In accordance with the contract No. (98/007P) signed between the United Nations Industrial Development Organisation (UNIDO), and Accounting Group Bureau, dated May 18<sup>th</sup> 1998, for valuation process the lands, buildings motor vehicles, office equipments, furnitures, as well as, the projects in progress, stock and goods in the stores, for the purposes of sales by the Yemeni company for free trade (Al-Nasr).

The objective of the valuation process is to determine the fair price for the company's assets value in the market, Generally, the following steps in the valuation process have been applied.

1-For the land valuation, we have been supported by professional valuers to estimate the value of the lands, and taking in consideration the buildings which are about to fall, However, the value of removing the debris was deducted out of the value of such lands, the locations of such lands, building and projects have been seen in accompanying with the valuers and the representative of the engineering bureau.

2-The valuation of the buildings was supported by an engineering bureau to evaluate the proper building for use, and have been valued according to the market values, However, the depreciation was deducted to be equal to their actual use.

3-In the valuation of the stock we have made use of the Performa invoice of the displayed goods for sale, a progression value of the electric and home appliances and garments was deducted so as to achieve the actual value upon the sale.

We have also carried out the stock taking for a kind of stocks to check up on them.

4-The valuation of the vehicles, furnitures, office equipments, and boats was supported by professional valuers as per the kind of each asset, however, the specific assets of high values have been seen.

We would like to indicate that the locations of such lands and buildings are perfect which will stimulate the wills of the investors to buy or investing in association.

The result of the valuation process of the Yemeni Company for free trade Al-Nasr, was as follow:

	Value YR			
	Lands	Building & construction	Other	Total
1-Building, lands & constructions	218.697.895	27.028.530	41.500.000	287.226.425
2-Projects in progress	1.054.400.000	74.077.500	-	1.128.477.500
3-Machines & installations	-	-	8.534.022	8.534.022
4-Furnitures & office equipments	-	-	2.501.100	2.501.100
5-Computers & electric appliances	-	-	3.972.200	3.972.200
6-Vehicles & transport means	-	-	9.650.000	9.650.000
7-Marine crafts "boats"	-	-	3.000.000	3.000.000
8-Goods in stores	-	-	131.273.712	131.273.712
9-stock of spare parts	-	-	6.827.065	6.827.065
10-Stock of stationary & office equips.	-	-	456.876	456.876
11-Gold & silver stock	-	-	11.119.296	11.119.296
Total of assets & stock of the company in Yemeni Rials	1.273.097.895	101.106.030	218.834.271	1.593.038.196

Therefore, in our opinion, the fair price for all kinds of assets owned by the Yemeni company for free trade (Al-Nasr) had amounted the sum of YR. 1.593.038.196, as it is known, the exchange rate of US\$ in the market recently reached to YR.150 per one US\$.

In the valuation process, We had depended on the balance sheet of 1997 and the financial statements as well as the accounting records provided by the company's management as a base of our work, However, upon the audit and according to the available financial statements the following points have been found.

- The balance sheet of 1997 was not audited and checked either by the central organisations of control and accounting or by an independent public accountant.
- The company does not keep analytical records for the assets, and there is no a control system on such assets.
- The company doesn't perform the required conformity between the records and the annual results of the stock taking to verify from the actual existence of the asset.

We were not informed about the original documents of the assets ownership accept the vehicles.

-In the financial statements of 1997, some assets were presented without documents, therefore they were not included the valuation.

<u>Assets</u>	<u>Book value</u>
Building of cold stores	1.760.433
AlRayan shelter	121.030
Building of supply stores	18.200

- We had not obtained conformations by the authorities (real-estate register and ministry of housing) that the rented stores according to rent contracts or transferred under resolutions and government orders will be owned by the company as well as the present liabilities against such stores.

However, we had acknowledged the available documents, financial statements and accounting records which had been audited by us to verify the soundness and legal possession of such assets. Also we had performed afield survey which supported by an Engineering bureau and experts in valuation.

