Division of Policy Co-ordination

* This is an advance edition of a UNIDO publication. This document has been reproduced without formal editing.

V.84-80261

FOREWORD

Perceptive thinking should recognize the inherent explosive danger of a world divided up into islands of affluence surrounded by ever more turbulent seas of poverty and hunger. Consequently, developing the third world should be in the interest of all mankind.

Such a global commitment could have been more easily implemented while the developed countries were passing through an economic upswing, such as during the 1960s and early 1970s. Today, the gradually deepening world recession, which has grievously affected the growth process all over the world, while mounting debt problems and the continuous deterioration of terms of trade have added to the plight of the poorest segments of the international community.

Development of the South must necessarily include basic restructuring of economies, industrialization itself being, as proclaimed in the Lima Declaration, the engine of growth in this process. Assisting the developing countries in their efforts to industrialize is the mandate of UNIDO, and its largest programme relates to technical assistance in the field of industrial technology. By the same token, UNIDO is naturally concerned with the major inputs to the process of industrialization, namely, human resources, energy and finance.

In all its operations, UNIDO has always recognized the important role played by non-governmental organizations (NGOs) and industrial institutions and enterprises in the development of the developing countries. In implementing its programmes, UNIDO has co-operated directly with international and national NGOs, institutions and enterprises which supply industrial technology, finance, management, marketing and training of human resources. Through such co-operation UNIDO has fully recognized that international, regional and national NGOs have become important partners for international co-operation.

To further strengthen its co-operation with NGOs, and to ensure a constructive dialogue with them, UNIDO has granted consultative status to numerous international and regional NGOs. Annex IV of this Directory, on the procedure for granting consultative status to international NGOs, outlines, inter alia, the criteria to be applied in granting consultative status with UNIDO,

which entitles all such NGOs to attend General Conferences of UNIDO, Industrial Development Board meetings, Consultations, etc., with observer status.

While consultative status with UNIDO has been granted only to international and regional NGOs, co-operation has also been taking place with a wide range of national NGOs. Furthermore, in certain situations, long-term agreements for co-operation are concluded with international, regional and national NGOs.

To date, 74 international and regional NGOs have been granted consultative status with UNIDO and have been co-operating with UNIDO in its various fields of activities. Annexes I, II and III list these international NGOs in alphabetical order, and the countries and regions in which their headquarters are located. The fields of co-operation include investment promotion, transfer of technology, provision of expertise and consultancy, international sub-contracting, product design, development research, marketing, management and training.

In its turn, UNIDO co-operation with NGOs has aroused the interest of Governments and industrial organizations, as well as that of international organizations. As a result, numerous requests for information and enquiries have been received regarding the international NGOs in consultative status with UNIDO. It is to satisfy these needs for information that UNIDO has decided to publish the Directory of International NGOs in Consultative Status with UNIDO.

