdev, Internet Information server 3.0, Index server, Active server pages etc.
- ◆ Support for Real Audio and Real video using Real publisher.
- ◆ 12 updates or regular postings free of cost

- ✓ The webpage has been registered as www.icamt-unido.org
- ✓ The installation of the web page has been completed. The contents will be continuously updated via ftp access as per the requirements of ICAMT from time to time.