We would like to indicate that the company is still exercising its business depending on its abilities and stock, however as a result of the wide competition in the market, and because there is no an actual independence of the company, therefore, in our opinion, the winding up of the company can be considered the sole solution.

The contract No. (98/007P) was signed in May 18, 1998 between the United Nations Industrial development Organization (UNIDO) and Accounting Group bureau.

In accordance with such contract the two parties have reached to an agreement to perform the specific valuation for the fixed assets owned by the Yemeni Company for free Trade "Al-Nasr" by the accounting group. Accordingly, the Accounting Group had carried out the task after completion the required procedures and works related to the task according to the items of the contract.

Therefore, the attached report was prepared to cover the details of the valuation results.

#### **Objectives**

The main objective of the valuation is to present the fair value of the assets and stock as well as, verifying from the legal status ownership by the company for such assets, in accordance with the following framework.

- 1-Determining the lands and buildings of the company and performing the required procedures for the valuation, moreover, determining their fair value.
- 2-Determining the projects in progress and estimating their cost as of the date of the appraisal.
- 3-Estimating the value of the working vehicles as well as, non-working vehicles.
- 4-estimating the value of the furnitures and installations.
- 5-estimating the fair value of the stock as of the date of valuation.

#### **Method of valuation:**

- The applied methodology in the valuation process represents in adjusting the book value in accordance with the actual value of the asset.
- Accordingly, we had been supported by a specialist-engineering bureau and professional appraiser to perform the appraisal process, the following steps were followed:
  - Examining the balance sheet of 1997 and other available financial statements.
  - Examining the available documents and the accounting records.
  - Performing an accurate study for the market prices for the purpose of comparison.
  - Auditing the specific supporting documents of the assets to verify from the legal status of their ownership.
  - Performing a filed survey and visiting all location in order to know each asset.

#### **Sources of information**

- Depending on the provided statements by the company, some of information and details had been demanded from the ministry of supply and trade, ministry of housing and the authority of the Government real-estates in Aden
- More information and details were demanded from the authorities, specially regarding the assets which their ownership documents were not checked
- Basically depending on the field visits to each asset and on experts in valuing some assets, The Performa invoices of the goods were founded in the stores and the stock taking had been done for a kind of them to verify from the soundness of the balances.

The Yemeni company for Free Trade "AlNasr" was established as a commercial company owned by the government and subjected to the direct supervision and control by the ministry of Industry. The objective of the establishment presents in the following:

To carry on trading in the goods and several materials in the Free markets for foreign currency.

To supply the ships with foodstuffs and consumption materials.

To carry on the re-export process.

To carry on any other activities which may create the objective of the company.

However, the company was the sole importer in the country before 1990, therefore, it had created a world - wide fame. As a result of the war in 1994, the business of the company had deeply effected, moreover, the most of its assets and the entire stock had been stolen.

At the beginning of 1995, the company had resumed its business without any support by the government. Therefore, the business of the company became worse off, as a result of the robbery during the war and absence any finance sources, as well as, taking over huge burdens upon the expenditures of the large number staff amounting more than 300 person. Also the most of the company's staff are surplus unemployment resulting from reducing business as a result of the above mentioned factors.

The company is still carrying on business in limited way under supervision of the ministry of supply and Trade. However, there is a lack of clear management structure, as well as sound financial and marketing policies , also there is lack of balance sheet budget to enable the company carry on its business perfectly . Whereas, all the previous systems had been neglected. However, new operational policies and systems were not approved.

In the following is a detailed explain showing sit, description, valuation base, legal statutes, valuation and opinion.

**1 - 1 the head office building:**

**Details:**

It is known as the new khormakser supply complex. The site located to the west of Hawari Bumadian Street Khormaksar zone bounded with roads from all sides. The building is of two floors, steel constructed, with internal decoration.

The condition of the building is good.