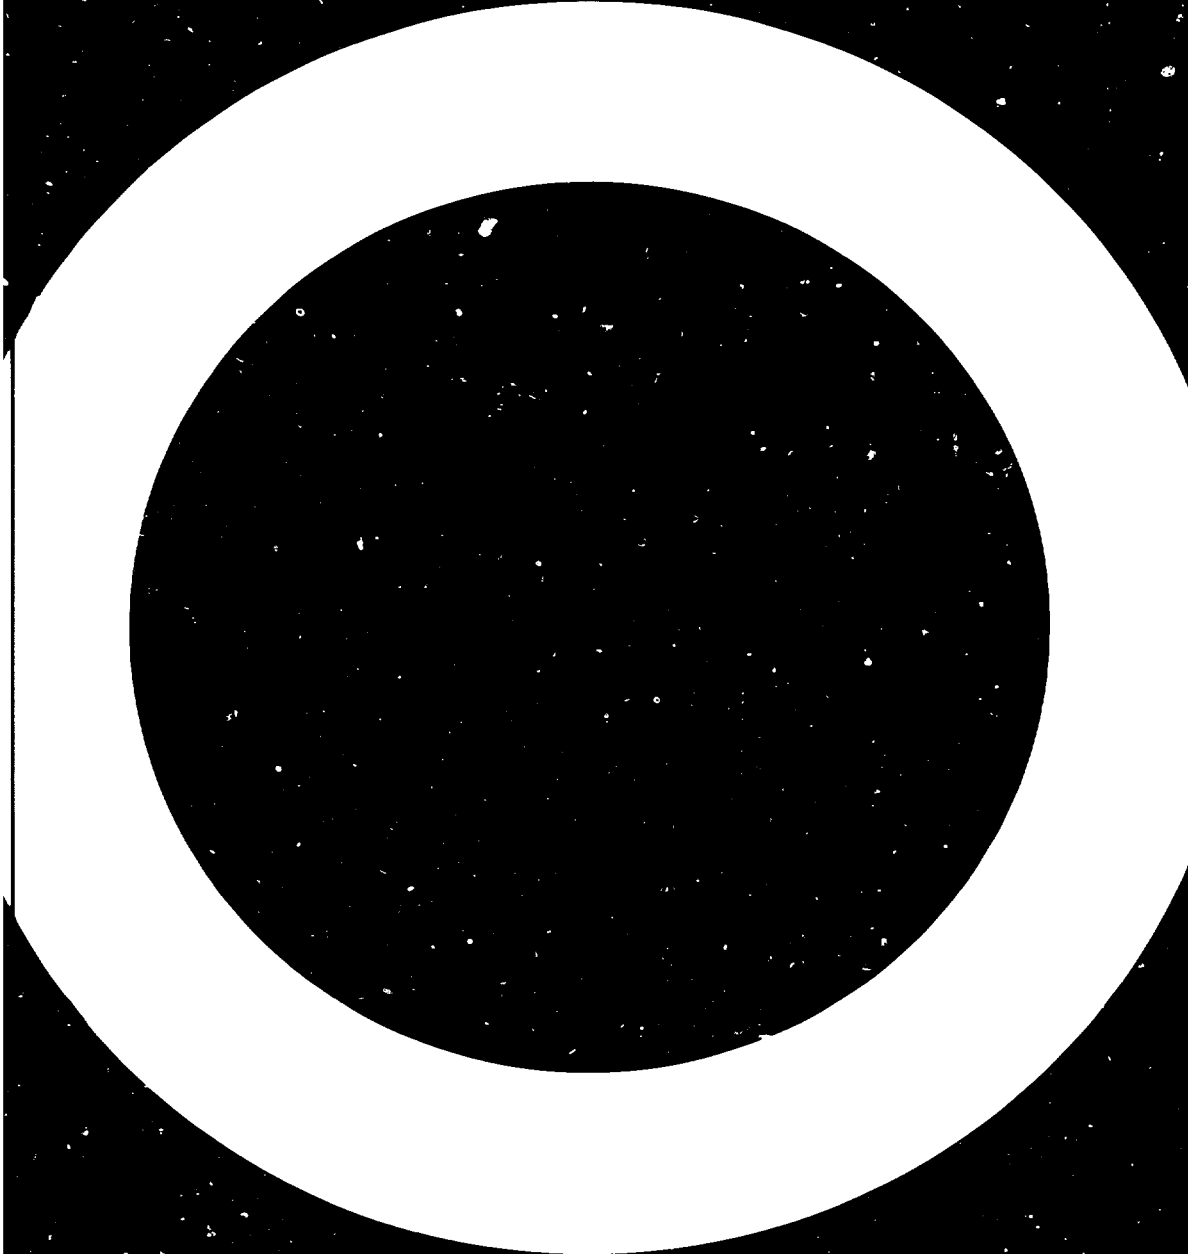

It is hoped that this publication will facilitate contacts and co-operation between UNIDO and NGOs and between the NGOs themselves, thus contributing to the promotion and strengthening of international industrial co-operation.

Abd-El Rahman Khane
Executive Director

ARAB FEDERATION OF CHEMICAL FERTILIZER PRODUCERS

FOUNDED: 1975

CONSULTATIVE STATUS GRANTED BY UNIDO: 1976

PURPOSE:

To develop, organize and co-ordinate commercial, managerial and technical relations in the chemical fertilizer industry, including procurement of raw materials, processing and application of fertilizers.

