## I. INTRODUCTION

The Technical Workshop for selected students from developing countries was organized as the second one by the UNIDO-Czechoslovakia Joint Programme, Non-metallic Industries, Pilsen<sup>+</sup>, in co-operation with Press Agency Orbis, Prague, for students studying University of Chemical Technology and University of Agriculture in Prague.

The objective of the Workshop was to make the students from various developing countries acquainted with the integrated exploitation of non-metallic minerals and rocks, with the level of non-metallic industries in Czechoslovakia, with the production of beer in the famous Pilsen Brewery, and also with the role and activities of the UNIDO, the Joint Programme, Pilsen and the Research Institute for Ceramics, Refractories and Non-metallic Raw Materials, Pilsen.

<sup>+</sup> Note: hereinafter called Joint Programme, Pilsen

## II. PARTICIPANTS

25 selected students from 15 developing countries took part in the Workshop. Their list is presented in Annex I.

## III. LANGUAGE

The programme was conducted in Czech and English languages.

## IV. ORGANIZATION OF THE WORKSHOP

Organization of the Workshop was ensured by the staff of the UNIDO-Czechoslovakia Joint Programme, Non-metallic Industries, Pilsen.

### 1. Programme of the Workshop

The Programme of the Workshop (Annex II) comprehended industrial study visits to production plants on floor tile production (Ceramic Works, Chlumčany), kaolin mining and upgrading (Westbohemian Ceramic Works, Kaolin Washing Plant Kaznějov) and beer production (Pilsen Brewery, Pilsen). The visits were enriched by the discussions giving the participants opportunity to extend their knowledge and to exchange their opinions and experience with managers and technical staff in the production plants.

A lecture presented by Mr. Z. A. Engelthaler, Chief Executive of the UNIDO-Czechoslovakia Joint Programme, Non-metallic Industries, Pilsen during afternoon of the first day was intended on the activities of the UNIDO and the Joint Programme, Pilsen and on possibilities of a co-operation with various developing countries in the areas of ceramics, building materials and integrated utilization of non-metallic raw materials.

Mr. Z. A. Engelthaler informed the participants about possibilities to participate in future activities of the Joint Programme such as fostering of twinning arrangements, individual and group training programmes (study tours, seminars, meetings workshops, fellowships), testing of non-metallic raw materials, transfer of know-how and technologies to developing countries, energy management and conservation programme, environmental engineering and advanced ceramics programmes. The lecture was completed by round-table discussions.

## 2. Documentation and Aids

The following documentation and aids were handed over to each of the Technical Workshop participant:

- Technical Workshop Programme