**Evaluation method:**

At khcr Makser zone, the value of per square meter is between 8000 YR. and 12.000 depend upon location and area. Whereas the value is higher, whenever the area is wider. This information was obtained from persons dealing with lands, and confirmed by real-estate offices. The estimated cost here was determined after consulting professional valuer taking to account all factors.

Regarding the building, the estimate cost has been determined according to similar building cost, as on date of valuation. Experienced engineer and professional valuer were consulted. 20% depreciation have been deducted taking to account age and condition.

### Legal status

The plot of land and building of head office are considered as a full ownership without any kind of claims or problems, head office was built by finance from the company, however, the ownership we transferred to the company under utilisation contracts from ministry of housing, however, we had not acknowledged the original contracts of utilisation.

### Value calculation:

#### 1 - The site

Total area of the site	8306.9	M2
estimate cost per square meter	12.000	YR.
<b>Total value for the site</b>	<b>99.682.800</b>	<b>YR.</b>

#### 2 - The building

Area of ground floor	2051.1	M2
Area of 2 <sup>nd</sup> floor and upper part	2120	M2
<b>Total area of the building</b>	<b>4171.1</b>	<b>M2</b>
Estimated value per square meter	4224	YR.
Total estimated value	<u>17.618.726</u>	YR.
Less: 10 % depreciation	1.761.873	
<b>Net value of the building</b>	<b>15.856.853</b>	<b>YR.</b>
Total value estimate for the site and the building	<u>115.539.653</u>	YR.

### Opinion

Ownership should be completed in the name of the company clearly in the real-estate register.

#### 1 - 2 The central stores (14<sup>th</sup> October Shelter):

##### Details:

It is known as 14<sup>th</sup> October shelter, located at about 400 meters North the main road (Madram Street) at Almualla zone. Private owned plot of land from north, south, and west bound the site. From east road ends to the main street, The whole area is fenced.

The store is a Hangar 30 Mts. wide X 60 Mts. long erected of steel structure during 1995. Used to contain goods, which arrive through the port, the hangar is in good condition.

### Valuation method

The site's value estimate based on dominating market value as of evaluation date.

The hangar value based on quotations obtained from companies dealing with hangar's materials and work, taking to account similar structure and area. 10 % depreciation have been deducted considering condition.

### Legal status:

The company acquired the site from ministry of housing as per utilization contract signed by both parties, (such contracts have the power of ownership since the co., is state owned).

The hangar was erected by the company. No claims or dispute related to ownership .

Therefore it is part of the company's property. But supporting documents have to be authenticated.

### Value calculation:

#### 1 - The site

Area	3557.41	M2
Value per square meter	17.000	YR.
Total value for the site	<u>60.475.970</u>	YR.

#### 2 - The Hangar:

Area 30 m x 60 m	1800	M2
Value per square meter	<u>4.356</u>	YR.
Total estimate value	<u>7.840.800</u>	YR.
Less: 10 % depreciation	(784.080)	YR.
Net estimated value for the hangar	<u>7.056.720</u>	YR.
<b>Total value for the site and the hangar</b>	<b><u>67.532.690</u></b>	<b>YR.</b>

### Opinion:

The co. must authenticate the ownership supporting documents

### 1-3 Ships supply management building & site (the ex-head office)

#### Details:

The site is located at AlTawahi zone on the main road (AlHilal street) in front of the main garden. Because of location it is the preferable site owned by the company.

The building is very old and subjected to destruction.

#### Valuation base:

The valuation based on the current price of sq. meter of land in al Towahi Zone, after deducting the value of removing building scraps out of the value of land, because it is not suitable for utilisation or repair.

#### Legal status:

It is one of the company's properties transferred by the government under the memorandum of association and utilisation contract, from ministry of housing, however, we could not obtain the original copy. The building had been rented to zubayn co. in spite of it is not suitable for living, under a contract signed on May 24, 1998, The main articles of the rent contract which may effect the process of specialisation or sale, as follow:

1-Period of contract is 10 year renewable every 5 years.