MEMBERSHIP:

42 chemical companies of member-states of the Council of Arab Economic Unity (Egypt, Iraq, Tunisia, Morocco, Libyan Arab Republic, Syrian Arab Republic, Kuwait, Algeria, Saudi Arabia, Jordan, Lebanon, Bahrain, Qatar, United Arab Emirates)

ACTIVITIES:

- To assist its members in solving production problems through the exchange of information and know-how;
- To assist its members in overcoming problems which hinder the procurement of their requirements of primary materials, production requisites and intermediate materials, and facilitate the exchange of these among the Arab countries;
- To provide the necessary recommendations for the co-ordination of operations in the technical and commercial fields in order to safeguard the interests of members, and offer proposals for the implementation of co-operation programmes among members in these fields;
- To assist members in the co-ordination of their production primarily for the Arab markets, and secondarily for the world market;
- To assist in fostering the professional and technical formation of personnel engaged in the chemical fertilizer industry, in Arab countries, by organizing, preparing and following up vocational training programmes, and rendering possible the exchange of information among the members;
- To participate in seminars of other organizations with similar objectives;
- To issue publications giving information on the Federation's activities in the fields of industry, commerce and technology;
- To give advice on management, operation and maintenance works in fertilizer plants owned by members, and to encourage the development of human resources and Arab experience in this industry, to be available to Arab plants;
- To aid and encourage the establishment of joint venture companies in Arab countries.

ARAB IRON AND STEEL UNION (AISU)

FOUNDED: 1972

CONSULTATIVE STATUS GRANTED BY UNIDO: 1978

PURPOSE:

To help its members and to encourage the development of iron and steel industries in the Arab countries.

MEMBERSHIP:

AISU has 49 member companies from 15 Arab countries.

ACTIVITIES:

- Work for co-ordination and co-operation in the various fields of the iron and steel industry of the Arab world;
- Encourage and strengthen relations, co-operation and exchanges between its members in all fields;
- Help member companies and enterprises to acquire, market and exchange raw materials, iron and steel products and other products required by the iron and steel industry on the most favourable terms;
- Make available to member companies and enterprises technical, economic and commercial information on the iron and steel industries;
- Help member companies with the recruitment of staff;
- Help with the development of the vocational and technical training of staff employed in the iron and steel industries by arranging training courses, seminars, conferences, etc.;
- Assist members, at their request, to resolve problems within its competence;
- Act, on request, as arbitrator between members and/or non-members in matters within its purview;
- Collaborate with Arab and similar foreign unions, scientific associations and agencies;
- Help to standardize and publicize technical terminology and specifications in the iron and steel industry, and also the indicators relating thereto.

ARAB SUGAR FEDERATION (ASF)

FOUNDED: 1977

CONSULTATIVE STATUS GRANTED BY UNIDO: 1976

PURPOSE:

In its co-ordinating role between member associations, the Federation strives to develop and strengthen technical, administrative and marketing relations within the sugar industry in the Arab world.

MEMBERSHIP:

Presently there are active members, producing sugar or a sugar by-product, in: Algeria, Egypt, Iraq, Lebanon, Morocco, Tunis, Somalia, Sudan and Syrian Arab Republic.

ACTIVITIES:

- Encourage co-ordinated policies and objectives for the sugar industry in the Arab world;
- Facilitate the exchange of modern techniques and information on all related areas, including exchange of experiences, and to provide an advisory service for members;
- Further solidarity between members;
- Encourage the full use of sugar by-products through application of modern techniques;
- Assist members to establish mixed companies with diverse capital funds;
- Promote increased sugar production in Arab countries in order to achieve the greatest possible degree of self-sufficiency, establish programmes aimed at increasing productivity and provide training facilities;
- Establish a research centre as well as an equipment manufacturing unit;
- Set up a feasibility studies unit;
- Participate in relevant international conferences and seminars;
- Publish information bulletins as well as a specialized scientific magazine;
- Solve disputes between members;
- Establish regional offices as necessary;
- Provide an information service for interested organizations in Arab countries;
- Encourage the setting up of specialized societies in Arab countries and act as co-ordinator between them.

ASSOCIATION OF INTERNATIONAL TRADE FAIRS OF AMERICA (AFIDA)

FOUNDED: 1969

CONSULTATIVE STATUS GRANTED BY UNIDO: 1980

PURPOSE:

Promoting the co-ordination of activities and creating a uniform system for American fairs.

MEMBERSHIP:

22 private and governmental institutions that organize and/or manage international trade fairs, which may be either general or specialized. There are 19 active members: 1 adherent and 2 correspondents.

ACTIVITIES:

- Improve and standardize the fair system on the Latin American continent;
- Promote participation in international fairs in order to foster trade and the expansion and diversification of exports,
- Represent the collective interests of the organizers of fairs arranged by AFIDA affiliates;
- Support and assist the individual action of its affiliates whenever the matter concerned is of collective interest;
- Promote government support for the activities of its affiliates and represent them in dealings with competent international organizations and institutions;
- Create and maintain bonds of solidarity among its affiliates;
- Regulate the activities of international fairs, adapting them to national and regional interests;
- Co-ordinate and integrate events organized by its affiliates;
- Compile, study and disseminate information on its affiliates and on trade fair activities in general;
- Render technical assistance in organizing general and specialized international fairs.

ASSOCIATION OF LATIN AMERICAN INDUSTRIALISTS (AILA)

FOUNDED: 1963

CONSULTATIVE STATUS GRANTED BY UNIDO: 1980

PURPOSE:

Bring together the bodies most representative of private industrial activity in Latin American countries, in order to establish and strengthen ties of solidarity among the industrialists of the area.

MEMBERSHIP:

There are, at present, 13 active members (Argentina, Bolivia, Brazil, Colombia, Chile, Ecuador, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, Venezuela), in each case one body representing the private industry of its respective country. Additionally, there are sectoral and associate members.

ACTIVITIES:

- Define the principles of private enterprise and free initiative, as fundamental elements of economic and social development;
- Promote Latin American economic integration and international and interregional co-operation with a view to achieving industrial development, through the formulation of a common industrial policy geared towards specialization, joint ventures and industrial integration;
- Co-ordinate the participation of the industrial sector and official authorities in developing the processes of Latin American integration and co-operation, and defend the legitimate interests of the sector in these areas;
- Act as the liaison body between industrial activity and official authorities in all socially related action;
- Promote institutional links, permanent contacts and the exchange of information with similar bodies;
- Ensure that the economic and social development process achieves its ultimate objective, namely the welfare of the human being, and work for the social, cultural and technical improvement of the Latin American worker in order to improve his standard of living and increase his efficiency as a basis for greater productivity.

CENTRE D'ETUDES DE L'AZOTE (CEA)

FOUNDED: 1953

CONSULTATIVE STATUS GRANTED BY UNIDO: 1978

PURPOSE:

The scientific and practical study of methods capable of ensuring a rational and increasing use of nitrogenous fertilizers throughout the world, especially with a view to intensifying agricultural production in the developing countries.

MEMBERSHIP:

Any enterprise or group of enterprises which produces or distributes ammonia and/or nitrogenous straight fertilizers and/or nitrogenous complex fertilizers obtained by chemical process may become a member of CEA, provided that either their headquarters or production centres are situated in western Europe.

ACTIVITIES:

- To stimulate agricultural development through its publications and by maintaining active world-wide contact with agricultural organizations and institutions;
- Co-operation with international organizations, fact-finding missions and temporary secondment of its agronomic experts to developing areas.

CLUB DE DAKAR

FOUNDED: 1974

CONSULTATIVE STATUS GRANTED BY UNIDO: 1980

PURPOSE:

To provide a forum for its members to meet in their private capacities, to seek solutions to the basic problems that determine the common future of the industrialized and developing countries.

MEMBERSHIP:

Restricted to 200 members. The members are individuals from major industrialized countries (Europe, North and South America, Latin America) and from developing countries, in particular Africa. At present it includes senior government officials, presidents of national, inter-governmental and international non-governmental organizations, executives in industry, diplomats and members of the academic world.

ACTIVITIES:

- To stimulate thinking on the conditions required to improve the balance between the developing and the industrialized countries, particularly with regard to the new distribution of industrial activities;
- To formulate suggestions and proposals to this effect;
- To disseminate the results of its work to public and private undertakings empowered to take relevant decisions, as well as to the public at large.

EUROPEAN FEDERATION OF MANAGEMENT CONSULTANTS' ASSOCIATIONS
(FEACO)

FOUNDED: 1960

GRANTED CONSULTATIVE STATUS BY UNIDO: 1974

PURPOSE:

Promotion of scientific management with the aim of increasing productivity.

MEMBERSHIP:

National management associations in the Federal Republic of Germany, Austria, Denmark, France, Italy, Norway, The Netherlands, Great Britain, Sweden, Switzerland, Portugal, Spain, Iceland, Finland, Belgium and Ireland.

ACTIVITIES:

- To group professional associations of management consultants and to promote contacts between them;
- To study, promote and protect the mutual professional interests of member associations and to encourage the setting up of standards and rules of professional conduct;
- To establish relations with international organizations, whether governmental or not, that are interested in improving methods of business management and in increasing productivity;
- To publicize the work carried out by management consultants in the various countries and to facilitate co-operation with other European consulting organizations in related spheres.