2-amount of rent is YR. 85.000 monthly.

3-the commitment by the company in case of sale the building or proposed for specialisation to give the priority to the second party of the rent contract.

#### Value calculation:

##### First The site

Area	577.17	M2
Estimated value per square meter	45000	YR.
<b>Total value for the site</b>	<b>25.972.650</b>	<b>YR.</b>

Second Building contains of tow floors and half, its is about to fall.

4617M about YR.408.563 estimated the scrap that should be removed. therefore the cost of transfer the scrap should be deducted from the value of land

Total value after deducting the value of scrap

25.564.087 YR.

#### Opinion:

The company must authenticate the ownership-supporting document.

## 1 - 4 the rock cold store (AlJabal)

### Details:

The site located in AlTowahi zone, Haamza Street that is branched from AlHilal Street.

The building is of 3 floor, built of local stone structure, Used as cold store for vegetables and fruits.

### Valuation method:

The value for site has been estimated in accordance with market cost per square meter for similar plot of lands.

The estimate cost for the building was calculated as per comparable building cost. 20 % depreciation deducted considering age and condition.

### Legal status

The company acquired the building and the site through transfer from the government, according to the establishment law. So, it is a part of the company's property.

### Value calculation

1 - The area of the site	117.8 M2
Estimated value per square meter	25.000 YR.
<b>Total value for the site</b>	<b>2.945.000 YR.</b>

### 2 - The building

Area of ground floor	117/80 M2
Estimate value per square meter for ground flour	x 18.000 YR.
<b>Total ground floor value</b>	<b>2.120.400 YR.</b>
Area of 1 <sup>st</sup> and 2 <sup>nd</sup> floor	235/6 M2
Estimated value per square meter	15.000 YR.
<b>Total of 1<sup>st</sup> and 2<sup>nd</sup> floor value</b>	<b>3.534.000 YR.</b>
<b>Total value of the building</b>	<b>5.654.400 YR.</b>
<b>Less: 20% depreciation</b>	<b>(1.130.880) YR.</b>
<b>The net value after deducting the depreciation</b>	<b>4.523.520 YR.</b>
<b>Total value for the site &amp; the building</b>	<b>7.468.520 YR.</b>

### Opinion:

The company must authenticate the ownership supporting documents

## 1-5 Plot of land at KhorMakser

### Details:

Located at about 400 Mts., from the main road (Hawari Bumadian street) on a closed 14 Mts., wide road, in front of the main parade. about 14 meters the head office and consumable complex.

### Valuation method:

The value has been estimated, according to dominating market value for similar plot of lands. The value includes the cost of the fence.

### Legal status:

The company acquired the land as per utilisation contract signed by ministry of housing. Therefore it is a part of the company's property. no claim or dispute regarding ownership.

### Value calculation:

~ Area	1734/765 M2
Estimate value per square meter	<u>15000</u> YR.
<b>Total value of the land</b>	<b><u>26.021.475</u> YR.</b>

### Opinion:

The company must authenticate the ownership supporting documents.

1 -6 company's plot of land - Mukala

Site and description

Area is 900 sq. meter 30 meter west - east x 30 meter north south number of utilisation document :67737.

Border:

West            Closed to 14<sup>th</sup> Oct. corporation.  
East            public area  
North           Closed to surrounded land of Gov.  
South           closed to office of labour ministry

Value calculation:

The value of square meter is YR. 4000 as per the prices obtained from real - estate bureaus in Mukala City.

Legal status:

The company had obtained the plot of land from the ministry of housing and urban planing through document of utilisation no.67737 dated 28-2-93, in order to build its office in Al-Mukala, according to the applicable regulations, however, we could not obtain the original copy of such document.