EUROPEAN FEDERATION OF NATIONAL ENGINEERING ASSOCIATIONS (FEANI)

FOUNDED: 1951

CONSULTATIVE STATUS GRANTED BY UNIDO: 1979

PURPOSE:

To strengthen the cultural and professional links and exchange of information between its national members.

MEMBERSHIP:

National Associations of Engineers in the following countries: Austria, Belgium, Cyprus, Denmark, Finland, France, Federal Republic of Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Great Britain and Northern Ireland.

ACTIVITIES:

- Study problems concerning the education and training of engineers, the titles of engineers, and the recognition and protection of these titles;
- Facilitate the international exchange of engineers;
- Affirm the position, role and responsibility of the engineer in society, and to study related problems of a technical or social nature;
- Promote the professional interests of engineers;
- Maintain contact with international organizations so as to ensure the representation of engineers within the field of their activity;
- Arrange international meetings and consultations between engineers in furtherance of the foregoing objectives; and
- with the above-mentioned in mind, take action for the good of the socio-professional category of engineers.

EUROPEAN FEDERATION OF NATIONAL MAINTENANCE SOCIETIES (EFMNS)

FOUNDED: 1970

CONSULTATIVE STATUS GRANTED BY UNIDO: 1976

PURPOSE:

To establish contacts between the national maintenance organizations inside Europe in order to promote the exchange of information on maintenance.

MEMBERSHIP:

Any European National Maintenance Society, i.e. any national association that is accepted in its own country as the main body representing maintenance interests.

ACTIVITIES:

- To stimulate the study of improved maintenance techniques and practices;
- To stimulate the publishing of scientific and practical studies conducted in the field of maintenance;
- To initiate the organization of international congresses on maintenance;
- To assist, at the request of developing countries and within the limit of available resources, in their efforts to develop maintenance in their countries.

EUROPEAN OCEANIC ASSOCIATION (EUROCEAN)

FOUNDED: 1970

CONSULTATIVE STATUS GRANTED BY UNIDO: 1975

PURPOSE:

To promote in Europe the pooling efforts with a view to the exploitation of the seas and the oceans in the light of assessing their potential and to arrive at their economic industrial exploitation.

MEMBERSHIP:

23 industrial companies in Sweden, The Netherlands, Belgium, Great Britain, Northern Ireland, France, Italy, Switzerland.

ACTIVITIES:

- To promote the study and development of industrial projects in the ocean on an international scale and of such scope as to exceed the capacities of the most important ocean-oriented companies;
- To develop at the same time, the measures and means capable of protecting the marine environment;
- To centralize, analyze and keep up-to-date documentation, information and marketing studies required to give guidance to the actions of the Association on a medium and long-term plan;
- To organize and stimulate fruitful exchange among its members of scientific research and technical know-how.

INTERNATIONAL ASSOCIATION FOR CEREAL CHEMISTRY (ICC)

FOUNDED: 1955

CONSULTATIVE STATUS GRANTED BY UNIDO: 1972

PURPOSE:

Harmonizing and standardizing the highly diverse analytical methods for the study of cereals and cereal products in order to provide a basis for the future evaluation and classification of cereals and their milling products.

MEMBERSHIP:

Regular membership shall be open to public and private institutions and organizations in any country that is willing to promote the work and objectives of the Association. The research results of the International Association for Cereal Chemistry shall serve directly and exclusively to promote the general good.

ACTIVITIES:

- To study problems of analytical methods in cereal and flour chemistry as well as in related fields;
- To standardize analytical methods and to evaluate them with a view to elaborating standard methods for analyses in the fields mentioned above;
- To establish close relations between the results of scientific research and practical work in the fields of the production, distribution and processing of cereals and milling products for the purpose of increasing the efficiency of such work.

INTERNATIONAL ASSOCIATION FOR THE EXCHANGE OF STUDENTS FOR TECHNICAL EXPERIENCE
(IAESTE)

FOUNDED: 1948

CONSULTATIVE STATUS GRANTED BY UNIDO: 1970

PURPOSE:

To provide students at institutions of higher education with technical experience abroad relative to their studies in the broadest sense and inter alia to promote international understanding and goodwill among the students of all nations.

MEMBERSHIP:

The IAESTE comprises national committees of 38 full and 8 associate member countries.

ACTIVITIES:

- Collection of offers from industrial and other organizations for receiving students from abroad for a temporary training period, in close connection with the students' fields of specialization, and as a supplement to the students' university or college education;
- Exchange of offers with other member countries on a reciprocal basis, normally during the Annual Exchange Conference;
- Selection of qualified students for the offers received;
- Receiving, aiding and counselling students upon their arrival and during their training;
- Assisting the developing countries outside the normal exchange by offering additional working places.

INTERNATIONAL ASSOCIATION FOR THE PROTECTION OF INDUSTRIAL
PROPERTY (AIPPI)

FOUNDED: 1897

CONSULTATIVE STATUS GRANTED BY UNIDO: 1968

PURPOSE:

To promote the understanding of the necessity for international protection of industrial property in the broadest sense (in particular inventions, trademarks, trade names, designs and industrial models, repression of unfair competition), and to encourage further development of the protection of industrial property.

MEMBERSHIP:

At present (1983) there are approximately 5,700 members from 94 countries. It consists of:

- a) the members of the National and Regional Groups;
- b) independent members, each having their professional activity principally in a country or territory where there is no National or Regional Group;
- c) members of honour.

The recognition of National or Regional Groups is determined by the Executive Committee. The conditions for membership of each National Group are determined by the Group itself. Each Group determines whether it admits legal persons as members. Natural and legal persons may be admitted as independent members.

ACTIVITIES:

- Study and compare existing laws and proposed new laws, with a view to taking steps to perfect and harmonize them;
- Work for the development, enlargement and improvement of international conventions concerning the protection of industrial property and, in particular, of the Paris Convention of 1883;
- Produce and distribute publications and other information;
- Organize periodical congresses and other meetings;
- Make representations to governments and inter-governmental bodies, as well as to national, regional and international organizations.

INTERNATIONAL FERTILIZER INDUSTRY ASSOCIATION (IFA)

FOUNDED: 1926 as International Superphosphate Manufacturers' Association (ISMA).

CONSULTATIVE STATUS GRANTED BY UNIDO: 1974

PURPOSE:

- a) To pursue the general common interests of the fertilizer industry and to foster international understanding and awareness of its problems and prospects and of its contribution to agriculture, in order to meet the growing demand for food and agricultural products throughout the world.
- b) To facilitate communication and contact among the members of the Association to act as a medium for the exchange of information among them and to encourage their consideration and discussion of all matters affecting the fertilizer industry.
- c) To collect, present and publish information provided by members and other sources concerning the production, marketing and use of fertilizers and their raw materials, and all related subjects, particularly agriculture.
- d) To encourage, sponsor or conduct scientific research and the practical application of its results, in order to increase the production and use of fertilizers and to improve their efficiency; and to promote technical co-operation among the members of the Association and/or with any group of producers of fertilizers or their raw materials.
- e) To affiliate and co-operate with other Associations and bodies having similar objects.

MEMBERSHIP:

The IFA has 388 member organizations in 65 developed and developing countries.

ACTIVITIES:

- To hold conferences and consider and discuss technical developments in the manufacture of chemical fertilizers;
- To provide a forum for the discussion of major topics of interest to the fertilizer world as a whole (Annual Conference);
- To disseminate general information and statistics on fertilizers, the raw materials used in their production and on other related matters.

WORLD FEDERATION OF ENGINEERING ORGANIZATIONS (WFEO)

FOUNDED: 1963

CONSULTATIVE STATUS GRANTED BY UNIDO: 1969

PURPOSE:

To advance engineering as a profession in the public interest and to act as
as spokesman in matters on which a group opinion is possible.

MEMBERSHIP:

National and international organizations representing engineers of a high
level of technical competence.

ACTIVITIES:

- To further the exchange of information and foster co-operation among
engineering organizations and with organizations outside the engineering
field;
- To qualify and continue development of professional engineers and their
technical supporting staff;
- To establish an eventual world-wide register of professional qualified
engineers and an international code of professional conduct for engineers.

HEADQUARTERS: World Federation of Engineering Organizations (WFEO)
19, Rue Blanche Tel: (1) 526.34.82

WORLD FEDERATION OF TRADE UNIONS (WFTU)

FOUNDED: 1945

CONSULTATIVE STATUS GRANTED BY UNIDO: 1967

PURPOSE:

To consolidate and unite the trade unions of the world, irrespective of race, nationality, religious or political opinion.

MEMBERSHIP:

National trade union organizations, totalling over 206,000,000 members in 79 countries and territories.