Valuation:

<u>Area</u>	<u>Price of Sq.</u>	<u>Value</u>
900 Sq.	YR. 4.000	Y.R.3.600.000

Opinion:

The company owns the plot of land as per the utilisation contract, the procedures of the ownership such as documentation in real-estate register should be completed particularly.

1 -7 Company's stores under rent contracts by Government

Site, description and valuation.

Determined in the text of following table.

No.	Form of cont	Cont No.	Store & address	Est value of cession
1	1966	4054/6/22	Abdul Aziz No(6) building (11)	2.500.000
2	1278	42/3/MG	Rukn Alanam showroom in Towahi	2.500.000
3	1284	83/3/MG	Maint showroom in Twahi	7.000.000
4	1283	80/3/MG	Custom store in Towahi	2.500.000
5	1275	33/3/MG	Kulenan store, rented in Towahi	2.500.000
6	1274	33/3/MG	Custom store, (11)no.(2) in Towahi	2.500.000
7	1273	29/3/MG	Tokoy Store in Towahi	2.500.000
8	1271	23/3/MG	Altaweeel store in Towahi	2.500.000
<b>Stores of company and still disputed in courts</b>				
9	0	0	Jewellery showroom Creater	7.000.000
10	1282	79/3/MG	Store of printing press in Towahi	2.500.000
11	1281	44/3/MG	Queen showroom in Towahi	2.500.000
12	1268	6/3/MG	Ketex showroom	2.500.000
13	1290	25/3/MG	Store belong to company in Towahi	2.500.000
Total				41.500.000

Legal status and opinion.

All stores from 1-8 are rented form M.H. according to rent contract, and no dispute upon them, rather than stores form 9-13 are still in dispute in the courts according to documents and contracts, in our opinion, the judgement must be for the interest of the company.

## 2 - Projects in progress:

	Land	Building	Total
2-1 Tax free shop & tourism hotel building		- 74.077.500	74.077.500
2-2 Flint island project	1.054.400.000		- 1.054.400.000
<b>Total value of the projects in progress</b>	<b>1.054.400.000</b>	<b>74.077.500</b>	<b>1.128.477.500</b>

### 2 - 1 The tax free shop and tourism hotel building:

#### Details:

The plan is to execute four floors building on 525m<sup>2</sup> plot of land. The site located within AlTawhi main port. Bounded by the harbour to the north. Security building to the south, Aden port to east, and departure and arrival lounge to the west.

The building is designed to be of four floors built of forced concrete and stone structure.

- A- The ground floors area is 525m<sup>2</sup>. Designed to contain duty free shops, showrooms, toilets, stores and information services ~ division for the upstairs floors (the hotel).
- B- The first floor will contain, cafeteria, restaurant, lounge and toilets, as well as an open hall overlooking the ground floor.
- C- The 2<sup>nd</sup> and 3<sup>rd</sup> floor will serve as tourism hotel.  
Each floor will contain 7 rooms with toilets to the southern side, and balconies. Each 42 m<sup>2</sup> approximately. The northern side will contain 9 rooms with toilets. Each 40m<sup>2</sup> approximately.

#### Valuation method:

The building was valued as per the current price of sqm. for buildings built of concrete and covered by stones as well as comparing the final valued price as per the quantities bills given to us by the company during valuation process according to the market price of such quantities.

#### Legal status:

The plot of land was built according to approval by the authority of ports as its is owned by the authority, whereas the building is owned by the company, The construction process was financed by the company which has a full ownership of the hotel.

The hotel had been rented to Mr. Ahmed Hussein al-Shebany (shebany trading Group), in the following we show the main article of the rent contract, which may effect the specialisation processes:

- 1-Period of contract shall be 20 Years.
- 2-Annual rent shall be US\$ 50.000. The first five year should be paid in advance.
- 3-Any amendments or additions on the building after company's approval shall be deducted from the rent of subsequent years of the first five years.
- 4-The period of contract shall come into force after receiving the building completely from the contractors.
- 5-In case of sale or propose it for participating fully or partly, the second party of contract shall have the right to purchase the hotel.