ACTIVITIES:

- To fight for the establishment of a world system based on a peaceful community of sovereign nations within which the workers occupy their rightful place in society as the producers of all material and intellectual wealth of mankind;
- To strengthen the solidarity of the international trade union movement by encouraging systematic exchange of information and experience in trade union work;
- To help the workers in organizing trade unions, promote their training in question of international unity, and increase their class consciousness;
- To represent the interests of the workers in the international organizations and institutions.

WORLD PACKAGING ORGANIZATION (WPO)

FOUNDED: 1968

CONSULTATIVE STATUS GRANTED BY UNIDO: 1975

PURPOSE:

To provide a forum for the exchange of knowledge, to disseminate information and to promote the world-wide development of packaging technology.

MEMBERSHIP:

Four continental packaging federations, representing 36 national packaging associations. Individual Packaging Institutes. International Organizations active in specific Packaging Markets (Paper, Wood, Plastics, etc.).

ACTIVITIES:

- Dissemination of knowledge and information on packaging technology, machinery, equipment, materials and designs, and the development thereof, particularly keeping in view the requirements of developing countries;
- Development of institutions for the promotion of packaging education and technology;
- Development of packaging standards;
- Co-operation among national, regional and institutional organizations and institutions interested in packaging.

WORLD PEACE COUNCIL (WPC)

FOUNDED: 1950

CONSULTATIVE STATUS GRANTED BY UNIDO: 1977

PURPOSE:

The world-wide promotion of all activities concerned with peace

MEMBERSHIP: National peace committees in 137 member states

ACTIVITIES:

- Prohibition of nuclear weapons and all other weapons of mass destruction and an ending of the arms race;
- General, simultaneous, controlled and complete disarmament;
- Elimination of all forms of colonialism and racial discrimination;
- Respect for the right of peoples to the sovereignty and independence essential for the establishment of peace;
- Non-interference in the internal affairs of nations;
- Establishment of mutually beneficial trade and economic relations based on friendship and mutual respect to promote the process of development and for the establishment of the NIEO,
- Peaceful co-existence between states with different social systems;
- Replacement of the policy of force with that of negotiations for the settlement of differences between nations.

ANNEX IV : PROCEDURE FOR GRANTING CONSULTATIVE STATUS TO
INTERNATIONAL NON-GOVERNMENTAL ORGANIZATIONS
CONCERNED WITH THE PROMOTION OF INDUSTRIAL
DEVELOPMENT.

PROCEDURE FOR GRANTING CONSULTATIVE STATUS TO
INTERNATIONAL NON-GOVERNMENTAL ORGANIZATIONS
CONCERNED WITH THE PROMOTION OF INDUSTRIAL
DEVELOPMENT ^{1/}

1. This procedure covers:
 - (a) Functions and terms of reference of an ad hoc Board Committee on applications by international non-governmental organizations for consultative status; (paras. 2 to 6 below)
 - (b) Criteria for granting consultative status to international non-governmental organizations; (para. 7)
 - (c) Form of application and supporting information to be provided by the applicant organization; (paras. 8 to 9)
 - (d) Exercise of consultative status by international non-governmental organizations; (paras. 10 to 11)
 - (e) Suspension or withdrawal of consultative status; (para. 12)

Ad Hoc Board Committee on applications by international non-governmental organizations for consultative status

2. At each session of the Board, an ad hoc Committee composed of the members of the Bureau of the Board and the Executive Director shall review applications for consultative status from non-governmental organizations under Rule 76 of the Rules of Procedure and submit a report to the Board during the same session. The Committee shall ascertain whether the non-governmental organizations in question have an international character, are concerned with promoting industrial development, and can give the Board and/or its subsidiary organs such information or advice as might guide them in the fields in which the respective organizations are competent. A representative of the non-governmental organization in question should be available to the ad hoc Committee for supplying further information if necessary. When an organization has been admitted to consultative status, its participation in the activities of UNIDO shall be confined to questions within its competence.

^{1/} Approved by the Industrial Development Board at its Second Session, Vienna, April-May 1968 and distributed as document ID/B/NGO.1 of 14 June 1968

3. On the basis of the information presented to the Committee in accordance with paragraph 8 below, and in accordance with the criteria for the establishment of relations with non-governmental organizations (para. 7 below), the ad hoc Committee shall communicate to the Board, in sufficient time to enable delegations to obtain instructions, its opinion on applications submitted to the Board at its current session.