Value calculation:

Area of ground floor	525 M2
Price of square meter ground floor	YR. 40.000
Value of building ground flcor	<u>21.000.000</u>
Area of first floor	630M2
Area of second floor	630M2
Area of third floor	630M2
Total area of three floors	1.890M2
Price of square meter upper floors	YR. 35.000
Total value of upper three floors	<u>YR. 66.150.000</u>
Total of valuation four floors	<u>YR.87.150.000</u>
Deducting 15 % for completing works	<u>YR.13.072.500</u>
 <b>Actual value upon valuation</b>	 <b>YR. (74.077.500)</b>

Opinion:

Since the building is constructed according to Aden port authority's permission only .The company must follow-up getting long term utilisation contract, or purchase the site if possible.

## 2 - 2 Flint island project.

### Details

The island is located within AlTowahi main seaport.

It is closer to the main road, which link AlTowahi zone to AlMaalla zone. The island location is the best for investment in tourism filed.

### Valuation method:

Considering the importance of the island, location, and the value have been estimated, by taking the highest value per square meter in the region. Because no comparable locations, as well as no similar location is owned by private sector or have been dealt with.

### Legal status:

The company acquired the island from the government, As replacement for the size of the company's building which burned, besides paying complementary amount as cost for the whole island, The necessary approval have been obtained from the investment authority, ministry of housing and the cabinet. Therefore it is a part of the company's property.

### Value calculation

Total area of island	21088	M2
Value per square meter	50.000	YR.
<b>Total value</b>	<b>1.054.400.000</b>	<b>YR.</b>

### Opinion:

The island is the company's property. Acquired for establishing investment project. The company, must accomplish necessary procedures to obtain final license for establishment the project, and authenticate the ownership documents at the concerned governmental authorities.

## valuation method and opinion

In the valuation process we had depended on the lists of stocktaking as of Dec. 31, 97 received from the company, we had checked each asset and referred to the prices of local market. The depreciation percentage for each asset was determined as per its case, amounting between 10 % and 50 %. In our opinion that value is the actual value of the assets for sale either in retail or wholesales

**Note No. (4) Furniture's and office equipements**

The location , Description and the market value of each unit have been determined in the following table:

(Its noted that the case of the asset have been described within the description of the assets.

However, the expired assets were not valued as they are scrap

Valuation method and opinion

In the valuation process we had depended on the lists of stocktaking as of De, 31, 97, received from the company, we had checked each asset and referred to the prices of local market, the depreciation percentage for each assets was determined as per its case amounting between 10% and 50%. In our opinion that value is the actual value of the assets for sale either in retail or wholesales.

**Note No. (5) software & equipment Electric**

**Location, description and value**

The description , location and the market value for each unite were determined

Description	Location	No.	Price unit	Current Value (Market)
UK -IBM Computers screen	G. M. office	1	136.500	136.500
Computers &(C.T.X.) Printer	Meeting hall	1	188.500	188.500
UK-IBM Computer Set	Financial Dep. Books keeping	1	136.500	136.500
Screen of UK-IBM Computer Printers of Computer UK-IBM Computers Memory UK Mobile Telephone Fax	Computer office = =	4	136.500	546.000
		1	1.281.800	1.281.800
		1	1.582.900	1.582.900
	General Manager	1	45.000	45.000
	General Manager	1	55.000	55.000
<b>Total</b>				<b>3.972.200</b>

**Base of valuation and opinion**

The valuation process had based on the Performa invoices which have been got form the local market for the same appliances, as well as, referring to the available purchase invoices cf such appliances

In our opinion, that vale can be considered as a current actual value. As its known, the prices computers and their accessories are reducing as a result of the development in the software Industry and providing new models.

Note (6) Vehicles and transport means  
Location, description and value

The description of the vehicles and transport means has been determined, as well as, the actual value for each vehicle in the following table.

Serial numbers	Number plate	Kind of number	Kind of vehicles	Colour	Card number	Model	Engine number	Chassis Remark number	Remark	Current Value "Market"

<b>The total of current value</b>										<b>9.650.000</b>

### Valuation base and opinion

The valuation process had based on the opinion of the specialists in vehicles trading field. The value was determined on the base of the actual price which may the car be sold as per its case.

In our opinion, this is the actual value of these vehicles, which are completely owned by the company, the attached appendix (2) are photo copies of the vehicles documents and their photos.

Remark:the following description of the vehicles that we could not evaluate them and were not able to get their documents.

#### Description

-Description of vehicles mentioned in the minutes of stock taking as of Dec. 31,1997, their existence and documents are unknown, therefore, they were not valued.

Kind of Vehicles	Number Plate
Dyna New number	3665

-Description of vehicles stated in the statement provided officially by the company and was not mentioned in the minutes of stock taking.

Number Plate	Kind of Vehicles	Card number	Model	Engine number	Chassis remark number
5306 Aden/2	Isuzu bus 14 prs	68991	1988	501251	1006688
1956 Aden/2	Motorcycle	51906	1985	378685	373129

Description of vehicles, which we had obtained their details, such vehicles are not included the inventory minutes, and received by previous directors in spite of claims to return them.

Number plate	Kind of Vehicles	Cat	Model	Purchase date	Book value	Description
-	Ford Sable	94		4/6/96	\$26.500	With Tofek Al-Amri
74113	Cressida aXL	94		6/12/94	YR.2.120.000	With Awad - Salem

The previous details of such vehicles were not valued because they were not taking in stock and the difficulty of taking them back.

Note (7) Marine crafts

Location , description and value

The description of each boat and its actual value is determined in the following table

Boat name	Licence No.	Date of Parcheesi	Breadth	length	Depth	Tonnage	Current value (Market)
14.00 Heavyduty workboat	W/29	1979	45.62 Metre	15.20 Metre	5 Metre	17.555KG.	1.500.000
600 Workboat	W/30	1979	18.75 Metre	7.50 Metre	2 Metre	1.134 KG.	500.000
600 Workboat	W/31	1979	18.75 Metre	7.50 Metre	2 Metre	1.134 KG.	500.000
600 Workboat	W/32	1979	18.75 Metre	7.50 Metre	2 Metre	1.134 KG.	500.000
<b>Total</b>							<b>3.000.000</b>

Valuation base and opinion

The valuation process was depended on the base of the boats prices in foreign currency at the date of purchase. The boats depreciation amounted 45.5% referring to its case and by advising with mechanics.

In our opinion this is the actual value of these boats which are owned by the company as per the licence given by the authorities.

Attached appendix (a) (b) photo copies of boats documents and photos

Note (8) Goods in the stores for sale

Location description and value

\* The descriptions total were determined as per the item as well as the location and value of the goods in the following table

- Workshop spare parts	25.120
<b>Total</b>	<b><u>356.720</u></b>

Note (11) Stock of silver and Gold

Location ,Description and value of the gold and slaver were determined in the following table

Gold (Deposited in the bank)

standard	Quantity in Grams	Value of Gram	Current value (Market)
18	4779.27	920	4.396.928
21	1995.23	1.080	2.154.848
24	3248	1.240	4.027.520
Total			10.579.296

Sliver (Displayed in the showrooms of the company for sale)

standard	Quantity in Grams	Value of Gram	Current value (Market)
	16.000	30	540.000
Total			540.000

Total Sliver & Gold	11.119.296
---------------------	------------

- Valuation base and opinion.

- The prices of gold and silver was fixed as per the purchase prices in the local market which is not different of the international market.
- We did not receive a conformation letter from the bank supporting the quantity of gold and silver, also we could not make the stock taking of them.
- These quantities were calculated as per the description submitted by the company.