4. The Industrial Development Board, after review of the recommendations of the ad hoc Committee, may approve, reject or postpone the application of the non-governmental organization. If an application is approved, the name of the international non-governmental organization will be placed on the list of such organizations as provided in Rule 76 of the Rules of Procedure.

5. The decision of the Board upon the recommendation of the ad hoc Committee to approve, reject or postpone the placing of the name of an international non-governmental organization on the approved list shall be officially communicated to the applying organization.

6. The ad hoc Committee shall be called into session by the President of the Board after consultation with the Executive Director.

Criteria for granting consultative status to international non-governmental organizations

7. A non-governmental organization, to be considered for granting of consultative status with the Industrial Development Board, must meet the following criteria:

- (a) The aims and purposes of the organization must be in conformity with the spirit, purposes and principles of the Charter of the United Nations.
- (b) The organization must be actively concerned with industrial problems falling within the field of competence of UNIDO as defined by General Assembly resolution 2152 (XXI).
- (c) In line with the General Assembly resolution establishing UNIDO (GA res. 2152 (XXI)), the bona fide international character of the organization must be established.
- (d) UNIDO must be able to rely on the co-operation of an organization which is granted consultative status.

- (e) It must be clearly established that the organization concerned is of recognized standing and that a substantial proportion of its members (whether individuals or groups) are actively participating in the industrial field. (Accordingly, any group of organizations which have formed a legally valid merger or association may participate in the activities of UNIDO through a representative authorized to act in the name of all members of the group).
- (f) International organizations which have not been established by an inter-governmental agreement shall be considered as non-governmental organizations within the meaning of Rule 76 of the Rules of Procedure of the Board. An international organization not established by governmental agreement shall be considered a non-governmental organization, even though its membership includes individuals or official bodies designated by governmental authorities, provided such membership does not interfere with free expression of views by the organization.
- (g) It must be clearly established that the organization is not a member of a committee or group of an international organization which has already been included in the list provided for in Rule 76 of the Rules of Procedure.

Form of application and supporting information

- 8. (a) Applications will be addressed to the Executive Director and should be submitted at least four months prior to the next scheduled session of the Industrial Development Board.
 - (b) The Executive Director shall circulate information on organizations seeking consultative status among the members of the Board not less than three months before the opening of the session of the Board at which the question of granting such status is to be considered.
9. In submitting an application in accordance with Rule 76 of the Rules of Procedure of the Board, an organization seeking consultative status must provide the following information:
- (a) A summary history of the organization;
 - (b) A detailed statement of its purposes;
 - (c) The structure of its administration;
 - (d) A detailed statement of its activities, particularly those which would be in support of UNIDO and contribute towards the accomplishment of its tasks;
 - (e) A description of its relations with inter-governmental organizations;
 - (f) A description of its relations with other non-governmental organizations;

- (g) A statement of current financial income and expenditures, including the sources of financing of its activities;
- (h) The full address of its official headquarters and addresses of its regional offices, if any;
- (i) The name of its administrative director or his accredited representative who will maintain liaison with the Executive Director of UNIDO;
- (j) Information which would make clear the international character of its membership;
- (k) An organization whose membership includes individuals or official bodies designated by governmental authorities must submit a list of all such members.

Exercise of consultative status by international non-governmental organizations

10. Once the Industrial Development Board has approved the application of an international non-governmental organization for consultative status, the organization will exercise its consultative status in accordance with the Rules of Procedure as follows:

- (a) For representatives to sit as observers at public meetings of the Board, its committees and subsidiary organs;
- (b) On the invitation of the President, and subject to the approval of the Board or of the subsidiary organ concerned, to make statements on items on the agenda within the scope of their activities;
- (c) To make written statements where possible of not more than 2,000 words related to items on the agenda of the Board and of its subsidiary organs, provided that:
 - (i) The non-governmental organizations should be responsible for any translation of their statements;
 - (ii) No non-governmental organizations should circulate a statement whose substance has been previously circulated to the Board or to its subsidiary organs;
- (d) To propose to the Bureau or the Board that it requests the Executive Director to place items of special interest to the organization on the provisional agenda of the Board.

11. Accredited representatives of the international non-governmental organizations in consultative status must give evidence, in the form of a letter of credence from the Executive Head of the organization concerned to the Secretary of the Industrial Development Board, of their authority to speak in its name.

Suspension or withdrawal of consultative status

12. The Board may suspend the consultative status or possibly withdraw such status from non-governmental organizations which fail to live up to the criteria applied in the establishment of consultative relations.
